SWACHHATA PAKHWADA

Action Plan

1-15 July, 2023

# कार्य-योजना Action Plan

**SWACHHATA PAKHWADA**

**Action Plan**

**1-15 July, 2023**

## Overview

To accelerate the efforts to achieve universal sanitation coverage and to put focus on sanitation, the Prime Minister of India had launched the Swachh Bharat Mission on 2nd October 2014. The mission was implemented as nation-wide campaign/Janandolan which aimed at eliminating open defecation in rural areas during the period 2014 to 2019 through mass scale behavior change, construction of household-owned and community-owned toilets and establishing mechanisms for monitoring toilet construction and usage.

Under the mission, all villages, Gram Panchayats, Districts, States and Union Territories in India declared themselves "open-defecation free" (ODF) by 2 October 2019, the 150th birth anniversary of Mahatma Gandhi, by constructing over 100 million toilets in rural India.

To ensure that the open defecation free behaviours are sustained, no one is left behind, and that solid and liquid waste management facilities are accessible, the Mission is moving towards the next Phase II of SBMG i.e. ODF-Plus. ODF Plus activities under Phase II of Swachh Bharat Mission (Grameen) will reinforce ODF behaviours and focus on providing interventions for safe management of solid and liquid waste in villages.

## Vision

The aim of Swachh Bharat Mission (Gramin) phase II is to ensure the open defecation free behaviours are sustained.

## Objective

- Open defecation free behaviours are sustained and no one is left behind.
- Solid and liquid waste management facilities are accessible and reinforcing ODF behaviours and focus on providing interventions for safe management of solid and liquid waste in villages
- To encourage cost effective and appropriate technologies for ecologically safe and sustainable sanitation.
- To develop, wherever required, community managed sanitation systems focusing on scientific Solid & Liquid Waste Management systems for overall cleanliness in the rural areas.
- To create significant positive impact on gender and promote social inclusion by improving sanitation especially in marginalized communities

## Strategy

The focus of the Strategy is to move towards a 'Swachh Bharat' by providing flexibility to State governments, as sanitation is a State subject, to decide on their implementation policy, use of funds and mechanisms, taking into account State specific requirements. The Government of India's role is essentially to complement the efforts of the State governments through the focused programme being given the status of a Mission, recognizing its dire need for the country.

The key elements of the Strategy include

- Augmenting the institutional capacity of districts for undertaking intensive behaviour change activities at the grassroots level
- Strengthening the capacities of implementing agencies to roll out the programme in a time-bound manner and to measure collective outcomes
- Incentivizing the performance of State-level institutions to implement behavioural change activities in communities

Department of Drinking Water and Sanitation, M/o Jal Shakti (DDWS) is the Nodal Department for Swachhata Pakhwada 2023 and they have released calendar for the year 2023 in respect of all Ministries/Departments.

Accordingly, Ministry of Statistics & Program Implementation is celebrating this Swachhata Pakhwada from 1st July to 15th July, 2023 under 'Swachh Bharat Abhiyan'. Detailed day-wise activities are mentioned on the forthcoming pages.
