MESSAGE

S. L. Menaria
Director General
Ministry of Statistics and
Programme Implementation
Government of India

The 2030 Agenda for Sustainable Development has set the world on a path of peace, prosperity and opportunity for all on a healthy planet. In the last seven years since adoption of the United Nations' 2030 Agenda for Sustainable Development in September 2015, consisting of 17 Sustainable Development Goals (SDGs) and associated 169 targets, countries around the world have made significant efforts to establish the necessary monitoring arrangements for successful implementation of the SDGs. Government of India, too have a National Indicator Framework for SDGs developed by the Ministry of Statistics and Programme Implementation (MoSPI). It is a robust framework which helps to monitor the progress of SDGs at national level.

Based on the SDG-NIF, MoSPI released the baseline report in 2019 to provide benchmark for assessing the progress made towards achieving the SDGs by India. Further, MoSPI released annual progress reports based on SDGs-NIF in 2020 and 2021. In this endeavor, the publication "Sustainable Development Goals-National Indicator Framework Progress Report, 2022" includes the latest available data for the SDG indicators included in the NIF. The publication has been released as a part of the Government of India's Azadi Ka Amrit Mahotsav celebrations, which is an initiative to celebrate and commemorate 75 years of independence and the glorious history of its people, culture and achievements.

The report provides data-based evidence of India's progress toward achieving the SDGs and associated targets. The report will not only assess the progress of nation but will also help the planners and policy makers in identifying the gaps where additional policy intervention is required with the help of credible data.

I would like to express my heartfelt compliments to the SSD team led by Ms. R. Savithri, Additional Director General and her SDG team members, Dr. Ashutosh Ojha, DDG, Dr. Sanjay, Director and other colleagues of SDG unit for their scrupulous and relentless efforts in compiling and publishing the report in a time bound manner. I believe that this publication would be immensely useful for all stakeholders dealing with the SDGs.

New Delhi June 29, 2022 S) L. Menaria)

PREFACE

R. Savithri Additional Director General Ministry of Statistics and Programme Implementation Government of India

The Sustainable Development Goals (SDGs) provide an international framework to move by 2030 towards more equitable, peaceful, resilient, and prosperous societies - while living within sustainable planetary boundaries. The world leader at 70th Session held in September 2015 adopted the document titled "Transforming our World: The 2030 Agenda for Sustainable Development" consisting of 17 Sustainable Development Goals and associated 169 targets.

The Government of India is committed to ensure "Sabka Saath, Sabka Vikas, Sabka Vishwas, Sabka Prayas" which is aligned with the spirit of the Sustainable Development Goals' motto of "Leaving No One Behind". In this endeavour, the Ministry of Statistics and Programme Implementation periodically reviews the National Indicator Framework for SDGs, developed for tracking the progress of SDGs at national level, to align it with the Global Indicator Framework. The Ministry is now releasing the progress reports on SDGs based on late SDGs - NIF, namely, "Sustainable Development Goals-National Indicator Framework Progress Report, 2022", which serve as a valuable tool for policy makers, planners, administrators, researchers and other stakeholders. Comprehensive information on data-based SDG monitoring, data snapshots and brief highlights of progress of SDGs have been included in the report along with the associated metadata and disaggregated data. The report shows that while significant progress has been made in some areas, challenges remain in some other areas too. The report will facilitate a dialogue between ministries and other stakeholders to assess and compare the position of the efforts and developments being made by India in achieving SDGs. The report underscores the changes taken place in the social, economic and environment sectors, since the inception of SDGs in India, captured through periodic movement of national indicators.

I take this opportunity to express my complement to central Ministries/ Departments and UN agencies in India for providing the required information and necessary support at times to Social Statistics Division (SSD) of this Ministry in a time bound manner. I am sure that this cooperation will continue and strengthen in future also.

I must convey my appreciation to the efforts made by the officers of SDG unit of Social Statistics Division of this Ministry, lead by Dr. Ashutosh Ojha, Deputy Director General and his team comprising of Dr. Sanjay Kumar, Director; Shri Ashwani Kanaujia, Deputy Director; Ms. Aastha Gaur, Deputy Director; Shri Rajesh Pal, Senior Statistical Officer; Shri Sidhant Khanna, Junior Statistical Officer and Shri Amit Kumar, Junior Statistical Officer, for working diligently in bringing out this report.

I look forward for further suggestions and feedback from various Central Ministries, researchers, policy makers and other stakeholders.

New Delhi June 29, 2022

(R. Savithri)

Savithi

ACKNOWLEDGEMENT

Dr. Ashutosh Ojha **Deputy Director General** Ministry of Statistics and Programme Implementation Government of India

Based on India's Sustainable Development Goals-National Indicator Framework (SDGs-NIF), Ministry of Statistics and Programme Implementation (MoSPI), releases the progress report for SDGs on National Statistics Day, i.e., on 29th June every year. In this series, this publication "Sustainable Development Goals-National Indicator Framework Progress Report 2022" is an attempt to provide updated time series data along with metadata and data snapshot for the SDG indicators identified in India's NIF for SDGs.

We would like to use this opportunity to express our sincere gratitude to Shri S.L. Menaria, Director General, MoSPI for his high-valued inspirational leadership and encouragement which was proved invaluable in bringing out the report in the present shape.

I wish to place on record our deepest gratitude to Ms. R. Savithri, Additional Director General, Social Statistics Division, MoSPI for her unceasing support and instinctive guidance in preparation of the Report. She ensured her availability for discussion whenever the need arose and managed to fit these discussions in her busy schedule.

The timely release of this report would not have been accomplished without the determined, intensive and collective endeavour of my committed officers of SDG unit of SSD, MoSPI namely, Dr. Sanjay Kumar, Director, Shri Ashwani Kanaujia, Deputy Director and Ms. Aastha Gaur, Deputy Director, Shri Rajesh Pal, Senior Statistical Officer, Shri Sidhant Khanna, Junior Statistical Officer and Shri Amit Kumar, Junior Statistical Officer. I express my profound acknowledgements to them for their persistent and meticulous efforts starting from examination of methodologies of SDG global indicators for its possible adoption/adaption in Indian context, identification of possible data sources, compilation of relevant data in consultation with relevant stakeholders till finalising this report.

I would fail in my duty if I do not acknowledge the continuous and active support provided by all Central Government Ministries, State Governments/UT Administrations, Office of UN Resident Coordinator and other UN agencies in India and other stakeholders who provided valuable requisite inputs and data for the publication in time bound manner. Some of the materials/inputs have been taken and referred while compiling this publication from the relevant publications of the Government of India and different publication of various agencies of United Nations. All such sources are sincerely acknowledged. We would like to extend our sincere thanks to team UNDP in India for helping us effective designing of the Report.

Finally, I wish that this report will be found worthwhile in tracking the SDG progress at national level based on the indicators of SDG-NIF. I further wish that the report would be found as a valuable source of information and data on SDG-NIF indicators for a variety of users including planners and policy makers, government officials, UN Agencies, researchers, students, and the general public. We welcome the suggestions and feedback of all users on this publication.

New Delhi June 29, 2022

(Dr. Ashutosh Ojha)

Ashuth Oj

OVERVIEW

The concept of sustainable development was propagated by the Bruntland Commission Report released in 1987 as "Development that meets the needs of the present without compromising the ability of future generations to meet their own needs." To achieve sustainable development, three dimensions of the development i.e. economic, social and environmental need to be integrated. The United Nations, with the aim of taking forward success of Millennium Development Goals (MDGs), started Post-2015 Development Agenda to define the future global development framework that would succeed MDGs and integrate the three dimensions of development.

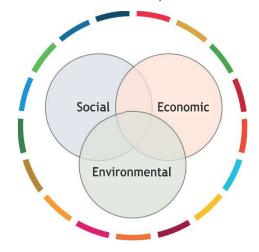

The United Nations General Assembly during its 70th Session, on 25th September 2015, adopted the document titled "Transforming our World: The 2030 Agenda for Sustainable Development" consisting of 17 Sustainable Development Goals and associated 169 targets. The Sustainable Development Goals (SDGs) are the blueprint for achieving a better and sustainable future for all. The SDGs came into force with effect from 1st January, 2016. The SDGs are a comprehensive list of global goals integrating the three dimensions of development. Moreover, the SDGs are universal (for all nations - developed, developing and least developed), interconnected and indivisible and hence necessitate comprehensive and participatory approaches in bringing everybody together so that no one is left behind. The 5P's or pillars - people, planet, prosperity, peace and partnership - capture the broad scope of the agenda. Countries are primarily responsible for following up and reviewing the progress made in implementing the goals and targets at the national level till 2030.

The Sustainable Development Goals provide an international framework to move by 2030 towards more equitable, peaceful, resilient, and prosperous societies - while living within sustainable planetary boundaries. The SDGs are not legally binding, but have become de-facto international obligations and have potential to reorient domestic spending priorities of the countries up till 2030. Countries are expected to take ownership and establish a national framework for achieving these Implementation and success will depend on countries' own sustainable development policies, plans and programmes. The 2030 Agenda also underscored the fact that quality, reliable and disaggregated data would be needed for

measurement of progress on the targets and for ensuring its central, transformative promise, i.e., "Leave No One Behind (LNOB)".

The United Nations Statistical Commission (UNSC) in March 2015, created the Inter-agency and Expert Group on SDG Indicators (IAEG-SDGs), composed of Member States and including regional and international agencies as observers with a task to develop and implement the Global Indicator Framework (GIF) for monitoring the Goals and targets of the 2030 Agenda. India represented Central, Eastern, Southern, and South-Eastern Asia in the IAEG-SDGs during 2015-2019. The GIF was developed by the IAEG-SDGs and agreed upon, by United Nations Statistical Commission in March 2017 which was subsequently adopted by the UN General Assembly in July 2017.

Dimensions of Development of Sustainable Development Goals

Initially, a total of 244 indicators were identified in the GIF for monitoring the progress of Global SDGs and associated target out of which some indicators were repeated under two or three different targets making the distinct global indicators as 232. The GIF was comprehensively reviewed by IAEG-SDGs in 2020, following detailed discussions with various stakeholders and accordingly the GIF was revised and refined. The IAEG-SDGs also review GIF annually and India is a member of IAEG-SDGs for 2021-23. At present, the GIF includes 248 indicators, with 231 unique indicators.

The Government of India is strongly committed to achieve the SDGs and following its commitment towards achieving the SDGs, the Government has also initiated a series of nation-wide welfare and developmental programs. In this effort, towards integrating SDGs into country's on-going national and sub-national policies and programs, at national level, NITI (National Institution for Transforming India) Aavog has mapped the SDGs with centrally sponsored programs of different Ministries/Departments. The integrated nature of the 2030 Agenda requires Government's to work across policy silos and set ambitious and interrelated economic, social and environmental objectives that go beyond short-term political cycles. Government of India is working with the approach to strategic visioning, priority setting, and implementation. The Government is committed to ensuring "Sabka Saath, Sabka Vikas, Sabka Vishwas, Sabka Prayas'" in the spirit of the Sustainable Development Goals' motto of "Leaving No One Behind".

National Indicator Framework (NIF) for SDGs

Monitoring and evaluation are essential for assessing the extent to which policies and resource allocations for implementing the SDGs result in meaningful outcomes. It is evident that reliable data is the backbone for better monitoring of SDGs and also require for data driven decision making policies. Taking into account the complex and interconnected nature of the SDGs, Government of India started working on a sound monitoring and evaluation framework, Stakeholders participation is critical to ensure that national priorities for implementation are understood and accepted.

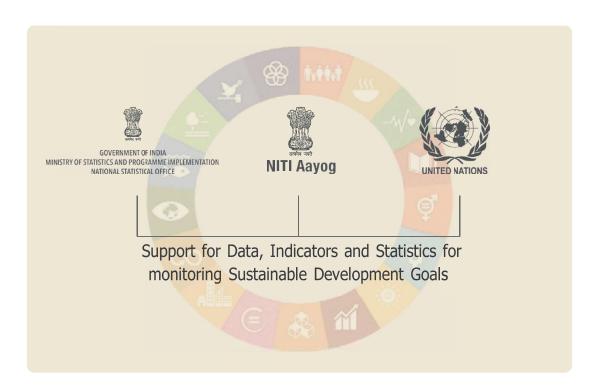

Towards this endeavor, the Ministry of Statistics and Programme Implementation (MoSPI), Government of India developed a National Indicator Framework (NIF) for SDGs in 2018 consisting of 306 national indicators along with identified data sources and periodicity following due consultation process with concerned Ministries/Departments, UN Agencies and other stakeholders. NIF is the backbone for facilitating monitoring of SDGs at the national level and provides appropriate direction to the policy makers and the implementing agencies of various schemes and programmes. Presently, at national level, data flow to National Statistical Office from nearly 30 data source Ministries/Departments.

MoSPI coordinates with these line Ministries for institutionalizing the data flow for SDG indicators. At present, there are 286 indicators in the NIF, 2022.

Coordination Mechanisms

Government of India has constituted a High Level Steering Committee (HLSC) for SGDs under the Chairmanship of Chief Statistician of India (CSI) & Secretary, MoSPI with members from NITI Aayog, Ministry of Home Affairs, Ministry of Health and Family Welfare, Ministry of Environment, Forest and Climate Change (MoEFCC), Ministry of Finance and MoSPI to periodically review and refine the NIF. The line Ministries/Departments propose changes in the NIF keeping the relevancy of indicators and data availability in view. These proposals are placed before the Technical Advisory Committee (TAC), constituted in pursuance of the Terms of References of HLSC under the chairpersonship of Director General (Statistics), MoSPI inter-alia to examine, review and recommend the proposal(s) of refinement/ deletion/addition of indicators in NIF for approval by HLSC.

Ministry holds regular consultations with line Ministries/Departments and the respective Custodian Agencies. To institutionalize such deliberations, MoSPI, NITI Aayog and the United Nations represented by United Nations Resident Coordinator Office (UNRCO), New Delhi, India have entered into a Tripartite Memorandum of Understanding (MoU) relating to support for Data, Indicators and Statistics for monitoring Sustainable Development Goals (SDGs) in India. The overall purpose of the MoU is to collaborate on issues related to support for statistical monitoring of Goals and Targets of SDGs, including the use of new technologies, capacity development to track SDG related outcomes and any other emerging requirements. Subsequently, in pursuance of the provision of MoU, MoSPI has set up a Data for Development Coordination Forum (DDCF) on SDGs, under the co-chairmanship of Director General (Statistics), NSO, MoSPI and UN Resident Coordinator for developing the data plan, assisting in the development of a sound measurement, improving the indicator framework after a thorough review with all stakeholders etc. This is a vital forum to discuss the SDGs related issues with all the stakeholders and UN Agencies at a unified platform.

Steps taken by MoSPI in bridging data gaps

MoSPI has taken several steps in bridging the data gaps relating to SDG indicators. A nationwide Multiple Indicator Survey (MIS), as a part of 78th Round of National Sample Survey (NSS) to bridge data gaps on national as well as global SDG indicators, was conducted during January 2020 to August 2021. MIS was conducted for the first time by the MoSPI for providing estimates relating to some important indicators of SDGs from a single survey.

Further, in continuation to this endeavor i.e. to bridge data gaps on national as well as global SDG indicators, MoSPI is going to launch a nationwide Comprehensive Annual Modular Survey (CAMS) as a part of NSS 79th Round.

