प्रस्तावना

राष्ट्रीय सांख्यिकीय कार्यालय (एन.एस.ओ.) द्वारा किये जाने वाले शिक्षा से संबंधित पारिवारिक सामाजिक उपभोग पर सर्वेक्षण देश के शिक्षा परिदृश्य, जैसे कि शिक्षा का स्तर, उपस्थिति, छात्रों को मिलने वाले प्रोत्साहन, शिक्षा पर व्यय आदि, पर विभिन्न सूचकों से संबंधित आँकड़ों के प्राथमिक स्रोत हैं। इनका प्रयोग सम्यक निर्णय, नीति निर्धारण और विश्लेषण आदि में किया जाता है ।

राष्ट्रीय सांख्यिकीय कार्यालय (एन.एस.ओ.) ने अपने 75वें दौर (जुलाई 2017 – जून 2018) के सर्वेक्षण के एक भाग के रूप में भारत में "पारिवारिक सामाजिक उपभोग : शिक्षा" पर एक राष्ट्रव्यापी सर्वेक्षण किया। अन्य एन.एस.एस. सर्वेक्षणों की तरह ही, अधिकांश राज्य सरकारों ने 75 वें दौर के सर्वेक्षण कार्यक्रम में राज्य के प्रतिदर्श के बराबर या बड़े मैचिंग प्रतिदर्श आकार के आधार पर सर्वेक्षण कार्यक्रम में भाग लिया। पूर्व के एन.एस.एस. सर्वेक्षण, 35वां दौर (जुलाई 1980 – जून 1981), 42वां दौर (जुलाई 1986 – जून 1987), 52वां दौर (जुलाई 1995 – जून 1996), 64वां दौर (जुलाई 2007 – जून 2008) और 71वां दौर (जनवरी – जून 2014) के दौरान भी इस विषय पर सर्वेक्षण किए गए ।

उपरोक्त सर्वेक्षण के आधार पर एक प्रमुख सूचकांक दस्तावेज एवं इकाई स्तर डाटा, उनके स्रोतों को अनामीकृत करते हुए, गत वर्ष नवंबर महीने में जारी कर दिया गया है। प्रस्तुत नामित रिपोर्ट, *पारिवारिक सामाजिक उपभोग : शिक्षा*, सर्वेक्षण के निष्कर्षों को विस्तार से प्रस्तुत करता है। यह रिपोर्ट आठ अध्याय एवं चार परिशिष्टों में नियोजित है। विस्तृत सारणियों को माइक्रोसॉफ्ट एक्सेल के प्रारूप में प्रस्तुत किया गया है ताकि सुधि पाठक इनका सुविधाजनक इस्तेमाल कर सकें ।

राष्ट्रीय सांख्यिकीय कार्यालय के सर्वेक्षण अभिकल्प एवं अनुसंधान प्रभाग ने सर्वेक्षण संसाधनों को विकसित किया तथा इस प्रमुख सूचकांक दस्तावेज़ को तैयार किया । क्षेत्र कार्य, क्षेत्र संकार्य प्रभाग द्वारा किये गए, जबकि समंक गुणवत्ता आश्वासन प्रभाग द्वारा समंक विधायन एवं सारणीयन का कार्य किया गया। सर्वेक्षण से संबंधित विभिन्न कार्यकलापों का समन्वय कार्य, सर्वेक्षण समन्वय प्रभाग (एस.सी.डी.) द्वारा किया गया।

मैं सर्वेक्षण के विभिन्न चरणों में बहुमूल्य मार्गदर्शन प्रदान करने हेतु राष्ट्रीय प्रतिदर्श सर्वेक्षण के 75वें दौर के कार्य दल एवं राष्ट्रीय सांख्यिकी आयोग (एनएससी) के अध्यक्ष और सदस्यों का अत्यंत आभारी हूँ। मैं इस दस्तावेज़ को तैयार करने में सम्मिलित सभी अधिकारियों के प्रयासों की भी सराहना करता हूं ।

मुझे विश्वास है कि यह दस्तावेज़ योजनाकारों, नीति निर्माताओं, शिक्षाविदों तथा अनुसंधानकर्ताओं के लिए उपयोगी सिद्ध होगा । रिपोर्ट के प्रस्तुतीकरण, विश्लेषण आदि मे सम्बंधित पाठकों के सुझाव आमंत्रित हैं।

(असित कुमार साधु)
महानिदेशक (एन.एस.एस.)
राष्ट्रीय सांख्यिकीय कार्यालय

नई दिल्ली
जुलाई, 2020

Preface

The surveys of social consumption relating to education, conducted by the National Statistical Office (NSO) is the primary source of data for generating various indicators on education like, level of education, attendance, incentives received by the students, expenditure on education, etc. These are used in decision support, policy inferences and analysis.

National Statistical Office (NSO) conducted a nation-wide survey on Household Social Consumption: Education in India as part of its 75th round (July 2017 – June 2018) survey. As in case of other NSS surveys, most of the State Governments participated in the 75th round survey programme on equal or larger matching sample size basis for state sample. The previous rounds of NSO during which the survey on similar subject was taken up, were 35th round (July 1980 – June 1981), 42nd round (July 1986 – June 1987), 52nd round (July 1995 – June 1996), 64th round (July 2007- June 2008) and 71st round (January – June 2014).

The Key Indicators of Household Social Consumption on Education in India, giving the important indicators derived from the survey and the unit level data were released in November 2019 based on the Central sample data collected through Household Social Consumption: Education of NSS 75th round. The present report namely, 'Household Social Consumption on Education in India', presents the survey findings in more detail. The report is organised in eight chapters and four appendices. The details tables have been given in MS Excel format, along with this report, to facilitate users' convenience.

The Survey Design & Research Division (SDRD) of NSO undertook the development of survey methodology and the preparation of this report. The field work was carried out by the Field Operation Division (FOD) while the data processing and tabulation work was done by the Data Quality Assurance Division (DQAD). The Survey Coordination Division (SCD) coordinated various activities pertaining to the survey.

I am highly thankful to the members of the Working Group of NSS 75th round and National Statistical Commission (NSC) for their valuable guidance provided at various stages of the survey. I would also like to appreciate efforts made by the officers of the different Divisions of NSO involved in the preparation of this report.

I hope this report will be useful to planners, policy makers, academicians and researchers. Suggestions for improvement in content, layout and other aspects of this report will be highly appreciated.

New Delhi
July, 2020

(Asit Kumar Sadhu)
Director General (NSS)

विशेषताएं

रा.प्र.स. के 75वें दौर (जुलाई 2017 – जून 2018)"घरेलु सामाजिक उपभोगः शिक्षा" विषय पर सर्वेक्षण किया गया । सम्पूर्ण भारत में 8,097 ग्रामों से 64,519 ग्रामीण परिवारों एवं 6,188 नगरीय खंडों से 49,238 नगरीय परिवारों को प्रतिदर्श के रूप में सर्वेक्षित किया गया ।

सर्वेक्षण से प्राप्त मुख्यबातों को नीचे दर्शाया गया है ।

I परिवारिक रूपरेखा

- अखिल भारतीय स्तर पर औसत परिवार आकार 4.3 था |(ग्रामीण क्षेत्रों में 4.5 एवं नगरीय क्षेत्रों में 3.8 था)
- प्रति परिवार3-35 वर्षीय व्यक्तियों कीऔसत् संख्या 2.4 थी |(2.6 ग्रामीण क्षेत्रों में एवं 2.1नगरीय क्षेत्रों)

(सारणी 4, परिशिष्ट ए)

II साक्षरता दर

- भारत में (7वर्ष एवं उससे अधिक उम्र के व्यक्तियों के लिए) साक्षरता दर 77.7% थी | ग्रामीण क्षेत्रों मेंसाक्षरता दर 73.5% तथानगरीय क्षेत्रों में 87.7%थी ।
- पुरुषों एवं महिलाओं में साक्षरता दर में अन्तर (7वर्ष एवं उससे अधिक उम्र), महिला साक्षरता दर (70.3%)के तुलनापुरूष साक्षरता दर अधिक (84.7%) के रूप में देखा गया ।

(कथन 3.3)

III विभिन्न आयु वर्गों के लिए जनसंख्या का पूर्ण शैक्षणिक स्तर

- शिक्षा के सर्वेच्च पूर्ण स्तर द्वारा 15 वर्षोंएवं उससे अधिक उम्र के ग्रामीण व्यक्तियों का वितरण प्रतिशत् : 31.5%साक्षर नहीं थे, 20.9%प्राथमिक स्तरतक साक्षर थे, 17.2%उच्चप्राथमिक/मध्य, 24.9%माध्यमिकएवं उच्च माध्यमिक एवं 5.7% स्नातक एवं उससे अधिक स्तर तक साक्षर थे ।
- शिक्षा के सर्वेच्च पूर्ण स्तर द्वारा 15 वर्षोंएवं उससे अधिक उम्र के ग्रामीण व्यक्तियों का वितरण प्रतिशत् :13.9% साक्षर नहीं थे,14.7%प्राथमिकतक साक्षर थे, 14.0%उच्चप्राथमिक/ मध्यस्तर के थे, 35.8% माध्यमिक एवं उच्च माध्यमिक स्तर के एवं 21.7% स्नातक एवं उसके उच्च स्तर के थे ।

(कथन 3.4)

IV निकटतम प्राथमिक, उच्चप्राथमिक एवं माध्यमिक विद्यालय तक की दूरी

- ग्रामीण क्षेत्रों में 92.7%परिवार एवं नगरीय क्षेत्रों में 87.2% परिवारों ने घर से 1 कि.मी. की सीमा के अन्दरप्राथमिकविद्यालय की उपलब्धता दर्ज करवायी ।
- करीब 68% ग्रामीण परिवारों एवं 80% नगरीय परिवारों ने अपने घर से 1 कि.मी. की सीमाके अन्दरउच्चप्राथमिकविद्यालयोंकी उपलब्धता दर्ज करवायी, जबकि करीब 38% ग्रामीण परिवारों ने करीब 70% नगरीय परिवारों के तुलनामेंइतनी ही दूरी पर स्थित माध्यमिक विद्यालयोंकी उपलब्धता दर्ज करवायी ।

(कथन 3.2)

V 3-35 वर्षीय आयु वर्ग में व्यक्तियों का उपस्थिति स्तर

- 3-35 वर्ष के आयु- वर्ग में ग्रामीण क्षेत्रों में 46.1%पुरुषों एवं 40.7%महिलाएं वर्तमान में शैक्षणिक संस्थानों में उपस्थित थे।
- नगरीय क्षेत्रों में ये प्रतिशत पुरुषों एवं महिलाओं के लिए क्रमशः 46.7%एवं 42.6% थे।

(कथन 3.9)

VI उपस्थिति अनुपात

- ग्रामीण एवं नगरीय क्षेत्रों में पुरुषों एवं महिलाओं, दोनों के लिए प्राथमिक स्तर पर सकल उपस्थिति अनुपात (जी.ए.आर.) करीब 100% था ।
- जी.ए.आर उच्चप्राथमिक स्तर पर पुरूषों के लिए 94.7% (94.8% ग्रामीण एवं 94.3% नगरीय में) एवं महिलाओं के लिए 94.1%(ग्रामीण में 94.2%एवं 93.8% नगरीय में)था।
- माध्यमिक स्तर पर जी.ए.आर पुरूषों के लिए 87.4% (85.2% ग्रामीण में एवं 93.8% नगरीय क्षेत्रों में) एवं 85.1% महिलाओं के लिए था (93.7% नगरीय क्षेत्रों कीतुलना मेंग्रामीण क्षेत्रों में 82.3%) |
- भारत में प्राथमिक स्तर पर कुल उपस्थिति अनुपात (एन.ए.आर) पुरूषों के लिए 86.8% था (86.6% ग्रामीण में एवं 87.7% नगरीय में) एवं महिलाओं के लिए 85.1% था (84.8% ग्रामीण में एवं 86.2% नगरीय में) था ।
- उच्च प्राथमिक स्तर एन.ए.आरपुरूषों के लिए 72.5% था। (72.1.5% ग्रामीण क्षेत्रों में नगरीय क्षेत्रों के 73.5%) और 71.8% महिलाओं के लिए, (75.0%नगरीय क्षेत्रों की तुलना में ग्रामीण क्षेत्रों में 70.7%) था ।
- माध्यमिक स्तर पर एन.ए.आर पुरूषों के लिए 57.9% (56.6% ग्रामीण में एवं 61.5% नगरीय में) एंव महिलाओं के लिए 57.3%था | (नगरीय क्षेत्रों के 63.7%कीतुलना में ग्रामीण में 55.2%)
- 18-23 वर्ष के आयु वर्ग के लिए आयु-विशिष्ट उपस्थिति अनुपात पुरूषों एवं महिलाओं के लिए क्रमशः 32.6% एवं 24.6% था ।

(कथन 4.3, 4.5 एवं3.12)

VII शिक्षा के प्रकार के अनुसार छात्रों[1] कीवर्तमान उपस्थिति

- 96.1% छात्र सामान्य शिक्षा में थे एवं शेष तकनीकी/व्यवसायिक शिक्षा ग्रहण कर रहे थे ।
- महिला छात्राओं के प्रतिशत जो कि सामान्य शिक्षा के अनुसरण में थी 96.9% (98.3% ग्रामीण में एवं 93.7% नगरीय में), जो कि समतर पुरूष प्रतिशत से कुछ अधिक 95.5% थी (97.1% ग्रामीण एवं 91.7% नगरीय में)|

(कथन 4.9)

[1] 3-35 वर्षकेउम्रसमूहकेविद्यार्थीव्यक्तिहैंऔरवर्तमानमेंप्राथमिकएवंउससेउच्चस्तरोंकेपाठ्यक्रममेंउपस्थितहोरहेहै

VIII पाठ्यक्रम के प्रकार के अनुसार उपस्थिति

- कक्षा **X** के उपर सामान्य शिक्षा प्राप्त कर रहे53.9% महिला छात्राओं के तुलना में, 46.4%पुरूष छात्र मानवशास्त्र का अनुसरण कर रहे थे, 34.4% पुरूष छात्र 28.2% महिला छात्राओं की तुलना में विज्ञान की पढ़ाई कर रहे थे, 19.2% पुरूष छात्र 17.8% महिला छात्राओं कीतुलना वाणिज्य की पढ़ाई कर रहे थे ।

(कथन 4.10)

- पुरूष छात्रों में जो कि तकनीकी/व्यवसायिक शिक्षा का अनुसरण कर रहे थे, उनमें से28.2% महिला छात्राओं के तुलना में41.6%इंजीनीयरिंग का अनुसरण कर रहे थे एवं 4.9**%**पुरूष छात्र 13.8**%**महिला छात्राओं के तुलना मेंचिकित्सा शास्त्र(जिसमें नर्सिंग भी सामिल थी) की शिक्षा ग्रहण कर रहे थे ।

(कथन 4.11)

IX संस्था के प्रकार

- ग्रामीण क्षेत्रों में 44.2%छात्र पूर्व-प्राथमिक स्तर पर, 73.7**%**प्राथमिक स्तर पर, 76.1**%**उच्चप्राथमिक/मध्य स्तर पर, 68.0**%**माध्यमिक एवं उच्च माध्यमिक स्तर पर एवं 49.7**%**स्नातक एवं उच्च स्तर के सरकारी संस्थानों में शिक्षा ग्रहण कर रहे थे, जबकि नगरीय क्षेत्रों में, 13.9**%**पूर्व-प्राथमिक स्तर पर, 30.9**%**प्राथमिक स्तर पर, 38.0**%**उच्चप्राथमिक स्तर पर, एवं 38.9**%**माध्यमिक एवं उच्च माध्यमिक स्तर पर एवं 41.0**%**स्नातक एवं उससे उच्च स्तरों के सरकारी संस्थानों में भाग ले रहे थे ।

(कथन 4.14 (R) और 4.14 (U))

X मुफ्त शिक्षा प्राप्त करने वालेछात्र

- पूर्व-प्राथमिक स्तर पर करीब 33%छात्र (करीब 44**%**ग्रामीण क्षेत्रों में एवं 14**%**नगरीय क्षेत्रों में) भारत में मुफ्त की शिक्षा प्राप्त कर रहे थे ।
- प्राथमिक स्तर पर, छात्र जो मुफ्त की शिक्षा प्राप्त कर रहे थे का अनुपात 62**%**या (करीब 72**%** छात्र ग्रामीण क्षेत्रों में एवं 31**%**नगरीय क्षेत्रों में) ।
- उच्चप्राथमिक/मध्य स्तर पर, 72**%** छात्र ग्रामीण क्षेत्रों से एवं 36**%** नगरीय क्षेत्रों से मुफ्त की शिक्षा प्राप्त कर रहे थे ।
- माध्यमिक स्तर पर, उन छात्रों के अनुपात जो कि मुफ्त की शिक्षा प्राप्त कर रहे थे 46**%** ग्रामीण क्षेत्रों में एवं 25**%** नगरीय क्षेत्रों में था। अनुपात उच्च-माध्यमिक स्तर पर ग्रामीण एवं नगरीय दोनों क्षेत्रों में क्रमशः 26**%**एवं 14**%** था ।
- 77**%** छात्र जो कि सरकारी संस्थानों में पढ़ रहे थे मुफ्त शिक्षा प्राप्त कर रहे थे (करीब 81**%**ग्रामीण क्षेत्रों में एवं 62**%** नगरीय क्षेत्रों में) |
- उन छात्रों का प्रतिशत् जो गैर सहायता प्राप्त नीजीसंस्थानों में पढ़ रहे थे एवं मुफ्त शिक्षा ग्रहण कर रहे थे करीब 2**%**ग्रामीण क्षेत्रों में एवं नगरीय क्षेत्रों में 1**%** था ।

(कथन4.19 और 4.20)

XI विविध प्रोत्साहन् प्राप्त छात्र

- अखिल भरतीय स्तर पर करीब 14%छात्रऔपचारिक शिक्षा में उपस्थित हुए और वर्तमान उपस्थिति के विभिन्न स्तर के लिए छात्र-वृत्ति/स्टाईपेंड/प्रतिपूर्ति पाप्त की । ये अनुपात करीब 16**%** ग्रामीण क्षेत्रों में एवं 9**%**नगरीय क्षेत्रों में था ।

(कथन 4.21)

- करीब 19%सरकारी संस्थानों में औपचारिक शिक्षा प्राप्त कर रहेछात्रोंथे जिन्होंने छात्र-वृत्ति/स्टाईपेंड/प्रतिपूर्ति प्राप्त की,विद्यार्थियों में करीब 11% निजी सहायता प्राप्तसंस्थानों में एवं 5%निजी गैर सहायता प्राप्तसंस्थानों में शिक्षा प्राप्त कर रहे थे ।

(कथन 4.22)

- अखिल भारतीय स्तर पर करीब 45% छात्रोपूर्व-प्राथमिक एवं उसके उच्चस्तर की शिक्षा प्राप्त कर रहे थे, को मुफ्त सहायता प्राप्त पाठ्य पुस्तके प्राप्त हुई । (54% ग्रामीण क्षेत्रों में एवं 24% नगरीय क्षेत्रों में)

(कथन 4.23)

- पूर्व-प्राथमिक एवं उससे उच्चस्तर की शिक्षा जो छात्र प्राप्त कर रहे थे उनको मुफ्त सहायता प्राप्त पढ़ने-लिखने का सामान मिल रहा था, जिसकी संख्या ग्रामीण क्षेत्रों में 10% एवं नगरीय क्षेत्रों में 7% थी ।

(कथन 4.25)

- सरकारी संस्थानों में पढ़ रहे प्राथमिक स्तर पर करीब 96%विद्यार्थियोंकोमुफ्त मिड-डे मील/टिफिन/पोषण आदि प्राप्त हुआ । यह भाग करीब 17% उन छात्रों में जो निजी सहायता प्राप्तसंस्थानों में थे एवं 2%उन छात्रों का था जो निजी गेर सहायता प्राप्त संस्थाओँ में पढ़ रहे थे ।

(कथन 4.27(RU))

XII नीजीकोचिंग

- भारत मेंपूर्व-प्राथमिक एवं उससे उच्च स्तर की शिक्षा प्राप्त कर रहे करीब 20% छात्र (21% पुरूष एवं 19% महिलाए) नीजी कोचिंग ले रहे थे ।

(कथन 4.30)

- माध्यमिक स्तर पर नीजी कोचिंग लेने की घटनाअधिकतम थी । (31% पुरूष छात्र एवं 29% महिला छात्राएं)।

(कथन 4.30)

XIII शिक्षा पर नीजी व्यय

- वर्तमान शैक्षणिक सत्र के दौरान मूलपाठ्यक्रम के लिए प्रति छात्र औसतन् व्यय (रू.)करीब रु8,331सामान्यपाठ्यक्रम के लिए था, रु50,307तकनीकी/व्यवसायिकपाठ्यक्रम का था।

(कथन 4.32)

सामान्य पाठ्यक्रम	पूर्व-प्राथमिक	-रु.8,997 (ग्रामीण-रु.5,655, नगरीय-रु.14,509)
	प्राथमिक	-रु.6,024 (ग्रामीण-रु.3,545, नगरीय-रु.13,516)
	उच्चप्राथमिक	-रु.6,866 (ग्रामीण-रु.3,953, नगरीय-रु.15,337)
	माध्यमिक	-रु.9,013 (ग्रामीण-रु.5,856, नगरीय-रु.17,518)
	उच्च माध्यमिक	-रु.13,847 (ग्रामीण-रु.9,148, नगरीय-रु.23,832)
	स्नातक	-रु.14,264 (ग्रामीण-रु.11,845, नगरीय-रु.18,485)
	स्नाकोत्तर	-रु.18,110 (ग्रामीण-रु.15,827, नगरीय-रु.20,443)

(कथन 4.36)

▪ तकनीकी/ व्यवसयिकपाठ्य क्रम	स्नातक के नीचे (डिपलोमा/प्रमाण पत्र) छोड़कर	-रु.12,274	(ग्रामीण-रु.8,071,नगरीय-रु.21,799)
	डिपलोमा/प्रमाण पत्र (स्नातक स्तर के नीचे)	-रु.26,540	(ग्रामीण-रु.22,598,नगरीय-रु.32,880)
	डिपलोमा/प्रमाण पत्र (स्नातक एवं उससे उच्च स्नातक)	-रु.64,379	(ग्रामीण-रु.39,701,नगरीय-रु.81,300)
	स्नातक	-रु.63,495	(ग्रामीण-रु.43,872,नगरीय-रु.72,992)
	स्नाकोत्तर एवं उच्च	-रु.66,824	(ग्रामीण-रु.50,512,नगरीय-रु.74,068)

(कथन 4.37)

- वर्तमान शैक्षणिक सत्र में, सामान्य पाठ्यक्रम कर रहें प्रति विद्यार्थी औसत व्यय:
    - नीजी गैर सहायता प्राप्त संस्थानों में रु.12,834की तुलना में पूर्व-प्राथमिक स्तर पर सरकारी संस्थानों में रु.1,030था|
    - नीजी सहायता प्राप्त संस्थानों में रु.14,485की तुलना में प्राथमिक स्तर पर सरकारी संस्थानों में रु.1,253था ।
    - उच्चप्राथमिक स्तर पर, औसतन व्यय रु.2,181सरकारी में था जबकि निजी गैर सहायता प्राप्त में रू.17,360 था ।
    - माध्यमिक स्तर पर, औसतन व्यय सरकारी संस्थानों में रु.4,078एवं नीजी गैर सहायता प्राप्तसंस्थानों में रु. 20,804था ।
    - सरकारी संस्थानों में उच्च-माध्यमिक स्तर पर रु.7,001था, नीजी गैर सहायता प्राप्तसंस्थानों में रु.25,852था ।

(कथन 4.38)

- चिकित्सां शास्त्रअध्ययन के लिए, वर्तमान शैक्षणिक सत्र में औसतन व्यय सरकारी संस्थानों में रु.31,309 था, रु.1,01,154 नीजी सहायताप्राप्त एवं 94,658 नीजी गैर सहायता प्राप्तसंस्थानों में था । इंजीनीयरिंग पाठ्यक्रम के लिए, सरकारी, नीजी सहायता प्राप्त एवं नीजी गैर सहायता प्राप्त संस्थानों के लिए क्रमशः यह व्यय रु.39,165, रु.66,272 एवं रु.69,155 था।

(कथन 4.41)

- पाठ्यक्रम शुल्क पर व्यय का करीब 51% सामान्य शिक्षा के लिये और व्यय का 76%तकनीकी शिक्षा के लिए था।

(कथन 4.33 और 4.34)

- उन छात्रों के लिए जो सामान्य शिक्षा का अनुसरण कर रहे थे, 12%नीजी कोचिंग पर खर्च हुआ जबकि 2% छात्र तकनीकी/वृत्तिक शिक्षा प्राप्त कर रहे (व्यवसायिक भी) छात्रों के लिए खर्च हुआ।

(कथन 4.33 और 4.34)

XIV व्यक्ति जो वर्तमान में शिक्षा में भाग नहीं ले रहे हैं

- हमेशा नामांकित 3-35 वर्ष उम्र के व्यक्तियों में करीब 41% पुरूष एवं 40% महिलाए ग्रामीण क्षेत्रों में वर्तमान में शिक्षा का लाभ नहीं पा रहे थे । यह अनुपात नगरीय क्षेत्र में करीब 46% पुरूषों के लिए एवं 48% महिलाओं के लिए था ।

(कथन 5.1)

- भारत में 3-35 वर्ष के आयु वर्ग के व्यक्तियों के प्रतिशत् जिन्होंने पढ़ाई छोड़ दिया, नगरीय क्षेत्रों में करीब 10% एवं ग्रामीण क्षेत्रों में करीब 14% था ।

(कथन5.6)

- भारत में, ग्रामीण क्षेत्रों में 3-35 वर्ष उम्र के करीब 13% पुरूष एवं 19% महिलाएं एवं 7%पुरूषों में एवं 10% महिलाओं में जिनकी आयु 3-35 वर्ष थी नगरीय क्षेत्रों में कभी भी किसी भी शैक्षणिक संस्थानों में अपना नामांकन नहीं करवाया ।

(कथन 5.3)

- पुरूषों के लिए जो कि 3-35 आयु वर्ग के थे जो हमेशा नामांकित थे लेकिन वर्तमान में शिक्षा का लाभ नहीं ग्रहण कर रहे थे, आर्थिक क्रियाकलापों में व्यस्तता वर्तमान में शिक्षा में भाग नहीं लेने का सबसे सामान्य मुख्य कारण था, (35% ग्रामीण क्षेत्रों में एवं 42% नगरीय क्षेत्रों में) जबकि उसी आयु वर्ग के महिलाओं के लिए, मुख्य कारण घरेलू क्रिया कलापों में व्यस्तता थी (32% ग्रामीण क्षेत्रों में एवं 27% नगरीय क्षेत्रों में ।)

(कथन 5.4)

- ग्रामीण क्षेत्रों में उन व्यक्तियों के लिए जिनकी आयु 3-35 वर्ष की थी कभी-भी नामांकन नहीं कराने का मुख्य कारण था कि वे 'शिक्षा में रुचि नहीं रखते थे' (20% पुरूष एवं 21% महिला) जबकि नगरीय क्षेत्रों में, करीब 19% पुरूष एवं 17% महिलाएं 3-35 वर्ष के आयु वर्ग में 'वित्तीय प्रतिबंध'के चलते नामांकन नहीं करवाया ।

(कथन 5.5)

XV परिवार केभूतपूर्व सदस्य जो वर्तमान में शिक्षा का लाभ प्राप्त कर रहे है

- अखिल-भारतीय स्तर पर, 1.7% परिवारों ने 3-35 वर्ष के उम्र समुहों के भूतपूर्व सदस्यों केबारे में रिपोर्ट किया कि वर्तमान में वे शिक्षा प्राप्त कर रहे हैं । यह अनुपात ग्रामीण क्षेत्रों में 1.9% था एवं नगरीय क्षेत्रों में 1.2% था ।

(कथन 6.1)

- करीब 88% ग्रामीण परिवारों एवं 90%नगरीय परिवारों ने 3-35 वर्षों के उम्रसमूह के बारे में रिपोर्ट किया जो वर्तमान में शिक्षा प्राप्त कर रहे हैं, और उन भूतपूर्व सदस्यों पर खर्च हो रहा है।

(कथन 6.1)

- औसतन व्यय (रु.) जो कि खर्च हुआ/होने वाला है, (शिक्षा पर या फिर किसी अन्य व्यय पर) भूतपूर्व सदस्यों पर प्रति परिवार रिपोर्टिंग व्यय रु.41,079 ग्रामीण क्षेत्रों में एवं 1,00,693 नगरीय क्षेत्रों पर था ।

(कथन 6.1)

XVI कम्प्यूटर एवं इंटरनेट की उपलब्धता

- करीब 4%ग्रामीण परिवारों एवं 23% नगरीय परिवार के पास कम्प्यूटर था ।

(कथन 7.1)

- सर्वेक्षण वर्ष, 2017-18 में देश के करीब 24%परिवारों का इंटरनेट तक पहुंच थी । यह अनुपात 15% ग्रामीण परिवारों के बीच एवं 42%नगरीय परिवारों के बीच थी ।

(कथन 7.1)

- 15-29 वर्ष के व्यक्तियों में करीब 24**%** ग्रामीण क्षेत्रों में एवं 56**%** नगरीय क्षेत्रों में कम्प्यूटर चलाने मेंसक्षम थे ।

(कथन 7.4)

- करीब 35**%** व्यक्तियों की जिनकी आयु 15-29 वर्ष थी सर्वेक्षण की तारीख से पहले 30 दिनों के दौरान इंटरनेट के प्रयोग की रिपोर्ट दर्ज करवायी । यह अनुपात करीब 25**%** ग्रामीण क्षेत्रों में एवं 58**%** नगरीय क्षेत्रों में थी ।

(कथन 7.6)

Highlights

A survey on 'Household Social Consumption: Education' was conducted in NSS 75thround (July 2017-June 2018).A sample of 64,519 rural households from 8,097 villages and 49,238 urban households from 6,188 blocks was surveyed all over India.

