Note: Estimated number of households given in this Table are design based estimates and may be used as control totals for combining and arriving at rates and ratios. These figures are not intended for providing the number of households

Appendix B

RSE Tables

Appendix B: RSE Tables

Table No.	Title
R1	RSE (%) of estimated number of agricultural households, non-agricultural households and rural households during the agricultural year July 2018- June 2019 for different States/Group of UTs/ Group of North-Eastern States
R2	RSE (%) of average area of homestead land owned per household, average area of land owned (excluding homestead land) per household and average area owned per household by different States/Group of UTs/Group of North-Eastern States during July 2018-June 2019
R3	RSE (%) of average area per operational holding, area owned and possessed and area operated for different States/Group of UTs/Group of North-Eastern States during July 2018-December 2018
R4	RSE (%) of average monthly income per agricultural households during the agricultural year July 2018- June 2019 for different States/Group of UTs/ Group of North-Eastern States considering only paid out expenses and both paid out and imputed expenses

Table R1: RSE (%) of estimated number of agricultural households, non-agricultural households and rural households during the agricultural year July 2018- June 2019 for different States/Group of UTs/ Group of North-Eastern States

State/Group of NE States/Group of UTs	Relative Standard Error (%)		
	agricultural households	non-agricultural households	rural households

Appendix C

**Note on Sample Design and
Estimation Procedure**

Appendix C

Note on Sample Design and Estimation Procedure

1. Introduction

1.1 The National Sample Survey (NSS), set up by the Government of India in 1950 to collect socio-economic data employing scientific sampling methods, started its seventy seventh round from 1st January 2019. The survey continued till 31st December 2019.

1.2 **Subject Coverage:** The 77th round (January 2019 - December 2019) of NSS was earmarked for surveys on ‘*Land and Livestock Holdings of Households and Situation Assessment of Agricultural Households*’ and ‘*Debt and Investment*’. The last survey on these subjects was conducted in 70th round of NSS (January 2013 - December 2013).

2. Outline of the Survey programme

2.1 **Geographical coverage:** The survey of NSS 77th round covered the whole of the Indian Union except the villages in Andaman and Nicobar Islands which were difficult to access. The survey on ‘*Land and Livestock Holdings of Households and Situation Assessment of Agricultural Households*’ was carried out in the rural areas of the country.

2.2 **Visits 1 & 2:** Each sample FSU and sample households were visited twice during this round. Since the workload of the first visit (i.e. Visit 1) was more, the first visit continued till the end of August 2019. Thus, period of the first visit (i.e. Visit 1) was January – August 2019 (duration of eight months) and that of the second visit (i.e. Visit 2) was September – December 2019 (duration of four months).

The listing schedule (Schedule 0.0) was canvassed only in Visit 1. Schedules 33.1 (Land and Livestock Holdings of Households and Situation Assessment of Agricultural Households) and 18.2 (Debt and Investment) were canvassed in independent sets of sample households. Visit 1 and Visit 2 schedules were canvassed in the same set of sample households during first and second visit respectively. Contents of the schedules for the two visits were not same since the information relate to two different periods.

2.3 **Sub-rounds:** The survey period of the round was divided into two sub-rounds. Sub-round one consisted of the first half of the survey period of each visit i.e. January – April 2019 for Visit 1 and September – October 2019 for Visit 2 while sub-round two consisted of the remaining period of the respective visits. Thus, each sub-round was of four months for Visit 1 and two months for Visit 2.

In each of these two sub-rounds equal number of sample FSUs was allotted for survey with a view to ensuring uniform spread of sample FSUs over the entire survey period. Attempt was made to survey each of the FSUs during the sub-round to which it was allotted. Because of the arduous field conditions, this restriction was not strictly enforced in *Andaman and Nicobar Islands, Lakshadweep, Ladakh region (Leh and Kargil districts) of Jammu & Kashmir and rural areas of Arunachal Pradesh and Nagaland.*

The FSUs visited in the first sub-round of Visit 1 were revisited during the first sub-round of the Visit 2. Similarly, FSUs of sub-round 2 of Visit 1 were revisited in sub-round 2 of Visit 2.