In addition, a few existing surveys of MoSPI like Periodic Labour Force Survey (PLFS), Time Use Survey (TUS), etc. have been aligned with SDGs as per its data requirements of SDGs.

Identification of milestones for SDG indicators

Though the milestones for SDGs have been set for 2030, it is required to be fixed for the interim period also to ensure effective monitoring. For several SDG indicators, the milestones have been indicated in the global SDG targets whereas for some indicators the milestones need to be decided by the respective countries following certain principles, local priorities and needs, such as, adopting implicitly or explicitly associated milestones with SDG targets; aligning policy decisions of Government with the milestones; considering the targets/objectives/intent of the

scheme or mission; aligning International commitment with the milestones. MoSPI has initiated effective steps to identify the milestones for all the national SDG indicators. The concerned subject matter Ministries/Departments responsible for implementation of respective SDGs are setting milestones for the SDG national indicators so as to monitor the progress made towards achieving the SDGs.

Publicity and awareness on SDGs

The Agenda 2030 intends incorporating every aspects of society, taking everyone and leaving no one behind. In order to understand the important role of all stakeholders and stressing the need of localizing the SDGs, awareness programs assume added significance. MoSPI has taken several steps for enhancing awareness on SDGs. In this endeavor, MoSPI has developed a documentary film on SDGs in Hindi and got it dubbed in English and 15 other regional languages namely Assamese, Bengali, Gujarati, Kannad, Kashmiri, Konkani, Malayalam, Manipuri, Marathi, Nepali, Oriya, Punjabi, Tamil, Telugu, Urdu. These documentary films have been very helpful in creating awareness on SDGs. These documentary are in public domain and accessible to all at the following link (https://mospi.gov.in/web/mospi/sustainable-developm ent-goals-sdg).

Since 2007, Government of India has been observing 29th June as 'Statistics Day' to mark the birth anniversary of late Professor Prasanta Chandra Mahalanobis in recognition of his valuable contribution in the field of Economic Planning and Statistics. Celebrating Statistics day is also aimed at creating public awareness, especially, among the younger generation, on the role and importance of statistics in socio-economic planning and policy formulation for development of the country. On each Statistics Day, one particular theme of current

national importance is chosen for intensive and focused discussions towards filling the data gaps and improvement of timelines /quality of data in that area.

Underlying the importance of SDGs at National and Sub-national Level, MoSPI has been observing National Statistics Day with theme around SDGs since 2019. Year-wise details of theme of National Statistics Day since 2019 is as under:

| Year | Theme for the Statistics Day |
|------|--|
| 2019 | Sustainable Development Goals (SDGs) |
| 2020 | SDG 3 (Ensure healthy and promote well-being for all at all ages) & |
| | SDG 5 (Achieve gender equality and empower all women and girls). |
| 2021 | SDG 2 (End hunger, achieve food security and improved nutrition and promote sustainable agriculture) |
| 2022 | Data for Sustainable Development' |

| National Indicator Framework - A Comparison | | | | |

Localization of SDGs

Any statement on the SDGs at the national level is incomplete without the associated annotation on the status prevailing in the States. MoSPI is providing adequate technical support to the States, in development of comprehensive and inclusive SDG Monitoring Framework. The Ministry has developed and circulated Guidelines development of State Indicator Framework (SIF) to facilitate and assist States/UTs for development of a State Level Monitoring Framework in respective State/UTs in July 2019. The guidelines provide step by step guidance for development of a State Level Monitoring Framework including institutional arrangements to track the progress on the SDGs by building on the existing National Indicator Framework.

As a part of celebrations of 'Azadi ka Amrit Mahotsav', MoSPI has brought out a publication "Guidance on Monitoring Framework on SDGs at sub national level" in March 2022, which inter- alia includes the updated Guidelines for Development of SDGs State Indicator Framework. This publication is aimed to facilitate and assist State Governments in the development and refinement of the sub-national level monitoring framework by providing comprehensive guidance. The report also provides the challenges being faced by States/UTs in monitoring of SDGs at sub-national level along with the best practices being followed in the States/UTs for SDG monitoring. As per report, a total of 29 States/UTs have developed SIF for monitoring the progress on SDGs. The list of these States/UTs is given below:

| S.N. | States/UTs |
|------|--|
| 1. | Andaman & Nicobar Islands |
| 2. | Andhra Pradesh |
| 3. | Arunachal Pradesh |
| 4. | Assam |
| 5. | Bihar |
| 6. | Chhattisgarh |
| 7. | Dadra and Nagar Haveli and Daman and Diu |
| 8. | Delhi |
| 9. | Goa |
| 10. | Gujarat |
| 11. | Haryana |
| 12. | Himachal Pradesh |
| 13. | Jammu and Kashmir |
| 14. | Jharkhand |

| Publ | ications | on SDGs |
|------|----------|---------|

To measure the progress of SDGs at national level during 2015–2030, base year 2015–16 values on different indicators were very crucial as reference points to measure performance and progress in subsequent years. MoSPI, therefore, released the baseline report on NIF of SDGs, namely, "Sustainable Development Goals — National Indicator Framework Baseline Report 2015–16" on the National Statistics Day 2019 i.e., on 29th June 2019. The base year data related to 2015–16 or the year close to it for which data was available.

In continuation to Baseline Report, the "Sustainable Development Goals — National Indicator Framework Progress Report 2020 (version 2.0), the first formal progress report of India on SGD-NIF (covering all 17 SDGs) with the time series data from 2015–16 (or the baseline) to the 2018–19 (or latest available) was released on 31st March 2020. The report was further updated with latest data in the next version of the Progress Report namely, Sustainable Development Goals — National Indicator Framework Progress Report (version 2.1) which was released on 29th June 2020. The Ministry released "Sustainable Development Goals- National Indicator Framework Progress Report 2021 (version 3.1) on 29th June 2021.

Continuing the practice of yearly updating and reporting, the Sustainable Development Goals –

National Indicator Framework Progress Report 2022 has been prepared after taking inputs from all the data source Ministries/Departments. The report is culmination of a series of interaction with data source Ministries/Departments together with UN organizations for adopting more global indicators along with some existing national indicators into global indicators by modifying a few national indicators. This Report may be helpful in monitoring the progress made by the country towards achieving SDGs till date. This report contains four parts - Executive Summary, Data Snapshot, Metadata and Data Tables in addition to a brief overview. The 'Overview' covers the background of SDG-NIF in the country along with the role and steps taken by MoSPI for facilitating the monitoring of SDGs at national and sub-national level, 'Executive Summary' includes goal wise summary highlights/progress made during the period under reference, whereas, 'Data-Snapshot' presents the data summary of the indicators. 'Metadata' contains information on each indicator describing goal, target, reference year, unit of measurement, latest availability, link/ source(s) of data availability etc. and the 'Data Tables' have been given in MS excel format containing the time series data on the indicators, wherever available.

The MoSPI has released the following major reports on SDGs which are in the public domain and may be accessed from the website of the MoSPI

Guidance on Monitoring Framework for SDGs at Sub-National Level

India SDG Indicators-Data Visualization

The India SDG Dashboard is a unified data repository on SDG Indicators and has the provision of providing data at disaggregated level. The Dashboard was developed with the help of UNRCO India and launched on 29th June 2019. The time series data of indicators of SDGs NIF under different Goals and Targets can be visualized through bar chart, graph and Maps with available disaggregation at State/UT level. The Dashboard is updated on the basis of latest data published in the SDG Progress Reports. The dashboard can be accessed at the Ministry's website through (www.mospi.gov.in) the link: http://www.sdgindia2030.mospi.gov.in/dashboard/

Annexes of the Report

The development of SDG indicators is a continuing process and the Ministry in consultation with other stakeholders is in the process of examining the remaining SDG targets against which, at present,

the national indicators are under development. The list of such targets is at Annex - I.

The relevance of indicators to SDG targets has been the main criteria in the development of the indicators in the National Indicator Framework. Several indicators were found relevant to more than one targets and accordingly have been repeated under such targets. A list of such repeated indicators is at Annex - II.

The Global Indicator Framework for SDGs is to be complemented by indicators at the regional and national levels, which are to be developed by respective countries. The national indicators have been identified keeping the national priorities, relevancy and data availability in view. There is no strict one to one mapping between the indicators of GIF and NIF at every place. The list of national indicators which have full or partial consonance with global indicators is at Annex – III.

EXECUTIVE SUMMARY

The "Sustainable Development Goals -National Indicator Framework Progress Report, 2022" highlights the progress made so far in the journey of SDGs. The Report also shows the data-based evidence of India's progress towards achieving the SDGs and associated targets. It will also help policy makers in identifying thrust areas where interventions need to be focused. The report shows that, while significant progress has been made in some areas, challenges remain in some other areas too.

No Poverty

The central theme of SDG 1 is "No Poverty" which aims to end poverty in all its forms everywhere. Poverty is a multidimensional phenomenon which not only indicates the lack of income or access to resources but also manifests in the form of hunger & malnutrition, diminished opportunities for education, social discrimination and the inability to participate in decision-making processes. Eradicating poverty in all its forms remains one of the formidable challenges before the mankind.

With an aim to eradicate poverty in all its form, Government of India has launched a multi-pronged strategy. Due to the multidimensional nature of poverty, the Government is implementing a number of welfare schemes in the areas of nutrition, health, education, housing, drinking water, sanitation, skill development, social protection etc. The sustained economic growth has been instrumental in reducing the poverty over the years.

The number of targets, indicators and data availability for SDG 1 is as below:

| Number of targets | 7 |
|---|----|
| Number of indicators in GIF | 13 |
| Number of indicators in NIF | 17 |
| Number of indicators with data availability | 17 |

End poverty in all its forms everywhere

Percentage of households with any usual member covered by a health scheme or health insurance,

| Year Value | |
|------------|-------|
| 2015-16 | 28.70 |
| 2019-21 | 40.99 |

1,15,70,930 2017-18 **1,34,12,639** 2019-20

1,43,90543 2020-21

Zero Hunger

The aim of SDG 2 (Zero Hunger) is to end hunger and malnutrition by 2030 and making sure that all people, especially those in vulnerable situations, have sufficient nutritious food. It also aims to double agricultural productivity by 2030 and generate decent incomes, while supporting people-centered rural development and protecting the environment. The measures such as promoting sustainable agriculture, supporting small-scale farmers and creating equal access to land, technology and markets is fundamental to eradication of hunger and poverty. It also requires international cooperation to ensure investment in infrastructure and technology to improve agricultural productivity. It also emphasizes the need for all countries to work together to ensure enough investment is undertaken in related infrastructure by incorporating and adopting new technologies to improve agricultural productivity.

A number of initiatives have been taken by the Government to ensure food for all and has launched one of the largest food security programs in the world owing to the National Food Security Act, 2013. The stress on sustainable agriculture may be observed from the fact that one of the missions under the National Action Plan on Climate Change (NAPCC) is National Mission on Sustainable Agriculture (NMSA). The net area under the organic farming is increasing over the years. India has made a significant progress in the area of food security despite of having several challenges.

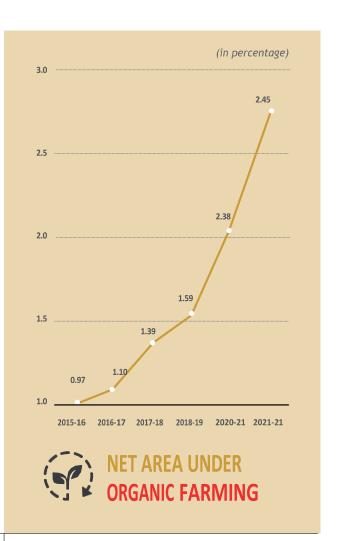

The number of targets, indicators and data availability for SDG 2 is as below:

| Number of targets | 8 |
|---|----|
| Number of indicators in GIF | 14 |
| Number of indicators in NIF | 19 |
| Number of indicators with data availability | 19 |

End hunger, achieve food security and improved nutrition and promote sustainable agriculture

Good Health and Well-Being

SDG 3 aims to ensure healthy lives and promoting well-being at all ages, which is crucial for sustainable development. The good health and well-being focuses to address all major health priorities, including communicable, non-communicable and environmental diseases; reproductive, maternal and child health; universal health coverage; and access to safe, effective, quality and affordable medicines and vaccines. SDG 3 efforts towards reducing child mortality, improving maternal health and tackling HIV/AIDS, tuberculosis, malaria and other diseases, impacts the overall well-being of an individual, burdens family and public resources and weakens societies.

The Government Policies on health sector aim to provide universal health services at affordable prices. In this direction, the National Health Policy, the world's largest health protection programme - Ayushman Bharat Yojana, Pradhan Mantri Bhartiya Janaushadhi Pariyojana among others, have been instrumental in achieving significant progress in this area. Government interventions have led to reduction in maternal and neonatal mortality as well as under-five mortality. Government health policies and infrastructure have shown remarkable resilience in exemplary handling of the COVID 19 pandemic. In fighting with COVID-19, the technology driven initiatives like Aarogya Setu app has been very helpful in contact tracing, syndromic mapping and self-assessment. Government focused attention on health research successfully invented India's indigenous COVID-19 vaccine.

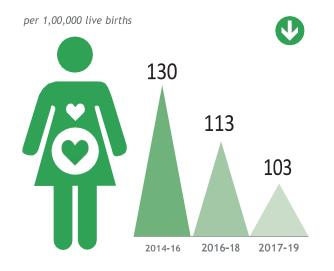

The number of targets, indicators and data availability for SDG 3 is as below:

| Number of targets | 13 |
|--|----|
| Number of indicators in GIF | 28 |
| Number of indicators in NIF | 39 |
| Number of indicators with data availability: | 38 |

Ensure healthy lives and promote well-being for all at all ages

| 2019-21 | 76.6 |

Quality Education

Sustainable Development Goal 4 aims at ensuring inclusive and equitable quality education and promote lifelong learning opportunities for all which is basic to improve people's lives and their sustainable development. The goal aims to ensure the completion of primary and secondary education by all boys and girls, and guarantee opportunities for equal access to quality technical and vocational education for everyone. It also aims to provide equal access to affordable vocational training, to eliminate gender and wealth disparities, and achieve universal access to a quality higher education.

India has made significant progress in improving school infrastructure, increasing enrollment of students and improving the level of gender parity. The Right to Education (RTE) Act makes education a fundamental right of every child between the ages of 6 and 14 years and ensures free and compulsory education. The coverage of education is constantly increasing across the country. A lot of emphasis has also been given to the Skill development and vocational education.