Highlights of the findings of the survey are given below:

I. Household profile

- At all-India level average household size was 4.3 with 4.5 in rural areas and 3.8 in urban areas.
- Average no. of persons aged 3-35years per household was 2.4 (2.6 in rural and 2.1 in urban areas).

[Table4, Appendix A]

II. Literacy rates

- Literacy rate among persons (aged7 years and above) in India was about 77.7%. In rural areas, literacy rate was 73.5% compared to 87.7% in urban areas.
- Difference in literacy rate among males and females (aged7 years and above) was observed with male literacy rate higher (84.7%) than female literacy rate (70.3%).

[Statement 3.3]

III. Completed educational level of population for different age-groups

- Percentage distribution of rural persons of ages 15 years & above by highest completed levels of education: 31.5% were not literate, 20.9% were literates up to primary, 17.2% were of level upper primary/middle, 24.9% were of levels secondary and higher secondary and 5.7% were graduate& above.
- Percentage distribution of urban persons of age 15 years & above by highest completed level of education:13.9% were not literate, 14.7% were literates up to primary, 14.0% were of level upper primary/middle, 35.8% were of level secondary and higher secondary and 21.7% were graduate& above.

[Statement 3.4]

IV. Distance to nearest primary, upper primary and secondary school

- In rural areas 92.7% of households and in urban areas, 87.2% of households reported availability of primary school within 1 km from the house.
- Nearly 68% of rural households and 80% of urban households reported upper primary schools within 1 km from the house while onlyabout 38% of rural households compared to around 70% of urban households reported secondary schools within such a distance.

[Statement 3.2]

V. Attendance status of persons in age-group 3-35 years

- In rural areas 46.1% of males and 40.7% of females in the 3-35years age-group were currently attending educational institution.
- In urban areas these percentages were 46.7% and 42.6% respectively for males and females.

[Statement 3.9]

VI. Attendance ratios

- Gross Attendance Ratio (GAR)at primary level was nearly 100% for both males and females in rural and urban areas.
- GARs at upper primary level were 94.7% for males (94.8% in rural and 94.3% in urban) and 94.1% for females (94.2% in rural and 93.8% in urban).
- At secondary level, GAR were 87.4% for males (85.2% in ruraland 93.8% in urban areas) and 85.1% for females (82.3% in rural areas compared to 93.7% in urban areas).
- Net Attendance Ratios (NAR) in India at primary level were 86.8% for males(86.6% in rural and 87.7% in urban) and 85.1% forfemales(84.8% in rural and 86.2% in urban).
- NARs at upper primary level for males were 72.5% (72.1.5% in rural areas compared to 73.5% in urban areasand 71.8% for females (70.7% in rural areas compared to 75.0% in urban areas.
- At secondary level NARs were 57.9% for males (56.6% in rural and 61.5% in urban) and 57.3% for females (55.2% in rural compared to 63.7% in urban areas).
- Age-specific Attendance Ratios in the age-group 18-23 years for males and females were respectively 32.6% and 24.6%.

[Statements 4.3, 4.5 and 3.12]

VII. Current attendance of students[1] by type of education

- 96.1% of students were in general education and remaining were in technical/professional education.
- Percentages of female students pursuing general education was 96.9% (98.3% in rural and 93.7% in urban areas), slightly more than corresponding male percentages of 95.5% (97.1% in rural and 91.7% in urban).

[Statement 4.9]

VIII. Attendance by type of courses

- Among the male students pursuing general education above class X, 46.4% were pursuing humanities compared to 53.9% of the female students, 34.4% of the male students were pursuing science compared to 28.2% female students and 19.2% of the male students were pursuing commerce compared to 17.8% of female students.

[Statement 4.10]

[1] *Students are persons in the age-group 3-35 years and currently attending any course at primary & above levels*

- Among the male students pursuing technical/professional education, 41.6% were pursuing engineering compared to 28.2% among the female students and 4.9% of the male students were pursuing medicine (which includes nursing) compared to 13.8% of the female students.

[Statement4.11]

IX. Type of institution

- In rural areas, 44.2% of the students at pre-primary level, 73.7% at primary level, 76.1% at upper primary/middle level, 68.0% at secondary & higher secondary level and 49.7% at graduate and above level attended Government institutions, while in urban areas, 13.9% at pre-primary level, 30.9% at primary level, 38.0% at upper primary level, 38.9% at secondary& higher secondary levelsand 41.0% at graduate and above levels attended Government institutions.

[Statements 4.14(R) and 4.14(U)]

X. Students receiving free education

- At pre-primary level nearly 33% students (around 44% in rural areas and 14% in urban areas) were getting free education in India.
- At primary level, the proportion of students receiving free education was 62% (nearly 72% in rural areas and 31% in urban areas).
- At upper primary/middle level, 72% of students from rural areas and 36% from urban areas were getting free education.
- In secondary level, the proportion of students receiving free education was 46% in rural areas and 25% in urban areas. The proportion was 26% and 14% at higher secondary level respectively in rural and urban areas.
- 77% of the students studying in Government institutions were receiving free education (nearly 81% in rural areas and 62% in urban areas).
- Percentage of students studying in private unaided institutions and receiving free education wasnearly 2% in rural areas and 1% in urban areas.

[Statements 4.19 and 4.20]

XI. Students received various Incentives

- At all-India level nearly 14% students attending formal education received scholarship/stipend/reimbursement for different level of current attendance. The proportion was about 16% in rural areas and 9% in urban areas.

[Statement 4.21]

- Percentage of students who received scholarship/stipend/reimbursement was about 19% among the students attending formal education in Government institutions,nearly 11% among those attending private aided institutions and, about 5% for students in private unaided institutions.

[Statement 4.22]

- At all-India level nearly 45% students attending pre-primary and above level received free/subsidised text books (54% in rural areas and 24% in urban areas).

[Statement 4.23]

- The percentage of students attending pre-primary and above level received free/subsidised stationery was nearly 10% in rural areas and 7% in urban areas.

[Statement 4.25]

- At primary level nearly 96% of students attending government institutions received free mid-day meal/tiffin/nutrition. The share was nearly 17% among students attending private aided institutions and 2% for students attending private unaided institutions.

[Statement 4.27(RU)]

XII. Private coaching

- Nearly 20% of students attending pre-primary and above level (21% of males and 19% of females) were taking private coaching in India.

[Statement 4.30]

- Incidence of taking private coaching was maximum at secondary level. (31% of male students and 29% of female students)

[Statement 4.30]

XIII. Household expenditure on education

- Average expenditure (Rs.)per student incurred during the ***current academic session***for basic course was nearly Rs.8,331 for general courses, Rs.50,307 for technical/professional courses.

[Statement 4.32]

■ General Courses:	pre-primary	-	Rs.8,997 (rural- Rs.5,655, urban- Rs.14,509)
	primary		Rs.6,024 (rural- Rs.3,545, urban- Rs.13,516)
	upper primary	-	Rs.6,866 (rural- Rs.3,953, urban- Rs.15,337)
	secondary	-	Rs.9,013 (rural- Rs.5,856, urban- Rs.17,518)
	higher secondary	-	Rs.13,845 (rural- Rs.9,148, urban- Rs.23,832)
	graduate	-	Rs.14,264 (rural- Rs.11,845, urban- Rs.18,485)
	post graduate & above	-	Rs.18,110 (rural- Rs.15,827, urban- Rs.20,443)

[Statement 4.36]

■ Technical/ professional Courses:	below graduate (excluding diploma/ certificate	Rs.12,274 (rural- Rs.8,071, urban- Rs.21,799)
	diploma/ certificate (below graduate level)	Rs.26,540 (rural- Rs.22,598, urban- Rs.32,880)
	diploma/ certificate (graduate and above level)	Rs.64,379 (rural- Rs.39,701, urban- Rs.81,300)
	graduate	Rs.63,495 (rural- Rs.43,872, urban- Rs.72,992)
	post graduate & above	Rs.66,824 (rural- Rs.50,512, urban- Rs.74,068)

[Statement 4.37]

- Average expenditure per student in current academic session,pursuing general courses
    - atpre-primary level was Rs.1,030 in government institutions compared to Rs.12,834 in private unaided institutions.
    - at primary level was Rs.1,253 in government institutions compared to Rs.14,485 in private unaided institutions.
    - at upper primary level, average expenditure varied from Rs.2,181 in government to Rs.17,360 in private unaided institutions.
    - at secondary level, average expenditure in government institutions was Rs.4,078againstRs.20,804 in private unaided institutions.
    - for level higher secondary expenditure in government institutions was Rs.7,001 against Rs.25,852 in private unaided institutions.

[Statement 4.38]

- Average expenditure in the current academic session for studying medicine in was Rs.31,309 in government institutions, Rs.1,01,154 in private aided and 94,658 in private unaided institutions. For engineering course, the expenditures wereRs. 39,165, Rs. 66,272 and Rs.69,155 in government, private aided and private unaided institutions respectively.

[Statement 4.41]

- Nearly 51% of the expenditure for general education and 76% of the expenditure for technical education were on course fees.

[Statements 4.33 and 4.34]

- For students pursuing general education, 12% was spent on private coaching as against 2% for students pursuing technical/professional education (including vocational).

[Statements 4.33 and 4.34]

XIV. Persons currently not attending education

- Among the ever enrolled persons of age 3-35 years, nearly 41% of males and 40% of females were not currently attending education in rural areas. The proportion was nearly 46% for male and 48% for female in urban areas.

[Statement 5.1]

- In India, percentages of persons in the age group of 3-35 years dropping out of studies were nearly 14% in rural areas and 10% in urban areas.

[Statement 5.6]

- In India, nearly 13% of male and 19% females of aged3-35 years in rural areas and 7% among males and 10% among females of aged 3-35 years in urban areas never enrolled in any educational institution.

[Statement 5.3]

- For the males of age 3-35 years who ever enrolled but currently not attending education, engagement in economic activities was the most common major reason for currently not attending education (35% in rural areas and 42% in urban areas), whereas for the females in the same age-group, the major reason was engagement in domestic activities (32% in rural areas and 27% in urban areas).

[Statement 5.4]

- In rural areas the major reason for never-enrolment for persons of ages3-35 years was 'not interested in education' (20% male and 21% female) while in urban areas, nearly 19% males and 17% females in the age group of 3-35 years never enrolled because of 'financial contraints'.

[Statement 5.5]

XV. Erstwhile members of the households who are currently attending education

- At all-India level, 1.7% of the households reported having erstwhile members in the age group of 3-35 years currently attending education. The proportion was 1.9% in rural areas and 1.2% in urban areas.

[Statement 6.1]

- Nearly 88% of rural households and 90% of the urban households that reported having erstwhile members in the age group of 3-35 years currently attending educationreported incurring expenditure on the erstwhile member(s).

[Statement 6.1]

- Average expenditure (Rs.) incurred/to be incurred (on education as well as any other expenditure) on erstwhile member per household reporting expenditure on erstwhile member was Rs.41,079 in rural areas and Rs.1,00,693 was in urban areas.

[Statement 6.1]

XVI. Access to computer and internet

- Nearly 4% of rural households and 23% of urban household possessed computer.

[Statement 7.1]

- Nearly 24%of the households in the country had internet access in the survey year, 2017-18. The proportions were 15% among rural households and 42% among urban households.

[Statement 7.1]

- Among persons of age 15-29 years, nearly 24% in rural areas and 56% in urban areas were able to operate a computer.

[Statement 7.4]

- Nearly 35% of persons of age 15-29 years reported use of internet during the 30 days prior to the date of survey. The proportions were, nearly 25% in rural areas and 58% in urban areas.

[Statement 7.6]

Chapter One

Introduction

Chapter One

Introduction

1.1Background

1.1.1 The first all-India survey on social consumption was conducted by National Statistical Office (NSO) in its 35th round (July1980 - June 1981). The main objective of the survey was essentially to make an assessment of the benefits derived by various sections of the society from public expenditure such as health services (including mass immunisation and family welfare programmes), educational services**,** public distribution system, etc. Subsequently, the subject of social consumption was covered in 42nd round (July 1986 - June 1987), 52nd round (July 1995 - June 1996), 64th round (July 2007- June 2008) and 71st round (January 2014- June 2014).

NSO, in its 75th round, conducted survey on *Household Social Consumption: Education* during 1st July 2017 to 30th June 2018.

1.2 Objective of the Survey

1.2.1The main objective of NSS 75th round (July 2017- June 2018) survey on *Household Social Consumption: Education* was to build indicators on participation of the persons of age 3 to 35 years in the education system, expenditure incurred on education of the household members and various indicators of those currently not attending education (i.e., for the persons who never enrolled or ever enrolled but currently not attending education). Besides, for persons of age 5 years and above, information was collected on ability to operate computer, ability to use internet and use of internet during last 30 days.In addition to this, particulars of current attendance and related expenditure in respect of the erstwhile members of age 3 to 35 years of the households were also collected.

This survey covered both qualitative and quantitative aspects related to educational attainment of the household members and educational services used by them. Qualitative aspects included literacy, educational level attained, type of institution, nature of institution, current attendance/enrolment, free education, reason for never enrolled/ever enrolled but currently not attending, etc. On quantitative aspects, information was collected on expenditure incurred on education of the household membersby the household itself, by other households or by any institutions/organizations other than Government.

1.3 Broad coverage of information collected in the Survey on *Household Social Consumption: Education*

1.3.1 The schedule of enquiry on *Household Social Consumption: Education* (Schedule 25.2) in NSS 75th round (July 2017- June 2018)broadly covered the following items of information:

(i) Household characteristics, including whether the household has a computer, whether the household has internet facility, etc.

(ii) Demographic particulars of the household members, including highest level of education completed, status of enrolment, etc.

(iii) Information relating to ability to operate computer, ability to use internet and use of internet by persons of age 5 years and above.

(iv) Level of current enrolment in basic course for persons of age 3 to 35 years.

(v)Education particulars on basic course of the persons of age 3 to 35 years who are currently attending education.

(vi) Particulars of expenditure on education, source of finance for persons of age 3 to 35 years who are currently attending at pre-primary or above level.

(vii) Particulars of currently not attending persons of age 3 to 35 years.

(viii) Vocational/technical training and particulars of formal vocational/technical training received by household members of age 12 to 59 years.

(ix) Details of erstwhile household members of age 3 to 35 years who are currently attending education.

1.4Features of NSS 75th round (July 2017- June 2018) survey on *Household Social Consumption: Education*

1.4.1Considering demand of the users and usefulness of the survey results, the Working Group of 75th round introduced some new features in the schedule *Household Social Consumption: Educationvis-à-vis* the previous survey on this topic. Important features of the survey on *Household Social Consumption: Education*are given below:

a. *Age group for collection of information on different aspects like enrolment, attendance:* In NSS 75th round, for collection of information on current enrolment/ attendance, education particulars of basic course and expenditure on education, persons of age 3 to 35 years were considered.

b. *Details of erstwhile household members of age 3 to 35 years currently attending education:*In NSS 75th round, details of erstwhile household members of age 3 to 35 years currently attending education were collected. These included *present place of residence of the erstwhile household member*, *level of current enrolment, amount of expenditure incurred by the household for such erstwhile household members*, etc.

c. *Years in formal education:* To obtain the number of years in formal education information on class/grade/year completed was collected in NSS 75th round.

d. *Vocational/technical training:* In NSS 75th round, for persons of age 12 to 59 years, information was collected on whether receiving/ received any vocational/technical training. Particulars of formal vocational/technical training received by household members of age 12 to 59 years were also recorded. This included, field of training, duration of training, source of funding, etc.

e. *Persons with disability:*To identify persons with disability, information was collected on whether having a certificate of disability as per the response of the informant. For this purpose, only the certificates issued by government authorities (e.g. Central/ State/ local bodies) were considered.It may be noted that the objective of the survey was to build indicators on participation of the persons of age 3 to 35 years in the education system, expenditure incurred on education of the household members and various indicators of those currently not attending education, etc. Thus, the survey was not intended to provide estimates of persons with certificate of disability but to estimate the indicators related to participation in education by persons with certificate of disability.

f. *Reason for attending current private institution:*In 71st Round, information on 'reason for preferring private institution' was collected. In NSS 75th round, the question was revised to collect data on '*reason for attending current private institution*'.

g. *Extended coverage of expenditure:* Besides collecting details of expenditure on education on the basic course, in NSS 75th round, aggregate expenditure on education on courses other than basic course was also recorded to have information on total expenditure on education.

h. *Source of funding:*In NSS 75th round, source of funding (at most two sources) the expenditure of the basic course was collected.

i. *Expenditure on preparation for higher/additional studies for the persons of age 3 to 35 years currently attending education:* Some students spend a significant amount of money to attend coaching classes in preparation for admission in higher/additional studies. To capture this expenditure, provision was made in NSS 75th round to record total expenditure incurred during last 365 days on preparation for pursuing higher/additional studies for the persons of age 3 to 35 years currently attending education at pre-primary and above level.

j. *Engagement in economic activities:* Information on the economic activities pursued persons of age 15 to 35 years currently attending education was collected in the survey.However, it may be noted that the focus and design of the survey were not to provide estimates of labour force and the approach used for measurement of the participation in economic activities used in this survey was different from those used in the labour force surveys of NSO. However, the objective was to get some idea about engagement in economic activities by the persons in the age-group 15 years to 35 years currently attending education.

k. *Expenditure incurred for preparation for higher/additional studies for persons of age 3 to 35 years who ever enrolled but currently not attending:* For the persons of age 3 to 35 years who ever enrolled but currently not attending, information was collected on whether prepared/preparing for higher/additional studies during last 365 days and expenditure on preparation for higher/additional studies during last 365 days.

l. *Information on access and use of Information and Communication Technology (ICT):* At the household level, information on availability of computer and internet facility was collected. Additionally for persons of age 5 years and above, information on ability to use computer and internet and whether they have used internet during the last 30 days was also collected.

1.5 Comparability Issues

1.5.1 Considering current data demand of the users and usefulness of the survey results, a few concepts, definition were modified in NSS 75th round survey *vis-à-vis* the previous survey on this subject carried out in NSS 71st round. These are given below:

a. *Definition of household*: In NSS 75th round, students residing in students' hostels were not considered as household member of the household to which they belonged to before moving to the hostel as was done in NSS 71st round.Thus in NSS 75thround, students residing in students' hostels were listed as a *single member household* as is done in usual NSS rounds. In NSS 71st round, such students were considered as members of the household to which they belonged to before moving to the hostel.

b. *Coverage of 'education'*:With respect to coverage of education, the differences between NSS 75th round and NSS 71st round were as follows:

- All types of vocational/technical training courses of duration 4 weeks or more, conducted by institutions recognised by central/state/UTs/local bodies were considered in NSS 75th round within the coverage of education. In NSS 71st round all types of courses of duration three months or more, conducted by Institutions like Industrial Training Institute (ITI), National Vocational Training Institute, Regional Vocational Training Institutes, etc., authorised by competent authorities were included within the coverage of education.
- '*Pre-primary*' level (nursery/ Kindergartens/ Preparatory levels) was included within the coverage of education in 75th Round for collection of information on education particulars of the basic course, expenditure on education, etc.. In NSS 71st round, information on education particulars of the basic course, expenditure on education, etc., was collected for *primary*and above level.
- *Expenditure on Education:*In NSS 75th round, students residing in students' hostels were listed as a *single member household* as is done in usual NSS rounds and expenditure on education was collected from the students forming such single member household. In NSS 71st round, students residing in students' hostels were considered as members of the household to which they belonged to before moving to the hostel and as such expenditure on education for such students was collected from the households in which the students were listed. In NSS 71st round when item-wise break-up of expenditure on education could not be obtained in spite of best efforts by the field officials, total expenditure was collected. In NSS 75th round, expenditure on education was reported item-wise.

c. *Age group considered for collection of information on different aspects like enrolment, attendance, expenditure, etc.*:In NSS 75th round, for collection of information on current enrolment/ attendance, education particulars of basic course and expenditure on education, persons of age 3 to 35 years were considered. In NSS 71st round such information was collected for persons of age 5 to 29 years.

d. *Receipt of free education*:In NSS 71st round, education was considered free only when the free education (students were not required to pay any fees) was available for all the students of the institution pursuing the basic course. In NSS 75th the round, education was considered free only when student was not required to pay any fees.

1.5.2 Due to the change in coverage as mentioned above and differences in some important concepts and definitions followed in NSS 75th round, sufficient care may be taken while comparing the results of NSS 75th with those of NSS 71st round.

1.6 Geographical coverage

1.6.1 *Geographical coverage*: The survey covers whole of the Indian Union except the villages in Andaman and Nicobar Islands which are difficult to access.

1.7 Sample Design

1.7.1 A stratified multi-stage design was adopted for the 75th round survey. The first stage units (FSU) were the Census villages (Panchayat wards for Kerala) in the rural sector and Urban Frame Survey (UFS) blocks in the urban sector. The ultimate stage units (USU) were households in both the sectors. In the case of large FSUs, one intermediate stage of sampling was the selection of two hamlet-groups (hgs)/ sub-blocks (sbs) from each rural/ urban FSU.

1.7.2 Each district was a stratum. Within each district of a State/UT, two basic strata were formed: (i) rural stratum comprising of all rural areas of the district and (ii) urban stratum comprising of all the urban areas of the district. However, within the urban areas of a district, if there were one or more towns with population one million or more as per Census 2011, each of them formed a separate basic stratum and the remaining urban areas of the district was considered as another basic stratum. In the case of rural sectors of Nagaland, another special stratum was formed within the State consisting of all the villages which were difficult to access.

1.7.3 If 'r' was the sample size allocated for a rural stratum, 'r/4' sub-strata were formed in that stratum. The villages within a stratum (district) as per frame were first arranged in ascending order of population. Then sub-strata 1 to 'r/4' were demarcated in such a way that each sub-stratum comprised a group of villages of the arranged frame and had more or less equal population.