2.4 Schedules of enquiry: During this round, the following schedules of enquiry were canvassed:

Schedule 0.0	: list of households
Schedule 33.1	land and livestock holdings of households and situation assessment of agricultural households (in rural areas only)
Schedule 18.2	debt and investment

3. Sample Design

3.1 Formation of sub-units (SUs):

3.1.1 Rural areas: A rural village was notionally divided into a number of sub-units (SU) of more or less equal population during the preparation of frame. Census 2011 population of villages was projected by applying suitable growth rates and the number of SUs to be formed in a village was determined apriori.

3.1.2 The above procedure of SU formation was implemented in the villages with population *more than or equal to 1000 as per Census 2011*. In the remaining villages, no SU was formed.

3.1.3 The number of SUs formed in the villages (with Census 2011 population 1000 or more) of the frame was decided before selection of the samples following the criteria given below:

projected population of the village	no. of SUs formed
less than 1200	1
1200 to 2399	2
2400 to 3599	3
3600 to 4799	4
4800 to 5999	5
.....and so on

3.1.4 Special case:

3.1.4.1 For rural areas of (i) Himachal Pradesh, (ii) Sikkim, (iii) Andaman & Nicobar Islands, (iv) Uttarakhand (except four districts Dehradun, Nainital, Hardwar and Udham Singh Nagar), (v) Punch, Rajouri, Udhampur, Reasi, Doda, Kishtwar, Ramban, Ladakh region (Leh and Kargil districts) of Jammu and Kashmir and (vi) Idukki district of Kerala, numbers of SUs formed in a village was determined in such a way that each SU contains 600 or less projected population. Further, SUs were not formed in the villages in the above mentioned districts/States with population less than 500 as per Census 2011. In the remaining villages the number of SUs formed for these States/districts are as follows:

projected population of the village	no. of SUs formed
less than 600	1
600 to 1199	2
1200 to 1799	3
1800 to 2399	4
2400 to 2999	5
.....and so on

3.1.4.2 For rural parts of Kerala, similar procedure as mentioned in Para 3.1.3 above was adopted with the modification that the SUs were formed within Panchayat Wards instead of villages.

3.2 Outline of sample design: A stratified two stage design was adopted for the 77th round survey. *The first stage units (FSU) was villages/sub-units (SUs) as per the situation in the rural sector. The ultimate stage units (USU) were households.*

3.3 Sampling Frame for First Stage Units (FSUs):

3.3.1 There was no SU formation in villages (Panchayat wards for Kerala) with population less than 1000 as per Census 2011 and entire village was considered as one FSU. All such villages (Panchayat wards for Kerala) was the First Stage Units (FSUs).

3.3.2 In the remaining villages, notional sub-units (SUs) following the procedure as described in Para 3.1.1 was formed. Such SUs were considered as First Stage Units (FSUs). List of FSUs was the sampling frame for respective cases.

3.4 Stratification of FSUs:

3.4.1 For this survey, each district was a stratum. Within each district of a State/UT, rural stratum comprised all rural areas of the district.

3.5 Sub-stratification of FSUs:

3.5.1 Rural sector: Three groups of villages were formed within each stratum:

Group 1: all villages (Panchayat wards for Kerala) with Census 2011 population less than 250

Group 2: all villages (Panchayat wards for Kerala) with Census 2011 population more than or equal to 250 but less than 500

Group 3: remaining villages

The sample size for a rural stratum was allocated among 3 groups in proportion to population. Let r_1 , r_2 and r_3 be the allocations to Group 1, Group 2 and Group 3 respectively. The villages within each group were first arranged in ascending order of number of cultivators. For all the three groups within each strata, ' $r_1/2$ '>1, ' $r_2/2$ '>1 and ' $r_3/2$ '>1, implied formation of 2 or more sub-strata in each group. Sub-strata was demarcated in Group 1, Group 2 and Group 3 respectively in such a way that each sub-stratum comprised a group of villages (all SUs of a village considered together) of the arranged frame and had more or less equal number of cultivators.

The sub-strata in Group 1 was numbered as 11, 12, 13,..... The numbering of sub-strata in Group 2 was 21, 22, 23,..... Finally, for Group 3, sub-strata numbers started from 31.