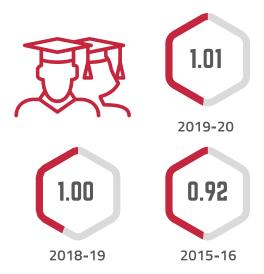

The number of targets, indicators and data availability for SDG 4 is as below:

| Number of targets | 10 |
|------------------------------------|----------------|
| Number of indicators in GIF | 12 |
| Number of indicators in NIF | 19 |
| Number of indicators with data ava | ailability: 17 |

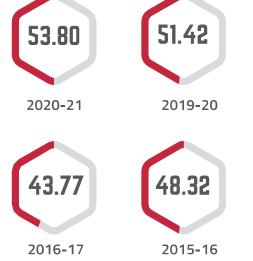

Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all

Gender Equality

SDG 5 aims to ensure end to all forms of discrimination against women and girls everywhere. Ending all forms of discrimination against women and girls is not only a basic human right but also is crucial for sustainable future of societies. Providing women and girls with equal access to education, health care, decent work, and representation in political and economic decision-making processes will achieve sustainable economies and will benefit societies and humanity at large. It is vital to give women equal rights on land and property, sexual and reproductive health, and to technology and the internet. Today there are more women in public offices than ever before which will help to achieve greater gender equality. Gender equality and women's empowerment have advanced in recent decades.

Government has initiated several social protection and financial inclusion programs focusing on women. Such type of initiatives has ensured the increased women participation. The Beti Bachao Beti Padhao created awareness and improved the efficiency of welfare services intended for girls. The Pradhan Mantri Matru Vandana Yojana has been instrumental in providing the social protection through maternity benefits to

The number of targets, indicators and data availability for SDG 5 is as below:

Clean Water and Sanitation

Sustainable Development Goal 6 pursues to ensure availability and sustainable management of water and sanitation for all and reflects its increased attention in the global political arena. Clean water and sanitation protects people from disease and enables them to be economically more productive. Water scarcity, poor water quality and inadequate water hygiene negatively impacts food security, livelihood choices and educational opportunities of low-income families across the world. The 2030 Agenda recognizes that social development and economic prosperity depends on the sustainable management of freshwater resources and ecosystems.

Despite having a huge demand, with limited water resources, India has committed to provide the population safe and adequate drinking water. Jal Jeevan Mission has played a significant role in ensuring adequate water and sanitation. In addition, all districts in India have achieved the target of Open Defecation Free (ODF) under the Swachh Bharat Mission.

The number of targets, indicators and data availability for SDG 6 is as below:

| Number of targets | 8 |
|---|----|
| Number of indicators in GIF | 11 |
| Number of indicators in NIF | 13 |
| Number of indicators with data availability | 13 |

Affordable and Clean Energy

SDG 7 aims to improve energy efficiency, increase use of renewable sources and promotion of sustainable and modern energy for all. The contribution of energy is central in fueling the engine of growth and its role in development of societies cannot be undermined. It is in the epicenter of nearly every major challenge and opportunity of the world which are either related to starting a business or increasing food production or incomes. Sustainable energy is an opportunity that can transform lives, economies and the planet.

Pradhan Mantri Sahaj Bijli Har Ghar Yojana - Saubhagya was launched to provide electricity to all households. The scheme has ensured access to power with a special focus on renewable energy to lower the carbon emissions and reduce air pollution. Pradhan Mantri Ujjwala Yojana has successfully taken cooking gas to rural households to meet the energy requirements and contribute towards improve-ment to women's health and reduced CO2 emission.

The number of targets, indicators and data availability for SDG 7 is as below:

| Number of targets | 5 |
|---|---|
| Number of indicators in GIF | 6 |
| Number of indicators in NIF | 5 |
| Number of indicators with data availability | 5 |

Ensure availability and sustainable management of water and sanitation for all

Decent Work and Economic Growth

Sustainable Development Goal 8 focuses to promote sustained economic growth by achieving higher levels of productivity and through technological innovation. Promoting policies that encourage entrepreneurship and job creation are key to this Goal, as are effective measures to eradicate forced labour, slavery and human trafficking. The goal is to achieve full and productive employment, and decent work, reduce informal employment and the gender pay gap and promote safe and secure working environments for all women and men by 2030.

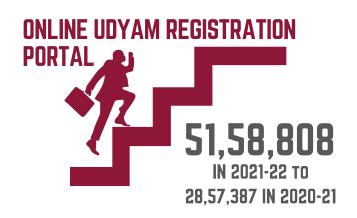

The Government Initiative, Startup India, aims to help Indian entrepreneur and Micro Units Development and Refinance Agency (MUDRA) ensures loans at low rates proving helpful in providing credit to MSMEs. Several structural reforms have been taken for sustainable economic growth and productive employment. The number of patents granted has been regularly increasing.

The number of targets, indicators and data availability for SDG 8 is as below:

| Number of targets | 12 |
|---|----|
| Number of indicators in GIF | 16 |
| Number of indicators in NIF | 24 |
| Number of indicators with data availability | 23 |

Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all

Industry, Innovation and Infrastructure

Sustainable Development Goal 9 aims to build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation. Thus, this goal includes three important aspects of sustainable development: infrastructure, industrialization and innovation. The goal seeks to develop quality, reliable, sustainable and resilient infrastructure, support economic development and human well-being, facilitate sustainable and resilient infrastructure development with a focus on affordable and equitable access for all and to promote inclusive and sustainable industrialization among many targets. Investment in infrastructure sectors including transport, irrigation, energy and more, is vital to ensure sustainable development of many countries.

Progression in business regulatory environment has ensured India's improved position in Ease of Doing Business rankings. The upgraded infrastructure and new initia-tive like Dedicated Freight Corridor, Dedicated Industrial Corridor etc. have been instrumental in the sustainable industrialization. The measures taken towards innovations led significant progress of the country in the Global Innovation index.

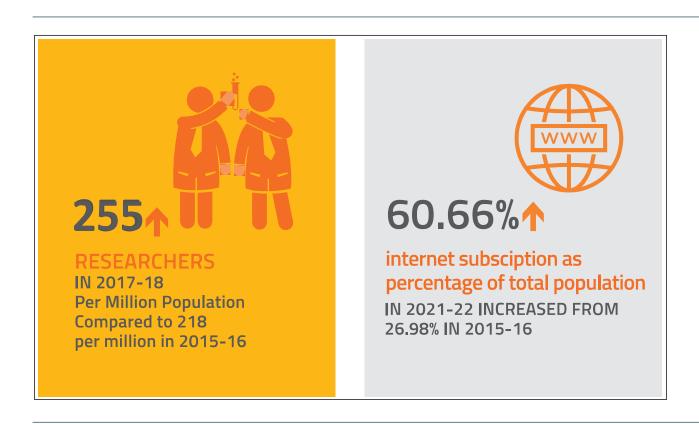

The number of targets, indicators and data availability for SDG 9 is as below:

| Number of targets | 8 |
|---|----|
| Number of indicators in GIF | 12 |
| Number of indicators in NIF | 17 |
| Number of indicators with data availability | 16 |

Reduced Inequalities

Sustainable Development Goal 10 focuses on reducing inequality within and among countries. SDG 10 aims to reduce income inequality based on age, gender, disability, religion and economic or other status within the country, as well as among countries. The inequalities in income and wealth are severe and have been widening globally. Inequality is not only a barrier to progress but also deprives people from opportunities and ulti-mately leads to the conditions of extreme poverty.

Government is committed to reduce economic inequality through various policies and programs. In this direction, numerous initiatives have been taken. Pradhan Mantri Jan Dhan Yojana, Pradhan Mantri Kisan Samman Nidhi are some such interventions.

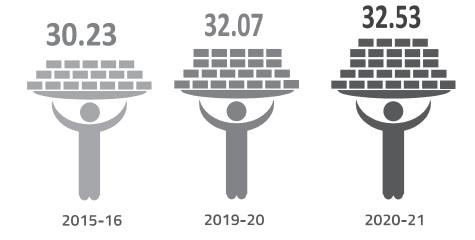

The number of targets, indicators and data availability for SDG 10 is as below:

| Number of targets | 10 |
|---|----|
| Number of indicators in GIF | 14 |
| Number of indicators in NIF | 11 |
| Number of indicators with data availability | 11 |

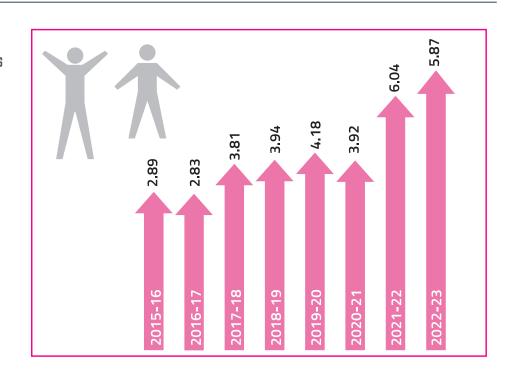

Reduce inequality within and among countries

LABOUR SHARE OF GDP

BUDGET ALLOCATION FOR WELFARE OF SCs AND STs (IN PERCENTAGE)

RECRUITMENT COST BORNE BY EMPLOYEE AS A PROPORTION OF MONTHLY INCOME EARNED IN COUNTRY OF DESTINATION

Sustainable Cities and Communities

SDG 11 (Sustainable Cities and Communities) is focused on cities, as more than half of the world's population lives in them. The goal aims at making cities and human settlements inclusive, safe, resilient and sustainable. Urbanization has resulted into creation of new jobs & opportunities and reduction in poverty. The sustainable development of cities plays a vital role in development of the nations as these offer opportunities for people to prosper economically and socially. Urban spaces can overcome challenges of rapid growth by improving resource use and focusing on reducing pollution and poverty including provisions to provide access to basic services, energy, housing and simultaneously reducing emissions of green-house gases.

Rapid urbanization has posed several challenges on infrastructure, for example, pressure of resources like water, energy, transport etc. Atal Mission for Rejuvenation and Urban Transformation (AMRUT) is focused to establish infrastructure that could ensure adequate robust sewage networks and water supply for urban transformation. The Government launched Pradhan Mantri Awas Yojana (PMAY) to provide affordable housing to all. National Smart Cities Mission, the urban renewal and retrofitting program has been launched to develop smart cities across the country. The Municipal solid waste management is one of the major environmental problems of Indian cities. Government has taken several initiatives which has ensured significant progress in the waste management in Urban areas.

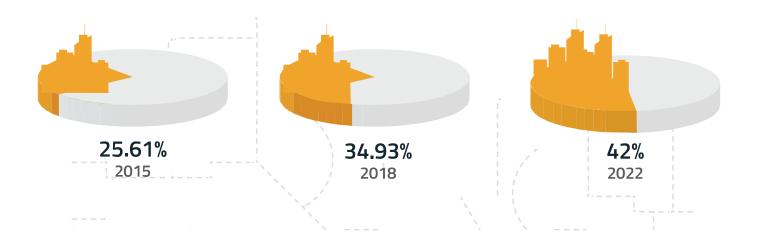

The number of targets, indicators and data availability for SDG 11 is as below:

| Number of targets | 10 |
|---|----|
| Number of indicators in GIF | 15 |
| Number of indicators in NIF | 13 |
| Number of indicators with data availability | 10 |

Responsible Consumption and Production

SDG 12 aims at ensuring responsible consumption and production patterns. This goal on responsible consumption and production is about promoting efficient use of natural resource, energy efficiency and sustainable infrastructure, and providing access to basic services, green and decent jobs and a better quality of life for all. It involves engaging consumers through awareness-raising and education on sustainable consumption and reducing waste. The goal seeks to promote more sustainable consumption and production patterns through various measures, including specific policies and new global agreements on the environmentally sound management of materials that are toxic to the environment.

India is a part of international initiatives and agreements on sustainable consumption and production including the 10 Years Framework of Programmes on sustainable consumption and production (10YFP) process. Government has given special consideration on renewable energy, organic agriculture, bio fertilizers, reduced emission etc. in order to ensure responsible consumption and production.

The number of targets, indicators and data availability for SDG 12 is as below:

| Number of targets | 11 |
|---|----|
| Number of indicators in GIF | 13 |
| Number of indicators in NIF | 15 |
| Number of indicators with data availability | 10 |

Climate Action

SDG 13 calls for taking urgent action to combat climate change and its impacts. Climate change has emerged as a global challenge as the world is experiencing rising sea levels, extreme weather conditions and increasing concentrations of greenhouse gases which is threatening lives of all, especially populations placed in the coastal areas. With rising greenhouse gas emissions, ambitious plans and accelerated action are needed on mitigation and adaptation of climate change impacts including access to finance and strengthened capacities. The goal talks about building this resilience and adaptive capacity to climate related hazards and integration of such measures into national policies. It focuses not only on early warning but also on impact reduction. It emphasizes the role of partnerships and commitment among nations for the same.

India's National Action Plan for Climate Change (NAPCC), with 8 sub-missions is a programme to mitigate and adapt to the adverse impact of climate change. The plan aims at fulfilling India's developmental objectives with focus on reducing emission intensity of its economy. Government strives to make disaster resilient societies and these efforts by Government have considerably reduced the causalities from disastrous events over the years. India achieved its pre 2020 goal of reduction in emission intensity and implementing programs for the post 2020 goals.

The number of targets, indicators and data availability for SDG 13 is as below:

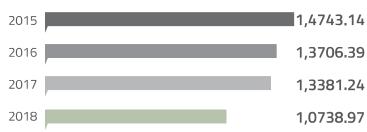

| Number of targets | 5 |

Life Below Water

Sustainable Development Goal 14 aims to conserve and sustainably use the oceans, seas and marine resources for sustainable development. SDG 14 seeks to address some of the challenges faced by the life under water - threats of marine and nutrient pollution, resource depletion and climate change, degradation and loss of biodiversity, ocean acidification, all of which are caused primarily by human actions. The Goal pursues corrective human measures including effectively regulating harvesting and overfishing, protecting marine and coastal ecosystems, increasing scientific knowledge to improve ocean health and providing access for small-scale artisanal fish-ers to marine resources and markets.

Several initiatives have been undertaken to protect the marine and coastal ecosystems, mangrove and coral reefs. The maximum sustainable yield in Fishing registered growth over the year.

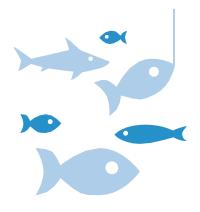

The number of targets, indicators and data availability for SDG 14 is as below:

| Number of targets | 10 |
|---|----|

Life on Land

SDG 15 aims to protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss, which have always been at the centre of considerations while policy formulation relating to the environment. Terrestrial ecosystems including forests and wetlands provide goods such as timber, raw materials for construction and energy and food for all. Besides, a series of ecosystem services including maintenance of soil quality, provision of habitat for biodiversity, maintenance of water quality, as well as regulation of water flow and erosion control, are provided by land ecosystems.

Goal 15 also highlights how these systems contribute to reducing risks of natural disasters such as floods and landslides, maintain productivity of agricultural systems while also regulating climate. It also seeks that concerted action is needed to protect, restore and promote terrestrial ecosystems.

The number of targets, indicators and data availability for SDG 15 is as below:

| Number of targets | 12 |
|---|----|
| Number of indicators in GIF | 14 |
| Number of indicators in NIF | 14 |
| Number of indicators with data availability | 14 |

Peace, Justice and Strong Institutions

SDG 16 seeks to promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels. Peace, justice and effective, accountable and inclusive institutions are at the core of sustainable development. Violence and armed conflict are the most significant and destructive challenge to the development, growth, and wellbeing of societies. The global sustainable development agenda for 2030 promotes transparent and effective local governance and judicial systems, reducing crime and sexual and gender based violence, tackling homicide and trafficking cases and also end Children's rights violations. It seeks to address the challenges of violence at all levels - individual, relationship, community and societal.