1.7.4Each urban stratum was divided into two parts – 'Affluent part' consisting of UFS blocks identified as 'Affluent Area' and 'Non-Affluent part' consisting of the remaining UFS blocks within the stratum. Sample allocation of a stratum was then allocated to 'Affluent' and

'Non-Affluent' parts in proportion to total number of households in the UFS blocks with double weightage to 'Affluent part' subject to a maximum of 8 FSUs in 'Affluent part' of any stratum. If 'u' was the sample size allocated for an urban stratum consisting of both 'Affluent area' UFS Blocks and 'Non-Affluent area' UFS Blocks, 'u/4' sub-strata were formed within each stratum. Out of these 'u/4' sub-strata, the first two sub-strata '01' and '02' were earmarked for those UFS blocks which were identified as 'Affluent Area' and the remaining sub-strata, '03', '04',….. and so on, were assigned to the 'Non-Affluent area' UFS blocks. If any stratum did not have any 'Affluent Area' UFS block then also the sub-stratum number started from '03' for that stratum. For all strata with u/4 >1, implying formation of 2 or more sub-strata, all the UFS blocks within the stratum were first arranged in ascending order of total number of households in the UFS Blocks as per the latest UFS phase. Then sub-strata 1 to 'u/4' were demarcated in such a way that each sub-stratum had more or less equal number of households. This procedure was done separately for 'Affluent-part' and 'Non-Affluent part' of the stratum (if two sub-strata were required to be formed in the 'Affluent part').

The following three cases arose while doing the sub-stratification:

i) If there was no 'Affluent Area' UFS block in the stratum, all the UFS blocks were divided into 'u/4' sub-strata and numbered as '03', '04', ….., '(u/4)+2'.

ii) If only one sub-stratum was formed with the 'Affluent Area' UFS blocks, then all the remaining 'Non-Affluent area' UFS blocks were divided into '(u-4)/4' sub-strata and numbered as '03', '04', …, '(u/4)+1'.

iii) If two sub-strata were formed with the 'Affluent Area' UFS blocks, then all the remaining 'Non-Affluent area' UFS blocks were divided into '(u-8)/4' sub-strata and numbered as '03', '04', …, 'u/4'.

1.7.5 A total of 14300 FSUs were allocated for the central sample at all-India level. The total number of sample FSUs were allocated to the States and UTs in proportion to population as per Census 2011 subject to a minimum sample allocation to each State/UT.State/ UT level sample size were allocated between two sectors in proportion to population as per Census 2011 with 1.5 weightage to urban sector depending on population share. A minimum of 16 FSUs (minimum 8 each for rural and urban sector separately) were allocated to each State/ UT. Within each sector of a State/ UT, the respective sample size was allocated to the different strata in proportion to the population as per Census 2011. Stratum level allocation was adjusted to multiples of 4 with a minimum sample size of 4. For the special stratum formed in rural areas of Nagaland, 12 FSUs were allocated. Allocation for each sub-stratum was made as 4 in both rural and urban sectors.

1.7.6 For the rural sector, from each stratum/sub-stratum, required number of sample villages was selected by *Probability Proportional to Size With Replacement* (PPSWR), size being the population of the village as per Census 2011. For the urban sector, from each stratum/sub-stratum, FSUs was selected by *Probability Proportional to Size With Replacement* (PPSWR), size being the number of households of the UFS Block. Both rural and urban samples were drawn in the form of two independent sub-samples.

1.7.7Households listed in each selected *First Stage Unit* in both rural and urban sectors were stratified into three *Second Stage Strata* (SSS) as follows:

(i) In SSS 1, households with at least one person of age 3 to 35 years having disability (possessing a certificate of disability) and currently attending education were included.

(ii) In SSS 2, of the remaining households (i.e., excluding the households included in SSS 1), households with at least one person of age 3 to 35 years currently attending technical/professional education were included.

(iii) In SSS 3 of the remaining households (i.e., excluding the households included in SSS 1 and SSS 2), households with at least one person of age 3 to 35 years currently attending general education were included.

(iv) In SSS 4 rest of the households (i.e., excluding the households included in SSS 1, SSS 2 and SSS 3) were included.

From each, FSU, 8 households were selected by SRSWOR for the survey on *Household Social Consumption: Education*in NSS 75th round.

1.8 Sample size

1.8.1In 75th round survey on *Household Social Consumption: Education*at all India level, 14,285 FSUs were surveyed (8,097 villages in rural areas and 6,188 Urban Frame Survey Blocks in urban areas) covering 1,13,757 households (64,519 in rural areas and 49,238 in urban areas) and enumerating 5,13,366 persons (3,05,904 in rural areas and 2,07,462 in urban areas). In this survey, total number of persons of age 3 to 35 years surveyed was 2,86,456 (1,73,397 in rural areas and 1,13,059 in urban areas).

1.9 Reference period of the estimates

1.9.1 The estimates presented in this Report are based on data collected during 01.07.2017 to 30.06.2018, covering a period of twelve months. The reference period of the estimates is the mid-point of the survey period, i.e., 01. 01.2018

1.10 Plan for release of results on the basis of data collected in 75thround Survey on *Household Social Consumption: Education*

1.10.1The results of the NSS surveys are released in the form of Report(s) based on tabulation ofdifferent indicators on the basis of the data collected from the central[1] sample. For the use in decision support, policy inferences and analysis, the key findings of the survey on Household Social Consumption: Education of NSS 75th round was brought out in a document titled '*Key Indicators of Household Social Consumption on Education in India*

[1]*The sample selected for NSS 75th round which was surveyed by NSS is termed "Central sample". As is usual in the regular NSS rounds, most States and Union Territories participated in the survey. The sample surveyed by State Government officials is termed as "State sample".*

together with the release of the unit level data.This report presents estimates of various characteristics pertaining to social consumption on education at National as well as State level, based on the results of NSS 75th round survey (2017-18).

1.11 Contents of this Report

1.11.1 This report contains eight chapters, including the present introductory chapter (Chapter One), and four appendices. Chapter Two describes the concepts and definitions of those terms used in the survey in connection with the various items covered in this report. The summary of findings are presented and discussed in Chapter Three to Eight. The detailed tables forming the basis of this report are presented in Appendix A. Appendix B gives a detailed description of the sample design and estimation procedure used for the survey. Appendix C gives a *facsimile* of the schedule (Schedule 25.2) canvassed in NSS 75th round survey on Household Social Consumption: Education. The Relative Standard Errors (RSEs) of estimates of some important indicators have been presented in Appendix D.

1.11.2 It may be noted that as the estimates in Tables/Statements are generally presented as 'percentage distribution' or rates 'in per cent', the figures are rounded off. The estimates discussed in each chapter are presented for different States appended at the end of end of the respective chapters. Considering low sample sizes for giving estimates at different disaggregation levels, these tables are presented for the following states: Andhra Pradesh, Assam, Bihar, Chhattisgarh, Gujarat, Haryana, Himachal Pradesh, Jammu & Kashmir, Jharkhand, Karnataka, Kerala, Madhya Pradesh, Maharashtra, Odisha, Punjab, Rajasthan, Tamil Nadu, Telangana, Uttarakhand, Uttar Pradesh, West Bengal and urban Delhi.These States, share nearly 98 per cent of the total population of India as per *Population Census 2011*. However, the detailed tables in Appendix A are presented for all the States and UTs. While using the State level estimates, it may be noted that the sample sizes for the smaller States may not be adequate enough for getting sufficiently reliable estimates for some of the indicators. If there are no sample households/persons in a particular category or if the estimated numbers 'in per cent' are greater than 0 but less than 0.05the estimates/estimated proportions of households/persons in that category appear as zero (0).

Chapter Two

Concepts and Definitions

Chapter Two

Concepts and Definitions

In respect of the selected households, the information in this survey was collected through personal interview of the respondent(s). The concepts and definitions of some important terms used in the survey and relevant to this report are explained in the following paragraphs.

1. Household and household size: A group of persons who normally lived together and took food from a common kitchen constituted a household. The adverb "normally" means that temporary visitors and guests (whose total period of stay in the household was expected to be less than 6 months) were excluded but temporary stay-aways (whose total period of absence from the household was expected to be less than 6 months) were included. Thus a child residing in a hostel for studies was excluded from the household of his/her parents, but a resident domestic servant or paying guest (but not just a tenant in the house) was included in the employer's/host's household. "Living together" was given more importance than "sharing food from a common kitchen" in drawing the boundaries of a household in case the two criteria were in conflict. However, in the special case of a person taking food with his family but sleeping elsewhere (say, in a shop or a different house) due to shortage of space, the household formed by such a person's family members was taken to include the person also. Each inmate of a hotel, mess, boarding-lodging house, hostel, etc., was considered to be a single-member household. The same principle was applicable for the residential staff of such establishments. However, if a group of persons among them pooled their income for spending, they were treated as forming a single household. A family living in a hotel was treated as a single household.The size of a household is the total number of persons in the household.

2.Age (years): The age in completed years, as on the date of survey, of the household members were recorded.

3.Education: The term 'education' for the purpose of collection of information on various aspects in this survey meant the following:

i) School education:

a. Pre-primary level (*i.e., at nursery/Kindergartens/preparatory levels*), irrespective of the recognition status of the school. Education at pre-primary level is an early childhood education for young children before commencing primary education.
b. Primary level refers to Classes I-V, irrespective of the recognition status of the school. For this survey**,** the primary level was defined as Class I-V for all the States/UTs uniformly.
c. Upper primary/middle refers to Classes VI-VIII, irrespective of the recognition status of the school.

d. Secondary refers to Classes IX-X and follows the syllabus and pattern of the education as in 'recognised schools'.
e. Higher secondary/Pre-university education refers to Classes XI-XII and follows the syllabus and pattern of the education as in 'recognised schools'. It may be noted that sometimes these are also taught in colleges/open schools.

ii) General education at colleges and Universities (including Open University) that are recognised by University Grant Commission leading to degree/diploma/certificates, etc.

iii) Distance education conducted by Universities, Deemed Universities or Institutions authorised by competent authorities for awarding regular degrees or diplomas or certificates,

iv) Technical or Professional courses, leading to degree/diploma/certificates, conducted by Universities, Deemed Universities, open universities and other institutes authorised by competent authorities like All India Council of Technical Education (AICTE), Medical Council of India (MCI), etc.,

Some of these institutes are like, National Institute of Fashion Technology, National School of Drama, Satyajit Ray Film and Television Institute, Film and Television Institute of India, Lok NayakJayaprakash Narayan National Institute of Criminology and Forensic Science, etc. or Institutions, The Institute of Chartered Accountants of India, The Institute of Cost and Works Accountants of India, The Institute of Company Secretaries of India, Actuarial Society of India, etc.

v) All types of vocational/technical training courses of duration 4 weeks of more, conducted by institutions recognised by central/state/UTs/local bodies.

The following were not included in the coverage of education:

- Art, music and similar type of courses conducted by individuals in their houses or unrecognised/ unaffiliated institutions,
- Classes taken by Private tutors,

The non-formal system of education (like NFEC/TLC/AEC, etc.) being implemented through various programs by government or other agencies were considered within the coverage of 'education' only for collecting information on (i) status of enrolment, (ii) level of current enrolment if currently attending and (iii) some details if currently not attending education**.**

Currently attending education: These are the persons currently attending education as defined in Para. 3 above.Persons, who were temporarily not attending education due to reasons like illness, vacation, etc., was treated as currently attending. Persons who were awaiting results were considered as 'currently attending' and the appropriate level for which they appeared in the examinations was considered as level of current attendance. Persons who were registered for any regular distance learning courses for a stipulated period at the end of which, were allowed to appear in the examination for the course, were also considered as

'currently attending'. Persons who were eligible for appearing as private/external candidates in examination were treated as currently attending.

4.Student: For the purpose of this survey, a household member was considered as student if he/she was of age 3 to 35 years and was currently attending education.

5.Students' Hostel:A hostel is meant for providing accommodation to students, irrespective of whether run by any educational institution or not. A hostel, as distinct from a mess, is not managed by the students on a cooperative basis.

6.Educational level: It is the highest level of education considering all general/ technical/vocational educational level successfully completed by the members of the household. A person who could both read and write a simple message with understanding in at least one language was considered literate. Those who were not able to do so,were considered not literate. It may be noted that for the purpose of this survey**,** the primary level was defined as Class I-V for all the States/UTs uniformly. In this survey, information on general educational level was collected on the following 15 categories (i to xv):

educational level	**educational level**
(i) not literate	***literate with formal schooling:***
	(vi) below primary
(ii) literate without any schooling	(vii) primary
	(viii) upper primary/middle
literate without formal schooling:	(ix) secondary
(iii) through NFEC	(x) higher secondary
(iv) through TLC/AEC	(xi) diploma /certificate course (upto secondary)
(v) others	(xii) diploma /certificate course (higher secondary)
	(xiii) diploma /certificate course (graduation and above)
	(xiv) graduate
	(xv) post graduate and above

7. Educational level-technical: Highestlevel of technical education achieved by the members of the household was recorded as follows:

no technical education		
technical degree in:	**technical diploma or certificate (below graduate level) in:**	**technical diploma or certificate (graduate and above level) in:**
agriculture	agriculture	agriculture
engineering/technology	engineering/technology	engineering/technology
medicine	medicine	medicine
crafts	crafts	crafts
other subjects	other subjects	other subjects

Technical diploma or certificate in 'other subjects' covered diploma or certificate in management, applied arts, etc. It may be noted that as per *Ministry of Human Resource Development, the Technical education generally pertains to higher education*. In case of school education (up to secondary level) it is a part of vocational education.

8.Number of years in formal education: For each person who completed 'below primary' or above level of education, information was collected on class/grade completed starting from class/grade I to XII and year(s) of education completed after the class/grade completed.

Class/grade completed meant the completion of full academic year in the highest class/grade. The number of year(s) completed in education after the class/grade completed was also ascertained. From the information collected on class/grade completed and number of year(s) of education completed after the class/grade completed, number of years in formal education was derived as the total of numeric value of Class/grade completed and number of years of education completed after the class/grade completed.

8.1 ***class/ grade completed:*** Class/grade completed meant the completion of full academic year in the highest class/grade. Information on class/grade completed was collected for all the persons who completed 'below primary' or above level of education starting from Class/grade I to XII.

8.2 year(s) of education formal education completed after the class/grade completed: Information on number of year(s) completed in formal education after the class/grade completed by the persons who completed 'below primary' or above level of education was also recorded. Number of year(s) of formal education completed was counted considering the full academic year that the person has attended without considering repetition. If a person did not complete formal education for the full academic year, the fractional part of the academic year was not counted. However, if a course is of five semesters and the last semester falls in the third academic year, total academic year for the course was taken as three years.

8.3 ***Total number of years in formal education***:From the information collected on class/grade completed and number of years of formal education completed after the class/grade completed, number of years in formal education was derived as the total of numeric value of class/grade completed and number of years of formal education completed after the class/grade completed.

9.Vocational/ Technical Training: A vocational/ technical training may broadly be defined as training through which knowledge and skills for the world of work is acquired. The main objective of vocational/ technical education and training is to make individuals employable for a broad range of occupations in various industries and other economic sectors. There are three methods of acquiring Vocational/ Technical training, namely, (i) Formal Training, (ii) Non-formal Training and (iii) Informal Training. It may be noted that as per Ministry of Human Resource Development, the Technical education generally pertains to higher education. In case of school education (up to secondary level) it is a part of vocational education.

9.1 Formal Training: It is the training that is acquired through institutions/ organisations and is recognised by national certifying bodies, leading to diplomas/ certificates and qualifications. Formal training is structured according to educational arrangements such as curricula, qualifications, teaching/ learning requirements and assessment. Formal training is intentional from the learner's perspective.

9.2 Non-formal Training: It is the training that is in addition or alternative to formal learning and is also structured but is more flexible. It is provided through community-based settings, the workplace, or through the activities of civil society organizations or any organisation imparting training. This training mode does not have the level of curriculum, syllabus or accreditation and certification associated with formal learning but it is more structured as compared to informal learning.

9.3 Informal Training: The training that occurs in daily life, in the family, in the workplace, in communities, and through the interests and activities of individuals. It is not structured (in terms of learning objectives, learning time or learning support) and typically does not lead to certification.

9.4Vocational/technical training other than formal vocational/technical training

(a)***Hereditary*:** The expertise in a vocation or trade is sometimes acquired by the succeeding generations from the other members of the households, generally the ancestors. The expertise gained through significant 'hands-on' experience enables the individual to take up activities in self-employment capacity or makes them employable. Acquiring such marketable expertise by one, which enables him/her to carry out the trade or occupation of their ancestors over generations, was considered training through 'hereditary' sources.

(b) ***Self-learning*:** The expertise in a vocation or trade when acquired by a person through his/her own effort, without any training under any person or organisation, was considered 'self-learning'. For example, a person who has learnt photography on his own effort was considered to have acquired the vocational training through 'self-learning'.

(c) ***Learning on the job*:** The expertise acquired by a person while in employment (current and/or past), either through informal training by the employer or organisation or through the exposure to the type of job that he/she is/was performing, was considered as the training through 'learning on the job'. Note that if a person was provided with formal training in a vocation or trade even by the employer or organisation, while in employment, he/she was be considered to have received 'formal' vocational/technical training.

(d) ***Other*:** The 'other' sources included the cases where the expertise for a vocation or trade was developed from the household members or ancestors, provided that the said vocation or trade was different from the one relating to their ancestors. Similarly, a person might learn tailoring work from a master tailor or a person might learn book-binding work from a printing press. All such expertise acquired were considered as vocational/technical training through 'other' sources.

10.Course: A course is i) a structured educational programme having a specified syllabus, duration, level, etc. and it ii) necessarily involve appearing in some kind of examination/ performance appraisal for getting the degree/diploma/certificate or advancing to the next class/level. Courses were broadly categorised as (i) general and (ii) technical/professional. For the purpose of this survey, only those courses covered under the definition of 'education' were considered.

11.Academic year: The academic year was defined in relation to the duration of the course in the following manner:

a. If duration of the course was less than one year, the academic year covered full duration of the course.
b. If duration of the course was equal to or more than one year, then, academic year covered a period of 12 months.
c. For the educational institutions pursuing semester system (e.g., three to six months semester system), academic year was taken as 12 months if the duration of the course was equal to or more than one year.

12.Recognised School/Institution: A recognised school/ institution was one in which the course(s) of study followed was/were prescribed or recognised by the Government or a University or a Board constituted by law or by any other agency authorised in this behalf by the Central or State government. With regard to its standard of efficiency, it also satisfies criteria of one or more of the authorities, e.g., Directorate of education, Municipal Board, Secondary Board, etc. It runs regular classes and sends candidates for public examination, if any.

13.Type of institution: This referred to the type of management by which the institution was run. It might be run by Government (Central/State/Local) or a private body irrespective of whether receiving government aid. Thus, the types of Institutionswere: (a) Government, (b) Private aided and (c) Private unaided.

13.1 Government institutions: All schools/ institutions run by central and state governments, public sector undertakings, autonomous organisations, municipal corporations, municipal committees, notified area committees, zillaparishads, panchayatsamitis, cantonment boards, etc., completely financed by the government were treated as government institutions. It may be noted that a government institution may be run by either the government directly or through a governing body/managing committee, etc., set-up by the government.

13.2 Private aided institution: A private aided institution is one, which is run by an individual or a private organisation and receives maintenance grant from Government.

13.3 Private unaided institution: A private unaided institution is one, which is managed by an individual or a private organisation and is not receiving maintenance grant from Government.

14.Recognised School/Institution:A recognised school/ institution is one in which the course(s) of study followed is/are prescribed or recognised by the Government or a University or a Board constituted by law or by any other agency authorised in this behalf by the Central or State government. With regard to its standard of efficiency, it also satisfies criteria of one or more of the authorities, e.g., Directorate of education, Municipal Board, Secondary Board, etc. It runs regular classes and sends candidates for public examination, if any.

15.Whether having a certificate of disability: For each of the household members it was enquired whether he/she has a certificate of disability. Only the certificate issued by any government authorities (e.*g., central/state/local bodies*) was considered.

16.Type of disability as per the certificate:For each of the household members having a certificate of disability issued by any government authorities, the type of disability as per the certificate was recorded as follows.

single
- mental
- visual
- hearing
- speech
- locomotor

multiple

It may be noted that type of disability was recorded as per the certificate of disability stated by the informant and no attempt was made to verify or confirm the certificate of disability with the disability of the person.

17.Special School:Special school are the educational institutions for persons with special educational needs arising from disability. The traditional classroom environment cannot meet the special educational requirements of such persons. This requires special teaching methodology and infrastructure to meet the appropriate needs of such persons which the special schools provide.

18.Full time course/Part-time course/ distance learning courses:For the persons who were currently attending at upper primary/middle and above levels, information was collected on whether he/she was pursuing full-time course, part-timecourse or distance learning course. Persons who were studying courses from recognized educational institution and were appearing as private/external candidates in the examinations was classified as attending distance learning courses.

19.Distance Learning:It is the education from the distance and not face-to-face but indirect/remote or inanimate and involving a wide variety of channels and media. Distance Education has the following types:

(a) Correspondence Courses
(b) Home Study
(c) Open Education

(d) E-Learning

20.Duration of the current academic year of the course currently attending:Duration of the current academic year of the basic course was recorded in whole number of months. If the duration of course was in days, it was converted into months by considering 30 days as 1 month (rounding off to the nearest highest value, e.g., if the values is 10.1, it was reported as 11).

21.Whether present class/grade/year of study is same as that of previous year:Information on repeater was captured through this item, i.e., whether the student had repeated the same class/grade/year in two consecutive academic year. For some courses, class/grade/year of study is not relevant. For example, some courses require that a number of papers are to be cleared to complete the course. The student may complete the course in phases in a number of years by clearing one or more paper at a time. Thus, for these types of courses the concept of repeater was not relevant and they were classified in a separate category (not relevant).

22.Mode of transport:Information on the mode of transportation to/from school/institution used by the student to attend the basic course in the current academic year wascollected as follows:

- on foot
- school/institution bus
- public transport
- bicycle
- others

Public transport is a shared passenger-transport service which is available for use by the general public, as distinct from taxicab, carpooling, or hired buses. Public transport includes buses, trams, trains, metro trains and ferries. It, therefore, includes both government as well as private transport facilities, regulated by State Authority.If transport is provided by the employer for the children of their employees , it was classified in 'others'. If more than one mode of transport was used for attending the institution in the basic course in the current academic year, then the one, which covered the longest distance, was considered as the mode of transport for the student.

23.Whether concession received: For the students who used public transport as mode of transport for attending the basic course in the current academic year, information was collected on whether they have more or less regularly availedconcessional fare in public transport for attending educational institutions.

24.Whether taking/taken private coaching: Information was collected if a student was taking/taken private coaching relating to the basic course in the current academic year. Private coaching might be taken by a student individually or in a group, at home or in any other place, by a single or more tutors. If a student who was pursing one basic course and another course (other than basic course), then information in respect of the basic course was recorded.

25.Computer: For this survey, a computer included devices like, desktop computer, laptop computer, notebook, netbook, palmtop, tablet(or similar handheld devices). The descriptions of these are given below:

I. **Desktop:** A desktop computer (or desktop PC) is a computer that is designed to put in a single location without portability. Generally, the monitor, keyboard and mouse in a desktop computer are separate units.

II. **Laptop:**A laptop is small, portable personal computer. A laptop computer can be powered by battery or plugged into the unit. Laptop is suitable for use while travelling.

III. **Notebook:**A notebook is an extremely lightweight portable personal computer, smaller than a laptop model.

IV. **Netbook:** A netbook is a portable computer that is about half the size of a traditional laptop. These are for the use of those who want a basic computer for Internet and for basic applications such as a word processing. The main difference between netbook and notebook is its functionality. Netbook is used for content consumption such as listening to music or watching movies while Notebook is used for content making.

V. **Palmtop:** A small computer that literally fits in the palm of one's hand is called a Palmtop. Other names for Palmtops are 'hand-held computers' or 'Personal Digital Assistants (PDAs)'.

VI. **Tablet:** A tablet computer, or simply tablet, is a one-piece mobile computer. Devices typically have a touch screen, with finger or stylus gestures replacing the conventional computer mouse. An on-screen concealable virtual keyboard is usually used for typing.

26.Whether the household has a computer: 'Household has a computer' meant that a computer was in possession of the household (may or may not be owned) and it was generally available for use by all members of the household at any time, regardless of whether it was actually used. The computer should be in working condition as on the date of survey.

27.Whether the household has internet facility: The *Internet* is a worldwide public computer network. It provides access to a number of communication services including the World Wide Web and carries e-mail, news, entertainment and data files, irrespective of the device used (not assumed to be only via a computer − it may also be by mobile telephone, tablet, personal digital assistant (PDA), games machine, digital TV etc.). Access can be via a fixed or mobile network. Household with Internet facility meant that the Internet was generally available for use by all members of the household at any time, regardless of whether it was actually used. The connection and devices may or may not be owned by the household but both should be possessed by the household.

28.Ability to operate a computer: For household members of age 5 years and above information was collected on whether the household member was able to operate a computer. Ability to operate a computer meant carrying out any of the tasks, like,

- ✓ Copying or moving a file or folder
- ✓ Using copy and paste tools to duplicate or move information within a document
- ✓ Sending e-mails with attached files (e.g. document, picture, and video)
- ✓ Using basic arithmetic formulae in a spreadsheet
- ✓ Connecting and installing new devices (e.g. modem, camera, printer)
- ✓ Finding, downloading, installing and configuring software
- ✓ Creating electronic presentations with presentation software (including text, images, sound, video or charts)
- ✓ Transferring files between a computer and other devices
- ✓ Writing a computer program using a specialised programming language

29.Ability touse internet: For household members of age 5 years and above information was collected on whether the household member was ableto use internet. Ability to use internet meant that the household member was able to use internet browser for website navigation, using e-mail and social networking applications, etc., to find, evaluate and communicate information.

30.Use ofinternet during last 30 days: For household members of age 5 years and above information was collected on whether the household member used internet during last 30 days. If a household member of age 5 years and above used internet to find, evaluate and communicate information from any location during the last 30 days, it was considered as use of internet. It may be noted that such use may be via any device, like, desktop, laptop, palmtop, notebook, netbook, smartphone, tablets, etc. Use of ATM was not considered as use of internet. Moreover, Internet is to be accessed by the household member himself/herself. If any member used internet services through another person (like booking of railway/air ticket/hotel through another person), those were not considered as use of internet by the person.

31.Basic course: If a household member was attending education in more than one course of study, then the basic coursewas determined using the priority criteria as per the following order:

- Rule 1: If an individual was attending more than one course then the course, which was of the highest level, was considered as the basic course.
- Rule 2: If an individual was attending more than one course all of which were of the same level and one of these was technical/professional course, then the technical/profession course was the basic course
- Rule 3: If an individual was attending more than one course all of which were of the same level, then the course which involved higher expenditure, was the basic course.
- Rule 4: If a person was attending both a regular course and a course through distance learning, then regular course was treated as the basic course.