If number of FSUs in a particular Group was very small, no sub-stratum was formed in that Group. Further, in those strata where allocations were very small, minimum allocation for Group 1 and Group 2 was 1 each.

3.6 Total sample size (FSUs): In NSS 77th round, 9,954 FSUs were allocated for survey at all-India level (considering both rural and urban areas). Out of the total sample FSUs, allocation of sample FSUs in rural areas was 5,950.

3.7 Allocation of total sample to State/UTs: The total number of sample FSUs were allocated to the State/UTs in proportion to population as per Census 2011 subject to a minimum sample allocation to each State/UT.

3.8 Allocation of State/UT level sample to rural and urban sectors: State/UT level sample size was allocated between rural and urban sectors in proportion to population as per Census 2011 with 1.5 weightage to urban sector. A minimum of 4 FSUs, each for rural and urban sector separately, was allocated to each State/UT. For more urbanised big States like Maharashtra, Tamil Nadu etc., the urban allocation was limited to rural sample size to avoid undue weightage to urban sector.

3.9 Allocation to strata: For each State/ UT, the respective sample size was allocated to the different strata in proportion to the population as per Census 2011. Stratum level allocation was adjusted to multiples of 2 with a minimum sample size of 2.

3.10 Allocation to sub-strata in rural areas:

3.10.1 Allocation was 2 for each sub-stratum in the rural sector (except for sub-strata formed in Group 1 and Group 2 in some cases where minimum allocation might be 1).

3.11 Selection of FSUs within a stratum/sub-stratum:

3.11.1 From all the sub-strata in rural sector within each stratum, required number of FSUs were selected by Simple Random Sampling Without Replacement (SRSWOR) scheme.

3.12 Formation of second stage strata (SSS) of households and allocation among SSS:

3.12.1 Schedule 33.1 (Rural only): Land and Livestock Holdings of Households and Situation Assessment of Agricultural Households: Five SSS were formed. The composition of the SSS and number of households surveyed from different SSS are as follows:

Composition	SSS No.	number of households surveyed
non-agricultural households	1	2
agricultural households with land possessed less than 0.250 hectare (0.618 acre)	2	2
agricultural households with land possessed equal to or more than 0.250 hectare but less than 1.000 hectare (2.471 acre)	3	2
agricultural households with land possessed equal to or more than 1.000 hectare but less than 2.000 hectares (4.942 acre)	4	2
agricultural households with land possessed equal to or more than 2.000 hectares	5	2
Total		10

3.13 Selection of households: The sample households from each SSS for each of the schedules were selected by SRSWOR.

4. Estimation Procedure

4.1 Notations:

s = subscript for s-th stratum

t = subscript for t-th sub-stratum

i = subscript for i-th FSU [SU/ village (panchayat ward)/ block]

j = subscript for j-th second stage stratum in an FSU

k = subscript for k-th sample household within an FSU

N = total number of FSUs in any rural/urban sub-stratum

n = number of sample FSUs surveyed including 'uninhabited' and 'zero cases' but excluding casualty for a particular sub-stratum

H = total number of households listed in a second-stage stratum of an FSU

h = number of households surveyed in a second-stage stratum of an FSU

x, y = observed value of characteristics x, y under estimation

\hat{X} , \hat{Y} = estimate of population total X, Y for the characteristics x, y

Under the above symbols,

y_{stijk} = observed value of the characteristic y for the k-th household of the j-th second stage stratum of the i-th FSU for the t-th sub-stratum of s-th stratum.

However, for ease of understanding, a few symbols have been suppressed in following paragraphs where they are obvious.

4.2 Formulae for Estimation of Aggregates for a stratum × sub-stratum:

4.2.2 Schedule 33.1:

4.2.2.1 For j-th second-stage stratum of a stratum × sub-stratum:

$$\hat{Y}_j = \frac{N}{n_j} \sum_{i=1}^{n_j} \left[\frac{H_{ij}}{h_{ij}} \sum_{k=1}^{h_{ij}} y_{ijk} \right]$$

Where n_j is the number of sample FSUs with non-void j-th second-stage stratum.