The spirit of democracy, justice, liberty and equality has been deeply embedded in the Indian constitution. Acts like The Right to Information Act, Lok Pal and Lok Ayukta Act, Whistle Blowers Protection Act etc., further reinforced it. More than 90% citizens have been covered under the unique identity system Aadhar. The political participation of vulnerable groups has been ensured in the constitutional framework of the country.

The number of targets, indicators and data availability for SDG 16 is as below:

| Number of targets | 12 |
|---|----|
| Number of indicators in GIF | 14 |
| Number of indicators in NIF | 21 |
| Number of indicators with data availability | 21 |

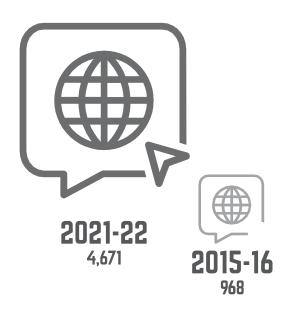

Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels

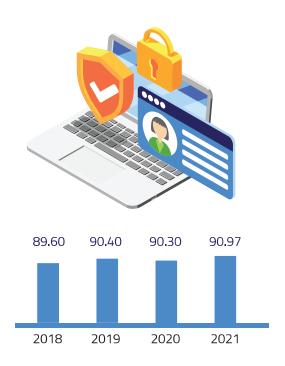

NATIONAL HUMAN RIGHTS INSTITUTIONS COMPLIANT WITH INTERNATIONAL NORMS SET OUT IN THE PARIS PRINCIPLES

GOVERNMENT E-SERVICES

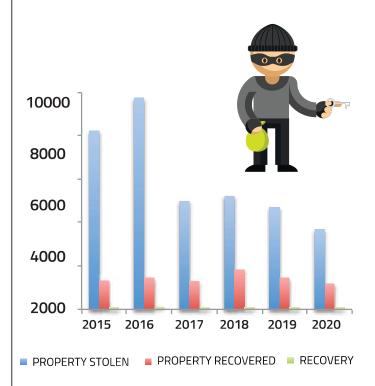

AVAILABLE TO CITIZENS

PROPORTION OF POPULATION **COVERED UNDER AADHAAR**

Partnerships for the Goals

Sustainable Development Goal 17, is critical to the achievement of all SDGs as the goal seeks to strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development. SDG 17, which is about "partnerships for the goals", is essential for achieving sustainable development as it promotes inclusive partnerships built upon principles and values, a shared vision and shared goals that place people and the planet at the centre at all levels (i.e., at the global, regional, national and local level).

India has introduced several policy improvements and process simplification over the years. In the endeavor to achieve SDGs, measuring the progress towards SDGs is important both at national and sub-national levels. While MoSPI has developed National Indicator Framework (NIF), States/UTs are encouraged to develop State and District Indicator Framework. MoSPI has issued guidelines for developing of State Indicator Framework (SIF) and a number of State/UTs have developed SIF.

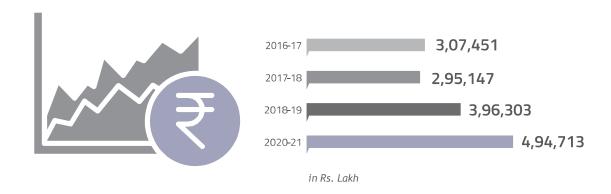

The number of targets, indicators and data availability for SDG 17 is as below:

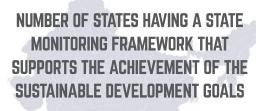

| Number of targets | 19 |
|---|----|
| Number of indicators in GIF | 24 |
| Number of indicators in NIF | 13 |
| Number of indicators with data availability | 12 |

Strengthen the means of implementation and revitalize the global partnership for sustainable development

| SDG 1 Metadata: National Indicator 1.1.1 | | |
|--|--|--|
| Goal | 1: End poverty in all its forms everywhere | |
| Target | 1.1: By 2030, eradicate extreme poverty for all people everywhere, currently measured as people livingon less than USD 1.25 a day | |
| Indicator | 1.1.1: Poverty Gap Ratio | |
| Data Source Ministry | NITI Aayog | |
| Department/Division | - | |
| Description of Indicator | The Poverty Gap Ratio (PGR) is defined as the gap by which mean consumption of the poor below poverty line falls short of the poverty line. It indicates the depth of poverty; the more the PGR, the worse is the condition of the poor. | |
| Computation | $PGR = \frac{1}{N} \sum_{i=1}^{q} \frac{z - y_i}{z}$ Where, $N = \text{Total population}$ $z = \text{national poverty line}$ $q = \text{total population living below poverty line}$ $y_i = \text{consumption expenditure of } i^{\text{th}} \text{ individual}$ | |
| Unit of Measurement | Percent | |
| Periodicity | 5 Years | |

| SDG 1 Metadata: National Indicator 1.2.1 | | |
|--|--|--|
| Goal | 1: End poverty in all its forms everywhere | |
| Target | 1.2: By 2030, reduce at least by half the proportion of men, women and children of all ages living inpoverty in all its dimensions according to national definitions | |
| Indicator | 1.2.1: Proportion of population living below the national poverty line | |
| Data Source Ministry | NITI Aayog | |
| Department/Division | - | |
| Description of Indicator | The rural poverty rate is the percentage of the rural population living below the rural national poverty line. Similarly, urban poverty rate is the percentage of the urban population living below the urban national poverty line. The levels of poverty are estimated on the basis of consumer expenditure surveys conducted by the National Statistical Office, Ministry of Statistics and Programme Implementation. The poverty line is as per the recommendation of Tendulkar Committee Report. As per Tendulkar Committee methodology, the poverty line has been expressed in terms of Monthly Per Capita Expenditure (MPCE) based on Mixed Reference Period. | |
| Computation | Numerator: Total population (rural/urban) living below the national (rural/urban) poverty line Denominator: Total population (rural/urban) during the reference period Multiplier: 100 | |
| Unit of Measurement | Percent | |
| Periodicity | 5 Years | |

| SDG 1 Metadata: National | Indicator 1.3.1 |
|-------------------------------|--|
| Goal | 1: End poverty in all its forms everywhere |
| Target | 1.3: Implement nationally appropriate social protection systems and measures for all, including floors, and by 2030 achieve substantial coverage of the poor and the vulnerable |
| Indicator | 1.3.1: Percentage of households with any usual member covered by a health scheme or health insurance |
| Data Source Ministry | Ministry of Health and Family Welfare |
| Department/Division | Department of Health and Family Welfare |
| Description of Indicator | The indicator is defined as the ratio of number of households in a geographic location in which at leastone usual member is covered by a health scheme or health insurance at a given period of time to thenumber of households in the geo-graphic location during same period. Data has been collected on thebasis of National Health Family Survey (NFHS). |
| Computation | Numerator: Number of households in which at least one usual member is covered by a health scheme or health insurance during survey period Denominator: Total estimated number of households during same period Multiplier: 100 |
| Unit of Measurement | Percent |
| Periodicity | 3 years |
| Level of Disaggregation | State/UT |
| Type of Disaggregation | - |

|--|--|--|
| Goal | 1: End Poverty in all its form everywhere | |
| Target | 1.3: Implement nationally appropriate social protection systems and measures for all, including floors, and by 2030 achieve substantial coverage of the poor and the vulnerable | |
| Indicator | 1.3.3: Persons offered employment as a percentage of persons who demanded employment under Mahatma Gandhi National Rural Employment Guarantee Act (MGNREGA) | |
| Data Source Ministry | Ministry of Rural Development | |
| Department/Division | Department of Rural Development | |
| Description of Indicator | The indicator refers to the number of persons who were offered employment under MGNREGA in proportion to the persons who demanded employment under the scheme. The Mahatma Gandhi National Rural Employment Guarantee Act (MGNREGA) was enacted on August 25, 2005. The MGNREGA provides a legal guarantee for 100 days of employment in every financial year to adult members of any rural household willing to do public work-related unskilled manual work at the statutory minimum wage. | |
| Computation | Numerator: Number of persons offered employment under MGNREGA during the reference year Denominator: Number of persons who demanded employment under MGNREGA during the reference year Multiplier: 100 | |

|--|--|--|
| Goal | 1: End Poverty in all its form everywhere | |
| Target | 1.3: Implement nationally appropriate social protection systems and measures for all, including floors, and by 2030 achieve substantial coverage of the poor and the vulnerable | |
| Indicator | 1.3.5: Proportion of the population (out of total eligible population) receiving social protection benefitsunder Pradhan Mantri Matritva Vandana Yojana (PMMVY) | |
| Data Source Ministry | Ministry of Women and Child Development | |
| Department/Division | - | |
| Description of Indicator | The indicator refers to number of beneficiaries getting benefit under Pradhan Mantri Matritva Vandana Yojana (PMMVY) expressed as percentage of total beneficiaries enrolled. The Maternity Benefit Programme PMMVY is implemented in all the districts of the country since 01.01.2017. Under PMMVY, a cash incentive of Rs. 5000/- is provided directly to the Bank / Post Office Account of Pregnant Women and Lactating Mothers (PW&LM) for first living child ofthe family subject to fulfilling specific conditions relating to Maternal and Child Health. | |
| Computation | Numerator: Total number of beneficiaries paid under PMMVY during the reference year Denominator: Total number of beneficiaries enrolled under PMMVY during the reference year Multiplier: 100 | |
| Unit of Measurement | Percent | |
| Periodicity | Annual | |

|--|--|--|--|
| Goal | 1: End Poverty in all its form everywhere | | |
| Target | 1.3: Implement nationally appropriate social protection systems and measures for all, including floors, and by 2030 achieve substantial coverage of the poor and the vulnerable | | |
| Indicator | 1.3.8: Coverage of New Pension Scheme (NPS) | | |
| Data Source Ministry | Ministry of Finance | | |
| Department/Division | PFRDA | | |
| Description of Indicator | National Pension System (NPS) is a voluntary, defined contribution retirement savings scheme designed to enable the subscribers to make optimum decisions regarding their future through systematic savings during their working life. An individual fulfilling the following eligibility criteria can voluntarily join in NPS: a) Should be an Indian Citizen (resident or non-resident) or an overseas Citizen of India (OCI) b) Should be aged between 18-65 years c) Compliance of Know Your Customer (KYC) | | |
| Computation | Number of NPS Subscriber has been taken for this indicator. | | |
| Unit of Measurement | Number | | |

| SDG 1 Metadata: National Indicator 1.4.1 | |
|--|---|
| Goal | 1: End Poverty in all its form everywhere |
| Target | 1.4: By 2030, ensure that all men and women, in particular the poor and the vulnerable, have equal rights to economic resources, as well as access to basic services, ownership and control over land and other forms of property, inheritance, natural resources, appropriate new technology and financialservices, including microfinance |
| Indicator | 1.4.1: Proportion of population living in households with access to basic services |
| Data Source Ministry | Ministry of Jal Shakti, Ministry of Power, Ministry of Education, Ministry of Health & Family Welfare |
| Department/Division | - |
| Description of Indicator | The basic service are those services that meet human basic needs like drinking water, sanitation, hygiene, energy, mobility, waste collection, health care, education etc. The indicator is based on different components of basic services which are captured through 6 standalone indicators under different SDG targets. |
| Computation | This indicator is combination of national indicators 3.7.1, 4.1.1, 6.1.1, 6.2.1, 7.1.1 and 7.1.2. The data on these indicators is available under respective SDGs and associated targets. |

|-------------------------------|--|
| Goal | 2: End hunger, achieve food security and improved nutrition and promote sustainable agriculture |
| Target | 2.4: By 2030, ensure sustainable food production systems and implement resilient agricultural practices that increase productivity and production, that help maintain ecosystems, that strengthen capacity for adaptation to climate change, extreme weather, drought, flooding and other disasters and that progressively improve land and soil quality |
| Indicator | 2.4.2: Percentage of farmers issued Soil Health Card |
| Data Source Ministry | Ministry of Agriculture and Farmers' Welfare |
| Department/Division | INM, DAC&FW |
| Description of Indicator | The indicator is percentage of farmers issued with soil health cards during the reference year. Soil Health Card is field specific detailed report of soil fertility and other important soil parameters that affect crop productivity. Besides soil health, it also provides an advisory on soil test based use of fertilizers and amendments. |
| Computation | Numerator: Number of Soil Health Cards issued to farmers during the year Denominator: Number of targeted farmers to be issued Soil Health Card during the year Multiplier: 100 |
| Unit of measurement | Percent |
| Periodicity | Annual |
| Level of Disaggregation | - |
| Type of Disaggregation | - |

| Goal | 2: End hunger, achieve food security and improved nutrition and promote sustainable agriculture |
| Target | 2.4: By 2030, ensure sustainable food production systems and implement resilient agricultural practices that increase productivity and production, that help maintain ecosystems, that strengthen capacity for adaptation to climate change, extreme weather, drought, flooding and other disasters and that progressively improve land and soil quality |
| Indicator | 2.4.3: Percentage of net area under organic farming |
| Data Source Ministry | Ministry of Agriculture and Farmers' Welfare |
| Department/Division | INM, DAC&FW |
| Description of Indicator | National Program for Organic Production (NPOP) provides policies for: a) development and certification of organic products, and national standards for organic products b) accreditation of certification bodies and certification of organic products in conformity to the national standards c) encourage the development of organic cultivation and processing. |
| Computation | Numerator: Area under organic farming (as registered under National Programme for Organic Production certification process) Denominator: Net sown area under crops Multiplier: 100 |
| Unit of measurement | Percent |
| Periodicity | Annual |
| Level of Disaggregation | State/UT |
| Type of Disaggregation | - |

| SDG 2: Metadata: Nationa | l Indicator 2.5.1 |
|-------------------------------|---|
| Goal | 2. End hunger, achieve food security and improved nutrition and promote sustainable agriculture |
| Target | 2.5 By 2020, maintain the genetic diversity of seeds, cultivated plants and farmed and domesticated animals and their related wild species, including through soundly managed and diversified seed and plant banks at the national, regional and international levels, and promote access to and fair and equitable sharing of benefits arising from the utilization of genetic resources and associated traditionalknowledge, as internationally agreed |
| Indicator | 2.5.1: Number of (a) plant and (b) animal genetic resources for food and agriculture secured in eithermedium- or long-term conservation facilities |
| Data Source Ministry | Ministry of Agriculture and Farmers' Welfare |
| Department/Division | Indian Council of Agricultural Research |
| Description of Indicator | The conservation of plant and animal Genetic Resources for Food and Agriculture (GRFA) in medium or long term conservation facilities (ex situ, in gene banks) represents the most trusted means of conserving genetic resources worldwide. Plant and animal GRFA conserved in these facilities can be easily used in breeding programmes as well, even directly on-farm. The two components of the indicator, plant and animal GRFA, are separately counted. |
| Computation | Plant component: Number of accessions conserved in the base collection (-18°C) at National Gene bank (Seeds) + Number of Accessions Conserved In Vitro Gene bank (Tissue Cultures) + Number of accessions at Cryogen bank(-196°C) Animal component: Cryopreservation of semen at National Gene Bank + Cryopreservation of somatic cell at National Gene Bank |