- Rule 5: If a person was attending both a full-time and a part-time course, then full-time course was treated as the basic course.

If a person was attending more than one of the courses through Non-formal Education Centre (NFEC), Total Literacy Campaign (TLC)/Adult Education Centre (AEC) or other non-formal courses, the basic course was the course was decided in the following order:

(i) Non-formal Education Centre (NFEC),
(ii) Total Literacy Campaign (TLC)/Adult Education Centre (AEC)
(iii) other non-formal courses

32.Academic year: Information in this block will be collected for the current academic year. The academic year is defined in relation to the duration of the course which the student is attending in the following manner:

a. If duration of the course is less than one year, the academic year will cover full duration of the course.
b. If duration of the course is equal to or more than one year, then, academic year will cover a period of 12 months.
c. For the educational institutions pursuing semester system (*e.g. three to six months semester system*), academic year will be taken as 12 months if the duration of the course is equal to or more than one year.

33.Course currently attending: The broad subject in which the person was currently attending education was the course which he/she was currently attending. These were as follows:

general course	technical/professionalcourse
(i) up to class X	(v) medicine
(ii)humanities	(vi) engineering
(iii) science	(vii) agriculture
(iv) commerce	(viii) law
	(ix) management
	(x) education
	(xi) chartered accountancy and similar courses.....
	(xii) IT/computer courses
	(xiii) courses from Industrial Training Institute (ITI), recognised vocational training institute
	(xiv) others

As per the All India Council for Technical Education Act, 1987, technical education means programmes of education, research and training in fields of Engineering and Technology, Architecture, Town Planning, Management, Pharmacy and Applied Arts & Crafts. Examples of some professional courses are Chartered accountant (CA), Company secretary (CS)/ cost and works accountant (CWA).etc. Some of the professional courses are conducted by institutes like The Institute of Chartered Accountants of India, The Institute of Cost and Works Accountants of India, The Institute of Company Secretaries of India, Actuarial Society of India, etc.

34.Free education: Education was considered free only when student wasnot required to pay any fees. However, the student might incur expenditure for text book, stationery, uniform. A student was considered as received free education if the student was not required to pay any fee in the current academic year with respect to the education in basic course. Some of the fees that are generally charged by the educational institutions included tuition fee, library fees, development fee, computer fee, exam fee, games fees, laboratory fees.

35.Free/subsidised textbooks: It was ascertained whether the student received free/subsidised textbooks for the basic course during the current academic year. The student might have received free/subsidised textbooks from the educational institution, charitable organisation, etc.

36. Free/subsidised stationary: It was ascertained whether the student received free/subsidised stationary for the purpose of the basic course during the current academic year. The student might have received free/subsidised stationary from the educational institution, charitable organisation, etc.

37.Scholarship/stipend/reimbursement: Scholarship/ stipend/reimbursement in cash are given to students to further their education. The financial aid of these types given to a student is not to be repaid by the student to the giver. Loan scholarships or scholarship/stipend/reimbursement received/receivable from individuals was not considered as scholarship/stipend/reimbursement.

38.Mid-day meal/tiffin/nutrition: It was ascertained from the student whether free mid-day meal/tiffin/nutrition is provided by the institution in which he/she is current attending education in the basic course. To determine whether the institution is providing free Mid Day Meal it is to be noted that the provision of regular and free mid-day meal is relevant and not the consumption of the meal by the student.Some schools/educational institutions provide food to students as mid-day meal, tiffin, etc., free of cost. Schools/ institutions, which run canteen facilities where the students can purchase the food, were not considered as providing such facilities, even though such food may be subsidised to some extent. It may be noted that information on mid-day meal/tiffin/nutrition was collected for those currently attending the basic course in (i) pre-primary level of education, (ii) primary level of education or (iii) those currently attending the basic course at upper primary/middle level or above level of education which are not through distance learning

39. Expenditure on education for the basiccourse: Expenditures on education for the basic course during the current academic year included those that wereincurred/to be incurred by the household itself, by other households or by any institutions/organizations other than Government. When expenditure was incurred by other households or by any institutions/organizations, the amount of such expenditures was ascertained/imputed. However, if such expenditures were incurred by the Government (in the form of free books/free tuition fee/uniform, etc.), no imputation was made and value was considered as zero (0) for recording. Expenditure included

- course fee (including tuition fee, examination fee, development fee and other compulsory payments)
- books, stationery and uniform
- transport
- private coaching
- other expenditure (such as study tours, school project, etc.)

40.Expenditure on education on courses other than the basic course during the current academic year: If a student as pursing any course(s) other than the basic course within the coverage of 'education', aggregate expenditure incurred/to be incurred in the current academic year on such course(s) was recorded. The aggregate of the following expenses for the courses other than the basic course were taken:

- course fee (including tuition fee, examination fee, development fee and other compulsory payments)
- books, stationery and uniform
- transport
- private coaching
- other expenditure

41.Drop outs: An ever-enrolled person was considered as dropped out if he/ she did not complete the last level of education for which he/she enrolled and currently not attending any educational institution for reasons other than 'completion of the desired level of education'.

42.Expenditure on erstwhile member of the household: It was ascertained from the selected households *whether any erstwhile household member of age 3 to 35 years is currently attending education*. Erstwhile members of a household are those who were members of the selected household sometime in the past. Total expenditure incurred/to be incurred by the household for that person during the current academic year was recorded. Total amount of expenditure incurred/to be incurred by the household on the erstwhile members included expenditure on education as well as any other expenditure.

43.Expenditure incurred on preparation for higher/ additional studies during last 365 days*:* For the household member who were preparing/ prepared for higher/additional studies during the last 365 days, total expenditure on preparation for higher/additional studies during the last 365 days were recorded. For taking preparation for higher studies, expenditure may be incurred on specialised coaching, books, stationery, transport, etc.

44.Literacy rate: Percentage of literates among persons of age 7 years and above has been defined as literacy rate.

45.Gross enrolment ratio (GER)*:*For each level of education, GER is the ratio of the number of persons currently enrolled in the level of education to the number persons in the corresponding official age-group. For example, for level of education 'I-V', GER is defined as

$$\frac{\text{Number of persons currently enrolled in Classes I-V}}{\text{Estimated population in the age-group 6-10 years}} \times 100$$

For the remaining level of education, i.e. upper primary/middle (VI-VIII), secondary (IX-X), higher secondary (XI-XII) and post higher secondary, the corresponding official age-groups were taken as 11-13 years, 14-15years and 16-17years, 18-23 years respectively. The population estimates to calculate the GER were derived from the design based estimates of this survey.

46.Net enrolment ratio (NER): For each level of education, NER is the ratio of the number of persons in the official age-group currently enrolled in a particular level of education to the total number persons in that age-group. For example, for level of education 'I-V' NER is

$$\frac{\text{Number of persons of age 6-10 years currently enrolled in Classes I-V}}{\text{Estimated population in the age-group 6-10 years}} \times 100$$

For the remaining level of education, i.e. upper primary/middle (VI-VIII), secondary (IX-X), higher secondary (XI-XII) and post higher secondary, the corresponding official age-groups were taken as 11-13 years, 14-15years and 16-17years, 18-23 years respectively. The population estimates to calculate the NER were derived from the design based estimates of this survey.

47. Gross attendance ratio (GAR): For each level of education, GAR is the ratio of the number of persons attending in the level of educationto the number persons in the corresponding official age-group. For example, for level of education 'I-V',GAR is defined as

$$\frac{\text{Number of persons attending Classes I-V}}{\text{Estimated population in the age-group 6-10 years}} \times 100$$

For the remaining level of education, i.e. upper primary/middle (VI-VIII), secondary (IX-X), higher secondary (XI-XII) and post higher secondary, the corresponding official age-groups were taken as 11-13 years, 14-15years and 16-17years, 18-23 years respectively. The population estimates to calculate the GAR were derived from the design based estimates of this survey.

48.Age-specific attendance ratio (ASAR): For each age-group, ASAR is the proportion of persons of a particular age-group currently attending educational institutions, irrespective of the level or class in which they are studying. For example, for age-group 6-10, this attendance ratio is

$$\frac{\text{Number of persons in age-group 6-10 currently attending educational institutions}}{\text{Estimated population in the age-group 6-10 years}} \times 100$$

The population estimates to calculate the ASAR were derived from the design based estimates of this survey.

49.Net attendance ratio (NAR): For each level of education, NAR is the ratio of the number of persons in the official age-group attending a particular level of educationto the total number persons in the age-group. For example, for level of education 'I-V' NAR is

$$\frac{\text{Number of persons of age 6-10 years currently attending Classes I-V}}{\text{Estimated population in the age-group 6-10 years}} \times 100$$

Similarly it can be obtained for the remaining level of educationi.e. upper primary/middle (VI-VIII), secondary (IX-X), higher secondary (XI-XII) and post higher secondary, with the corresponding official age-groups 11-13 years, 14-15years and 16-17years, 18-23 years respectively. The population estimates to calculate the NAR were derived from the design based estimates of this survey.

50.Major reason for never enrolled/ever enrolled but currently not attending: Information on major reason for never enrolled/ever enrolled but currently not attending was collected for all the persons of age 3 to 35 years who never enrolled/ever enrolled but currently not attending, Major reason for those never enrolling in education or those who ever enrolled but currently not attending any educational institution was recorded. If there were multiple reasons, then the major reason as indicated by the respondent was considered. The reasons for never enrolled or ever enrolled but currently not attending used in NSS 75th round were as follows:

major reason	major reason
applicable for all:	***applicable for "never- enrolled" cases only:***
not interested in education	no tradition in the community
financial constraints	***applicable for "ever- enrolled" cases only:***
engaged in domestic activities	unable to cope up with studies/ failure in studies
engaged in economic activities	unfriendly atmosphere at school
school is far off	completed desired level/class
timings of educational institution not suitable	preparation for competitive examination
language/ medium of instruction used unfamiliar	***applicable for females only:***
inadequate number of teachers	non-availability of female teacher
quality of teachers not satisfactory	non-availability of girls' toilet
route to educational institution not safe	marriage
others	

51. Quintile Class of Usual Monthly Per Capita Consumer Expenditure (UMPCE): Information on Household Usual Monthly Consumer Expenditure was collected in this survey ***only***to classify the households in different UMPCE classes. Since this information was collected through a single-shot question, it cannot be used to estimate the household consumer expenditure which is generally estimated based on detailed household consumer expenditure survey (Schedule 1.0).

Based on the information collected on Household Usual Monthly Consumer Expenditure, quintile classes of Usual Monthly Per Capita Consumer Expenditure (UMPCE) were formed (with each quintile class containing 20 per cent of the population)separately for each sector (rural/urban).

Chapter Three

Level of Education, Current Enrolment and Attendance Status

Chapter Three

Level of Education, Current Enrolment and Attendance Status

3.0 In this Chapterliteracy rate, level of education and indicators relating to current enrolment and attendance status, etc., are presented.

3.1 Households and Population

3.1.1 Survey based estimates of household and population: Beforepresenting the indicators relating to literacy and education, some aspects of composition of the population is given in Statement 3.1. These estimates are obtained on the basis of NSS 75th round survey on *Household Social Consumption: Education.* The estimate of male includes transgender also. Since details of current attendance, enrolment, etc.,werecollected forpersons of age 3 to 35 years in NSS 75th round, percentage of persons in the age group 3 to35 years in the total population is also presented in this Statement.It may be noted that the survey was not designed to provide estimate of households and population. However, the estimates of households and population obtained on the basis of NSS 75th round survey on *Household Social Consumption: Education*given in this Report can be used to combine the rates and ratios. It may be noted that the rates and ratios presented in this report are generated using the survey based estimates.

Statement 3.1: Household and population

all-India

Indicator	rural	urban	rural+urban
Percentage distribution of households	67.2	32.8	100.0
Percentage distribution of population between rural and urban sectors			
male	70.7	29.3	100.0
female	71.1	28.9	100.0
person	70.9	29.1	100.0
Percentage distribution of population between the age groups 3 to 35 years (considered for collection of information on participation and expenditure on education)and remaining ages			
male of age 3 to 35 years	58.5	56.7	57.9
male of age other than 3 to 35 years	41.5	43.3	42.1
all	100.0	100.0	100.0
female of age 3 to 35 years	55.3	52.8	54.6
female of age other than 3 to 35 years	44.7	47.2	45.4
all	100.0	100.0	100.0
person of age 3 to 35 years	56.9	54.9	56.3
person of age other than 3 to 35 years	43.1	45.1	43.7
all	100.0	100.0	100.0

Ref: Table 4, Appendix A

Note: 1. Male includes transgender

2. Sample number of FSUs, households and persons for different States are given in Statement 3.1.1

3. Estimated number of households, persons, household size and sex ratio for different States are given in Statement3.1.2

*3.1.2 Distance of the households to nearest school having primary, upper primary/middle and secondary level classes:*Availability of schools with certain level of education is an important infrastructure relating to education. Information was collected regarding distance of the sample household to the nearest school having primary, upper primary/ middle or secondary level classes.The nearest school need not be exclusively for primary, upper primary/middle or secondary level but should conduct classes for these levels. A school may have a combination of primary level, upper primary/middle level, secondary level classes and if it was also the nearest school in respect of these classes, then this school was considered as nearest school for recording distance for these particular levels of classes. For identifying the nearest schools having specific level of classes, it was not necessary that household member(s) were attending in this school. Distance to the nearest school was collected in terms of codes and not in absolute values in kilometres. Percentage distributions of the households by the nearest school having specific levels of classes are given in Statement 3.2.

Statement 3.2: Percentage distribution of households by distance to nearest school having primary, upper primary/middle and secondary level classes

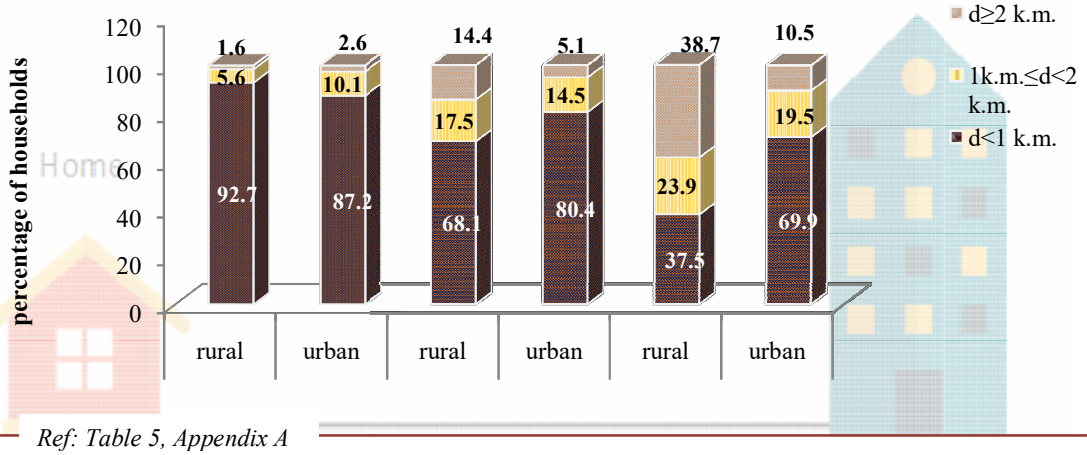

all-India

level of classes in the school	distance in km	percentage	
		rural	urban
nearest school having primary level classes	less than 1 k.m.	92.7	87.2
	1 k.m. or more but less than 2 k.m.	5.6	10.1
	2 k.m. or more but less than 3 k.m.	1.2	2.2
	3k.m. or more but less than 5 k.m.	0.3	0.3
	5 k.m. or more above	0.1	0.1
	all	100.0	100.0
nearest school having upper primary/middle level classes	less than 1 k.m.	68.1	80.4
	1 k.m. or more but less than 2 k.m.	17.5	14.5
	2 k.m. or more but less than 3 k.m.	8.0	3.9
	3k.m. or more but less than 5 k.m.	3.4	0.9
	5 k.m. or more above	3.0	0.3
	all	100.0	100.0
nearest school having secondary level classes	less than 1 k.m.	37.5	69.9
	1 k.m. or more but less than 2 k.m.	23.9	19.5
	2 k.m. or more but less than 3 k.m.	16.3	6.6
	3k.m. or more but less than 5 k.m.	8.9	2.6
	5 k.m. or more above	13.5	1.3
	all	100.0	100.0

Ref: Table 5, Appendix A

Note: Percentage distribution of households by distance to nearest school having primary, upper primary/middle and secondary level classes for different States is given in Statement 3.2.1.

Fig. 3.1: Percentage distribution of households by distance (d) from nearest school for different level of classes

Ref: Table 5, Appendix A

3.2 Indicators relating to literacy, status of education and vocational/technical training

3.2.1 Literacy rate: Literacy rate is defined as the percentage of literate persons among persons of age 7 years and above. A person who can read and write a simple message in any language with understanding is considered *literate* in NSS surveys. In Statement 3.3, literacy rate among persons of age 7 years and above are presented for the period 2007-08 (64th round), 2014 (71st round) and 2017-18 (75th round) in which NSS collected data on participation and expenditure on education.

Statement 3.3: Literacy rateamong persons of age 7 years and above during 2007-08, 2014 and 2017-18

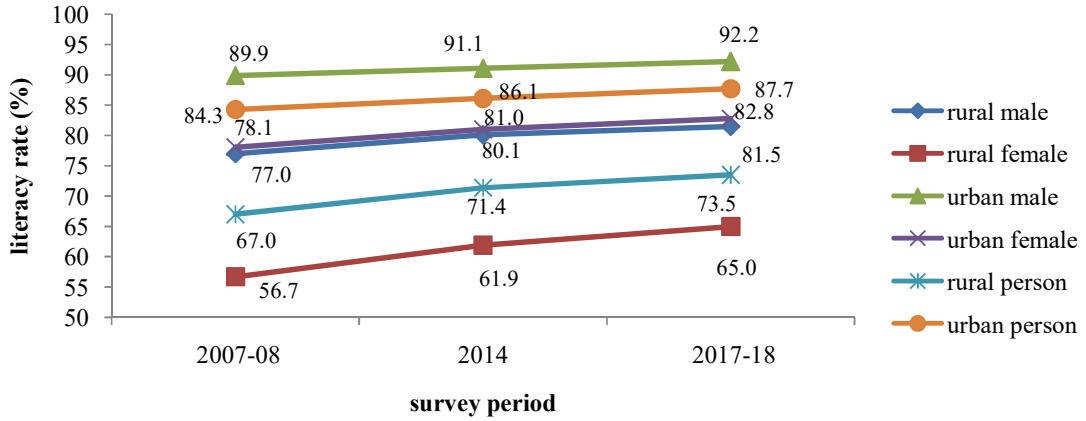

all-India

survey period	percentage		
	male	female	person
rural			
during 2017-18	81.5	65.0	73.5
during 2014	80.1	61.9	71.4
during 2007-08	77.0	56.7	67.0
urban			
during 2017-18	92.2	82.8	87.7
during 2014	91.1	81.0	86.1
during 2007-08	89.9	78.1	84.3
rural+urban			
during 2017-18	84.7	70.3	77.7
during 2014	83.4	67.6	75.8
during 2007-08	80.5	62.3	71.7

Ref: Table 15, Appendix A for 2017-18 figures, NSS report no. 575, Appendix A for 2014 &NSS Report No. 532 for respective 2007-08 figures

Note: Literacy rate among persons of age 7 years and above during 2017-18 (NSS 75th round) for different States is given in Statement 3.3.1

Fig. 3.2: Literacy rate among persons of age 7 years and above over NSS survey years

Ref: Table 15, Appendix A

3.2.2Educational level of the household members of age 15 years and above:Highest level of education successfully completedby the members of the household considering all general/ technical/vocational educational level is considered as the educational level of the household member. For determining the highest level of education successfully completed, 'diploma/certificate upto secondary' is included in level of education 'secondary', 'diploma certificate of level higher secondary' is included in level of education 'higher secondary' and 'diploma/certificate of graduation & above' is included in level of education 'graduate and above'. Percentage distribution of persons of age 15 years and above by highest level of education successfully completed is given in Statement 3.4.

Statement 3.4: Percentage distribution of persons of age 15 years and above by highest level of educationssuccessfully completed

all-India

highest level of education completed	percentage		
	male	female	person
rural			
not literate	22.2	41.2	31.5
literate upto primary	21.2	20.4	20.9
middle	19.8	14.4	17.2
secondary	17.3	12.5	15.0
higher secondary	12.0	7.6	9.9
graduate and above	7.4	3.9	5.7
all	100.0	100.0	100.0
urban			
not literate	8.8	19.3	13.9
literate upto primary	13.5	15.9	14.7
middle	14.6	13.4	14.0
secondary	20.4	17.9	19.2
higher secondary	18.1	15.1	16.6
graduate and above	24.6	18.6	21.7
all	100.0	100.0	100.0
rural+urban			
not literate	18.1	34.5	26.1
literate upto primary	18.9	18.9	18.9

Statement 3.4: Percentage distribution of persons of age 15 years and above by highest level of educationssuccessfully completed

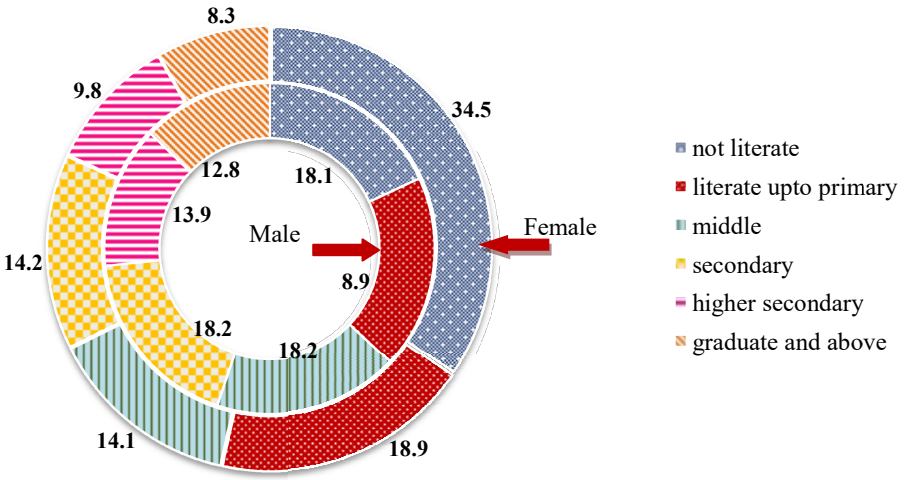

all-India

highest level of education completed	percentage		
	male	female	person
middle	18.2	14.1	16.2
secondary	18.2	14.2	16.2
higher secondary	13.9	9.8	11.9
graduate and above	12.8	8.3	10.6
all	100.0	100.0	100.0

Note: Table 15, Appendix A

Note: Percentage distribution of persons of age 15 years and above by highest level of education successfully completed fordifferent States is given in Statement 3.4.1

Fig. 3.3: Percentage distribution of persons of age 15 years and above by highest level of educations successfully completed

Ref: Table 15, Appendix A

3.2.3 Persons of age 15 years and above with highest level of completed education secondary and above during 2007-08, 2014 and 2017-18:In Statement 3.5, percentage of persons of age 15 years and above with highest level of education secondary and above is presented during 2007-08, 2014 and 2017-18.It may be noted that diploma/certificate upto secondary level/ higher secondary/graduation & above level are included in highest level of education secondary and above.

Statement 3.5: Percentage of persons of age 15 years and above with highest level of education secondary and aboveduring 2017-18, 2014 (NSS 71st round) and 2007-08 (NSS 64thround)

all-India

highest level of education secondary and above	percentage		
	male	female	person
rural			
during 2017-18	36.7	24.0	30.6
during 2014	31.7	19.2	25.6
during 2007-08	23.6	12.2	17.9
urban			
during 2017-18	63.1	51.6	57.5

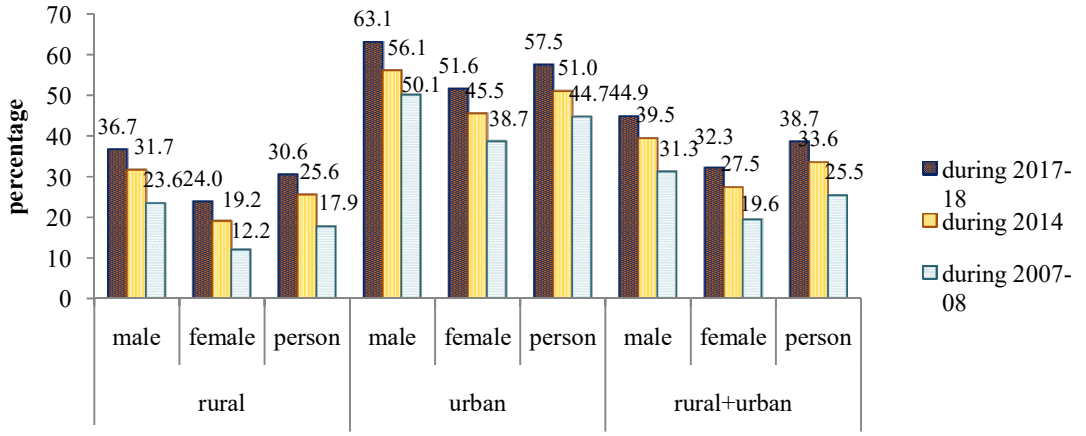

Statement 3.5: Percentage of persons of age 15 years and above with highest level of education secondary and aboveduring 2017-18, 2014 (NSS 71st round) and 2007-08 (NSS 64thround)

all-India

highest level of education secondary and above	percentage		
	male	female	person
during 2014	56.1	45.5	51.0
during 2007-08	50.1	38.7	44.7
rural+urban			
during 2017-18	44.9	32.3	38.7
during 2014	39.5	27.5	33.6
during 2007-08	31.3	19.6	25.5

Ref: 1. for 2007-08: NSS Report No. 532: Education in India, 2007-08: Participation and Expenditure
2. for 2014 NSS Report No. 575: Education in India; 3.Table 15, Appendix A for 2017-18

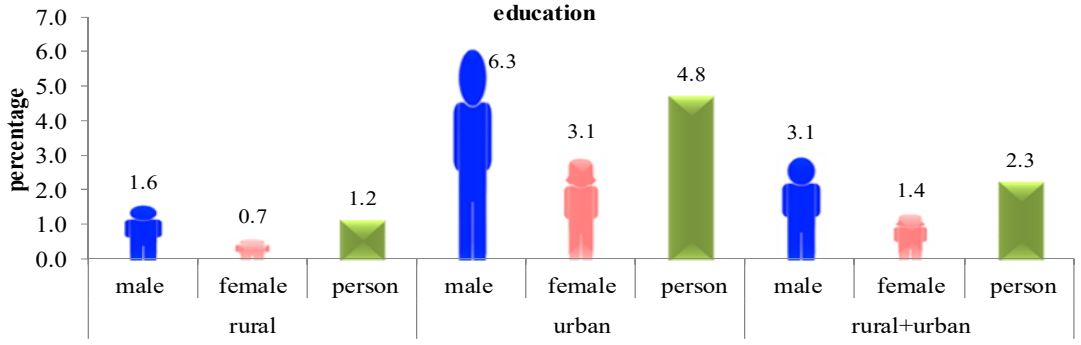

Fig. 3.4: Percentage of persons with highest level of education secondary and above among persons of age 15 years and above

Ref: Table 15, Appendix A

*3.2.4***Technical Education:**Besides the highest level of general education completed by the household members, information on the highest level of technical education achieved by the members of the household was also recorded. As per the All India Council for Technical Education Act, 1987, technical education means programmes of education, research and training in fields of Engineering and Technology, Architecture, Town Planning, Management, Pharmacy and Applied Arts & Crafts. It may be noted that as per *Ministry of Human Resource Development, the Technical education generally pertains to higher education*. In case of school education (up to secondary level) it is a part of vocational education. Percentage of persons of age 15 years and above with technical education is presented in Figure 3.5.