4.2.2.2 Aggregate \hat{Y} is obtained combining all the second-stage strata:

$$\hat{Y} = \sum_j \hat{Y}_j$$

Note: i) Schedule 33.1 has been canvassed in rural sector only

ii) Values of j for schedule 33.1 are as follows:

$j = 1, 2, 3, 4$ or 5

4.3 Overall Estimate for Aggregates for a stratum:

Overall estimate for a stratum (\hat{Y}_s) will be obtained as

$$\hat{Y}_s = \sum_t \hat{Y}_{st}$$

4.4 Overall Estimate of Aggregates at State/UT/all-India level:

The overall estimate \hat{Y} at the State/ UT/ all-India level is obtained by summing the stratum estimates \hat{Y}_s over all strata belonging to the State/ UT/ all-India.

4.5 Estimates of Ratios:

Let \hat{Y} and \hat{X} be the overall estimates of the aggregates Y and X for two characteristics y and x respectively at the State/ UT/ all-India level.

Then the combined ratio estimate (\hat{R}) of the ratio ($R = \frac{Y}{X}$) will be obtained as

$$\hat{R} = \frac{\hat{Y}}{\hat{X}}$$

4.6 Estimates for Visit 1, Visit 2 and for the two Visits combined are obtained separately by restricting the sample FSUs to the respective Visits.

4.7 Estimation of Errors:

4.7.1 Formula for estimated variance:

4.7.1.1 The sampling scheme in the current round is SRSWOR. However, if the sampling fraction is small, then the difference between variance estimates using the SRSWR and SRSWOR becomes negligible. In such case, samples can be treated as drawn with SRSWR and variance estimates becomes simpler in form and easy to calculate. It has been observed that overall sampling fraction is quite low in the current situation and hence there is not much loss in accuracy of variance estimates if SRSWR is assumed.

With this view, formulae for estimates of variances are given below based on SRSWR scheme.

(a) Formula for aggregate \hat{Y}

$$V\hat{a}r(\hat{Y}) = \sum_s V\hat{a}r(\hat{Y}_s) = \sum_s \sum_t V\hat{a}r(\hat{Y}_{st})$$

$$V\hat{a}r(\hat{Y}_{st}) = \frac{1}{n_{st}(n_{st}-1)} \sum_{i=1}^{n_{st}} (N_{st} \hat{Y}_{sti} - \hat{Y}_{st})^2$$

(b) **Formula for ratio \hat{R} :**

$$M\hat{S}E(\hat{R}) = \frac{1}{\hat{X}^2} \sum_s \sum_t M\hat{S}E_{st}(\hat{R})$$

where
$$M\hat{S}E_{st}(\hat{R}) = \frac{1}{n_{st}(n_{st}-1)} \sum_{i=1}^{n_{st}} \left[N_{st} (\hat{Y}_{sti} - \hat{R} \hat{X}_{sti}) - (\hat{Y}_{st} - \hat{R} \hat{X}_{st}) \right]^2,$$

$$N_{st} \hat{Y}_{sti} = \sum_j \sum_k y_{stijk} \times n_{st} \times multiplier,$$

$$N_{st} \hat{X}_{sti} = \sum_j \sum_k y_{stijk} \times n_{st} \times multiplier$$

4.7.2 Estimates of Relative Standard Error (RSE):

$$R\hat{S}E(\hat{Y}) = \frac{\sqrt{V\hat{a}r(\hat{Y})}}{\hat{Y}} \times 100$$

$$R\hat{S}E(\hat{R}) = \frac{\sqrt{M\hat{S}E(\hat{R})}}{\hat{R}} \times 100$$

5. Multipliers:

The formulae for multipliers at stratum/sub-stratum/second-stage stratum level for Schedule 33.1 are given below. The formulae are applicable for both Visit 1 and Visit 2.

sector	formula for multipliers
Rural	$\frac{N_{st}}{n_{stj}} \times \frac{H_{stij}}{h_{stij}}$
j = 1, 2, 3, 4, 5 for Schedule 33.1	

Note:

- (i) For estimating any characteristic for any domain not specifically considered in sample design, indicator variable may be used.
- (ii) Multipliers have to be computed on the basis of information available in the listing schedule irrespective of any misclassification observed between the listing schedule and detailed enquiry schedule.