| Goal | 3: Ensure healthy lives and promote well-being for all at all ages |
| Target | 3.3: By 2030, end the epidemics of AIDS, tuberculosis, malaria and neglected tropical diseases and combat hepatitis, waterborne diseases and other communicable diseases |
| Indicator | 3.3.5: Dengue: Case Fatality Ratio (CFR) |
| Data Source Ministry | Ministry of Health and Family Welfare |
| Department/Division | Directorate of National Vector Borne Disease Control Programme, DGHS |
| Description of Indicator | Dengue Case Fatality Rate (CFR) refers to number of deaths due to dengue per 100 dengue cases reported. |
| Computation | Numerator: Number of deaths due to dengue reported during reference Denominator: Number of total Dengue cases reported during reference year Multiplier: 100 |
| Unit of measurement | Percent |
| Periodicity | Annual |

| SDG 3 Metadata: National Indicator 3.3.6 | |
|--|--|
| Goal | 3: Ensure healthy lives and promote well-being for all at all ages |
| Target | 3.3: By 2030, end the epidemics of AIDS, tuberculosis, malaria and neglected tropical diseases and combat hepatitis, waterborne diseases and other communicable diseases |
| Indicator | 3.3.6: The proportion of grade-2 cases amongst new cases of Leprosy (per million population) |
| Data Source Ministry | Ministry of Health and Family Welfare |
| Department/Division | Department of Health and Family Welfare |
| Description of Indicator | Number of New Cases with Grade II disability cases due to leprosy reported per 10,00,000 population during the reference year. There are two types of leprosy. The first category is paucibacillary, in which five or fewer lesions with no bacteria are detected in the skin sample. The second category (Grade II) ismultibacillary, in which there are more than five lesions, bacteria is detected in the skin smear, or both. |
| Computation | Numerator: Grade 2 case of leprosy during reference year Denominator: New case of leprosy reported during reference year Multiplier: 10,00,000 |
| Unit of measurement | Per million population |
| Periodicity | Annual |

| SDG 3 Metadata: National Indicator 3.3.8 | |
|--|--|
| Goal | 3: Ensure healthy lives and promote well-being for all at all ages |
| Target | 3.3: By 2030, end the epidemics of AIDS, tuberculosis, malaria and neglected tropical diseases and combat hepatitis, waterborne diseases and other communicable diseases |
| Indicator | 3.3.8: Number of districts reporting < 1% Microfilaria rate (MF) out of total endemic districts |
| Data Source Ministry | Ministry of Health and Family Welfare |
| Department/Division | Directorate of National Vector Borne Disease Control Programme, DGHS |
| Description of Indicator | Lymphatic Filariasis is a neglected tropical disease that occurs when filarial parasites are transmitted tohumans through mosquitoes. Infection is usually acquired in childhood causing hidden damage to the lymphatic system which can lead to the abnormal enlargement of body parts. |
| Computation | Numerator: Number of districts reporting < 1% Microfilaria rate (MF) Denominator: Total endemic districts Multiplier: 100 |
| Unit of measurement | Percent |
| Periodicity | Annual |

| SDG 3 Metadata: National Indicator 3.4.2 | |
|--|---|
| Goal | 3: Ensure healthy lives and promote well-being for all at all ages |
| Target | 3.4: By 2030, reduce by one third premature mortality from non-communicable diseases throughprevention and treatment and promote mental health and well-being |
| Indicator | 3.4.2. Suicide mortality rate (per 1,00,000 population) |
| Data Source Ministry | Ministry of Home Affairs |
| Department/Division | National Crime Record Bureau |
| Description of Indicator | Suicides reported during reference year per 1,00,000 population. Data is collected under the Publication'Accidental Deaths and Suicides in India'. |
| Computation | Numerator: Suicides reported during reference year Denominator: Mid-Year Population of reference year Multiplier: 1,00,000 |
| Unit of measurement | Per 1,00,000 population |
| Periodicity | Annual |
| Level of Disaggregation | State/UT |
| Type of Disaggregation | - |

|--|---|
| Goal | 3: Ensure healthy lives and promote well-being for all at all ages |
| Target | 3.b: Support the research and development of vaccines and medicines for the communicable and non-communicable diseases that primarily affect developing countries, provide access to affordable essentialmedicines and vaccines, in accordance with the Doha Declaration on the TRIPS Agreement and Public Health, which affirms the right of developing countries to use to the full the provisions in the Agreementon Trade Related Aspects of Intellectual Property Rights regarding flexibilities to protect public health, and, in particular, provide access to medicines for all |
| Indicator | 3.b.1: Percentage of children age 12-23 months fully vaccinated with BCG, measles and three doses each of polio and DPT or Penta vaccine (excluding polio vaccine given at birth) |
| Data Source Ministry | Ministry of Health and Family Welfare |
| Department/Division | Department of Health and Family Welfare |
| Description of Indicator | Indicator is defined as percentage of children aged 12-23 months who received all the basic vaccinations. To have received all vaccinations, a child must receive at least: a) one dose of BCG vaccine which protects against Tuberculosis b) three doses of DPT or Penta vaccine, which protects against diphtheria, pertussis (whooping cough) and tetanus c) three doses of polio vaccine (excluding polio vaccine given at birth) d) one dose of measles vaccine Data is collected under NFHS. |
| Computation | Numerator: Children aged 12-23 months who received all basic vaccinations Denominator: Children aged 12-23 months Multiplier: 100 |
| Unit of measurement | Percent |
| Periodicity | 3 years |
| Level of Disaggregation | - |
| Type of Disaggregation | |

|-------------------------------|---|
| Target | 3.d: Strengthen the capacity of all countries, in particular developing countries, for early warning, riskreduction and management of national and global health risks |
| Indicator | 3.d.1: International Health Regulations (IHR) capacity and health emergency preparedness |
| Data Source Ministry | Ministry of Health and Family Welfare |
| Department/Division | National Centre for Disease Control |
| Description of Indicator | Percentage of attributes of 13 core capacities that have been attained at a specific point in time. The 13core capacities are: 1) Legislation and financing 2) IHR Coordination and National Focal Point Functions 3) Zoonotic events and the Human-Animal Health Interface 4) Food safety 5) Laboratory 6) Surveillance 7) Human resources 8) National Health Emergency Framework 9) Health Service Provision 10) Risk communication 11) Points of entry 12) Chemical events 13) Radiation emergencies Further, these 13 core capacities consist of 24 indicators. Each indicator is based on five cumulative levels for annual reporting. For each indicator, the reporting State Party is asked to select which of thefive levels best describes the State Party's current status. |
| Computation | Numerator: Number of attributes of 13 core capacities that have been attained at a specific point in time Denominator: Total number of attributes of 13 core capacities Multiplier: 100 |

| Goal | 4: Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all |
| Target | 4.1: By 2030, ensure that all girls and boys complete free, equitable and quality primary and secondaryeducation leading to relevant and effective learning outcomes. |
| Indicator | 4.1.5: Adjusted Net Enrolment Rate (ANER) in primary, upper primary and secondary education |
| Data Source Ministry | Ministry of Education |
| Department/Division | Department of School Education & Literacy |
| Description of Indicator | For a given level of education, Adjusted Net Enrolment Rate (ANER) gives the number of students belonging to the official age group (for that level) enrolled at that level or one level above, expressed as apercentage of the corresponding population. |
| Computation | Numerator: i. For Primary: Number of 6-10 years' pupil enrolled in Primary/Upper Primary ii. For Upper Primary: Number of 11-13 years' pupil enrolled in Upper Primary/Secondary iii. For Secondary: Number of 14-15 years' pupil enrolled in Secondary/Higher Secondary Denominator: Population of the corresponding (i.e. 6-10/11-13/14-15 years) age group Multiplier: 100 |

| SDG 4 Metadata: National | Indicator 4.1.6 |
|-------------------------------|---|
| Goal | 4: Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all |
| Target | 4.1: By 2030, ensure that all girls and boys complete free, equitable and quality primary and secondaryeducation leading to relevant and effective learning outcomes. |
| Indicator | 4.1.6: Proportion of students enrolled in Grade 1 who reaches last grade or primary/Elementary/secondary levels |
| Data Source Ministry | Ministry of Education |
| Department/Division | Department of School Education & Literacy |
| Description of Indicator | It is a gross measure of the internal efficiency of an education system to retain its students. A high value of this indicator indicates the low incidence of dropouts. |
| Computation | Enrolment in Grade V/VIII/X (minus repeaters) in a year as proportion to enrolment in Grade I four/seven/ nine years back. |
| | Numerator: Enrolment (minus repeaters) in Grade V/ VIII/ X |
| | Denominator: Enrolment in Grade I of students four/seven/nine years back |

| SDG 4 Metadata: National Indicator 4.7.1 | |
|--|---|
| Goal | 4: Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all |
| Target | 4.7: By 2030, ensure that all learners acquire the knowledge and skills needed to promote sustainable development, including, among others, through education for sustainable development and sustainable lifestyles, human rights, gender equality, promotion of a culture of peace and non-violence, global citizenship and appreciation of cultural diversity and of culture's contribution to sustainable development |
| Indicator | 4.7.1: Extent to which (i) global citizenship education and (ii) education for sustainable development are mainstreamed in (a) national education policies; (b) curricula; (c) teacher education; and (d) studentassessment (similar to 12.8.1 and 13.3.1) |
| Data Source Ministry | Ministry of Education |
| Department/Division | Department of School Education and Literacy |
| Description of Indicator | The indicator measures the extent to which countries mainstream Global Citizenship Education (GCED) and Education for Sustainable Development (ESD) in their education systems. For each of the four components of the indicator (policies, curricula, teacher education, and student assessment), a number of criteria are measured, which are then combined to give a single score between zero and one for each component. Only information for primary and secondary education will be used for calculation of indicator. |
| Computation | The indicator is computed with the help of set of questions. |

| SDG 5 Metadata: Nationa | Indicator 5.5.2 |
|-------------------------------|---|
| Goal | 5: Achieve gender equality and empower all women and girls |
| Target | 5.5: Ensure women's full and effective participation and equal opportunities for leadership at all levels ofdecision-making in political, economic and public life |
| Indicator | 5.5.2: Proportion of women in managerial positions |
| Data Source Ministry | Ministry of Statistics and Programme Implementation |
| Department/Division | Survey Design and Research Division |
| Description of Indicator | This indicator refers to the proportion of females in the total number of persons employed in managerial positions. It is recommended to use two different measures jointly for this indicator: the share of females in (total) management and the share of females in senior and middle management (thus excluding junior management). The joint calculation of these two measures provides information on whether women are more represented in junior management than in senior and middle management, thus pointing to an eventual ceiling for women to access higher-level management positions. |
| Computation | Measure-I: the proportion of women working in managerial positions to total workers in managerial positions Proportion of women in management = (Women employed in NCO-2004 categories 11+12+13/ Persons employed in NCO-2004 categories 11+12+13) × 100 Measure-II: the proportion of women working in senior and middle management to total workers in senior and middle management Proportion of women in senior and middle management = ((Women employed in NCO-2004 categories 11 + 12)) × 100 |

|-------------------------------|--|
| Goal | 5: Achieve gender equality and empower all women and girls |
| Target | 5.6: Ensure universal access to sexual and reproductive health and reproductive rights as agreed in accordance with the Programme of Action of the International Conference on Population and Development and the Beijing Platform for Action and the outcome documents of their review conferences |
| Indicator | 5.6.2: Whether the country has laws and regulations that guarantee full and equal access to women and men aged 15 years and older to sexual and reproductive health care, information and education |
| Data Source Ministry | Ministry of Health and Family Welfare |
| Department/Division | Department of Health and Family Welfare |
| Description of Indicator | The Indicator seeks to measure the extent to which countries have national laws and regulations that guarantee full and equal access to women and men aged 15 years and older to sexual and reproductive health care, information, and education. The indicator is a percentage scale of 0 to 100, indicating a country's status and progress in the existence of such National laws and regulations. Indicator measures only the existence of laws and regulations; it does not measure their implementation. |
| Computation | Indicator is calculated based on official government responses collected through the United Nations Inquiry among Governments on Population and Development. The Inquiry has been conducted since 1963. All questions required for indicator are integrated into Module II on fertility, family planning, and reproductive health of the Inquiry. The indicator measures the legal and regulatory environment across four thematic sections, defined as the key parameters of sexual and reproductive health care, information and education according to these international consensus documents and human rights standards: • Maternity care • Contraception services • Sexuality education • HIV and HPV The indicator measures specific legal enablers and barriers for 13 components across four sections. The calculation of the indicator requires data for all 13 components. |

| Indicator | 6.2.1: Proportion of households having access to toilet facility (Urban and Rural) |
| Data Source Ministry | Ministry of Jal Shakti |
| Department/Division | Department of Drinking Water and Sanitation |
| Description of Indicator | The indicator is defined as the percentage of households with toilet facility. Data for rural area is available, as supplied by Department of Drinking Water and Sanitation. |
| Computation | Numerator: Number of households with toilets as per Baseline survey 2012-13 + Toilets reported to be constructed by State/UTs from 2013-14 to reference year Denominator: Total households as per Baseline survey 2012-13 Multiplier: 100 |
| Unit of measurement | Percent |
| Periodicity | Annual |
| Level of Disaggregation | State/UT |
| Type of Disaggregation | Urbanization |
| Mapping with Global Indicator | - |

| SDG 6 Metadata: National Indicator 6.2.2 | |
|--|---|
| Goal | 6: Ensure availability and sustainable management of water and sanitation for all |
| Target | 6.2: By 2030, achieve access to adequate and equitable sanitation and hygiene for all and end open defecation, paying special attention to the needs of women and girls and those in vulnerable situations |
| Indicator | 6.2.2: Percentage of Districts achieving Open Defecation Free (ODF) target |
| Data Source Ministry | Ministry of Jal Shakti |
| Department/Division | Department of Drinking Water and Sanitation |
| Description of Indicator | The indicator is referred to percentage of districts achieving Open Defecation Free (ODF) target. ODF is the termination of faecal-oral transmission which is defined as: 1) No visible faeces found in the environment/village 2) Every household as well as public/community institutions using safe technology option for disposal of faeces |
| Computation | Numerator: Number of districts achieving Open Defecation Free (ODF) target Denominator: Total number of districts Multiplier: 100 |
| Unit of measurement | Percent |
| Periodicity | Annual |
| Level of Disaggregation | State/UT |
| Type of Disaggregation | - |

| SDG 6 Metadata: National Indicator 6.2.3 | |
|--|---|
| Goal | 6: Ensure availability and sustainable management of water and sanitation for all |
| Target | 6.2: By 2030, achieve access to adequate and equitable sanitation and hygiene for all and end open defecation, paying special attention to the needs of women and girls and those in vulnerable situations. |
| Indicator | 6.2.3: Proportion of schools with separate toilet facility for girls,(in percentage) |
| Data Source Ministry | Ministry of Education |
| Department/Division | Department of School Education & Literacy |
| Description of Indicator | The number of schools with a given level of education having access to single-sex(girls) basic sanitation facilities expressed as a percentage of all schools at that level. |
| Computation | Numerator: Number of schools with primary/upper primary/secondary/higher secondary as highest level having access to single-sex (girls) basic sanitation facilities at each level Denominator: Total number of schools with primary/upper primary/secondary/higher secondary as the highest level Multiplier: 100 |
| Unit of measurement | Percent |
| Periodicity | Annual |