Fig. 3.5: Percentage of persons of age 15 years and above with technical education

Ref: Table 16, Appendix A

3.2.5 **Average number of years in formal education***:* For each person whose highest level of completed education is 'below primary' or above, information was collected on class/grade completed starting from class/grade I to XII and year(s) of formal education completed after the class/grade completed. From the information collected on class/grade completed and number of year(s) of formal education completed after the class/grade completed, number of years in formal education was derived as the total of numeric value of class/grade completed and number of years of formal education completed after the class/grade completed.

Statement 3.6: Average number of years completed in formal education by persons with level of education pre-primary and above

all-India

description	average number of years in formal education		
	male	female	person
rural			
persons of age 15 years and above	9.2	8.6	9.0
persons of age 25 years and above	8.8	7.9	8.4
urban			
persons of age 15 years and above	11.2	10.6	10.9
persons of age 25 years and above	11.1	10.3	10.8
rural+urban			
persons of age 15 years and above	9.9	9.4	9.7
persons of age 25 years and above	9.7	8.9	9.3

Ref: Table 17, Appendix A

Note: 1. Average number of years completed in formal education among persons of age 15 years and above for differentStates is given in Statement 3.6.1.
2. Average number of years completed in formal education among persons of age 25 years and above for differentStates is given in Statement 3.6.2.

3.2.6 Status of vocational/technical training: Information was collected for persons of age 12 to 59 years on vocational/technical training received/receiving. If a person had already received some vocational/technical training, formal or other than formal, and also currently receiving some formal vocational/technical training, then the vocational/technical training already received was recorded for him/her. In case, a person had received one or more formal

vocational/technical training as well as one or more vocational/technical training other than formal, then that person was classified as received formal vocational/technical training.Percentage distributions of persons of age 15 to 29 years and 15 to 59 years by status of vocational/technical training are presented in Statement 3.7 and Statement 3.8 respectively.

Statement 3.7: Percentage distribution of persons of age 15 to 29 years by status of vocational/technical training

all-India

status of vocational/technical training	percentage		
	male	female	person
rural			
receiving formal vocational/ technical training	1.3	0.5	0.9
received formal vocational/technical training	1.6	0.8	1.2
received vocational/technical training other than formal vocational/technical training	3.2	1.2	2.4
did not receive vocational/technical training	93.8	97.4	95.6

3.3 Indicators relating to enrolment and attendance: Indicators relating to enrolment and current attendance for persons of age 3 to 35 years are presented in this section. Information on enrolment status was collected for persons of age 3 to 35 years.In addition to enrolment in formal education, enrolment in the non-formal system of education which are implemented through various programs by government or other agencies were also considered within the coverage of 'education' in the survey. The non-formal education included '*Non-formal Education Centre*' (NFEC), 'Total *Literacy Campaign*' (TLC), '*Adult Education Centres*' (AEC) and *other non-formal education*.

3.3.1 Enrolment status during 2017-18: In NSS 75th round, information on enrolment status was collected for persons of age 3 to 35 years. The persons of age 3 to 35 years are classified in enrolment status as 'never enrolled', 'enrolled in the past academic year and currently not attending', 'enrolled in the current academic year and currently not attending' and 'currently attending'.

Statement 3.9: Percentage distribution of persons of age 3 to 35 years by enrolment status

all-India

enrolment status	percentage		
	male	female	person

Chapter Four

Participation and Expenditure on Education

Chapter Four

Participation and Expenditure on Education

4.0 In this Chapter, different aspects of participation and expenditure on education in the basic course among students of age 3 to 35 years are presented. Information on types of course, types of institution, expenditure on education, etc. were collected for students of age 3 to 35 years currently attending at pre-primary and above level of education. Thus, in this Chapter, the estimates pertaining to participation and expenditure on education are presented for students of age 3 to 35 years currently attending at pre-primary and above level of education.

4.1 Participation in Education

*4.1.1 Gross enrolment ratio (GER):*For each level of education, GER is the ratio of the number of persons currently enrolled in the level of education to the number persons in the corresponding official age-group. For example, for level of education 'I-V', GER is defined as,

$$\frac{\text{Number of persons currently enrolled in Classes I-V}}{\text{Estimated population in the age-group 6-10 years}} \times 100$$

For the remaining levels of education, the official age-groups are taken as follows:

- upper primary/middle (VI-VIII): 11-13 years
- secondary (IX-X): 14-15 years
- higher secondary (XI-XII): 16-17 years
- post higher secondary: 18-23 years

In GER for a particular level of education, the denominator consists of all persons in the official age-group for that level, while the numerator consists of the persons who are currently enrolled in that particular level (incl. persons outside the official age-group for that level of education). Therefore, GER may exceed 100 for some levels of education.The population estimates to calculate the GER were derived from the design based estimates of this survey. Estimates of Gross Enrolment Ratio for different levels of education are given in Statement 4.1.

Statement 4.1: Gross Enrolment Ratio (GER) at different levels of education

all-India

levels of education	Gross Enrolment Ratio (GER)		
	male	female	person
rural			
primary level	102.1	100.3	101.3
upper primary/middle level	95.7	95.0	95.4
primary and upper primary/middle level	99.8	98.4	99.1
secondary level	86.3	83.5	85.0

Statement 4.1: Gross Enrolment Ratio (GER) at different levels of education

all-India

levels of education	Gross Enrolment Ratio (GER)		
	male	female	person
higher secondary level	67.4	62.0	65.0
post higher secondary level	21.1	15.9	18.6
	urban		
primary level	102.7	102.3	102.5
upper primary/middle level	95.1	94.3	94.7

higher secondary level	71.3	66.7	69.2
post higher secondary level	25.2	21.1	23.2

Ref: Table 34, Appendix A

4.1.2Net enrolment ratio (NER): For each level of education, NER is the ratio of the number of persons in the official age-group currently enrolled in a particular level of education to the total number persons in that age-group. For example, for level of education 'I-V' NER is,

$$\frac{\text{Number of persons of age 6-10 years currently enrolled in Classes I-V}}{\text{Estimated population in the age-group 6-10 years}} \times 100$$

For the remaining levels of education the official age-groups are taken as follows:

- upper primary/middle (VI-VIII): 11-13 years
- secondary (IX-X): 14-15 years
- higher secondary (XI-XII): 16-17 years
- post higher secondary: 18-23 years

The population estimates to calculate the NER were derived from the design based estimates of this survey.Estimates of Net Enrolment Ratio for different levels of education are given in Statement 4.2.

Statement 4.2: Net Enrolment Ratio (NER) at different levels of education

all-India

levels of education	Net Enrolment Ratio (NER)		
	male	female	person
	rural		
primary level	86.7	84.9	85.9
upper primary/middle level	72.2	70.7	71.5
primary and upper primary/middle level	89.8	87.7	88.9
secondary level	56.7	55.2	56.0
higher secondary level	40.4	39.2	39.9
post higher secondary level	17.9	13.4	15.8
	urban		
primary level	87.8	86.3	87.2
upper primary/middle level	73.5	75.0	74.2

Statement 4.2: Net Enrolment Ratio (NER) at different levels of education			all-India
levels of education	**Net Enrolment Ratio (NER)**		
	male	**female**	**person**
primary and upper primary/middle level	90.4	88.8	89.7
secondary level	61.5	64.4	62.8
higher secondary level	53.2	52.4	52.8
post higher secondary level	29.3	27.8	28.6
	rural+urban		
primary level	86.9	85.3	86.2
upper primary/middle level	72.5	71.8	72.2
primary and upper primary/middle level	90.0	88.0	89.1
secondary level	57.9	57.5	57.7
higher secondary level	44.0	42.7	43.4
post higher secondary level	21.3	17.7	19.6
Ref: Table 35, Appendix A			

4.1.3Gross attendance ratio (GAR) for different levels of education: For each level of education, GAR is the ratio of the number of persons attending in the level of education to the number persons in the corresponding official age-group. For example, for level of education 'I-V', GAR is defined as,

$$\frac{\text{Number of persons attending Classes I-V}}{\text{Estimated population in the age-group 6-10 years}} \times 100$$

For the remaining levels of education the official age-groups are taken as follows:

- upper primary/middle (VI-VIII): 11-13 years
- secondary (IX-X): 14-15 years
- higher secondary (XI-XII): 16-17 years
- post higher secondary: 18-23 years

In GAR for a particular level of education, the denominator consists of all persons in the official age-group for that level, while the numerator consists of the persons who areattending in that particular level (including persons outside the official age-group for that level of education). Therefore, GAR may exceed 100 for some levels of education.The population estimates to calculate the GAR were derived from the design based estimates of this survey. In Statement 4.3, GAR for different levels of education are presented.

Statement 4.3: Gross Attendance Ratio (GAR) at different levels of education			all-India
levels of education	**Gross Attendance Ratio (GAR)**		
	male	**female**	**person**

*4.1.4Net attendance ratio (NAR)for different levels of education:*For each level of education, NAR is the ratio of the number of persons in the official age-group attending a particular level of education to the total number persons in that age-group. For example, for level of education 'I-V' NAR is,

$$\frac{\text{Number of persons of age 6-10 years currently attending Classes I-V}}{\text{Estimated population in the age-group 6-10 years}} \times 100$$

For the remaining levels of education the official age-groups are taken as follows:

- upper primary/middle (VI-VIII): 11-13 years
- secondary (IX-X): 14-15 years
- higher secondary (XI-XII): 16-17 years
- post higher secondary: 18-23 years

The population estimates to calculate the NAR were derived from the design based estimates of this survey.

4.2 Current attendance at pre-primary and above level of education for persons of age 3 to 35 years: Indicators relating to percentage of studentsof age 3 to 35 years currently attending education, their distribution by different levels of education, by type of course, type of institution, etc. are presented in this section. Various indicators relating to current attendance and expenditure on education discussed in this Chapter relate to the students of age 3 to 35 years currently attending at pre-primary and above level of education only.

4.2.1 Level of current attendance: In Statement 4.7, percentage of students of age 3 to 35 years currently attending education at pre-primary and above level of education are presented. In this Statement, those currently attending at non-formal education like Non-formal Education Centre' (NFEC*),* 'Total Literacy Campaign' (TLC), 'Adult Education Centres' (AEC), etc., are not included.

4.4 Current attendance by type of institution: Type of institutionrefers to the type of management by which the institution is run. The types of Institutionsconsidered for the survey were: (a) Government, (b) Private aided and (c) Private unaided. If the informant was not in a position to provide information on type of institution, it was classified as 'not known'.In NSS 75th round, information on type of institution of current attendance corresponding to the basic course was collected for students of age 3 to 35 years who were attending formaleducation at pre-primary level and above. Percentage distribution of students by type of institution in which currently attending education, is presented in Statement 4.14.

Statement 4.14 (R): Percentage distribution of students by type of institution in which currently attending education

4.7Medium of Instruction and Language spoken at home: Medium of instruction is the language through which subjects other than 'languages' (like Hindi, English, etc.) are taught in the school. It is not necessarily the language used by the teachers to teach/explain the subjects but language of the study material (like books, notes, etc.). In case, more than one language was used in different subjects then the language used for maximum number of subjects was treated as medium of instruction. In this survey, information on language mainly spoken at home was also collected.If the language spoken at home by the household member is any of the languages as given in column 1 of Statement 4.17or a variant of that language with local dialect, the corresponding language was considered. For the students currently attending at pre-primary, primary, upper primary/middle, secondary and higher secondary, percentage of students with medium of instruction English or the same as that of language spoken at home for each language mainly spoken at home for different levels of attendance is presented in Statement 4.17. In this Statement the estimates are presented for persons considering rural and urban areas together.

Statement 4.17: Percentage of students with medium of instruction English or the same as the language spoken at home for each language mainly spoken at home for different levels of attendance

4.10Scholarship/stipend/reimbursement: Scholarship/ stipend/reimbursement in cash are given to students to further their education. The financial aid of these types are given to a student is not to be repaid by the student to the giver. Information was collected on whether the student received or was due to receive any such benefit during the current academic year with respect to the basic course. It may be noted that financial aid in the form ofloan was not considered as scholarship and scholarship/stipend/reimbursement received/receivable from individuals was also not considered as scholarship received by the student.

Estimates of percentage of students of age 3 to 35 years who receivedscholarship/stipend/reimbursement with respect to the basic coursein the current academic year are presented in this section.

4.10.1 Scholarship/stipend/reimbursement by level of education: In Statement 4.21, percentage of students who received *scholarship/stipend/reimbursement is presented by level of education*.

This includes diploma/certificate also.
2. Percentage of students of age 3 to 35 years currently attending education at pre-primary and above level reporting that free mid-day meal/tiffin/nutrition was provided by the institution for differentStates is given in Statement 4.28.1

4.14 Use of public transport to attend school/institution and receipt of concession: Information on the mode of transportation to/from school/institution used by the studentto attend the basic course in the current academic year was collected and those using public transport, information was collected on whether received concessionfor availing the same. If more than one mode of transport was used, then the one, which covered the longest distance, was considered as the transport used to attend school/institution.

Public transport is a shared passenger-transport service which is available for use by the general public, as distinct from modes such as taxicab, carpooling, or hired buses. Public transport includes buses, trams, trains, metro trains and ferries. It, therefore, includes both government as well as private transport facilities, regulated by State Authority. Sometimes students are entitled to get concessional fare in public transport for attending educational institutions. If the students have more or less regularly availed the concession, it was considered as receipt of concession.

Percentage distribution of students by different modes of transport used for attending the basic course in the school/institution in the current academic yearalong with percentage of students using public transport who received concessionare given in Statement 4.29.

Statement 4.29: Percentage distribution of students by different modes of transport used for attending school/institution and percentage of students using public transport who received concession

4.17 Expenditure on education: Indicators relating to expenditureon basic course during the current academic year, expenditure on courses other than basic course during the current academic year and expenditure on preparation for higher/additional studies during last 365 days are presented for students of age 3 to 35 years are presented in this section.

In NSS 75th round, students residing in students' hostels were listed as a *single member household* as is done in usual NSS rounds and expenditure on education was collected from the students forming such single member household. In NSS 71st round, students residing in students' hostels were considered as members of the household to which they belonged to before moving to the hostel and expenditure on education for such students was collected from the households in which the students were listed. In NSS 71st round when item-wise break-up of expenditure on education could not be obtained in spite of best efforts by the field officials, total expenditure was collected. In NSS 75th round, expenditure on education was reported item-wise.

For comparability of the estimates of expenditure on education for the basic course between NSS 75th round and NSS 71st the differences in definition of households, coverage of education as detailed in Para. 1.5 of Chapter One may also be referred to.

4.17.1Expenditure on education for the basiccourse: Expenditures on education for the basic course during the current academic year included those that were incurred/to be incurred by the household itself, by other households or by any institutions/organizations other than

Government. Average expenditure on basic course per studentseparately for those pursuing general course and pursuing technical/ professional course are presented.Average expenditure on education per student pursuing any course is also presented.

Statement 4.32: Expenditure(Rs.) per student on education relating to basic course during the current academic year

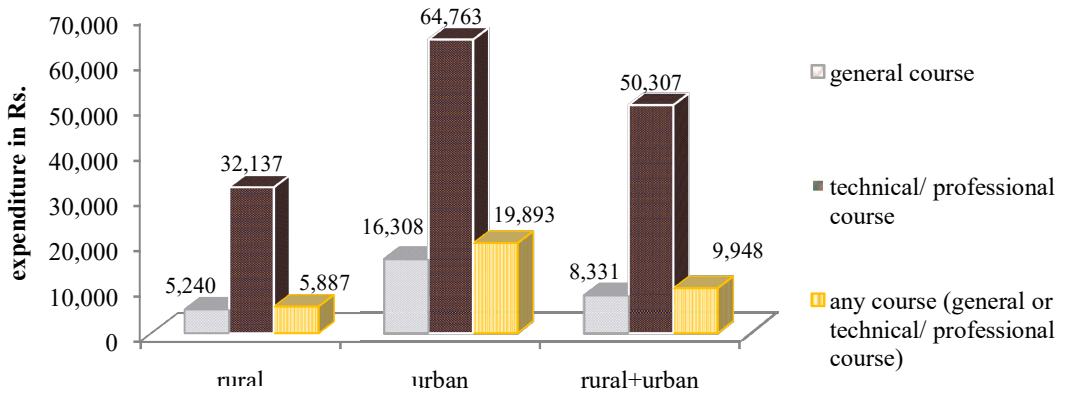

all-India

type of course	average expenditure (Rs.)		
	male	female	person

*4.17.7Expenditure on education on courses other than the basic course and on preparation for higher/additional studies:*If a student of age 3 to 35 years currently attending education at pre-primary and above level is also pursuing 'education' in any course(s) other than the basic course, aggregate expenditure incurred/to be incurred in the current academic year on such course(s) was recorded.

For taking preparation for higher studies, students may incur expenses on specialised coaching, books, stationery, transport, etc. Expenditure on preparation for such higher/additional studies during the last 365 days by the students of age 3 to 35 years currently attending at pre-primary and above level of education were also recorded.

For calculation of average expenditure per student*on courses other than basic course and on preparation for higher/additional studies,*students who reported expenditure in such caseswere considered.

Statement 4.43: Average expenditure on education per student in courses other than basic course during the current academic year and average expenditure on education per student on preparation for higher/additional studies during last 365 days

all-India

Indicator	male	female	person
rural			
Percentage of students reporting expenditure in courses other than basic course during the current academic year	0.9	0.6	0.8
Average expenditure (Rs.) per student reporting expenditure in courses other than basic course during the current academic year	3,463	3,173	3,368
Percentage of students reporting expenditure on preparation for higher/ additional studies during last 365 days	0.5	0.4	0.5
Average expenditure (Rs.) per student reporting expenditure on preparation for higher/additional studies during last 365 days	4,473	3,162	4,035

Statement 4.43: Average expenditure on education per student in courses other than basic course during the current academic year and average expenditure on education per student on preparation for higher/additional studies during last 365 days

all-India

Indicator	male	female	person
urban			
Percentage of students reporting expenditure in courses other than basic course during the current academic year	1.4	1.5	1.4
Average expenditure (Rs.) per student reporting expenditure in courses other than basic course during the current academic year	5,850	5,565	5,718
Percentage of students reporting expenditure on preparation for higher/ additional studies during last 365 days	1.1	0.9	1.0
Average expenditure (Rs.) per student reporting expenditure on preparation for higher/additional studies during last 365 days	16,343	14,077	15,431

Chapter Five

Persons Currently Not Attending Education

Chapter Five

Persons Currently Not Attending Education

5.0 In this Chapter various indicators for persons of age 3 to 35 years who are not currently attending education are presented. These are the persons who either never enrolled or ever enrolled but are currently not attending.

In respect of ever enrolled persons who are currently not attending, estimates related to reason for currently not attending,preparation for higher/ additional studies and related expenditure, drop-outs are presented in this chapter. In respect of persons who never enrolled, estimates on reason for never enrolling are also presented.

5.1Persons who ever enrolled but currently not attending and persons who never enrolled

*5.1.1Persons who ever enrolled but currently not attending for each quintile class of Usual Monthly Per Capita Expenditure (UMPCE):*In Statement 5.1, percentage of persons who were ever enrolled but currently not attending among persons of age 3 to 35 years are presented for each quintile class of UMPCE.

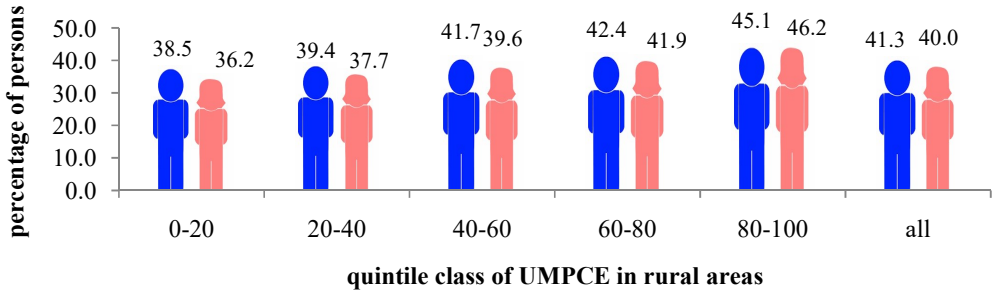

Statement 5.1: Percentage of persons who ever enrolled but currently not attending among persons of age 3 to 35 years for each quintile class of UMPCE

all-India

UMPCE Quintile Class	percentage	
	male	female

Chapter Six

Erstwhile members of the households who are currently attending education

Chapter Six

Erstwhile Members of the Households Who Are Currently Attending Education

6.0 From the households surveyed in NSS 75th round it was ascertained whether any erstwhile member of age 3 to 35 years of the household was currently attending education. Erstwhile members of a household are those who were members of the selected household sometime in the past. Information was collected on various aspects of current attendance and total expenditure (on education as well as any other expenditure) incurred/to be incurred by the household for those erstwhile members during the current academic year.For the erstwhile members, information on current attendance was collected considering different formal and non-formal system of education. The non-formal education included 'Non-formal Education Centre' (NFEC),'Total Literacy Campaign' (TLC), 'Adult Education Centres' (AEC) and other non-formal education. Due to small sample size, the estimates in this Chapter are presented only at the all-India level.

6.1 Households reporting erstwhile members of age 3 to 35 years currently attending education and average expenditure incurred per household on such erstwhile members: In Statement 6.1,percentage of households reporting erstwhile members of age 3 to 35 years currently attending education and average expenditure incurred per household on such erstwhile members are presented.

Statement 6.1: Percentage of households reporting erstwhile members of age 3 to 35 years currently attending education and average expenditure (Rs.) incurred per household on such erstwhile members

all-India

Indicator	sector of erstwhile residence		
	rural	urban	rural+urban
Percentage of households reporting erstwhile member of age 3 to 35 years of the household currently attending education	1.9	1.2	1.7
Percentage of households reporting expenditure incurred/to be incurred (on education as well as any other expenditure)on erstwhile member	88.1	90.1	88.6
Average expenditure (Rs.) incurred/to be incurred (on education as well as any other expenditure)on erstwhile member per household reporting expenditure on erstwhile member	41,079	1,00,693	55,186

Ref: Table 9, Appendix A

6.2 Distribution of households by number of erstwhile members of age 3 to 35 years currently attending education: In Statement 6.2, percentage distribution of households reporting erstwhile members of age 3 to 35 years currently attending education are presented by number of such erstwhile members.

Statement 6.2: Percentage distribution of households reporting erstwhile members of age 3 to 35 years currently attending education by number of such erstwhile members

all-India

number of erstwhile members currently attending education	sector of erstwhile residence		
	rural	urban	rural+urban

Chapter Seven

Information and Communications Technology

Chapter Seven

Access and Use of Information and Communications Technology

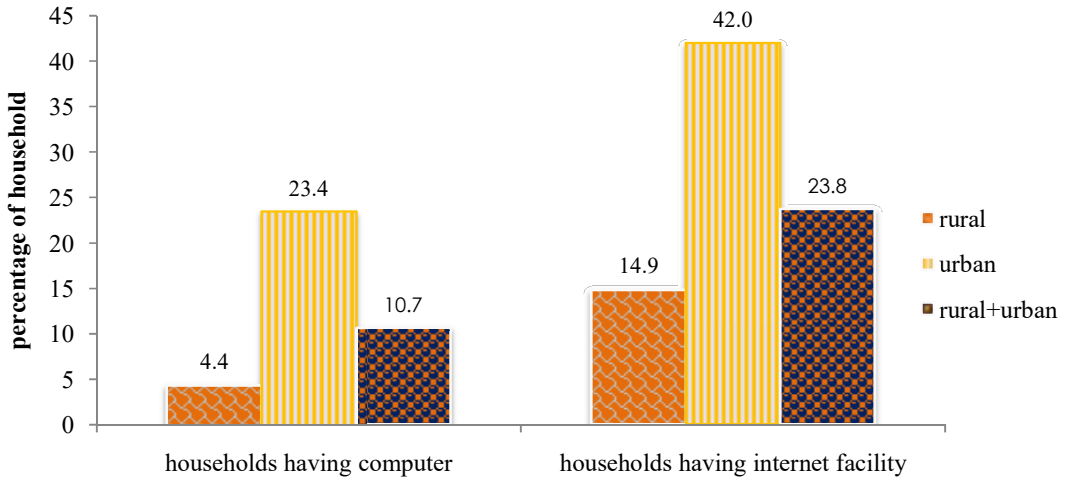

7.0NSS 75th round,information on some aspects of Information and CommunicationsTechnology (ICT) was collected with regard to their access and use. At the household level, information was collected on (i) whether the household had computer and (ii) internet facility while for each person of age 5 years and above information was collected on their (i) ability to operate computer, (ii) ability to use internet and (iii) use of internet during last 30 days.