6. Treatment for zero cases, casualty cases etc.:

6.1 While counting the number of FSUs surveyed (n_{st} or n_{stj}) in a stratum/sub-stratum, all the FSUs with survey codes 1 to 6 in schedule 0.0 were considered. In addition, if no household was available in the frame then also that FSU was treated as surveyed. However, household of a particular schedule type were available in the frame of the FSU but none of these could be surveyed then that FSU was treated as casualty and it was not treated as surveyed in respect of that schedule.

6.2 Casualty cases: FSUs with survey code 7 (selected FSU casualty) as per schedule 0.0 are treated as casualties. In addition to this, an FSU, although surveyed, might have to be treated as casualty for a particular schedule type and a particular *second stage stratum* as given in the following Para:

6.2.1 FSUs with survey codes 1 or 4 as per schedule 0.0 having number of households in the frame of j-th second stage stratum greater than 0 (i.e. $H > 0$) but number of households surveyed according to data file as nil ($h = 0$), was taken as casualties for j-th second stage stratum.

All the FSUs with survey codes 1 to 6 as per schedule 0.0 minus the number of casualties as identified above was taken as the number of surveyed FSUs (n_{stj}) for that (stratum/sub-stratum) \times (second stage stratum).

7. Treatment in cases of void second-stage strata/sub-strata /strata at FSU or household level

7.1 A stratum/sub-stratum might be void because of the casualty of all the FSUs belonging to the stratum/sub-stratum.

7.2 When a stratum/sub-stratum was void, the following procedure is recommended:

Case(I): Stratum/Sub-stratum void cases at FSU levels (i.e., all FSUs having survey code 7):

- (i) If a rural sub-stratum was void then it might be merged with the other sub-stratum of the same Group of the stratum.
- (ii) If a rural stratum (district) was void due to all FSUs being casualty, it might be excluded from the coverage of the survey. The state level estimates were based on the estimates of districts for which estimates were available

Case (II): Stratum/Sub-stratum void case at second stage stratum level (i.e. all the FSUs were casualties for a particular second stage stratum):

An FSU might be a casualty for a particular *second stage stratum* although survey code was not 3. If all the FSUs of a stratum/sub-stratum became casualties in this manner for a particular *second stage stratum*, the stratum/sub-stratum became void.

Table 1: Allocation of sample FSUs in rural areas in NSS 77th round for the survey *Land and Livestock Holdings of Households and Situation Assessment of Agricultural Households* (Schedule 33.1)

State/UT	number of sample FSUs allotted	number of sample FSUs surveyed in		number of households surveyed		number of agricultural households surveyed

STATE		

NATIONAL SAMPLE SURVEY OFFICE
SOCIO-ECONOMIC SURVEY
SEVENTY SEVENTH ROUND : JANUARY TO DECEMBER 2019
SCHEDULE 33.1: LAND AND LIVESTOCK HOLDINGS OF
HOUSEHOLDS AND SITUATION ASSESSMENT OF
AGRICULTURAL HOUSEHOLDS

VISIT 1

[0] descriptive identification of sample household			
1. state/u.t.:	5. sample sub unit (SU) number:		
2. district:	6. name of head of household:		
3. sub-district/tehsil:	7. name of informant:		
4. village name(s):			

[1] identification of sample household							
item no.	item	code			item no.	item	Code
1.	srl. no. of sample FSU				6.	visit number	1
2.	round number	7		7	7.	serial number of informant [#] (as in column 1 of block 3)	
3.	schedule number	3	3	1	8.	response code	
4.	second-stage stratum number				9.	survey code	
5.	sample household number				10.	reason for substitution of original household (code)	

CODES FOR BLOCK 1

item 8: response code: informant: co-operative and capable -1, co-operative but not capable -2, busy -3, reluctant -4, others -9

item 9: survey code: household surveyed: original -1, substitute -2; casualty -3

item 10: reason for substitution of original household: informant busy -1, members away from home -2, informant non-cooperative -3, others -9

* tick mark (√) may be put in the appropriate place.

if the informant is not a household member, code 99 will be recorded.

