

**GOVERNMENT OF INDIA  
MINISTRY OF STATISTICS AND PROGRAMME IMPLEMENTATION  
CENTRAL STATISTICS OFFICE**

New Delhi  
Dated: June 10, 2011

**PRESS NOTE**

**QUICK ESTIMATES OF INDEX OF INDUSTRIAL PRODUCTION AND USE-BASED INDEX FOR THE MONTH OF APRIL, 2011 AND TIME SERIES INDICES FOR THE PERIOD OF APRIL 2005 TO MARCH 2011  
(BASE 2004-05=100)**

The base year of all India Index of Industrial Production (IIP) has been revised by the Central Statistics Office (CSO) of the Ministry of Statistics and Programme Implementation from 1993-94 to 2004-05.

2. With this revised base, the Quick Estimates of IIP (Base: 2004-05=100) for the month of April 2011 have been released by CSO. The General Index for the month of April 2011 stands at 167.8, which is 6.3% higher as compared to the level in the month of April 2010. The annual growth for the period April-March 2010-11 stands at 8.2% over the corresponding period of the previous year.
3. The Indices of Industrial Production for the Mining, Manufacturing and Electricity sectors for the month of April 2011 stand at 129.1, 178.0 and 146.0 respectively, with the corresponding growth rates of 2.2%, 6.9% and 6.4% as compared to April 2010 (Statement I). The annual growth in the three sectors during April-March, 2010-11 over the corresponding period of 2009-10 have been 5.2%, 8.9% and 5.5% respectively, which moved the overall growth in the General Index to 8.2%.
4. In terms of industries, sixteen (16) out of the twenty two (22) industry groups (as per 2-digit NIC-2004) in the manufacturing sector have shown positive growth during the month of April 2011 as compared to the corresponding month of the previous year (Statement II). The industry group 'Office, accounting & computing machinery' has shown the highest growth of 96.5%, followed by 22.9% in 'Motor vehicles, trailers & semi-trailers' and 22.3% in 'Fabricated metal products, except machinery & equipment'. On the other hand, the industry group 'Furniture; manufacturing n.e.c.' has shown a negative growth of 15.0% followed by 13.5% in 'Wood and products of wood & cork except furniture; articles of straw & plating materials'.
5. As per Use-based classification, the growth rates in April 2011 over April 2010 are 7.3% in Basic goods, 14.5% in Capital goods and 3.4% in

Intermediate goods (Statement III). The Consumer durables and Consumer non-durables have recorded growth of 3.8% and 2.1% respectively, with the overall growth in Consumer goods being 2.9%.

6. Some of the important items of capital goods showing high growth during the current month include 'Heat exchangers'(130.9%), 'Computers'(115.2%), 'Sugar machinery'(80.3%), 'Textile machinery'(55.2%), 'Boilers'(51.2%), 'Plastic machinery including moulding machinery'(45.9%) and 'Earth moving machinery'(35.9%).
7. The other important items showing highly positive growth during the month are: 'Linear low density polyethylene' (172.0%), 'Oil, lubricating' (110.3%), 'Leather garments'(55.2%), 'Stainless/ alloy steel' (54.5%), 'Ethylene' (52.0%), 'Sugar'(46.8%), 'Rice'(45.5%), 'Ayurvedic medicaments'(45.5%), 'Molasses' (41.5%), 'Propylene' (34.7%), 'Industrial alcohol(rectified/denatured spirit) '(32.9%), 'Milk powder all kind'(32.1%) and 'Sponge iron' (30.5%).
8. Statements giving Quick Estimates of the Index of Industrial Production at Sectoral, 2-digit level of National Industrial Classification (NIC)-2004 and by Use-based classification for the month of April 2011, along with the growth rates over the corresponding month of previous year, as well as annual indices (for 2009-10 & 2010-11) and their growth rates, are enclosed.
9. Along with the Q.E. of IIP for the month of April 2011, the time series indices for the period of April 2005 to March 2011 pertaining to the new series of IIP with 2004-05 base, both as per Sectoral and Use-based classifications, are also released herewith and are given respectively in Statements IV and V.
10. For comparison and academic purposes, the Q.E. of IIP pertaining to the old series (Base: 1993-94=100) is also made available through this Ministry's website. This practice will be followed for next two months. Since both the series i.e 2004-05 and 1993-94 series of IIP contain two different item baskets and also takes into account different weighting diagrams, the various growth rates computed from these two series are expected to be different. However, since the new series takes into account the item basket as per the more recent production behaviour, this series can be considered to be a much closer reflection of the present industrial scenario.

---

**Note:** -

1. **This Press release information is also available at the Website of the Ministry - <http://www.mospi.gov.in>**
2. **Release of the index for May 2011 will be at 11.00 hours on the Tuesday, 12 July 2011.**