For this survey, computer included devices like, desktop computer, laptop computer, notebook, netbook, palmtop, tablet (or similar handheld devices). However, Smartphone was not considered as computer.If a household member of age 5 years and above used internet to find, evaluate and communicate information from any location during the last 30 days preceding the date of survey, *via* any device, like, desktop, laptop, palmtop, notebook, netbook, smartphone, tablets, etc. it was considered as use of internet.

7.1Households with computer and internet facility

7.1.1 Households with computer and internet facility: In Statement 7.1, percentage of households with computer and internet facility are presented.These are also visualised in Fig.7.1. Household with internet facility meant that Internet was generally available for use by all members of the household at any time, regardless of whether it was actually used. The connection and devices may or may not be owned by the household but both should be possessed by the household.

Fig.7.1: Percentage of households with computer and internet facility

Ref: Tables 7 & 8, Appendix A

Statement 7.1: Percentage of households with computer and internet facility			
			all-India
Indicator	**percentage**		
	rural	**urban**	**rural+urban**
households having computer	4.4	23.4	10.7
households having internet facility	14.9	42.0	23.8
Ref: Tables 7 & 8, Appendix A			
Note: Percentage of households with computer and internet facility for differentStates is given in Statement 7.1.1			

7.1.2Households with computer ineach quintile class of Usual Monthly per Capital Expenditure: In Statement 7.2, percentage of households with computer in each quintile class of UMPCE is presented.

Statement 7.2: Percentage of households with computer for each quintile class of Usual Monthly per Capital Expenditure		
		all-India
UMPCE Quintile Class	**percentage**	
	rural	**urban**
0-20	1.6	7.5
20-40	2.4	9.9
40-60	3.3	16.0

80-100	9.9	45.5
all	4.4	23.4
Ref: Table 7, Appendix A		
Note: Percentage of households with computer for each quintile class of Usual Monthly per Capital Expenditure for different States is given in Table 7.2.1		

7.1.3Households having internet facilityineach quintile class of Usual Monthly per Capital Expenditure: In Statement 7.3, percentage of households with internet facilityin each quintile class of UMPCE is presented.

Statement 7.3: Percentage of households having internet facility for each quintile class of Usual Monthly per Capital Expenditure		
		all-India
UMPCE Quintile Class	**percentage**	
	rural	**urban**
0-20	6.6	19.8
20-40	9.2	29.4
40-60	12.4	38.0
60-80	15.0	46.3
80-100	27.1	61.6
all	14.9	42.0
Ref: Table 8, Appendix A		
Note: Percentage of households having internet facility for each quintile class of Usual Monthly per Capital Expenditure for different States is given in Statement 7.3.1		

7.2 Ability to operate computer, ability to use internet and use of internet during last 30 days for persons of age 5 years and above

For persons of age 5 years and above, information was collected on whether they were able to operate computer, their ability to use internet and whether used internet during last 30 days.For this survey, computer included devices like, desktop computer, laptop computer, notebook, netbook, palmtop, tablet (or similar handheld devices). However, Smartphone was not considered as computer

*7.2.1Ability to operate computer among persons of age 5 years and above:*If a person of age 5 years and above was able to carry out any of the tasks given below usinga computer, he/she was considered as able to operate computer:

- Copying or moving a file or folder
- Using copy and paste tools to duplicate or move information within a document
- Sending e-mails with attached files (e.g. document, picture, and video)
- Using basic arithmetic formulae in a spreadsheet
- Connecting and installing new devices (e.g. modem, camera, printer)
- Finding, downloading, installing and configuring software
- Creating electronic presentations with presentation software (including text, images, sound, video or charts)
- Transferring files between a computer and other devices
- Writing a computer program using a specialised programming

In Statement 7.4, percentages of persons of age 5 years and above who are able to operate computer for different age groups are given.

Statement 7.4: Percentage of persons of age 5 years and above who able to operate a computer

all-India

age of the person	percentage

Chapter Eight

Status of Education of Social and Religious Groups

Chapter Eight

Status of Education of Social and Religious Groups

8.0 In NSS surveys, religion and social group are considered as household characteristics. Accordingly, information on the religion and social group was collected only in respect of the head of the household. The religion/ social group of the head of the household, as reported by the informant, was considered as the religion/ social group of the entire household irrespective of the actual religion/ social group individual members are belonging to.

It may be noted that the scope of the survey being all households without special focus on social groups or religious groups, sample design was not tailored to netting in households belonging to special social groups or religious groups.Thus the reliability of the results based on social groups/ religious groups is critically dependent on the sample size of households of different social groups/religious groups which happened to be netted in a general-purpose representative sample of households.It may be noted that the number of sample households for a particular social group /religious group in a State/UT may not be adequate enough in providing sufficiently reliable estimates of the various indicators and therefore, the estimates for the social groups/ religious groups in this report are only presented at all-India level.This caution is sounded upfront for the interpretation of state level results for social groups/ religious groups.

In this chapter, some of the important indicators on the status of education such as literacy rate, Gross Attendance Ratio (GAR), Net Attendance Ratio (NAR), Age-Specific Attendance Ratio (ASAR), percentage of never enrolled persons and percentage of ever enrolled persons are presented for different social and religious groups.

The social groups considered for the survey are Scheduled Tribes (ST), Scheduled Castes (SC), Other Backward Classes (OBC) and others.

The different religious groups on which estimates are presented in this Report are Hinduism, Islam, Christianity and Sikhism. All religious groups also include Jainism, Buddhism, Zoroastrianism and others.

The information recorded in this regard was based entirely on the response of the informant and not based on any state or central level list of the social group/ religious group.

8.1: Literacy rates (%) of Social and Religious Groups: Literacy rate is defined as the percentage of literate persons among persons of age 7 years and above. A person who can read and write a simple message in any language with understanding is considered *literate* in NSS surveys.

8.1.1 The literacy rates (%) of persons aged 7 years or more for different social groups are presented in Statement 8.1.

Statement 8.1: Percentage of literates (age 7 years& above) by social group

all-India

social group	rural		urban		rural + urban	
	male	female	male	female	male	female
ST	75.6	58.8	91.3	79.6	77.5	61.3
SC	78.0	60.9	88.4	75.3	80.3	63.9
OBC	81.7	64.2	91.1	80.5	84.4	68.9
others	87.6	74.5	95.0	88.6	90.8	80.6
all (incl. n.r.)	81.5	65.0	92.2	82.8	84.7	70.3

Ref: Table 14B, Appendix A

8.1.2 The literacy rates (%) of persons aged 7 years or more for different religious groups are presented in Statement 8.2.

Statement 8.2: Percentage of literates (age 7 years & above) by religious groups

all-India

religious group	rural		urban		rural + urban	
	male	female	male	female	male	female
Hinduism	81.8	64.5	93.4	83.8	85.1	70.0
Islam	77.4	64.8	85.8	75.6	80.6	68.8
Christianity	84.4	77.0	95.5	91.4	88.2	82.2
Sikhism	85.3	72.1	94.2	88.7	87.3	75.9
all (incl. n.r.)	81.5	65.0	92.2	82.8	84.7	70.3

Ref: Table 14A, Appendix A

Note: 'all' includes Jainism, Buddhism, Zoroastrianism and others

8.2: Gross Attendance Ratio (GAR) for different levels of Education for different Social and Religious Groups: For each level of education, GAR is the ratio of the number of persons attending in the level of education to the number persons in the corresponding official age-group. For example, for level of education 'I-V',GAR is defined as

$$\frac{\text{Number of persons attending Classes I-V}}{\text{Estimated population in the age-group 6-10 years}} \times 100$$

For the remaining levels of education, the official age-groups are taken as follows:

- upper primary/middle (VI-VIII): 11-13 years
- secondary (IX-X): 14-15 years
- higher secondary (XI-XII): 16-17 years
- post higher secondary: 18-23 years

In GAR for a particular level of education, the denominator consists of all persons in the official age-group for that level, while the numerator consists of the persons who areattending in that particular level (including persons outside the official age-group for that level of education). Therefore, GAR may exceed 100 for some levels of education.

8.2.1 In Statement 8.3, GAR for different levels of education are presented for different social groups.

Note: 'all' includes Jainism, Buddhism, Zoroastrianism and others

8.3 Net attendance ratio (NAR) for different levels of education for different social and religious groups: For each level of education, NAR is the ratio of the number of persons in the official age-group attending a particular level of education to the total number persons in that age-group. For example, for level of education 'I-V' NAR is,

$$\frac{\text{Number of persons of age 6-10 years currently attending Classes I-V}}{\text{Estimated population in the age-group 6-10 years}} \times 100$$

For the remaining levels of education, the official age-groups are taken as follows:

- upper primary/middle (VI-VIII): 11-13 years
- secondary (IX-X): 14-15 years
- higher secondary (XI-XII): 16-17 years
- post higher secondary: 18-23 years

8.3.1 The NAR for different levels of education is presented for different social groups are presented in Statement 8.5.

Detailed Tables

Appendix A: Detailed Tables

Table No.	Title
1	Number of villages/ blocks, households and persons surveyed for each State/ UT
2	Lower and upper limit (Rs.) of each quintile class of UMPCE for each state/UT
3	Number of persons surveyed by age and gender for each State/ UT
4	Estimated number of households and persons by age and gender for each State/ UT
5	Percentage distribution of households by distance to nearest school having primary, upper primary and secondary level classes for each State/UT
6	Percentage distribution of households for each quintile class of UMPCE for each State/UT
7	Percentage of households having computer for each quintile class of UMPCE for each State/UT
8	Percentage of households having internet facility for each quintile class of UMPCE for each State/UT
9	Percentage of households reporting erstwhile member* and their distribution by number of such erstwhile members for each State/UT
10	Percentage distribution of erstwhile member* by location and type of the present place of residence for each State/UT
11	Percentage distribution of students of age 3 to 35 years who are staying away from their erstwhile households by present place of residence for each State/UT of erstwhile residence
12	Average expenditure incurred per erstwhile household member* for different level of current enrolment by location and type of the present place of residence for each State/UT
13	Percentage distribution of persons by general education level for each quintile class of UMPCE
14A: 7+	Percentage distribution of persons of age 7 years and above by general education level for each religious group
14A: all	Percentage distribution of persons of all ages by general education level for each religious group
14B: 7+	Percentage distribution of persons of age 7 years and above by general education level for each social group
14B: all	Percentage distribution of persons of all ages by general education level for each social group
15	Percentage distribution of persons by general education level for each age-group
16	Percentage distribution of persons of age 15 years & above by technical educational level for each age-group
17	Average number of years (0.0) in formal education by persons of different age-groups for each State/ UT
18	Percentage of persons (aged 5 years and above) by ability to operate computer, ability to use internet and use of internet for different age-groups
19	Percentage of households with at least one household member with certificate of disability for each State/UT

Table No.	Title
20	Percentage of persons with certificate of disability and their percentage distribution by type of disability for each State/UT
21	Percentage distribution of persons by vocational/technical training received/ receiving for each State/ UT
22	Percentage distribution of persons in the age group 12-59 years who received formal vocational/technical training by type of training and duration of training for each field of the training
23	Percentage distribution of persons in the age group 12-59 years who received formal vocational/technical training by source of funding the training for each field of training
24	Percentage distribution of persons in different age groups by status of enrolment for each State/UT
25	Percentage distribution of persons of different age group by status of enrolment and level of current attendance for each State/UT
26	Percentage distribution of persons of age 3-35 years by status of enrolment and level of current attendance for each Social Group
27	Percentage distribution of persons of age 3-35 years by status of enrolment and level of current attendance for each religious group
28	Percentage distribution of persons of age 3-35 years by status of enrolment and level of current attendance for each quintile class of UMPCE
29	Estimated and sample number of persons by level of current educational attendance for different age-group
30	Percentage distribution of students by level of current attendance for each type of course currently attending
31	Percentage distribution of students by level of current attendance for each type of course currently attending for each social group
32	Percentage distribution of students by level of current attendance for each type of course currently attending for each religious group
33	Percentage of students staying in hostel (forming single member household) and their percentage distribution by level of current attendance for each State/UT of the location of hostel
34	Gross Enrolment Ratio by different level of current enrolment for each State/UT
35	Net Enrolment Ratio by different level of current enrolment for each State/UT
36	Gross Attendance Ratio among students by different level of current attendance for each State/UT
37	Gross Attendance Ratio among students by different level of current attendance for each Social Group
38	Gross Attendance Ratio among students by different level of current attendance for each Religious group
39	Gross Attendance Ratio among students by different level of current attendance for each quintile class of UMPCE
40	Net Attendance Ratio by different level of current attendance for each State/UT
41	Net Attendance Ratio by different level of current attendance for each Social Group
42	Net Attendance Ratio by different level of current attendance for each Religious Group

Table No.	Title
43	Net Attendance Ratio by different level of current attendance for each quintile class of UMPCE
44	Age specific current attendance ratio for students of different age groups for each State/UT
45	Age specific current attendance ratio for students of different age groups for each Social Group
46	Age specific current attendance ratio for students of different age groups for each Religious Group
47	Age specific current attendance ratio for students of different age groups for each quintile class of UMPCE
48	Percentage distribution of students in private unaided institution by level of current attendance and nature of institution for each State/UT
49	Percentage distribution of students by level of current attendance and type of institution for each State/UT
50	Percentage distribution of students by type of institution and pursuing general courses for each State/UT
51	Percentage distribution of students by type of institution pursuing technical/professional courses for each State/UT
52	Percentage distribution of students by type of courses for each State/UT
53	Percentage of students attending private aided and private unaided institutions for each level of current attendance for different reasons
54	Percentage of students received free education, their percentage distribution by tuition fee paid/ payable, percentage distribution of students who partly paid/ did not pay tuition fee by reason for tuition fee waived and avg. amount of tuition fee waived per student
55	Percentage of students received scholarship/stipend/ reimbursement, their percentage distribution by agency, percentage distribution of such students by type of scholarship/stipend/reimbursement
56	Percentage of students (for those who are currently attending in pre-primary or primary level or those attending education other than distance learning) receiving free mid-meal/ tiffin/ nutrition, their percentage distribution by agency, percentage distribution of students mode of transport, percentage of students taking private coaching
57	Percentage of students received free education, scholarship/stipend/ reimbursement, received free/ subsidised textbooks, received free/ subsidised stationery, percentage of students taking private coaching, receiving free mid-meal/ tiffin/ nutrition for different levels of current attendance
58	Percentage distribution of students by mode of transport, percentage of students using public transport and received concession and percentage distribution of students by distance to the educational institution for each level of current attendance
59	Percentage distribution of students by nature of change in educational institution for different levels of current attendance
60	Percentage distribution of students by medium of instruction for different languages spoken at home and different levels of current attendance

Table No.	Title
61	Percentage of students for whom tuition fee waived, percentage of students received scholarship/stipend/ reimbursement for each quintile class of UMPCE
62	Percentage distribution of students by type of course currently attending and percentage distribution of students by duration of the current academic year for different levels of current attendance
63	Percentage distribution of persons with certificate of disability by general education level for each type of disability
64	Percentage distribution of persons of age 3 to 35 years with certificate of disability by status of enrolment and level of current attendance
65	Percentage of students with certificate of disability who received free education, scholarship/stipend/ reimbursement, received free/ subsidised textbooks, received free/ subsidised stationery, percentage of students with certificate of disability receiving free mid-meal/ tiffin/ nutrition
66	Average expenditure (Rs.) on basic course per student during current academic year pursuing general course by level of current attendance for each quintile class of UMPCE
67	Average expenditure (Rs.) on basic course per student during current academic year pursuing general course by level of current attendance for each social group
68	Average expenditure (Rs.) on basic course per student during current academic year pursuing general course by level of current attendance for each religious group
69	Average expenditure (Rs.) on basic course per student during current academic year pursuing technical/ professional course by level of current attendance for each quintile class of UMPCE
70	Average expenditure (Rs.) on basic course per student during current academic year pursuing technical/ professional course by level of current attendance for each social group
71	Average expenditure (Rs.) on basic course per student during current academic year pursuing technical/ professional course by level of current attendance for each religious group
72	Average expenditure (Rs.) on basic course per student during current academic year pursuing general course by level of current attendance for each type of institution
73	Average expenditure (Rs.) on basic course per student during current academic year pursuing technical/ professional course by level of current attendance for each type of institution
74	Average expenditure (Rs.) on basic course per student during current academic year pursuing general course by items of expenditure for each State/UT
75	Average expenditure (Rs.) on basic course per student during current academic year pursuing technical/ professional course by items of expenditure for each State/UT
76	Average expenditure (Rs.) on basic course per student during current academic year pursuing any course (general, technical/ professional) by items of expenditure for each State/UT
77	Average expenditure (Rs.) on basic course per student during current academic year pursuing general course by items of expenditure for each level of current attendance
78	Average expenditure (Rs.) on basic course per student during current academic year pursuing technical/ professional course by items of expenditure for each level of current attendance

Table No.	Title
79	Average expenditure (Rs.) on basic course per student currently attending in general course for each type of general course and type of institution
80	Average expenditure (Rs.) on basic course per student currently attending in technical/ professional course for each type of technical/ professional course and type of institution
81	Percentage of students pursuing basic course, their percentage distribution by sources of funding the expenditure, average expenditure (Rs.) per student in courses other than basic course and on higher/ additional studies
82	Percentage of students of age 15-35 years, their percentage distribution by status of participation in the labour force, percentage who worked for 30 days or more during last 365 days and their percentage distribution by status of economic activity
83	Percentage distribution of ever-enrolled persons of age 3-35 years by status of currently attending for each level of last enrolment
84	Percentage of ever-enrolled persons of age 3-35 years by status of currently attending for different age group for each completed level of education
85	Percentage distribution of persons of age 3-35 years who ever enrolled but currently not attending by reasons for currently not attending for different age groups
86	Percentage distribution of persons of age 3-35 years who ever enrolled but currently not attending by reasons for currently not attending for each quintile class of MPCE
87	Percentage distribution of persons of age 3-35 years who ever enrolled but currently not attending by reasons for currently not attending for each social group
88	Percentage distribution of persons of age 3-35 years who ever enrolled but currently not attending by reasons for currently not attending for each religious group
89	Percentage distribution of persons of age 3-35 years who never enrolled by reason for never-enrolling for each State/UT
90	Percentage distribution of persons of age 3-35 years who never enrolled by reason for never-enrolling for each quintile class of UMPCE
91	Percentage distribution of persons of age 3-35 years who never enrolled by reason for never-enrolling for each social group
92	Percentage distribution of persons of age 3-35 years who never enrolled by reason for never-enrolling for each religious group
93	Percentage distribution of person of age 3-35 years by status of enrolment for each State/UT
94	Percentage of persons* (P) and average expenditure (Rs.) per person* (A) of age 3-35 years currently not attending education who are reporting expenditure on higher/ additional studies for each State/UT

Table (1): Number of villages/ blocks, households and persons surveyed for each State/ UT

Note (i): Estimated number of households given in this Table is design based estimates and may be used as control totals for combining and arriving at rates and ratios. These figures are not intended for providing current number of households.

Note (ii) Estimated number of persons given in the above table is design based estimates and may be used as control totals for combining and arriving at rates and ratios, which can then be applied to the population projections. These figures are not intended for providing estimates of the current population.

Note (i): Estimated number of households given in this Table is design based estimates and may be used as control totals for combining and arriving at rates and ratios. These figures are not intended for providing current number of households.

Note (ii) Estimated number of persons given in the above table is design based estimates and may be used as control totals for combining and arriving at rates and ratios, which can then be applied to the population projections. These figures are not intended for providing estimates of the current population.

Note: Estimated number of students staying away from their erstwhile residence given in the above table is design based estimates and may be used as control totals for combining and arriving at rates and ratios, which can then be applied to the population projections. These figures are not intended for providing estimates of the current population of students staying away from their erstwhile residence.

Table (11): Percentage distribution of students of age 3 to 35 years who are staying away from their erstwhile households by present place of residence for each State/UT of erstwhile residence

Gender: Male **Sector of erstwhile residence: Rural** **Sector of current residence: Urban**

State/UT of erstwhile residence	present place of residence (State/UT):																																						number of students staying away from their erstwhile households

Note: Estimated number of students staying away from their erstwhile residence given in the above table is design based estimates and may be used as control totals for combining and arriving at rates and ratios, which can then be applied to the population projections. These figures are not intended for providing estimates of the current population of students staying away from their erstwhile residence.

Table (11): Percentage distribution of students of age 3 to 35 years who are staying away from their erstwhile households by present place of residence for each State/UT of erstwhile residence

Gender: Male **Sector of erstwhile residence: Rural** **Sector of current residence: Rural + Urban**

State/UT of erstwhile residence	present place of residence (State/UT):																																		number of students staying away from their erstwhile households

Note: Estimated number of students staying away from their erstwhile residence given in the above table is design based estimates and may be used as control totals for combining and arriving at rates and ratios, which can then be applied to the population projections. These figures are not intended for providing estimates of the current population of students staying away from their erstwhile residence.

Table (11): Percentage distribution of students of age 3 to 35 years who are staying away from their erstwhile households by present place of residence for each State/UT of erstwhile residence

Gender: Male **Sector of erstwhile residence: Urban** **Sector of current residence: Rural**

State/UT of erstwhile residence	present place of residence (State/UT):																																		number of students staying away from their erstwhile households

Note: Estimated number of students staying away from their erstwhile residence given in the above table is design based estimates and may be used as control totals for combining and arriving at rates and ratios, which can then be applied to the population projections. These figures are not intended for providing estimates of the current population of students staying away from their erstwhile residence.

Table (11): Percentage distribution of students of age 3 to 35 years who are staying away from their erstwhile households by present place of residence for each State/UT of erstwhile residence

Gender: Male **Sector of erstwhile residence: Urban** **Sector of current residence: Urban**

State/UT of erstwhile residence	present place of residence (State/UT):																																			number of students staying away from their erstwhile households

Note: Estimated number of students staying away from their erstwhile residence given in the above table is design based estimates and may be used as control totals for combining and arriving at rates and ratios, which can then be applied to the population projections. These figures are not intended for providing estimates of the current population of students staying away from their erstwhile residence.

Table (11): Percentage distribution of students of age 3 to 35 years who are staying away from their erstwhile households by present place of residence for each State/UT of erstwhile residence

Gender: Male **Sector of erstwhile residence: Urban** **Sector of current residence: Rural + Urban**

State/UT of erstwhile residence	present place of residence (State/UT):																																	number of students staying away from their erstwhile households

Note: Estimated number of students staying away from their erstwhile residence given in the above table is design based estimates and may be used as control totals for combining and arriving at rates and ratios, which can then be applied to the population projections. These figures are not intended for providing estimates of the current population of students staying away from their erstwhile residence.

Table (11): Percentage distribution of students of age 3 to 35 years who are staying away from their erstwhile households by present place of residence for each State/UT of erstwhile residence

Gender: Male **Sector of erstwhile residence: Rural + Urban** **Sector of current residence: Rural**

State/UT of erstwhile residence	present place of residence (State/UT):																																		number of students staying away from their erstwhile households

Note: Estimated number of students staying away from their erstwhile residence given in the above table is design based estimates and may be used as control totals for combining and arriving at rates and ratios, which can then be applied to the population projections. These figures are not intended for providing estimates of the current population of students staying away from their erstwhile residence.

Table (11): Percentage distribution of students of age 3 to 35 years who are staying away from their erstwhile households by present place of residence for each State/UT of erstwhile residence

Gender: Male **Sector of erstwhile residence: Rural + Urban** **Sector of current residence: Urban**

State/UT of erstwhile residence	present place of residence (State/UT):																																		number of students staying away from their erstwhile households

Note: Estimated number of students staying away from their erstwhile residence given in the above table is design based estimates and may be used as control totals for combining and arriving at rates and ratios, which can then be applied to the population projections. These figures are not intended for providing estimates of the current population of students staying away from their erstwhile residence.

Table (11): Percentage distribution of students of age 3 to 35 years who are staying away from their erstwhile households by present place of residence for each State/UT of erstwhile residence

Gender: Female **Sector of erstwhile residence: Rural** **Sector of current residence: Urban**

State/UT of erstwhile residence	present place of residence (State/UT):																																			number of students staying away from their erstwhile households

Note: Estimated number of students staying away from their erstwhile residence given in the above table is design based estimates and may be used as control totals for combining and arriving at rates and ratios, which can then be applied to the population projections. These figures are not intended for providing estimates of the current population of students staying away from their erstwhile residence.

Table (11): Percentage distribution of students of age 3 to 35 years who are staying away from their erstwhile households by present place of residence for each State/UT of erstwhile residence

Gender: Female **Sector of erstwhile residence: Rural** **Sector of current residence: Rural + Urban**

State/UT of erstwhile residence	present place of residence (State/UT):																																		number of students staying away from their erstwhile households

Note: Estimated number of students staying away from their erstwhile residence given in the above table is design based estimates and may be used as control totals for combining and arriving at rates and ratios, which can then be applied to the population projections. These figures are not intended for providing estimates of the current population of students staying away from their erstwhile residence.

Table (11): Percentage distribution of students of age 3 to 35 years who are staying away from their erstwhile households by present place of residence for each State/UT of erstwhile residence

Gender: Female **Sector of erstwhile residence: Urban** **Sector of current residence: Rural**

State/UT of erstwhile residence	present place of residence (State/UT):																																			number of students staying away from their erstwhile households

Note: Estimated number of students staying away from their erstwhile residence given in the above table is design based estimates and may be used as control totals for combining and arriving at rates and ratios, which can then be applied to the population projections. These figures are not intended for providing estimates of the current population of students staying away from their erstwhile residence.

Table (11): Percentage distribution of students of age 3 to 35 years who are staying away from their erstwhile households by present place of residence for each State/UT of erstwhile residence

Gender: Female **Sector of erstwhile residence: Urban** **Sector of current residence: Urban**

State/UT of erstwhile residence	present place of residence (State/UT):																																		number of students staying away from their erstwhile households

Note: Estimated number of students staying away from their erstwhile residence given in the above table is design based estimates and may be used as control totals for combining and arriving at rates and ratios, which can then be applied to the population projections. These figures are not intended for providing estimates of the current population of students staying away from their erstwhile residence.