[3] demographic and other particulars of household members													
srl. no.	name of the member	relation to head (code)	gender (code)	age (years)	highest level of education (code)	whether attended any formal training in agriculture? (yes - 1, no - 2)	during the period July - December 2018						
							principal activity		subsidiary economic activity		earnings from wages/ salaried employment (received or receivable) [#] (Rs.)	earnings from pension /remittances (received or receivable) [#] (Rs.)	income from rent of leased out land (Rs.) ^{#*}
							status (code)	NIC-08 code (2-digits)	status (code)	NIC-08 code (2-digits)			
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)	(12)	(13)	(14)

Note: 1. # cols. 12 to 14 are not relevant for code 9 in col. 3

2. * income from rent of leased out land for all the household members are to be clubbed together and to be reported against head of the household in col. 14

CODES FOR BLOCK 3
col. 3: relation to head: self-1, spouse of head-2, married child-3, spouse of married child-4, unmarried child-5, grandchild-6, father/mother/father-in-law/mother-in-law-7, brother/sister/brother-in-law/sister-in-law/other relatives-8, servants/employees/other non-relatives-9
col. 4: gender: male-1, female-2, transgender-3
col. 6: highest level of education: not literate: -01, literate: below primary-02, primary -03, upper primary/middle -04, secondary -05, higher secondary -06, diploma /certificate course (up to secondary)-07, diploma/certificate course (higher secondary)-08, diploma/certificate course(graduation & above) -10, graduate -11, post graduate and above -12
col.8, 10: status: worked in h.h. enterprise (self-employed): own account worker -11, employer-12, worked as helper in h.h. enterprise (unpaid family worker) -21; worked as regular salaried/ wage employee -31,worked as casual wage labour: in public works other than MGNREG works -41, in MGNREG works - 42, in other types of work -51; did not work but was seeking and/or available for work -81, attended educational institution -91, attended domestic duties only -92, attended domestic duties and was also engaged in free collection of goods (vegetables, roots, firewood, cattle feed, etc.), sewing, tailoring, weaving, etc. for household use -93, rentiers, pensioners , remittance recipients, etc. -94, not able to work due to disability -95, others (including begging, prostitution, etc.) -97.
In column 10 applicable codes are 11, 12, 21, 31, 41, 42 and 51 only.

[4] household characteristics			
1.	household size		items 11 - 21 are to be filled in for code 2 in item 10
2.	religion (code)		11. dwelling unit (owned -1, hired -2, no dwelling unit -3, others -9)
3.	social group (code)		12. for code 1, 2 or 9 in col. 11 , type of structure (katcha-1, semi-pucca-2, pucca-3)
4.	household classification (code)		13. whether any of the household member has bank account? (yes-1, no-2)
household's usual monthly consumer expenditure (Rs.)			14. whether any of the household member possesses MGNREG job card? (yes -1, no -2)
5.	usual consumer expenditure in a month for household purposes out of purchase (A)		15. if code 1 in item 14 , whether undertook any work under MGNREG scheme during the last 365 days? (yes -1, no -2)
6.	imputed value of usual consumption in a month from home grown stock (B)		16. whether any of the household member is a member of registered farmers' organisation? (yes-1, no-2)
7.	imputed value of usual consumption in a month from wages in kind, free collection, gifts, etc. (C)		17. whether the household possesses any Kisan Credit Card?(yes-1, no-2)
8.	expenditure on purchase of household durables during last 365 days (D)		18. whether the household possess Soil Health Card? (yes-1, no-2)
9.	usual monthly consumer expenditure [A + B + C +(D/12)]		19. if code 1 in item 18 , whether fertilizer, manure, soil amendments applied to field as per recommendations of Soil Health Card? (yes-1, no-2)
10.	value of agricultural production from self-employment activities during the last 365 days (code)		20. whether the household possess Animal Health Card (Nakul Swasthya Patra)? (yes-1, no-2)
			21. whether the household insured any crop under PM Fasal Bima Yojana? during last 365 days (code)