| SDG 6 Metadata: National Indicator 6.3.1 | |
|--|--|
| Goal | 6: Ensure availability and sustainable management of water and sanitation for all |
| Target | 6.3: By 2030, improve water quality by reducing pollution, eliminating dumping and minimizing release of hazardous chemicals and materials, halving the proportion of untreated waste water and substantially increasing recycling and safe reuse globally |
| Indicator | 6.3.1: Percentage of Sewage Treated before discharge into Surface Water Bodies |
| Data Source Ministry | Ministry of Environment Forest and Climate Change |
| Department/Division | Central Pollution Control Board (CPCB) |
| Description of Indicator | The indicator is defined as the percentage of Actual Quantity Treated in Million Litres per Day out of total Sewage Generation in Million Litres per Day. |
| Computation | Numerator: Actual Quantity Treated in Million Litres per Day Denominator: Sewage Generation in Million Litres per Day Multiplier: 100 |
| Unit of measurement | Percent |
| Periodicity | Twice in a Decade |
| Level of Disaggregation | State/UT |
| Type of Disaggregation | - |

| SDG 6 Metadata: National Indicator 6.3.2 | |
|--|--|
| Goal | 6. Ensure availability and sustainable management of water and sanitation for all |
| Target | 6.3: By 2030, improve water quality by reducing pollution, eliminating dumping and minimizing release of hazardous chemicals and materials, halving the proportion of untreated wastewater and substantially increasing recycling and safe reuse globally |
| Indicator | 6.3.2: Proportion of water bodies with good ambient water quality |
| Data Source Ministry | Ministry of Environment, Forest and Climate Change |
| Department/Division | Central Pollution Control Board |
| Description of Indicator | Overall water quality is estimated based on an index, which incorporates data on five core parameters (Faecal Coliform, Faecal Streptococci, pH, Dissolved Oxygen, Biochemical Oxygen Demand (3 day 27°C)), which inform on major water quality impairments present in aquatic bodies. The data generated every month by SPCBs/PCCs under NWMP Project: a) Number of analytical results of five core parameters |
| | b) Parameter-wise number of observations complying to the criteria |
| Computation | Numerator: Total complying observations Denominator: Total number of observations Multiplier: 100 National yearly score = (Summation of River wise yearly score)/15 |
| Unit of measurement | Number |
| Periodicity | Annual |

|--|---|
| Goal | 6: Ensure availability and sustainable management of water and sanitation for all |
| Target | 6.4: By 2030, substantially increase water-use efficiency across all sectors and ensure sustainable withdrawals and supply of freshwater to address water scarcity and substantially reduce the number ofpeople suffering from water scarcity |
| Indicator | 6.4.2 : Percentage ground water withdrawal against availability |
| Data Source Ministry | Ministry of Jal Shakti |
| Department/Division | Central Ground Water Board |
| Description of Indicator | The indicator is defined as the percentage of utilization of ground water resources (in Billion Cubic Meter) for irrigation, domestic and industrial uses out of the total available Ground Water (in Billion Cubic Meter) |
| Computation | Numerator: Utilization of ground water resources (in Billion Cubic Meter) for irrigation, domestic and industrial use Denominator: Availability of Ground Water (in Billion Cubic Meter) Multiplier: 100 |
| Unit of measurement | Percent |
| Periodicity | Annual |

| SDG 6 Metadata: National Indicator 6.5.1 | |
|--|--|
| Goal | 6: Ensure availability and sustainable management of water and sanitation for all |
| Target | 6.5: By 2030, implement integrated water resources management at all levels, including through transboundary cooperation as appropriate |
| Indicator | 6.5.1: Degree of integrated water resources management |
| Data Source Ministry | Ministry of Jal Shakti |
| Department/Division | Central Water Commission |
| Description of Indicator | The indicator is a percentage (%) scale of 0 to 100, indicating a country's status and progress in the existence of such National laws and regulations. Indicator measures only the existence of laws and regulations; it does not measure their implementation. |
| Computation | The survey contains 33 questions divided into the four main sections (Enabling environment, Institutions and participation, Management instruments, Financing). The indicator is calculated on the basis of response on these questions. |
| Unit of Measurement | Percentage |
| Periodicity | 3 Years |
| Level of Disaggregation | - |

| SDG 6 Metadata: National Indicator 6.6.2 | |
|--|--|
| Goal | 6: Ensure availability and sustainable management of water and sanitation for all |
| Target | 6.6: By 2020, protect and restore water-related ecosystems, including mountains, forests, wetlands, rivers, aquifers and lakes |
| Indicator | 6.6.2: Percentage of blocks/mandals/taluka over-exploited |
| Data Source Ministry | Ministry of Jal Shakti |
| Department/Division | Central Ground Water Board |
| Description of Indicator | The indicator is defined as number of blocks/mandals/taluka in which ground water is over-exploited expressed as percentage of total units assessed during the reference period. |
| Computation | Numerator: Number of blocks/mandals/taluka over-exploited |
| | Denominator: Number of Units Assessed |
| | Multiplier: 100 |
| Unit of measurement | Percent |
| Periodicity | Annual |
| Level of Disaggregation | State/UT |
| Type of Disaggregation | - |
| Mapping with Global Indicator | |

| SDG 7 Metadata: National Indicator 7.1.1 | |
|--|--|
| Goal | 7: Ensure access to affordable, reliable, sustainable and modern Energy for all |
| Target | 7.1: By 2030, ensure universal access to affordable, reliable and modern Energy Services |
| Indicator | 7.1.1: Percentage of households electrified |
| Data Source Ministry | Ministry of Power |
| Department/Division | Central Electricity Authority |
| Description of Indicator | The indicator refers to percentage of households that have been electrified under the 'Saubhagya' scheme out of total number of eligible households. |
| Computation | Numerator: Number of households electrified as per 'Saubhagya' scheme |
| | Denominator: Number of eligible households |
| | Multiplier: 100 |
| Unit of measurement | Percent |
| Periodicity | Annual |

|-------------------------------|---|
| Goal | 8: Promote sustained, inclusive and sustainable economic growth, full and productive employment anddecent work for all |
| Target | 8.2: Achieve higher levels of economic productivity through diversification, technological upgrading and innovation, including through a focus on high-value added and labour-intensive sectors |
| Indicator | 8.2.1: Annual growth rate of real GDP per employed person |
| Data Source Ministry | Ministry of Statistics and Programme Implementation |
| Department/Division | National Accounts Division |
| Description of Indicator | The annual growth rate of real GDP per employed person conveys the annual percentage change in real Gross Domestic Product per employed person. |
| | The total number of employed persons for the year 't' has been estimated using the following formula: Total employed persons for the year 't' = WPR for the year 't' x Projected population for year 't' |
| | The WPR has been obtained from the annual PLFS conducted by NSSO. The projected population has been published by the Office of the Registrar General & Census Commissioner, India (Office of Registrar General, India). |
| | Real GDP per employed persons for the year 't' = GDP at constant price for the year 't' \div Total number of employed persons for the year 't'. |
| Computation | Numerator: Real GDP per employed persons for year 't' – Real GDP per employed persons for year 't-1' Denominator: Real GDP per employed persons for year 't-1' Multiplier: 100 |

| SDG 8 Metadata: National Indicator 8.4.1 | |
|--|--|
| Goal | 8: Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all |
| Target | 8.4: Improve progressively, through 2030, global resource efficiency in consumption and production and Endeavour to decouple economic growth from environmental degradation, in accordance with the 10Year Framework of Programmes on Sustainable Consumption and Production, with developed countries taking the lead |
| Indicator | 8.4.1: Proportion of waste recycled vs. waste generated |
| Data Source Ministry | Ministry of Environment Forest and Climate Change |
| Department/Division | Central Pollution Control Board |
| Description of Indicator | This indicator Indicates the percentage of hazardous waste recycled. 1) Hazardous waste is waste that is dangerous or may become dangerous to the environment or people's health. 2) Municipal waste is defined at national level as wastes consisting of everyday items. These wastes come from household, institutions and commercial establishments. 3) E-waste or electronic waste is created when an electronic product is discarded after the end of its useful life. Electronic waste or e-waste may be defined as discarded computers, office electronic equipment, entertainment device electronics, mobile phones, television sets, and refrigerators. This includes used electronics which are destined for reuse, resale, salvage, and repairable electronics) and secondary scraps (copper, steel, plastic, etc.). |
| Computation | Numerator: Quantity of hazardous waste recycled Denominator: Quantity of hazardous waste generated Multiplier: 100 |
| Unit of measurement | Percent |

| Data Source Ministry | Ministry of Statistics and Programme Implementation |
| Department/Division | National Accounts Division |
| Description of Indicator | The indicator is defined as the manufacturing Gross Value as percentage of Total Value Added (GVA) atcurrent prices. Gross Value Added is defined as output less intermediate consumption. Gross value added is arrivedby aggregating sector-wise value added. Sector-wise GVA is estimated using production/income/ expenditure approach depending upon the availability of related data. |
| Computation | Numerator: GVA at Basic Price in Manufacturing during reference year |
| | Denominator: GVA at basic prices during reference year |
| | Multiplier: 100 |
| Unit of measurement | Percent |
| Periodicity | Annual |
| Level of Disaggregation | - |
| Type of Disaggregation | - |
| Mapping with Global Indicator | - |

| SDG 9 Metadata: National Indicator 9.3.1 | | |
|--|--|--|
| Goal | 9: Build resilient infrastructure, promote inclusive and sustainable industrialization and foster | |
| | innovation | |
| Target | 9.3: Increase the access of small-scale industrial and other enterprises, in particular in developing countries, to financial services, including affordable credit, and their integration into value chains andmarkets | |
| Indicator | 9.3.1: Share of household sector in total industry value added | |
| Data Source Ministry | Ministry of Statistics and Programme Implementation | |
| Department/Division | National Accounts Division | |
| Description of Indicator | Gross Value Added is defined as output less intermediate consumption. Gross value added is arrived by aggregating sector-wise value added. Sector-wise GVA is estimated using production/income/ expenditure approach depending upon the availability of related data. | |
| Computation | Numerator: GVA by Household during reference year Denominator: Total GVA during reference year Multiplier: 100 | |
| Unit of measurement | Percent | |
| Periodicity | Annual | |
| Level of Disaggregation | - | |
| Type of Disaggregation | - | |
| Mapping with Global Indicator | - | |

| SDG 9 Metadata: National Indicator 9.3.2 | |
|--|---|
| Goal | 9: Build resilient infrastructure, promote inclusive and sustainable industrialization and foster |
| | innovation |
| Target | 9.3: Increase the access of small-scale industrial and other enterprises, in particular in developing countries, to financial services, including affordable credit, and their integration into value chains andmarkets |
| Indicator | 9.3.2: Percentage of credit flow to MSME (as a percentage of Total Adjusted Net Bank Credit), (inpercentage) |
| Data Source Ministry | Ministry of Micro, Small and Medium Enterprises |
| Department/Division | - |
| Description of Indicator | The indicator is defined as Total Outstanding Credit given by Banks to Micro, Small Medium Enterprises as a percentage of total Adjusted Net Bank Credit during reference year. |
| Computation | Numerator: Total Outstanding Credit given by Banks to Micro, Small Medium Enterprises during reference year Denominator: Total Credit given by Banks (Adjusted Net Bank Credit) during reference year Multiplier: 100 |
| Unit of measurement | Percent |
| Periodicity | Annual |
| Level of Disaggregation | - |
| Type of Disaggregation | - |

| SDG 9 Metadata: National Indicator 9.4.1 | |
|--|--|
| Goal | 9: Build resilient infrastructure, promote inclusive and sustainable industrialization and foster |
| | innovation |
| Target | 9.4: By 2030, upgrade infrastructure and retrofit industries to make them sustainable, with increasedresource-use efficiency and greater adoption of clean and environmentally sound technologies and industrial processes, with all countries taking action in accordance with their respective capabilities. |
| Indicator | 9.4.1: Total CO ₂ emissions of power sector per unit of GDP (in Tonne/Rupees Crore) |
| Data Source Ministry | Ministry of Power |
| Department/Division | Central Electricity Authority |
| Description of Indicator | The indicator refers to the amount of CO ₂ emissions generated by the power sector per unit of GDP. |
| Computation | Numerator: Total CO ₂ emission of power sector |
| | Denominator: GDP at current price |
| | Multiplier: Nil |
| Unit of measurement | Tonne/Rs. Crore |
| Periodicity | Annual |
| Level of Disaggregation | - |
| Type of Disaggregation | - |
| Mapping with Global Indicator | - |
| References | Data is available on the website http://www.cea.nic.in |

| SDG 9 Metadata: National Indicator 9.4.2 | |
|--|---|
| Goal | 9: Build resilient infrastructure, promote inclusive and sustainable industrialization and foster |
| | innovation |
| Target | 9.4: By 2030, upgrade infrastructure and retrofit industries to make them sustainable, with increasedresource-use efficiency and greater adoption of clean and environmentally sound technologies and industrial processes, with all countries taking action in accordance with their respective capabilities |
| Indicator | 9.4.2: Energy use intensity of manufacturing value added, (Tonne of Oil Equivalent /000' rupees) |
| Data Source Ministry | Ministry of Statistics and Programme Implementation |
| Department/Division | Economic Statistics Division |
| Description of Indicator | The indicator is Energy Use Intensity in manufacturing sector |
| Computation | Numerator: Total Primary Energy used in manufacturing sector during reference year Denominator: Economic output of the manufacturing sector in terms of GVA during reference year Multiplier: 100 |
| Unit of measurement | Tonne of Oil Equivalent/000' Rs. |
| Periodicity | Annual |
| Level of Disaggregation | - |
| Type of Disaggregation | - |
| Mapping with Global Indicator | - |

| SDG 9 Metadata: National Indicator 9.5.1 | |
|--|---|
| Goal | 9: Build resilient infrastructure, promote inclusive and sustainable industrialization and foster |
| | innovation |
| Target | 9.5: Enhance scientific research, upgrade the technological capabilities of industrial sectors in all countries, in particular developing countries, including, by 2030, encouraging innovation and substantially increasing the number of research and development workers per 1 million people and public and private research and development spending |
| Indicator | 9.5.1: Research and development expenditure as a proportion of GDP |
| Data Source Ministry | Ministry of Statistics and Programme Implementation |
| Department/Division | National Accounts Division |
| Description of Indicator | Percentage share of spending on intellectual properties product (IPP), which is considered as researchand development at current price out of GDP at current price during the reference year. |
| Computation | Numerator: Total expenditures on intellectual properties products during reference year Denominator: Gross Domestic Product, during the reference year Multiplier: Nil |
| Unit of measurement | Percent |
| Periodicity | Annual |
| Level of Disaggregation | - |
| Type of Disaggregation | - |
| Mapping with Global Indicator | Exact match with 9.5.1 |
| References | Data is available on the website http://www.mospi.gov.in |