Table (11): Percentage distribution of students of age 3 to 35 years who are staying away from their erstwhile households by present place of residence for each State/UT of erstwhile residence

Gender: Female **Sector of erstwhile residence: Urban** **Sector of current residence: Rural + Urban**

State/UT of erstwhile residence	present place of residence (State/UT):																																		number of students staying away from their erstwhile households

Note: Estimated number of students staying away from their erstwhile residence given in the above table is design based estimates and may be used as control totals for combining and arriving at rates and ratios, which can then be applied to the population projections. These figures are not intended for providing estimates of the current population of students staying away from their erstwhile residence.

Table (11): Percentage distribution of students of age 3 to 35 years who are staying away from their erstwhile households by present place of residence for each State/UT of erstwhile residence

Gender: Female **Sector of erstwhile residence: Rural + Urban** **Sector of current residence: Rural**

State/UT of erstwhile residence	present place of residence (State/UT):																																			number of students staying away from their erstwhile households

Note: Estimated number of students staying away from their erstwhile residence given in the above table is design based estimates and may be used as control totals for combining and arriving at rates and ratios, which can then be applied to the population projections. These figures are not intended for providing estimates of the current population of students staying away from their erstwhile residence.

Table (11): Percentage distribution of students of age 3 to 35 years who are staying away from their erstwhile households by present place of residence for each State/UT of erstwhile residence

Gender: Female **Sector of erstwhile residence: Rural + Urban** **Sector of current residence: Rural + Urban**

State/UT of erstwhile residence	present place of residence (State/UT):																																		number of students staying away from their erstwhile households

Note: Estimated number of students staying away from their erstwhile residence given in the above table is design based estimates and may be used as control totals for combining and arriving at rates and ratios, which can then be applied to the population projections. These figures are not intended for providing estimates of the current population of students staying away from their erstwhile residence.

Table (11): Percentage distribution of students of age 3 to 35 years who are staying away from their erstwhile households by present place of residence for each State/UT of erstwhile residence

Gender: Person **Sector of erstwhile residence: Rural** **Sector of current residence: Rural**

State/UT of erstwhile residence	present place of residence (State/UT):																																				number of students staying away from their erstwhile households

Note: Estimated number of students staying away from their erstwhile residence given in the above table is design based estimates and may be used as control totals for combining and arriving at rates and ratios, which can then be applied to the population projections. These figures are not intended for providing estimates of the current population of students staying away from their erstwhile residence.

Table (11): Percentage distribution of students of age 3 to 35 years who are staying away from their erstwhile households by present place of residence for each State/UT of erstwhile residence

Gender: Person **Sector of erstwhile residence: Rural** **Sector of current residence: Urban**

State/UT of erstwhile residence	present place of residence (State/UT):																																		number of students staying away from their erstwhile households

Note: Estimated number of students staying away from their erstwhile residence given in the above table is design based estimates and may be used as control totals for combining and arriving at rates and ratios, which can then be applied to the population projections. These figures are not intended for providing estimates of the current population of students staying away from their erstwhile residence.

Table (11): Percentage distribution of students of age 3 to 35 years who are staying away from their erstwhile households by present place of residence for each State/UT of erstwhile residence

Gender: Person **Sector of erstwhile residence: Rural** **Sector of current residence: Rural + Urban**

State/UT of erstwhile residence	present place of residence (State/UT):																																		number of students staying away from their erstwhile households

Note: Estimated number of students staying away from their erstwhile residence given in the above table is design based estimates and may be used as control totals for combining and arriving at rates and ratios, which can then be applied to the population projections. These figures are not intended for providing estimates of the current population of students staying away from their erstwhile residence.

Table (11): Percentage distribution of students of age 3 to 35 years who are staying away from their erstwhile households by present place of residence for each State/UT of erstwhile residence

Gender: Person **Sector of erstwhile residence: Urban** **Sector of current residence: Rural**

State/UT of erstwhile residence	present place of residence (State/UT):																																					number of students staying away from their erstwhile households

Note: Estimated number of students staying away from their erstwhile residence given in the above table is design based estimates and may be used as control totals for combining and arriving at rates and ratios, which can then be applied to the population projections. These figures are not intended for providing estimates of the current population of students staying away from their erstwhile residence.

Table (11): Percentage distribution of students of age 3 to 35 years who are staying away from their erstwhile households by present place of residence for each State/UT of erstwhile residence

Gender: Person **Sector of erstwhile residence: Urban** **Sector of current residence: Urban**

State/UT of erstwhile residence	present place of residence (State/UT):																																		number of students staying away from their erstwhile households

Note: Estimated number of students staying away from their erstwhile residence given in the above table is design based estimates and may be used as control totals for combining and arriving at rates and ratios, which can then be applied to the population projections. These figures are not intended for providing estimates of the current population of students staying away from their erstwhile residence.

Table (11): Percentage distribution of students of age 3 to 35 years who are staying away from their erstwhile households by present place of residence for each State/UT of erstwhile residence

Gender: Person **Sector of erstwhile residence: Urban** **Sector of current residence: Rural + Urban**

State/UT of erstwhile residence	present place of residence (State/UT):																																			number of students staying away from their erstwhile households

Note: Estimated number of students staying away from their erstwhile residence given in the above table is design based estimates and may be used as control totals for combining and arriving at rates and ratios, which can then be applied to the population projections. These figures are not intended for providing estimates of the current population of students staying away from their erstwhile residence.

Table (11): Percentage distribution of students of age 3 to 35 years who are staying away from their erstwhile households by present place of residence for each State/UT of erstwhile residence

Gender: Person **Sector of erstwhile residence: Rural + Urban** **Sector of current residence: Rural**

State/UT of erstwhile residence	present place of residence (State/UT):																																		number of students staying away from their erstwhile households

Note: Estimated number of students staying away from their erstwhile residence given in the above table is design based estimates and may be used as control totals for combining and arriving at rates and ratios, which can then be applied to the population projections. These figures are not intended for providing estimates of the current population of students staying away from their erstwhile residence.

Table (12): Average expenditure incurred per erstwhile household member* for different level of current enrolment by location and type of the present place of residence for each State/UT

Sector of the current residence: Rural **Gender: Male** **Type of residence: Students' hostel**

State/ UT. of the current place of residence	average expenditure (Rs.) incurred per erstwhile household member* for different level of current enrolment								number of erstwhile members*

* The survey was not intended to provide estimates of persons with certificate of disability but to estimate the indicators related to participation in education by persons with certificate of disability.

Note: Estimated number of persons with certificate of disability given in the above table is design based estimates and may be used as control totals for combining and arriving at rates and ratios, which can then be applied to the population projections. These figures are not intended for providing estimates of the current population of persons with certificate of disability.

Table (21): Percentage distribution of persons by vocational/technical training received/ receiving for each State/ UT

Age Group: 15 - 29 years **Sector: Rural** **Gender: Male**

Note: Estimated number of students given in the above table is design based estimates and may be used as control totals for combining and arriving at rates and ratios, which can then be applied to the population projections. These figures are not intended for providing estimates of the current student population.

Table (49) : Percentage distribution of students by level of current attendance and type of institution for each State/UT

Sector:Rural + Urban **Gender: Persons**

State/ UT.	level of current attendance																		all (incl. n.r. and not known)	students	
	pre-primary			primary			upper primary			secondary & higher secondary			diploma/certificate below graduate level			graduate and above level including diploma					
	government	private aided	private unaided	government	private aided	private unaided	government	private aided	private unaided	government	private aided	private unaided	government	private aided	private unaided	government	private aided	private unaided		estimated (00	sample

Note: Estimated number of students pursuing technical/professional courses given in the above table is design based estimates and may be used as control totals for combining and arriving at rates and ratios, which can then be applied to the population projections. These figures are not intended for providing estimates of the current population of students pursuing technical/professional courses.

Table (51): Percentage distribution of students by type of institution pursuing technical/professional courses for each State/UT

Sector: Urban **Gender: Person**

State/UT	technical/professional courses																					all (incl. n.r. and not known)	number of students pursuing technical/ professional courses	
	medicine			engineering			law			management			IT/computer courses			courses from ITI/ recognised vocational institutes			others				estimated (00)	sample

Note 1: *The focus and design of the survey were not to provide estimates of labour force status and the approach used for measurement of the participation in economic activities used in this survey was different from those used in the labour force surveys of NSO. However, the objective was to get some idea about engagement in economic activities by the persons in the age-group 15 years to 35 years currently attending education.

Note 2: Estimated number of students of age 15-35 years given in the above table is design based estimates and may be used as control totals for combining and arriving at rates and ratios, which can then be applied to the population projections. These figures are not intended for providing estimates of the current population of students of age 15-35 years.

Table (82) : Percentage of students of age 15-35 years, their percentage distribution by status of participation in the labour force, percentage who worked for 30 days or more during last 365 days and their percentage distribution by status of economic activity

Note: Estimated number of persons of age 3-35 years who were enrolled but currently not attending given in the above table is design based estimates and may be used as control totals for combining and arriving at rates and ratios, which can then be applied to the population projections. These figures are not intended for providing estimates of the current population of persons of age 3-35 years who were enrolled but currently not attending.

reason for currently not attending:

not interested in education-.01
financial constraints - 02
engaged in domestic activities-03
engaged in economic activities -04
school is far off -05
timings of educational institution not suitable-06
language/medium of instruction used unfamiliar -07
inadequate number of teachers-08
quality of teachers not satisfactory-10
route to educational institution not safe-11
unable to cope up with studies/ failure in studies-13
unfriendly atmosphere at school- 14
completed desired level/class -15
preparation for competitive examination-16
non-availability of female teacher-17
non-availability of girls' toilet-18
others-19
marriage-20

Note: Estimated number of persons of age 3-35 years who were enrolled but currently not attending given in the above table is design based estimates and may be used as control totals for combining and arriving at rates and ratios, which can then be applied to the population projections. These figures are not intended for providing estimates of the current population of persons of age 3-35 years who were enrolled but currently not attending.

reason for currently not attending:

not interested in education-.01
financial constraints - 02
engaged in domestic activities-03
engaged in economic activities -04
school is far off -05
timings of educational institution not suitable-06
language/medium of instruction used unfamiliar -07
inadequate number of teachers-08
quality of teachers not satisfactory-10
route to educational institution not safe-11
unable to cope up with studies/ failure in studies-13
unfriendly atmosphere at school- 14
completed desired level/class -15
preparation for competitive examination-16
non-availability of female teacher-17
non-availability of girls' toilet-18
others-19
marriage-20

Note: Estimated number of persons of age 3-35 years who were enrolled but currently not attending given in the above table is design based estimates and may be used as control totals for combining and arriving at rates and ratios, which can then be applied to the population projections. These figures are not intended for providing estimates of the current population of persons of age 3-35 years who were enrolled but currently not attending.

reason for currently not attending:

not interested in education-.01
financial constraints - 02
engaged in domestic activities-03
engaged in economic activities -04
school is far off -05
timings of educational institution not suitable-06
language/medium of instruction used unfamiliar -07
inadequate number of teachers-08
quality of teachers not satisfactory-10
route to educational institution not safe-11
unable to cope up with studies/ failure in studies-13
unfriendly atmosphere at school- 14
completed desired level/class -15
preparation for competitive examination-16
non-availability of female teacher-17
non-availability of girls' toilet-18
others-19
marriage-20

Note: Estimated number of persons of age 3-35 years who were enrolled but currently not attending given in the above table is design based estimates and may be used as control totals for combining and arriving at rates and ratios, which can then be applied to the population projections. These figures are not intended for providing estimates of the current population of persons of age 3-35 years who were enrolled but currently not attending.

reason for currently not attending:

not interested in education-.01
financial constraints - 02
engaged in domestic activities-03
engaged in economic activities -04
school is far off -05
timings of educational institution not suitable-06
language/medium of instruction used unfamiliar -07
inadequate number of teachers-08
quality of teachers not satisfactory-10
route to educational institution not safe-11
unable to cope up with studies/ failure in studies-13
unfriendly atmosphere at school- 14
completed desired level/class -15
preparation for competitive examination-16
non-availability of female teacher-17
non-availability of girls' toilet-18
others-19
marriage-20

Note: Estimated number of persons of age 3-35 years who were enrolled but currently not attending given in the above table is design based estimates and may be used as control totals for combining and arriving at rates and ratios, which can then be applied to the population projections. These figures are not intended for providing estimates of the current population of persons of age 3-35 years who were enrolled but currently not attending.

reason for currently not attending:

not interested in education-.01
financial constraints - 02
engaged in domestic activities-03
engaged in economic activities -04
school is far off -05
timings of educational institution not suitable-06
language/medium of instruction used unfamiliar -07
inadequate number of teachers-08
quality of teachers not satisfactory-10
route to educational institution not safe-11
unable to cope up with studies/ failure in studies-13
unfriendly atmosphere at school- 14
completed desired level/class -15
preparation for competitive examination-16
non-availability of female teacher-17
non-availability of girls' toilet-18
others-19
marriage-20

*Persons of age 3-35 years currently not attending education with highest level education below primary and above

Note: Estimated number of persons of age 3-35 years currently not attending education given in the above table is design based estimates and may be used as control totals for combining and arriving at rates and ratios, which can then be applied to the population projections. These figures are not intended for providing estimates of the current population for persons of age 3-35 years currently not attending education.

Table (94) : Percentage of persons* (P) and average expenditure (Rs.) per person* (A) of age 3-35 years currently not attending education who are reporting expenditure on higher/ additional studies for each State/UT

Sector: Urban **Gender: Male**

State/ UT	upper primary/ middle or below		secondary		higher secondary		diploma/ certificate (below graduate)		graduate and above		all (incl. n.r.)		persons*

*Persons of age 3-35 years currently not attending education with highest level education below primary and above

Note: Estimated number of persons of age 3-35 years currently not attending education given in the above table is design based estimates and may be used as control totals for combining and arriving at rates and ratios, which can then be applied to the population projections. These figures are not intended for providing estimates of the current population for persons of age 3-35 years currently not attending education.

Appendix B

Note on Sample Design and Estimation Procedure

Appendix B

Note on Sample Design and Estimation Procedure

1. Introduction

1.1 The National Sample Survey Office (NSSO), in 75th round (July 2017-June 2018) carried out survey on *Household Social Consumption: Education*. The main objective of the survey on *Household Social Consumption: Education* conducted by NSSO was to build indicators on participation of the persons of age 3 to 35 years in the education system, expenditure incurred on education of the household members and various aspects of those currently not attending education (i.e., for the persons who never enrolled or ever enrolled but currently not attending education).

2 Geographical coverage

2.1 The survey covered whole of the Indian Union except the villages in Andaman and Nicobar Islands which are difficult to access.

3. Sample Design

*3.1Outline of sample design:*A stratified multi-stage design was adopted for the 75th round survey. The first stage units (FSU) were the Census villages (Panchayat wards for Kerala) in the rural sector and Urban Frame Survey (UFS) blocks in the urban sector. The ultimate stage units (USU) were households in both the sectors. In the case of large FSUs, one intermediate stage of sampling was the selection of two hamlet-groups (hgs)/ sub-blocks (sbs) from each rural/ urban FSU.

*3.2Sampling Frame for First Stage Units:*For the rural sector, the list of 2011 Population Census villages constituted the sampling frame. However, for Kerala, the latest available updated list of Panchayat wards constituted the sampling frame. For the urban sector, the latest available list of UFS blocks was considered as the sampling frame.

3.3 Stratification

(a) Each district was a stratum. Within each district of a State/UT, generally speaking, two basic strata were formed: (i) rural stratum comprising of all rural areas of the district and (ii) urban stratum comprising of all the urban areas of the district. However, within the urban areas of a district, if there were one or more towns with population one million or more as per Census 2011, each of them formed as a separate basic stratum and the remaining urban areas of the district was considered as another basic stratum.

(b) In the case of rural sectors of Nagaland, another special stratum was formed within the State consisting of all the villages which were difficult to access.

3.4 Sub-stratification

3.4.1 Rural sector: If 'r' was the sample size allocated for a rural stratum, 'r/4' sub-strata were formed in that stratum. The villages within a stratum (district) as per frame were first arranged in ascending order of population. Then sub-strata 1 to 'r/4' were demarcated in such a way that each sub-stratum comprised a group of villages of the arranged frame and had more or less equal population.

*3.4.2 Urban sector:*Each urban stratum was divided into two parts – 'Affluent part' consisting of UFS blocks identified as 'Affluent Area' and 'Non-Affluent part' consisting of the remaining UFS blocks within the stratum. Sample allocation of a stratum was then allocated to 'Affluent' and 'Non-Affluent' parts in proportion to total number of households in the UFS blocks with double weightage to 'Affluent part' subject to a maximum of 8 FSUs in 'Affluent part' of any stratum. If 'u' was the sample size allocated for an urban stratum consisting of both 'Affluent area' UFS Blocks and 'Non-Affluent area' UFS Blocks. 'u/4' sub-strata were formed within each stratum. Out of these 'u/4' sub-strata, the first two sub-strata '01' and '02' were earmarked for those UFS blocks which were identified as 'Affluent Area' and the remaining sub-strata, '03', '04',….. and so on, were assigned to the 'Non-Affluent area' UFS blocks. If any stratum did not have any 'Affluent Area' UFS block then also the sub-stratum number started from '03' for that stratum. For all strata, if u/4 >1, implying formation of 2 or more sub-strata, all the UFS blocks within the stratum were first arranged in ascending order of total number of households in the UFS Blocks as per the latest UFS phase. Then sub-strata 1 to 'u/4' were demarcated in such a way that each sub-stratum had more or less equal number of households. This procedure was done separately for 'Affluent-part' and 'Non-Affluent part' of the stratum (if two sub-strata were required to be formed in the 'Affluent part').

The following three cases arose while doing the sub-stratification:

i) If there was no 'Affluent Area' UFS block in the stratum, all the UFS blocks were divided into 'u/4' sub-strata and numbered as '03', '04', ….., '(u/4)+2'.

ii) If only one sub-stratum was formed with the 'Affluent Area' UFS blocks, then all the remaining 'Non-Affluent area' UFS blocks were divided into '(u-4)/4' sub-strata and numbered as '03', '04', ….., '(u/4)+1'.

iii) If two sub-strata were formed with the 'Affluent Area' UFS blocks, then all the remaining 'Non-Affluent area' UFS blocks were divided into '(u-8)/4' sub-strata and numbered as '03', '04', ….., 'u/4'.

3.5 Total sample size (FSUs)

3.5.1 14300 FSUs were allocated for the central sample at all-India level. State/UT wise number of sample FSUs is given in **Table C at the end of this Appendix**.

3.6 Allocation of total sample to States and UTs

3.6.1The total number of sample FSUs were allocated to the States and UTs in proportion to population as per Census 2011 subject to a minimum sample allocation to each State/UT.

3.7 Allocation of State/ UT level sample to rural and urban sectors

3.7.1State/ UT level sample size were allocated between two sectors in proportion to population as per Census 2011 with 1.5 weightage to urban sector depending on population share. A minimum of 16 FSUs (minimum 8 each for rural and urban sector separately) were allocated to each State/ UT.

3.8 Allocation to strata

3.8.1Within each sector of a State/ UT, the respective sample size was allocated to the different strata in proportion to the population as per Census 2011. Stratum level allocation was adjusted to multiples of 4 with a minimum sample size of 4.For the special stratum formed in rural areas of Nagaland, 12 FSUs were allocated.

3.9 Allocation to sub-strata

3.9.1 Allocation for each sub-stratum was made as 4 in both rural and urban sectors.

3.10 Selection of FSUs:

3.10.1 For the rural sector, from each stratum/sub-stratum, required number of sample villages was selected by *Probability Proportional to Size With Replacement* (PPSWR), size being the population of the village as per Census 2011.

3.10.2 For the urban sector, from each stratum/sub-stratum, FSUs was selected by *Probability Proportional to Size With Replacement* (PPSWR), size being the number of households of the UFS Block.

Both rural and urban samples were drawn in the form of two independent sub-samples.

3.11 Selection of hamlet-groups/ sub-blocks - important steps

*3.11.1 Criterion for hamlet-group/ sub-block formation:*After identification of the boundaries of the FSU, it was determined whether listing would be done in the whole sample FSU or not. In case the approximate present population of the selected FSU was 1200 or more, it was divided into a suitable number (say, D) of 'hamlet-groups (hg)' in the rural sector and 'sub-blocks (sb)' in the urban sector by more or less equalising the population as stated below.

approximate present population of the sample FSU		no. of hgs/sbs formed
less than 1200	(no hamlet-group/sub-block)	1
1200 to 1799		3
1800 to 2399		4
2400 to 2999		5
3000 to 3599		6
…..and so on		-

For rural areas of Himachal Pradesh, Sikkim, Andaman & Nicobar Islands, Uttarakhand (except four districts Dehradun, Nainital, Hardwar and Udham Singh Nagar), Punch, Rajouri, Udhampur, Reasi, Doda, Kishtwar, Ramban, Ladakh region (Leh and Kargil districts) of Jammu and Kashmir and Idukki district of Kerala, the number of hamlet-groups were formed as follows:

approximate present population of the sample village		no. of hgs formed
less than 600	(no hamlet-group)	1
600 to 899		3
900 to 1199		4
1200 to 1499		5
1500 to 1799		6
…..and so on		-

3.11.2 Formation and selection of hamlet-groups/ sub-blocks: In case hamlet-groups/ sub-blocks were formed in the sample FSU, the same was done by more or less equalising population.Two hamlet-groups (hg)/ sub-blocks (sb) were selected from the FSUs wherever hamlet-groups/ sub-blocks were formed in the following manner – one hg/ sb with maximum percentage share of population was always be selected and termed as hg/ sb1; one more hg/ sbwas selected from the remaining hgs/ sbsby simple random sampling (SRS) and termed as hg/ sb2. Listing and selection of the households were done independently in the two selected hamlet-groups/ sub-blocks. The FSUs without hg/ sb formation were treated as sample hg/ sb number 1.

3.12 Listing of households

3.12.1 Having determined the hamlet-groups/ sub-blocks, the next step was to list all the households. The hamlet-group/ sub-block with hg/sb number 1 wasconsidered for listing first, followed by the listing of households of the hg/sb number 2.

3.13 Formation of second stage strata (SSS) and allocation of households in different SSS

3.13.1 Composition of the SSS and number of households surveyed for different SSS for Schedule 25.2 were as follows:

SSS	composition of SSS	number of households allotted for survey	
		FSU without hg/sb formation	FSU with hg/sb formation (for each hg/sb)
SSS 1	households with at least one student* having disability (possessing a certificate of disability)	2	1
SSS 2	from the remaining, households with at least one student* receiving technical/professional education	2	1

SSS	composition of SSS	number of households allotted for survey	
		FSU without hg/sb formation	FSU with hg/sb formation (for each hg/sb)
SSS 3	from the remaining, households having at least one student* receiving general education	2	1
SSS 4	other households	2	1
**persons aged 3 – 35 years and currently attending education was considered as students*			

*3.13.2Selection of households:*From each SSS, the sample households were selected by SRSWOR.

4. Estimation Procedure

4.1 Notations:

s = subscript for s-th stratum
t = subscript for t-th sub-stratum
m = subscript for sub-sample (m =1, 2)
i = subscript for i-th FSU [village (panchayat ward)/ block]
d = subscript for a hamlet-group/ sub-block (d = 1, 2)
j = subscript for j-th second stage stratum in an FSU/hg/sb
k = subscript for k-th sample household within an FSU/ hg/sb
D = total number of hg's/ sb's formed in the sample FSU
D* = 0 if D = 1
= (D – 1) for FSUs with D > 1
Z = total size of a sub-stratum (sum of sizes for all the FSUs of a sub-stratum)
z = size of sample FSU used for selection.
n = number of sample FSUs surveyed including 'uninhabited' and 'zero cases' but excluding casualty for a particular sub-sample and sub-stratum.
H = total number of households listed in a second-stage stratum of an FSU / hamlet-group or sub-block of sample FSU
h = number of households surveyed in a second-stage stratum of an FSU / hamlet-group or sub-block of sample FSU
x, y = observed value of characteristics *x*, *y* under estimation
$\hat{X}$, $\hat{Y}$ = estimate of population total X, Y for the characteristics *x*, *y*

Under the above symbols,

$y_{stmidjk}$ = observed value of the characteristic y for the k-th household of the j-th second stage stratum of the d-th hg/sb of the i-th FSU belonging to the m-th sub-sample for the t-th sub-stratum of s-th stratum.

However, for ease of understanding, a few symbols have been suppressed in following paragraphs where they are obvious.

4.2 Formulae for Estimation of Aggregates for a particular sub-sample and stratum × sub-stratum:

4.2.1 Rural/ Urban:

(i) For j-th second-stage stratum of a stratum × sub-stratum:

$$\hat{Y}_j = \frac{Z}{n_j}\sum_{i=1}^{n_j}\frac{1}{z_i}\left[\frac{H_{i1j}}{h_{i1j}}\sum_{k=1}^{h_{i1j}} y_{i1jk} + D_i^* \times \frac{H_{i2j}}{h_{i2j}}\sum_{k=1}^{h_{i2j}} y_{i2jk}\right]$$

(ii) For all second-stage strata combined:

$$\hat{Y} = \sum_j \hat{Y}_j$$

4.3 Overall Estimate for Aggregates for a sub-stratum:

Overall estimate for aggregates for a sub-stratum ($\hat{Y}_{st}$) based on two sub-samples in a sub-stratum is obtained as:

$$\hat{Y}_{st} = \frac{1}{2}\sum_{m=1}^{2}\hat{Y}_{stm}$$

4.4 Overall Estimate for Aggregates for a stratum:

Overall estimate for a stratum ($\hat{Y}_s$) is obtained as

$$\hat{Y}_s = \sum_t \hat{Y}_{st}$$

4.5 Overall Estimate of Aggregates at State/UT/all-India level:

The overall estimate $\hat{Y}$ at the State/ UT/ all-India level is obtained by summing the stratum estimates $\hat{Y}_s$ over all strata belonging to the State/ UT/ all-India.

4.6 Estimates of Ratios:

Let $\hat{Y}$ and $\hat{X}$ be the overall estimates of the aggregates Y and X for two characteristics *y* and *x* respectively at the State/ UT/ all-India level.

Then the combined ratio estimate $(\hat{R})$ of the ratio $(R = \frac{Y}{X})$ is obtained as $\hat{R} = \frac{\hat{Y}}{\hat{X}}$.