CODES FOR BLOCK 4
item2: religion : Hinduism-1, Islam-2, Christianity -3, Sikhism-4, Jainism-5, Buddhism-6, Zoroastrianism-7, others-9
item3: social group : scheduled tribe-1, scheduled caste-2, other backward class-3, others-9
item4: household classification (to be determined based on the source of major income of the household) : self-employment in: crop production -1, farming of animals -2, other agricultural activities -3, non-agricultural enterprise -4; regular wage/salaried earning in: agriculture -5, non- agriculture-6; casual labour in: agriculture - 7, non- agriculture-8; others (pensioners, remittance recipients, student, engaged in domestic duties, etc.) -9
item 10: value of agricultural produce received during the last 365 days : less than or equal to Rs.4000/--1, more than Rs.4000/--2
item 21: whether household insured any crop under PM Fasal Bima Yojana : yes -1, no-2, not applicable -3 (code 3 will be given when the household is not producing any crop which is covered under PMFBY i.e. food crops (cereals, millets and pulses), oilseeds, annual commercial/horticulture crops.

[5] particulars of land of the household and its operation during the period July- December 2018																				
srl. no.	categories of land*	area of land (0.00 acre)	whether used for any agricultural production during July- December 2018? (yes-1, no -2)	if entry in col. 3 ≥ 0.00, area of land by its use during July- December 2018 (0.00 acre)						if entry in any of the col. 5 to 8 is > 0					for leased lands					
				only for growing of crops		only for farming of animals	both for growing of crop and farming of animals	other agricultural uses	other land not used for agriculture purpose	major type of crop grown/ animal farming undertaken (code)	whether any part of the land was irrigated?(yes-1, no -2)	if entry 1 in col. 12		tenure of lease for major part of the land (code)	area of land by terms of lease (0.00 acre)					
				on land used for shifting/ jhum cultivation	on land other than the land used for shifting /jhum cultivation							area of land irrigated (0.00 acre)	source of irrigation (code)		major source	2 nd major source	for fixed money	for fixed produce	for share of produce	under no specified terms from relatives / to relatives
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)	(12)	(13)	(14)	(15)	(16)	(17)	(18)	(19)	(20)	(21)
1.	land other than home-stead	owned and possessed																		
2.		leased-in	recorded																	
3.			not recorded																	
4.		otherwise possessed																		
5.		leased-out																		
6.	home-stead	owned and possessed																		
7.		leased-in	recorded																	
8.			not recorded																	
9.		otherwise possessed																		
10.	total (homestead + other land)																			
11.	if entry 1 in col. 4 for any of the items 1 to 4 or 6 to 9, some particulars on household operational holding during July- December 2018						whether operated individually/jointly? (individually - 1, jointly - 2)													
12.							type of holding (code)													
13.							main use of the holding (code)													
14.							number of parcels in the holding													
15.							number of crops harvested during July- December 2018 as per 4 digit crop code in Page 6													

* Lands which were 'owned and possessed' or 'leased-in' or 'otherwise possessed' or 'leased-out' during the major part of July - December 2018 will be considered. Items 1 to 5 will be exclusive of homestead land.

CODES FOR BLOCKS 5
<i>col. 11: major type of crop grown/animal farming undertaken: cereals-01, pulses-02, sugar crops-04, condiments and spices-05, fruits-06, tuber crops-07, vegetables-08, other food crops-09, oilseeds-10, fibres-11, dyes & tanning materials-12, drugs & narcotics-13, fodder crops-14, plantation crops-15, flower crops-16, medicinal plants-17, aromatic plants-18, other non-food crops-19, dairy-20, poultry/duckery-21, piggery-22, fishery-23, farming of other animals-29</i>
<i>col.14 & 15: source of irrigation: canal-1, minor surface works (pond, tank, etc)-2, ground water (tube well, well etc.)-3, combination of codes 1, 2 and 3 -4, others-9</i>
<i>col. 16: tenure of lease: less than 6 months-1, 6 months or more but less than 1 year-2, 1 year or more but less than 2 years-3, 2 years or more-4</i>
<i>item 12: type of holding:entirely owned -1, entirely leased-in -2, both owned and leased-in -3, entirely otherwise possessed -4</i>
<i>item 13: main use of the holding: only for growing of crops: on land used for shifting /jhum cultivation-1, on land other than the land used for shifting /jhum cultivation-2; only for farming of animals-3; both for growing of crop and farming of animals-4; other agricultural uses-5</i>
Conversion factors for reporting land area: 1 acre = 0.405 hectare = 4047 sq. meter = 43560 sq. Ft