| SDG 9 Metadata: National Indicator 9.5.2 | |
|--|---|
| Goal | 9: Build resilient infrastructure, promote inclusive and sustainable industrialization and foster |
| | innovation |
| Target | 9.5: Enhance scientific research, upgrade the technological capabilities of industrial sectors in all countries, in particular developing countries, including, by 2030, encouraging innovation and substantially increasing the number of research and development workers per 1 million people and public and private research and development spending |
| Indicator | 9.5.2: Researchers (in full time equivalent) per million population |
| Data Source Ministry | Ministry of Science and Technology |
| Department/Division | - |
| Description of Indicator | This indicator is expressed in terms of researcher engaged in Research and Development (R&D) activities per million population and activities comprise institutional sector, higher education sector and industrial (public and private sector). Data includes: Major Scientific Agencies, Central GovernmentMinistry/Department, State Government, Higher Education, Public and Private. Sector Industries and SIRO's. |
| Computation | Numerator: Number of researchers (in numbers) Denominator: Population during reference period (in millions) Multiplier: Nil |
| Unit of measurement | Per million population |
| Periodicity | Biennial |
| Level of Disaggregation | - |
| Type of Disaggregation | - |
| Mapping with Global Indicator | Partial match with GIF 9.5.2 |
| References | - |

| SDG 9 Metadata: National | Indicator 9.5.3 |
|-------------------------------|---|
| Goal | 9: Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation |
| Target | 9.5: Enhance scientific research, upgrade the technological capabilities of industrial sectors in all countries, in particular developing countries, including, by 2030, encouraging innovation and substantially increasing the number of research and development workers per 1 million people and public and private research and development spending |
| Indicator | 9.5.3: Total number of patents issued (granted), (similar to 8.2.2 and 8.3.2) |
| Data Source Ministry | Ministry of commerce and industry |
| Department/Division | Department for Promotion of Industry and Internal Trade |
| Description of Indicator | A patent is a form of intellectual property. It is an exclusive right granted for an invention. |
| Computation | Total number of patents application granted |
| Unit of measurement | Number |
| Periodicity | Annual |
| Level of Disaggregation | - |
| Type of Disaggregation | - |
| Mapping with Global Indicator | - |
| References | Annual Report is available on the website https://www.ipindia.nic.in |

| SDG 9 Metadata: National Indicator 9.b.1 | |
|--|--|
| Goal | 9: Build resilient infrastructure, promote inclusive and sustainable industrialization and foster |
| | innovation |
| Target | 9.b: Support domestic technology development, research and innovation in developing countries, including by ensuring a conducive policy environment for, inter alia, industrial diversification and valueaddition to commodities |
| Indicator | 9.b.1: Share of IPP in total Gross Fixed Capital Formation, (in percentage) |
| Data Source Ministry | Ministry of Statistics and Programme Implementation |
| Department/Division | National Accounts Division |
| Description of Indicator | Numerator is the net additions to fixed assets in the form of IPP in the economy during the accounting period. IPP asset of GFCF is estimated using expenditure approach. |
| Computation | Numerator: Estimate of Intellectual Property Products in GFCF during reference year |
| | Denominator: Estimate of GFCF during reference year |
| | Multiplier: 100 |
| Unit of measurement | Percent |
| Periodicity | Annual |
| Level of Disaggregation | - |
| Type of Disaggregation | - |
| Mapping with Global Indicator | - |
| References | Data is available on the website www.mospi.gov.in |

| SDG 9 Metadata: National Indicator 9.b.2 | |
|--|---|
| Goal | 9: Build resilient infrastructure, promote inclusive and sustainable industrialization and foster |
| | innovation |
| Target | 9.b: Support domestic technology development, research and innovation in developing countries, including by ensuring a conducive policy environment for, inter alia, industrial diversification and value addition to commodities |
| Indicator | 9.b.2: Share of GVA of Information and Computer related activities in total GVA, (in percentage) |
| Data Source Ministry | Ministry of Statistics and Programme Implementation |
| Department/Division | National Accounts Division |
| Description of Indicator | The indicator is defined as the percentage share GVA of Information and Computer related activities intotal GVA |
| Computation | Numerator: GVA of Information and Computer related activities |
| | Denominator: GVA of the total economy |
| | Multiplier: 100 |
| Unit of measurement | Percent |
| Periodicity | Annual |
| Level of Disaggregation | - |
| Type of Disaggregation | - |
| Mapping with Global Indicator | - |

| SDG 9 Metadata: National Indicator 9.c.1 | |
|--|--|
| Goal | 9: Build resilient infrastructure, promote inclusive and sustainable industrialization and foster |
| | innovation |
| Target | 9.c: Significantly increase access to information and communications technology and strive to provide universal and affordable access to the Internet in least developed countries by 2021 |
| Indicator | 9.c.1: Number of Internet Subscription as percentage of total population |
| Data Source Ministry | Ministry of Communications |
| Department/Division | Department of Telecommunications |
| Description of Indicator | The indicator is defined as the number of internet subscriptions during reference year as percentage oftotal population. |
| Computation | Numerator: Total internet subscriptions during reference year Denominator: Mid-year population during reference year Multiplier: 100 |
| Unit of measurement | Percent |
| Periodicity | Annual |
| Level of Disaggregation | Service area |
| Type of Disaggregation | - |
| Mapping with Global Indicator | - |
| References | Data is available on the website https://www.trai.gov.in |

| SDG 9 Metadata: National Indicator 9.c.2 | |
|--|--|
| Goal | 9: Build resilient infrastructure, promote inclusive and sustainable industrialization and foster |
| | innovation |
| Target | 9.c: Significantly increase access to information and communications technology and strive to provide universal and affordable access to the Internet in least developed countries by 2021 |
| Indicator | 9.c.2: No. of Broadband Subscribers per 10,000 persons |
| Data Source Ministry | Ministry of Communications |
| Department/Division | Department of Telecommunications |
| Description of Indicator | The indicator is defined as number of broadband subscriptions during reference year per 10,000 persons. |
| Computation | Numerator: Number of broadband subscriptions during reference year |
| | Denominator: Mid-year population during reference year |
| | Multiplier: 10,000 |
| Unit of measurement | Per 10,000 population |
| Periodicity | Annual |
| Level of Disaggregation | Service area |
| Type of Disaggregation | - |
| Mapping with Global Indicator | - |

| SDG 10 Metadata: National Indicator 10.1.1 | | |
|--|---|--|
| Goal | 10: Reduce inequality within and among countries | |
| Target | 10.1: By 2030, progressively achieve and sustain income growth of the bottom 40 per centof the population at a rate higher than the national average | |
| Indicator | 10.1.1: Growth rates of household expenditure per capita among the bottom 40 per centof the population and the total population | |
| Data Source Ministry | Ministry of Statistics and Programme Implementation | |
| Department/Division | Survey Design and Research Division | |
| Description of Indicator | The indicator measures growth rate of household expenditure per capita among the bottom 40 per cent of the population in the current year with respect to previous year. | |
| Computation | Numerator: Change in per capita household expenditure (in constant price) of the concerned group of population (bottom 40% of the population or the total population, asthe case may be) in the current period from the previous year Denominator: Per capita household expenditure of the concerned group of population (bottom 40% of the population or the total population, as the case may be) in the previousperiod Multiplier: 100 | |
| Unit of measurement | Percent | |
| Periodicity | 5 years | |
| Level of Disaggregation | State/UT | |
| Type of Disaggregation | Urbanization | |
| Mapping with Global Indicator | Exact match with GIF 10.1.1 | |
| References | NSS 68th round report is available on the website www.mospi.gov.in | |

| SDG 10 Metadata: National Indicator 10.1.2 | |
|--|--|
| Goal | 10: Reduce inequality within and among countries |
| Target | 10.1: By 2030, progressively achieve and sustain income growth of the bottom 40 per centof the population at a rate higher than the national average |
| Indicator | 10.1.2: Gini Coefficient of Household Expenditure |
| Data Source Ministry | Ministry of Statistics and Programme Implementation |
| Department/Division | Survey Design and Research Division |
| Description of Indicator | The indicator measures the inequality in consumption expenditure. The coefficient ranges from zero to one, with zero representing perfect equality and one showing perfect inequality. Gini coefficient measures the deviation of distribution of income (or consumption) among the individuals within a country from a perfectly equal distribution |
| Computation | The Gini coefficient is the ratio of the area that lies between the line of equality and the Lorenz curve |
| Unit of measurement | Ratio |
| Periodicity | 5 years |
| Level of Disaggregation | State/UT |
| Type of Disaggregation | Urbanization |
| Mapping with Global Indicator | - |
| References | NSS 68th round report is available on the website www.mospi.gov.in |

| SDG 10 Metadata: National Indicator 10.2.1 | |
|--|---|
| Goal | 10: Reduce inequality within and among countries |
| Target | 10.2: By 2030, empower and promote the social, economic and political inclusion of all, irrespective of age, sex, disability, race, ethnicity, origin, religion or economic or other status |
| Indicator | 10.2.1: Percentage of people living below 50 per cent of median per capita householdexpenditure |
| Data Source Ministry | Ministry of Statistics and Programme Implementation |
| Department/Division | Survey Design and Research Division |
| Description of Indicator | Percentage of people living below 50 per cent of median MPCE. The household consumption expenditures are collected with different reference periods fordifferent items with last 7 days' for some food items, last 30 days' consumption for some other food items and some non-food items, and last 365 days' for some very infrequently consumed items. However, all such expenditures are translated in monthly expenditures. |
| Computation | Numerator: Estimated number of persons with MPCE less than or equal to Median MPCE neach sector (i.e., Rural or Urban) Denominator: Estimated number of all persons in each sector Multiplier: 100 |
| Unit of measurement | Percent |
| Periodicity | 5 years |
| Level of Disaggregation | State/UT |
| Type of Disaggregation | Urbanization |
| Mapping with Global Indicator | Partial match with GIF 10.2.1 |
| References | NSS 68th round report is available on the website www.mospi.gov.in |

| SDG 10 Metadata: National | Indicator 10.2.2 |
|-------------------------------|--|
| Goal | 10: Reduce inequality within and among countries |
| Target | 10.2: By 2030, empower and promote the social, economic and political inclusion of all,irrespective of age, sex, disability, race, ethnicity, origin, religion or economic or other status |
| Indicator | 10.2.2: Proportion of seats held by women in (a) national parliaments and (b) local governments |
| | (similar to 5.5.1 and 16.7.1) |
| Data Source Ministry | 1) Election Commission of India |
| | 2) Ministry of Panchayati Raj |
| | 3) Ministry of Housing and Urban Affairs |
| Department/Division | - |
| Description of Indicator | Proportion of seats held by women in Lok Sabha, State Legislative Assembly, Urban Local Bodies and PanchayatiRaj Institutions |
| Computation | Numerator: Women representative in Lok Sabha/Legislative Assembly/ULB/PRI Denominator: Total representatives in Lok Sabha/Legislative Assembly/ ULB/PRI Multiplier: 100 |
| Unit of measurement | Percent |
| Periodicity | 5 Years for Lok Sabha, ULB and PRI; Annual for State Legislative Assembly |
| Level of Disaggregation | - |
| Type of Disaggregation | - |
| Mapping with Global Indicator | Exact match with GIF 10.2.2 |

| SDG 10 Metadata: National Indicator 10.4.1 | |
|--|---|
| Goal | 10: Reduce inequality within and among countries |
| Target | 10.4: Adopt policies, especially fiscal, wage and social protection policies, and progressivelyachieve greater equality. |
| Indicator | 10.4.1: Labour Share of GDP |
| Data Source Ministry | Ministry of Statistics and Programme Implementation |
| Department/Division | National Accounts Division |
| Description of Indicator | Labour share of Gross Domestic Product (GDP) is the total compensation of employees given as a percent of GDP, which is a measure of total output. It provides information about the relative share of output which is paid as compensation to employees as compared with the share paid to capital in the production process for a given reference period. |
| Computation | Numerator: Compensation of employees Denominator: GDP at current price Multiplier: 100 |
| Unit of measurement | Percent |
| Periodicity | Annual |
| Level of Disaggregation | - |
| Type of Disaggregation | - |
| Mapping with Global Indicator | Exact match with GIF 10.4.1 |
| References | - |

| SDG 10 Metadata: National Indicator 10.4.2 | | |
|--|--|--|
| Goal | 10: Reduce inequality within and among countries | |
| Target | 10.4: Adopt policies, especially fiscal, wage and social protection policies, and progressivelyachieve greater equality. | |
| Indicator | 10.4.2: Percentage of budget allocated to North Eastern States | |
| Data Source Ministry | Ministry of Finance | |
| Department/Division | Department of Economic Affairs | |
| Description of Indicator | The indicator measures percentage allocation of budget to North Eastern regions out oftotal budget allocation during the reference year. | |
| Computation | Numerator: Budget allocated to North Eastern region | |
| | Denominator: Total budget allocation | |
| | Multiplier: 100 | |
| Unit of measurement | Percent | |
| Periodicity | Annual | |
| Level of Disaggregation | - | |
| Type of Disaggregation | - | |
| Mapping with Global Indicator | - | |
| References | Data is available on the website https://www.indiabudget.gov.in | |

| SDG 10 Metadata: National Indicator 10.4.3 | | |
|--|---|--|
| Goal | 10: Reduce inequality within and among countries | |
| Target | 10.4: Adopt policies, especially fiscal, wage and social protection policies, and progressivelyachieve greater equality. | |
| Indicator | 10.4.3: Percentage of budget allocated for welfare of Scheduled Caste and Scheduled Caste | |
| Data Source Ministry | Ministry of Finance | |
| Department/Division | Department of Economic Affairs | |
| Description of Indicator | The indicator measures percentage actual allocation of budget to welfare of persons belonging to Schedules Castes and Scheduled Tribes out of total actual budget allocation during the reference year. | |
| Computation | Numerator: Total actual budget allocated welfare of SCs and STs during the reference year Denominator: Total actual budget allocation during the reference year Multiplier: 100 | |
| Unit of measurement | Percent | |
| Periodicity | Annual | |
| Level of Disaggregation | - | |
| Type of Disaggregation | - | |
| Mapping with Global Indicator | - | |
| References | Data is available on the website https://www.indiabudget.gov.in | |

| SDG 10 Metadata: National Indicator 10.5.1 | | |
|--|---|--|
| Goal | 10: Reduce inequality within and among countries | |
| Target | 10.5: Improve the regulation and monitoring of global financial markets and institutions and strengthen the implementation of such regulations | |
| Indicator | 10.5.1: Financial Soundness Indicators | |
| Data Source Ministry | Reserve Bank of India | |
| Department/Division | - | |
| Description of Indicator | Seven FSIs are included as SDG indicators for 10.5.1 and expressed as percent. | |
| | i. Regulatory Tier 1 capital to risk-weighted assets ii. Nonperforming loans net of provisions to capital iii. Nonperforming loans to total gross loans iv. Return on assets v. Liquid assets to short-term liabilities vi. Net open position in foreign exchange to capital vii. Capital to assets | |
| Computation | The above indicator is computed by RBI on the basis of key financial ratios compiled based on reported data of Deposit Takers viz. SCBs, UCBs and RRBs (Obtained from NABARD) | |
| Unit of Measurement | Percentage | |
| Periodicity | Annual | |
| Level of Disaggregation | - | |
| Type of Disaggregation | - | |
| Mapping with Global Indicator | Exact match with GIF 10.5.1 | |