4.7 Estimates of Error: The estimated variances of the above estimates are as follows:

4.7.1 For aggregate $\hat{Y}$ *:*

$$\hat{Var}(\hat{Y}) = \sum_s \hat{Var}(\hat{Y}_s) = \sum_s \sum_t \hat{Var}(\hat{Y}_{st}) \text{ where } \hat{Var}(\hat{Y}_{st}) \text{ is given by}$$

$\hat{Var}\left(\hat{Y}_{st}\right) = \frac{1}{4}\left(\hat{Y}_{st1} - \hat{Y}_{st2}\right)^2$, where $\hat{Y}_{st1}$ and $\hat{Y}_{st2}$ are the estimates for sub-sample 1 and sub-sample 2 respectively for stratum 's' and sub-stratum 't'.

4.7.2 For ratio $\hat{R}$ *:*

$$\hat{MSE}(\hat{R}) = \frac{1}{4\hat{X}^2}\sum_s\sum_t\left[\left(\hat{Y}_{st1} - \hat{Y}_{st2}\right)^2 + \hat{R}^2\left(\hat{X}_{st1} - \hat{X}_{st2}\right)^2 - 2\hat{R}\left(\hat{Y}_{st1} - \hat{Y}_{st2}\right)\left(\hat{X}_{st1} - \hat{X}_{st2}\right)\right]$$

4.7.3 Estimates of Relative Standard Error (RSE):

$$\hat{RSE}\left(\hat{Y}\right) = \frac{\sqrt{\hat{Var}\left(\hat{Y}\right)}}{\hat{Y}} \times 100$$

$$\hat{RSE}\left(\hat{R}\right) = \frac{\sqrt{\hat{MSE}\left(\hat{R}\right)}}{\hat{R}} \times 100$$

5. Multipliers:

The formulae for multipliers at stratum/sub-stratum/second-stage stratum level for a sub-sample for Schedule 25.2 are given below:

scheduleof enquiry	sector	formula for multipliers	
		hg / sb 1	hg / sb 2
25.2	rural/urban	$\frac{Z_{st}}{n_{stmj}} \times \frac{1}{z_{stmi}} \times \frac{H_{stmi1j}}{h_{stmi1j}}$	$\frac{Z_{st}}{n_{stmj}} \times \frac{1}{z_{stmi}} \times D^*_{stmi} \times \frac{H_{stmi2j}}{h_{stmi2j}}$
	j = 1, 2, 3, 4 for Schedule 25.2		

Note:

(i) For estimating any characteristic for any domain not specifically considered in sample design, indicator variable was used.

(ii) Multipliers are computed on the basis of information available in the listing schedule irrespective of any misclassification observed between the listing schedule and detailed enquiry schedule.

Appendix C

Schedule 25.2: Household Social Consumption: Education

RURAL		*
URBAN		

GOVERNMENT OF INDIA
NATIONAL SAMPLE SURVEY OFFICE
SOCIO-ECONOMIC SURVEY

CENTRAL		*
STATE		

SEVENTY-FIFTH ROUND: JULY, 2017 TO JUNE, 2018

SCHEDULE 25.2: HOUSEHOLD SOCIAL CONSUMPTION: EDUCATION

[0] descriptive identification of sample household	
1. state/u.t.:	5. hamlet name:
2. district:	6. investigator unit no./block no.:
3. sub-district/tehsil/town*:	7. name of head of household:
4. village name:	8. name of informant:

[1] identification of sample household

item no.	item	code	item no.	item	code
1.	srl. no. of sample FSU		6.	sample household number	
2.	round number	7 5	7.	serial number of informant # (as in column 1 of block 4)	
3.	schedule number	2 5 2	8.	response code	
4.	sample hg/sb number		9.	survey code	
5.	second-stage stratum number		10.	reason for substitution of original household	

Codes for Block 1

item 8: ***response code***: informant: *co-operative and capable -1, co-operative but not capable -2, busy -3, reluctant -4, others -9.*

item 9: ***survey code***: *original -1, substitute -2, casualty -3.*

item 10: ***reason for substitution of original household***: *informant busy -1, members away from home -2, informant non-cooperative -3, others -9.*

** tick mark (√) may be put in the appropriate place.*

 # if the informant is not a household member, code 99 will be recorded.

[3] household characteristics							
1.	household size			11.	whether the household has internet facility (*yes-1, no-2*)		
2.	principal industry (NIC – 2008)	description		12.	whether any erstwhile household member of age 3 to 35 years is currently attending education (*yes-1, no-2*) ***[if entry is 1 in this item, fill up block 3.1]***		
		code (5-digit)					
3.	principal occupation (NCO-2004)	description					
		code (3-digit)		13.	***for entry 1 in item 1 of block 3 along with entry 4 in col. 11 of block 4***, whether *staying in students' hostel* (*yes-1, no-2*) #		
4.	household type (code)						
5.	religion (code)			14.	***for code 1 in item 13, location of the parent household*#**,	*14.1*	State/UT name:
6.	social group (code)						State/UT (code)
7.	distance(*d*) to nearest school having primary level classes(code)					*14.2*	district name:
8.	distance(*d*) to nearest school having upper primary level classes(code)						district (code)
9.	distance(*d*) to nearest school having secondary level classes(code)					*14.3*	sector *(rural-1, urban-2)*
10.	whether the household has a computer@ (*yes-1, no-2*)			15.	household's usual monthly consumer expenditure (*Rs.*)		

@ *computer includes desktop, laptop, palmtop, notebook, netbook, tablets, etc.*
#: *These items will be filled in after making entry in block 4.*

CODES FOR BLOCK 3

item 4 : household type:

for rural areas:
self-employed in agriculture-1,
self-employed in non-agriculture-2,
regular wage/salary earning in agriculture -3,
regular wage/salary earning in non-agriculture -4,
casual labour in agriculture-5,
casual labour in non-agriculture-6,
others-9.

for urban areas:
self-employed-1,
regular wage/salary earning-2,
casual labour-3,
others-9.

item 5: ***religion*** : *Hinduism-1, Islam-2, Christianity –3, Sikhism-4, Jainism-5, Buddhism-6, Zoroastrianism-7, others-9*

item 6: ***social group*** : *scheduled tribe-1, scheduled caste-2, other backward class-3, others-9*

item 7/8/9: ***distance(d) to nearest school having primary/upper primary//secondary level classes :***

d<1km -1, 1km ≤ d < 2 kms- 2, 2kms ≤ d < 3 kms- 3, 3kms ≤ d < 5 kms- 4, d ≥ 5 kms – 5

item 14.1: ***State/UT name and State/UT code:***

State/UT name	code	State/UT name	code	State/UT name	code	State/UT name	code
Andhra Pradesh	28	Himachal Pradesh	02	Mizoram	15	Uttarakhand	05
Arunachal Pradesh	12	Jammu & Kashmir	01	Nagaland	13	Uttar Pradesh	09
Assam	18	Jharkhand	20	Odisha	21	West Bengal	19
Bihar	10	Karnataka	29	Punjab	03	A & N Islands	35
Chhattisgarh	22	Kerala	32	Rajasthan	08	Chandigarh	04
Delhi	07	Madhya Pradesh	23	Sikkim	11	Dadra & Nagar Haveli	26
Goa	30	Maharashtra	27	Tamil Nadu	33	Daman & Diu	25
Gujarat	24	Manipur	14	Telangana	36	Lakshadweep	31
Haryana	06	Meghalaya	17	Tripura	16	Puducherry	34

item 14.2: ***district name/district code: refer to the district name/code available in the Instructions to Field Staff, Vol. I.***

[3.1] details of erstwhile household members of age 3 to 35 years currently attending education (*for entry 1 in item 12, block 3*)												
srl. no.	name	gender (*male-1, female-2, transgender-3*)	age (years)	present place of residence of the erstwhile household member					type of residence (*students' hostel-1, others 2*)	level of current enrolment in the basic course (code)	whether any expenditure incurred/ to be incurred by the household during the current academic year for the member (*yes-1,no-2*)	**if 1 in column 12**, expenditure incurred/ to be incurred by the household during the current academic year for the member **(Rs.)**
				State/UT name	State/UT code	district name	district code	sector *(rural-1, urban-2)*				
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)	(12)	(13)

CODES FOR BLOCK 3.1

col. 5/6: ***State/UT name and State/UT code:*** *same as item 14.1 of block 3.*

col. 7/8: ***district name/ district code:*** *same as item 14.2 of block 3 [**refer to the district name/code available in the Instructions to Field Staff, Vol. I.**].*

col. 11: ***level of current enrolment in the basic course:*** *NFEC -03, TLC/AEC -04, other non-formal -05, pre-primary (nursery/ Kindergarten, etc.) -06, primary (class I to V) -07, upper primary/middle -08, secondary -10, higher secondary -11, diploma /certificate course (upto secondary) - 12, diploma/certificate (higher secondary) -13, diploma/ certificate (graduation and above)-14, graduate -15, postgraduate and above -16.*

[4] demographic and other particulars of household members

srl. no.	name	relation to head (code)	gender (*male-1, female-2, transgender-3*)	age (years)	marital status (code)	educational level		**for codes 06, 07, 08, 10 to 16 in column 7,**		**for persons of age 3 to 35 years** status of enrolment (code)	**for persons of age 5 years and above,**			**for persons of age 12 to 59 years,** whether receiving/ received any vocational/ technical training (*code*)	whether having a certificate of disability (*yes-1, no-2*)	**if 1 in column 16**, type of disability as per the certificate (code)
						general (code)	technical (code)	class/ grade completed (code)	year(s) of education completed after the class/grade recorded in column 9 (code)		whether able to operate a compu-ter (*yes-1, no-2*)	whether able to use internet (*yes-1, no-2*)	whether used internet during last 30 days (*yes-1, no-2*)			
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)	(12)	(13)	(14)	(15)	(16)	(17)

Note:

1. **For code 4 in column 11 fill up block 5.**
2. **For code 1, 2 or 3 in column 11, fill up block 7.**
3. **For code 2 in column 15, fill up block 8.**

CODES FOR BLOCK 4

***col. (3)**: **relation to head:** self -1, spouse of head -2, married child -3, spouse of married child -4, unmarried child -5, grandchild -6, father/mother/father-in-law/mother-in-law -7, brother/sister/brother-in-law/sister-in-law/other relatives -8, servants/ employees/ other non-relatives -9*

***col.(6)** : **marital status:** never married – 1, currently married – 2, widowed – 3, divorced/separated – 4*

***col. (7)** : **educational level - general:** not literate -01, literate without any schooling -02, literate without formal schooling: through NFEC -03, through TLC/ AEC -04, others -05; literate with formal schooling: below primary -06, primary -07, upper primary/middle -08, secondary -10, higher secondary -11, diploma /certificate course (upto secondary)-12, diploma/certificate course(higher secondary)-13, diploma/certificate course(graduation & above) -14, graduate -15, post graduate and above -16.*

***col. (8): educational level - technical**: no technical education -01,* technical degree in*: agriculture -02, engineering/ technology -03, medicine -04, crafts -05, other subjects -06;* technical diploma or certificate (below graduate level) in*: agriculture -07, engineering/ technology -08, medicine -09, crafts -10, other subjects -11;* technical diploma or certificate (graduate and above level) in*: agriculture -12, engineering/ technology -13, medicine -14, crafts -15, other subjects -16.*

col. (9): class/ grade completed : completed*: class I-01**,** class II-02, class III-03, class IV-04, class V-05, class VI-06, class VII-07, class VIII -08, class IX-09, class X-10, class XI-11, class XII-12;*
did not complete class I-*99.*

***col. (10): year of education completed after the class/grade recorded in column (9):** first year-01, second year-02, third year-03, fourth year -04, fifth year-05, sixth year -06, seventh year- 07, eighth year- 08, ninth year- 09, tenth year and above- 10.*

***col. (11)**: **status of enrolment :** never enrolled -1, enrolled in past academic year and currently not attending-2, enrolled in current academic year and currently not attending-3, currently attending-4.*

***col. (15): whether receiving/received any vocational/technical training**:*
yes: *receiving formal vocational/technical training* -1;

received vocational/technical training*: formal -2,*
other than formal*: hereditary-3, self-leanring-4,*
learning on the job-5, others –6;
did not receive any vocational/technical training -7.

***col. (17): type of disability as per the certificate**: single: mental – 1, visual – 2, hearing – 3, speech – 4, locomotor – 5; multiple – 6.*

[5] education particulars on basic course of the persons of age 3 to 35 years who are currently attending education *(i.e. if entry in column 11of block 4 is 4)*						
srl.no.	Item		srl.no.	details of the person currently attending		
(1)	(2)		(3)	(4)	(5)	(6)
1.	srl no. [as in col.1,block 4]		1.

for code 06, 07 in item 6 OR code 1, 2 in item 8,	25.	whether free mid-day meal/tiffin/nutrition is provided by the institution *(yes-1, no-2)*	25.			
	26.	**for 1 in item 25**, agency providing free mid-day meal /tiffin /nutrition (*government -1, others-2*)	26.			
	27.	mode of transport (code)	27.			
	28.	**for code 3 in item 27,** whether concession received (*yes-1, no-2*)	28.			
	29.	distance(**d**) of educational institution from place of residence (code)	29.			
30.	whether changed educational institution during last 365 days (code)		30.			
31.	whether taking/taken private coaching (*yes-1, no-2)*		31.			

For codes any of 06 to 08, 10 to 16 in item 6 fill up block 6

CODES FOR BLOCK 5

item 4: language mainly spoken at home, *and*
item 5: medium of instruction:

Hindi -01, English -02, Assamese -03, Bengali -04, Bodo -05, Dogri -06, Gujarati -07, Kannada -08, Kashmiri -10, Konkani -11, Maithili -12, Malayalam -13, Manipuri -14, Marathi -15, Nepali -16, Oriya -17, Punjabi -18, Sanskrit -20, Santhali -21, Sindhi -22, Tamil -23, Telugu -24, Urdu -25 , others -29

item 6: ***level of current enrolment in the basic course:*** *NFEC -03, TLC/AEC -04, other non-formal -05, pre-primary (nursery/ Kindergarten, etc.) -06, primary (class I to V) -07, upper primary/middle -08, secondary -10, higher secondary -11, diploma /certificate course (upto secondary) - 12, diploma/certificate (higher secondary) -13, diploma/ certificate (graduation and above)-14, graduate -15, postgraduate and above -16.*

[these codes are same as in col. 9 of block 3.1]

item 7*: *course currently attending:

general: *upto class X - 01, humanities - 02, science - 03, commerce - 04;*

technical/professional*: medicine - 05, engineering - 06, agriculture - 07, law - 08, management - 10, education - 11, chartered accountancy and similar courses - 12, IT/computer courses- 13, courses from Industrial Training Institute (ITI), recognised vocational training institute, etc - 14, others -19.*

item 11*: **type of institution:*** *government -1, private aided -2, private unaided -3, not known -4*

item 12*: **nature of institution:*** *recognised –1, unrecognized -2, not known -3*

item 13.1/13.2: reason for attending current private institution: *located nearby-1, tried in government institution but could not get admission-2, social reasons (like children of colleagues/neighbours/relatives, etc., also attend in this school)-3, private coaching not required to supplement the school education/private coaching is an integral part of school education-4, due to availability of specific facilities -5, medium of instruction is English-6, less burden of homework-7, quality of education in nearby government institution is perceived to be not satisfactory-8, none of the above-9.*

item 17 *: **reason for tuition fee partly paid/partly payable or tuition fee not paid/not payable:*** *ST -1, SC -2,OBC -3, handicapped -4, merit -5, financially weak -6, tuition fee is not charged by the institution-7, others -9.*

item 21*: **type of scholarship/stipend/reimbursement:*** *ST -1, SC -2, OBC -3, handicapped -4, merit -5, financially weak -6, others -9.*

items 23*: **whether received free/subsidised textbooks:*** *all free -1, some free -2, all subsidised -3, some subsidised -4, some free and some subsidised -5; no-6.*

items 24*: **whether received free/subsidised stationery:*** *all free -1, some free -2, all subsidised -3, some subsidised -4, some free and some subsidised -5; no-6.*

item 27*: **mode of transport:*** *on foot -1,school/institution bus -2, public transport -3,bicycle -4, others -9*

item 29*: **distance(d)of the educational institution from the place of residence:***
$d<1km$ -1, $1km \leq d < 2$ kms -2, $2km \leq d < 3$ kms -3, $3km \leq d < 5$ kms -4, $d \geq 5$ kms – 5.

item 30*: **changed educational institution during last 365 days:*** yes*: government to private-1, private to government -2, government to government -3, private to private-4; no-5.*

[6] particulars of expenditure (Rs.) for persons of age 3 to 35 years who are currently attending at *pre-primary and above level* ***(i.e. if entry in item 6 of block 5 is any of 06 to 08, 10 to 16)***														
srl. no. as in item. 1, bl. 5	age (years) as in item 2, bl. 5	**details of expenditure (Rs.) on education on basic course during the current academic year**						source of funding the expenditure on the basic course during the current academic year		expenditure on education on courses other than the basic course during the current academic year **(Rs.)**	expenditure on preparation for higher/ additional studies during last 365 days (Rs.)	**for persons of age 15 to 35 years**		
		course fee (including tuition fee, examination fee, development fee and other compulsory payments)	books, stationery and uniform	transport	private coaching	other expen-diture	total expen-diture [col. 3 + col. 4 + col. 5+ col. 6+ col. 7]	first major source (*code*)	second major source, if any (*code*)			whether worked for 30 days or more during last 365 days (*yes-1, no-2*)	**for code 1 in col. 13**, status of the economic activity (*code*)	**for code 2 in col. 13,** whether seeking/ was available for work during the major part of last 365 days (*yes-1, no-2*)
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)	(12)	(13)	(14)	(15)

Codes for Block 6:

***column (9)/ column (10)**: **source of funding the expenditure on the basic course during the current academic year (for the first major source and second major source)**: funded from the earning of the student- 01, funded by other household members -02, funded by erstwhile household members-03, received as gifts from friends/relatives - 04, scholarships from educational institution-05, scholarships from government-06, scholarships from charitable and other organisations-07, educational loan –08, other loan-10, others- 19*

***column (14): status of the economic activity**: worked as: self-employed -1, regular wage/salaried person-2, casual labour-3.*

[7] particulars of currently not attending persons of age 3 to 35 years (*i.e., for those with entry in col. 11 of block 4 any of 1, 2 or 3*)

serial no. as in col.1, bl. 4	age (years) as in col. 5, bl. 4	whether ever attended (*yes-1, no-2*)	**if ever enrolled but currently not attending (*i.e., if entry in col. 11 of block 4 is any of 2 or 3)***									major reason for never enrolled/ ever enrolled but currently not attending (code)
			age at first enrolment in school (years)	level of last enrolment (code)	type of education of the course last attended (code)	whether the member completed the level last enrolled (*yes-1, no-2*)	**if the last class attended was class XII or below**, grade/class completed (code)	age when last attended/ last enrolled (years)	type of institution last attended (code)	whether preparing/ prepared for higher/ additional studies during last 365 days (*yes-1, no-2*)	**if 1 in column 11,** expenditure incurred on preparation for higher/ additional studies during last 365 days (**Rs.**)	
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)	(12)	(13)

CODES FOR BLOCK 7

col. 5*: *level of last enrolment *code structure is same as in item 6 of Block 5, applicable codes are as follows:*

NFEC - 03, TLC/AEC-04, other non-formal –05;
formal schooling: *pre-primary -06, primary -07, upper primary/middle -08, secondary -10, higher secondary -11, diploma/certificate course(up to secondary) -12, diploma/certificate course(higher secondary) -13, diploma/certificate course(graduation & above) -14, graduate -15, postgraduate and above -16*

col. 6*: *type of education of the course last attended: *general-1, technical/professional -2*

col. 8: grade/class completed, if the last class attended was class XII or below: *class I-01, class II-02, class III-03, class IV-04, class V-05, class VI-06, class VII-07, class VIII -08, class IX-09, class X-10, class XI-11, class XII-12*

col. 10*: *type of institution last attended: *government-1, private aided-2, private unaided –3, not known-4*

col. 13: major reason for never enrolled/ever enrolled but currently not attending:
applicable for all: *not interested in education-.01, financial constraints-02, engaged in domestic activities-03,engaged in economic activities -04, school is far off -05, timings of educational institution not suitable-06, language/medium of instruction used unfamiliar -07, inadequate number of teachers-08, quality of teachers not satisfactory-10, route to educational institution not safe-11, others-19*
applicable for "never- enrolled" cases only: *no tradition in the community -12*
applicable for "ever- enrolled" cases only: *unable to cope up with studies/ failure in studies-13, unfriendly atmosphere at school- 14, completed desired level/class -15, preparation for competitive examination-16*
applicable for females only: *non-availability of female teacher-17, non-availability of girls' toilet-18, marriage-20*

[8] particulars of formal vocational/technical training received by household members of age 12 to 59 years (*for those with code 2 in column 15 of Block 4*)						
srl. no. as in col.1, bl.4	age (yrs.) as in col.5, bl. 4	field of training (code)	duration of training (code)	type of training (code)	source of funding the training (*code*)	whether the training was completed during last 365 days (*yes-1, no-2*)
(1)	(2)	(3)	(4)	(5)	(6)	(7)

Codes for Block 8

col. (3): ***field of training:***

aerospace and aviation-01, agriculture, non-crop based agriculture, food processing - 02, allied manufacturing- gems and jewellery, leather, rubber, furniture and fittings, printing - 03,artisan/craftsman/handicraft/creative arts and cottage based production - 04, automotive - 05,beauty and wellness - 06, chemical engineering, hydrocarbons, chemicals and petrochemicals - 07, civil engineering- construction, plumbing, paints and coatings - 08,electrical, power and electronics - 09, healthcare and life sciences-10, hospitality and tourism - 11, iron and steel, mining, earthmoving and infra building - 12, IT-ITeS -13, logistics - 14, mechanical engineering-capital goods, strategic manufacturing -15, media-journalism, mass communication and entertainment - 16, office and business related work -17, security -18, telecom - 19, textiles and handlooms, apparels - 20, work related to childcare, nutrition, pre-school and crèche -21, other -99.

col. (4): ***duration of training:***

less than 3 months -1, 3 months or more but less than 6 months-2, 6 months or more but less than 12 months-3, 12 months or more but less than 18 months-4, 18 months or more but less than 24 months-5, 24 months or more-6

col. (5): ***type of training:*** *on the job-1, other than on the job: full-time-2, part-time-3*

col. **(***6***): *source of funding the training:***

funded from the earning of the student- 01, funded by other household members -02, funded by erstwhile household members-03, received as gifts from friends/relatives - 04, scholarships from educational institution-05, scholarships from government-06, scholarships from charitable and other organisaitons-07, educational loan –08, other loan-10, others- 19.

[2] particulars of field operations															
srl. no.	item	Field Investigator (FI) / Junior Statistical Officer (JSO)						Field Officer (FO)/ Senior Statistical Officer (SSO)							
(1)	(2)	(3)						(4)							
1(a).	(i) name (block letters)														
	(ii) code														
	(iii) signature														
1(b).	(i) name (block letters)														
	(ii) code														
	(iii) signature														
2.	**date(s) of**:	DD		MM		YY		DD		MM		YY			
	(i) survey/ inspection														
	(ii) receipt														
	(iii) scrutiny														
	(iv) despatch														
3.	number of additional sheet(s) attached														
4.	total time taken to canvass the schedule by the team of investigators (FI/JSO) (in minutes) [no decimal point]														
5.	number of investigators (FI/JSO) in the team who canvassed the schedule														

[9] **remarks by investigator (FI/ JSO)**

[10] **comments by supervisory officer(s)**

[11] **details of remarks in the Schedule**		
whether schedule contains remarks:	(i) in Block 9 by the Field Investigator (FI) / Junior Statistical Officer (JSO) (*yes-1, no-2*)	
	(ii) in Block 10 by the supervisory officer(s) (*yes-1, no-2*)	
	(iii) anywhere in the Schedule by the Field Investigator (FI) / Junior Statistical Officer (JSO) (*yes-1, no-2*)	
	(iv) anywhere in the Schedule by the supervisory officer(s) (*yes-1, no-2*)	

Appendix D

RSE Tables

Appendix D: RSE Tables

Table No.	Title
R1	RSE (%) of percentage of households reporting erstwhile member and percentage of households reporting expenditure on erstwhile member for each State/UT
R2	RSE (%) for Gross Attendance Ratio among students by different level of current attendance for each State/UT
R3	RSE (%) of Net Attendance Ratio by different level of current attendance for each State/UT
R4	RSE (%) of Age specific current attendance ratio for students of different age groups for each State/UT
R5	RSE (%) of Average expenditure (Rs.) on basic course per student during current academic year pursuing any course (general, technical/ professional) by items of expenditure for each State/UT

Table (R1): RSE of Percentage of households reporting erstwhile member and percentage of households reporting expenditure on erstwhile member for each State/UT

FEEDBACK FORM

1. **Name** (optional):

2. **email id** (optional) :

3. **Your field of Work**: (please tick (✓) the relevant)

(a) Govt Sector (b) Corporate Sector (c) Research (d) Civil Services

(e) NGO (f) Education (g) Art & Culture (h) Media

(i) Business (j) Student

4. Please mention the report/publication you are commenting on:

_____

CONTENT

5. How useful/relevant is the report for your professional interests (please tick (✓) the relevant)

(a) very useful (b) Moderately Useful (c) not at all useful

6. How useful/relevant is the report for your personal interests (please tick (✓) the relevant)

(a) very useful (b) Moderately Useful (c) not at all useful

PRESENTATION

7. How do you find style of presentation of information of the report? (please tick (✓) the relevant)

(a) Excellent (b) Very Good (c) fair (d) not good at all

ACCESSIBILITY

8. How easy was it to collect a copy of the Report (soft/hard copy)?

(a) Very easy (b) Moderately easy (c) difficult

9. ADDITIONAL COMMENTS

Please note: These comments may be used for internal and external promotional purposes but will not be attributed to the person making them, unless explicitly agreed to this in writing. (please add extra sheet if required)

Thank you for completing our feedback form!

Please send your valuable feedback to

Additional Director General, NSO, SDRD, 164, GLT Road, Kolkata-108 or email us at tc.sdrd-mospi@gov.in

Dissemination of NSS Results :

The Report is available in our website www.mospi.gov.in