| SDG 10 Metadata: National Indicator 10.6.1 | |
|--|---|
| Goal | 10: Reduce inequality within and among countries |
| Target | 10.6: Ensure enhanced representation and voice for developing countries in decision-making in global international economic and financial institutions in order to deliver moreeffective, credible, accountable and legitimate institutions |
| Indicator | 10.6.1: whether the country is a member and has voting rights in international organizations (similar to 16.8.1) |
| Data Source Ministry | Ministry of External Affairs |
| Department/Division | UNES Division |
| Description of Indicator | The indicator is calculated independently for eleven different international institutions: The United Nations General Assembly, the United Nations Security Council, the United Nations Economic and Social Council, the International Monetary Fund, the International Bank for Reconstruction and Development, the International Finance Corporation, the African Development Bank, the Asian Development Bank, the Inter-American Development Bank, the World Trade Organization, and the Financial Stability Board. |
| Computation | Number of membership (voting rights) in eleven different international institutions. |
| Unit of measurement | Ratio |
| Periodicity | Annual |
| Level of Disaggregation | - |
| Type of Disaggregation | - |
| Mapping with Global Indicator | Exact match with GIF 10.6.1 |
| References | - |

| SDG 10 Metadata: National Indicator 10.7.1 | | |
|--|---|--|
| Goal | 10:Reduce inequality within and among countries | |
| Target | 10.7: Facilitate orderly, safe, regular and responsible migration and mobility of people, including through the implementation of planned and well-managed migration policies | |
| Indicator | 10.7.1: Recruitment cost borne by employee as a proportion of yearly income earned incountry of destination | |
| Data Source Ministry | Ministry of External Affairs | |
| Department/Division | Overseas Employments & Protectorate General of Emigrants (OE & PG) Division | |
| Description of Indicator | The indicator is defined as the proportion of recruitment costs borne by employee in the monthly employment earnings. | |
| Computation | RCI = Proportion of recruitment costs in the monthly employment earnings Calculation: RCI = Mean of (Ck/(Ek))Where, Ck = is the recruitment costs paid by individual migrant worker Ek = is the monthly earnings of the same migrant worker k | |
| Unit of measurement | Number | |
| Periodicity | Annual | |
| Level of Disaggregation | - | |
| Type of Disaggregation | - | |
| Mapping with Global Indicator | Exact match with GIF 10.7.1 | |

| SDG 10 Metadata: National Indicator 10.c.1 | |
|--|--|
| Goal | 10: Reduce inequality within and among countries |
| Target | 10.c: By 2030, reduce to less than 3 per cent the transaction costs of migrant remittances and eliminate remittance corridors with costs higher than 5 per cent. |
| Indicator | 10.c.1: Remittance costs as a proportion of the amount remitted |
| Data Source Ministry | Reserve Bank of India |
| Department/Division | - |
| Description of Indicator | Data for remittance is provided in the category of two types of transfer Mode through Direct Transfer to Bank Account/Electronic Wire and through SWIFT. Cost of sending USD 200 to public sector bank and cost of receiving USD 200 Public Sector Banks are provided in term of Range by RBI. |
| Computation | Numerator: Total remittance cost through Direct Transfer to Bank Account/Electronic Wireand through SWIFT transfer mode Denominator: Total amount remitted Multiplier: 100 |
| Unit of measurement | Percent |
| Periodicity | Annual |
| Level of Disaggregation | - |
| Type of Disaggregation | - |
| Mapping with Global Indicator | Partial match with GIF 10.c.1 |
| References | Data is available on the website https://www.rbi.org.in |

| SDG 11 Metadata: National | Indicator 11.2.2 |
|-------------------------------|---|
| Goal | 11: Make cities and human settlements inclusive, safe, resilient and sustainable |
| Target | 11.2: By 2030, provide access to safe, affordable, accessible and sustainable transport systems for all, |
| | improving road safety, notably by expanding public transport, with special attention to the needs of |
| | those in vulnerable situations, women, children, persons with disabilities and older persons |
| Indicator | 11.2.2: People killed/injured in road accidents (similar to 3.6.1) |
| Data Source Ministry | Ministry of Home Affairs |
| Department/Division | National Crime Record Bureau |
| Description of Indicator | The indicator gives the total number of people killed (injured) due to road traffic accidents during reference year per population of reference year. |
| Computation | Numerator: People killed (injured) due to road traffic accidents during reference year |
| | Denominator: Mid-year population of reference year |
| | Multiplier: 1,00,000 |
| Unit of measurement | Per 1,00,000 population |
| Periodicity | Annual |
| Level of Disaggregation | State/UT |
| Type of Disaggregation | - |
| Mapping with Global Indicator | - |
| References | Publication is available on the website http://ncrb.gov.in |

| SDG 11 Metadata: National | Indicator 11.3.1 |
|-------------------------------|--|
| Goal | 11: Make cities and human settlements inclusive, safe, resilient and sustainable |
| Target | 11.3: By 2030, enhance inclusive and sustainable urbanization and capacity for participatory, integrated and sustainable human settlement planning and management in all countries |
| Indicator | 11.3.1: Proportion of Cities with Master Plan (similar to 11.a.1) |
| Data Source Ministry | Ministry of Housing and Urban Affairs |
| Department/Division | - |
| Description of Indicator | The indicator gives the proportion of cities with Master plan during reference year. If in the opinion of the State Government any regulated area requires to be developed according to a Master Plan, it may cause such plan to be prepared either through the Controlling Authority or throughsuch other agency as the State Government may think fit. |
| | The Master Plan shall be comprehensive plan showing therein the existing and proposed location andgeneral layout of: 1) Arterial streets and transportation lines 2) Residential sections 3) Business areas 4) Industrial areas 5) Educational institutions 6) Public Parks, play grounds and other recreational facilities 7) Public and semi-public buildings 8) Other land-uses which are necessary |
| Computation | Numerator: Number of cities with Master plan during reference year Denominator: Total number of cities during the reference year Multiplier: 100 |
| Unit of measurement | Percent |
| Periodicity | Annual |
| Level of Disaggregation | - |
| Type of Disaggregation | - |

| SDG 11 Metadata: National Indicator 11.4.1 | |
|--|--|
| Goal | 11: Make cities and human settlements inclusive, safe, resilient and sustainable |
| Target | 11.4: Strengthen efforts to protect and safeguard the world's cultural and natural heritage |
| Indicator | 11.4.1: Total per capita expenditure on the preservation, protection and conservation of all cultural and natural heritage |
| Data Source Ministry | Ministry of Culture |
| Department/Division | - |
| Description of Indicator | The indicator shows per capita total funding from central government in the preservation, protection and conservation of ASI monuments for a given year. |
| Computation | Numerator: Total funding by Central Govt. in the conservation, preservation and protection of ASI |
| | monuments for the reference period |
| | Denominator: Projected population for the reference period |
| | Multiplier: Nil |
| Unit of measurement | Per capita |
| Periodicity | Annual |

| SDG 1 Metadata: National | Indicator 11.5.1 |
|-------------------------------|--|
| Goal | 11. Make cities and human settlements inclusive, safe, resilient and sustainable |
| Target | 11.5: By 2030, significantly reduce the number of deaths and the number of people affected and substantially decrease the direct economic losses relative to global gross domestic product caused by disasters, including water-related disasters, with a focus on protecting the poor and people in vulnerable situations |
| Indicator | 11.5.1: Number of deaths, missing persons and directly affected persons attributed to disasters per100,000 population (similar to 1.5.1 and 13.1.1) |
| Data Source Ministry | Ministry of Home Affairs |
| Department/Division | Disaster Management Division (DMD) |
| Description of Indicator | This indicator measures the number of people who died, went missing or were directly affected by disasters per 100,000 population. |
| Computation | Numerator: Number of deaths attributed to disasters + Number of missing persons attributed to disasters + Number of directly affected people attributed to disasters Denominator: Population Multiplier: 100,000 |
| Unit of Measurement | Number |
| Periodicity | Annual |
| Level of Disaggregation | - |
| Type of Disaggregation | |

| SDG 11 Metadata: National Indicator 11.6.1 | | |
|--|--|--|
| Goal | 11: Make cities and human settlements inclusive, safe, resilient and sustainable | |
| Target | 11.6: By 2030, reduce the adverse per capita environmental impact of cities, including by paying specialattention to air quality and municipal and other waste management. | |
| Indicator | 11.6.1: Percentage of Waste processed | |
| Data Source Ministry | Ministry of Housing and Urban Affairs | |
| Department/Division | - | |
| Description of Indicator | The indicator is defined as the percentage of total waste processed out of total waste generated during reference year. | |
| Computation | Numerator: Total waste processed during reference year Denominator: Total waste generation during the reference year Multiplier: 100 | |
| Unit of measurement | Percent | |
| Periodicity | Annual | |
| Level of Disaggregation | - | |
| Type of Disaggregation | - | |
| Mapping with Global Indicator | - | |

| SDG 11 Metadata: National Indicator 11.6.3 | |
|--|--|
| Goal | 11: Make cities and human settlements inclusive, safe, resilient and sustainable |
| Target | 11.6: By 2030, reduce the adverse per capita environmental impact of cities, including by paying specialattention to air quality and municipal and other waste management. |
| Indicator | The number of good air days when the Particulate matter level is below country standards for PM 10 |
| Data Source Ministry | Ministry of Environment, Forest and Climate Change |
| Department/Division | CPCB |
| Description of Indicator | PM10: Ambient air concentration of Particulate matter having aerodynamic diameter equal to or less |
| | than 10 micro-meter. |
| | |
| | This indicator is used to assess the ambient air concentration of particulate matter in ambient air. The |
| | daily average concentration below 100 $\mu\text{g}/\text{m3}$ for PM10 is considered as safe limit (with minimum |
| | impact) from human health perspective. |
| Computation | The number of days is computed, when daily average concentration of PM10 is below 100 $\mu\text{g}/\text{m}3$ |
| Unit of measurement | Number |
| Periodicity | Annual |

| SDG 11 Metadata: National Indicator 11.a.1 | |
|--|---|
| Goal | 11: Make cities and human settlements inclusive, safe, resilient and sustainable |
| Target | 11.a: Support positive economic, social and environmental links between urban, peri-urban and rural areas by strengthening national and regional development planning |
| Indicator | 11.a.1: Proportion of Cities with Master Plan (similar to 11.3.1) |
| Data Source Ministry | Ministry of Housing and Urban Affairs |
| Department/Division | - |
| Description of Indicator | The indicator gives the proportion of cities with Master plan during reference year. If in the opinion of the State Government any regulated area requires to be developed according to a Master Plan, it may cause such plan to be prepared either through the Controlling Authority or throughsuch other agency as the State Government may think fit. The Master Plan shall be comprehensive plan showing therein the existing and proposed location andgeneral layout of: 1) Arterial streets and transportation lines 2) Residential sections 3) Business areas 4) Industrial areas 5) Educational institutions 6) Public Parks, play grounds and other recreational facilities 7) Public and semi-public buildings 8) Other land-uses which are necessary |
| Computation | Numerator: Number of cities with Master plan during reference year Denominator: Total number of cities during the reference year Multiplier: 100 |
| Unit of measurement | Percent |
| Periodicity | Annual |
| Level of Disaggregation | - |
| Type of Disaggregation | - |

| SDG 11 Metadata: National Indicator 11.b.1 | |
|--|--|
| Goal | 11. Make cities and human settlements inclusive, safe, resilient and sustainable |
| Target | 11.b: By 2020, substantially increase the number of cities and human settlements adopting and implementing integrated policies and plans towards inclusion, resource efficiency, mitigation and adaptation to climate change, resilience to disasters, and develop and implement, in line with the Sendai Framework for Disaster Risk Reduction 2015–2030, holistic disaster risk management at all levels |
| Indicator | 11.b.1: Whether the country has adopted and implemented national disaster risk reduction strategies inline with the Sendai Framework for Disaster Risk Reduction 2015-2030, (similar to 1.5.3 and 13.1.2) |
| Data Source Ministry | Ministry of Home Affairs |
| Department/Division | Disaster Management Division (DMD) |
| Description of Indicator | National and local disaster risk reduction strategies should be based on, and aligned with, the guidingprinciples, scope, outcomes, and strategic priorities of the Sendai Framework, and in particular Paragraph 27 (b) which identifies that strategies should be adopted and implemented. |
| Computation | National average score for the adoption and implementation of national disaster risk reduction strategies in line with the Sendai Framework for Disaster Risk Reduction 2015-2030 is calculated on the basis of a set of questions. |
| Unit of Measurement | - |
| Periodicity | Annual |

| SDG 12 Metadata: National Indicator 12.3.1 | |
|--|--|
| Goal | 12: Ensure sustainable consumption and production patterns |
| Target | 12.3: By 2030, halve per capita global food waste at the retail and consumer levels and reduce foodlosses along production and supply chains, including post-harvest losses |
| Indicator | 12.3.1: Per capita food availability |
| Data Source Ministry | Ministry of Agriculture and Farmers' Welfare |
| Department/Division | FE, DAC&FW |
| Description of Indicator | Net availability of food grains per year per person |
| Computation | Numerator: Net availability of food grains (in kg.) during the reference year Denominator: Mid-year population during the reference year Multiplier: Nil Where, Net availability of food grains = (Production of rice, wheat, other cereals and all pulses in '000 tons) –(seed, feed and wastage) - exports + imports + change in stocks (+/-) |
| Unit of measurement | Kg per year per person |

| SDG 12 Metadata: National Indicator 12.3.2 | |
|--|--|
| Goal | 12: Ensure sustainable consumption and production patterns |
| Target | 12.3: By 2030, halve per capita global food waste at the retail and consumer levels and reduce foodlosses along production and supply chains, including post-harvest losses |
| Indicator | 12.3.2: Post harvest storage and distribution losses of Central/States Pool stocks of wheat and rice |
| Data Source Ministry | Ministry of Consumer Affairs, Food and Public Distribution |
| Department/Division | Department of Food and Public Distribution |
| | S& R Division |
| Description of Indicator | Indicator refers to percentage losses of Central Pool stocks of wheat and rice calculated in terms of value of losses. Losses are calculated in terms of storage and transit losses. |
| Computation | For Storage Losses: Numerator: Total quantity of storage (Wheat and Rice) Denominator: Total quantity received in storage (Wheat and Rice) Multiplier: 100 For Transit Losses: Numerator: Total quantity lost in transit (Wheat and Rice) Denominator: Total quantity moved during transit (Wheat and Rice) Multiplier: 100 |

| SDG 12 Metadata: National Indicator 12.4.1 | | |
|--|--|--|
| Goal | 12: Ensure sustainable consumption and production patterns | |
| Target | 12.4:By 2020, achieve the environmentally sound management of chemicals and all wastes throughout their life cycle, in accordance with agreed international frameworks, and significantly reduce their release to air, water and soil in order to minimize their adverse impacts on human health and the environment | |
| Indicator | 12.4.1:Whether the country has ratified international Multilateral Environmental Agreements onhazardous waste and other chemicals | |
| Data Source Ministry | Ministry of Environment, Forest and Climate Change | |
| Department/Division | - | |
| Description of Indicator | The indicator refers to whether the country has ratified, accepted, approved or accessed, to the following Multilateral Environmental Agreements (MEAs): 1) The Basel Convention on the Control of Transboundary Movements of Hazardous Wastes and their Disposal (Basel Convention) 2) The Rotterdam Convention on the prior informed consent procedure for certain hazardous chemicals and pesticides in international trade (Rotterdam Convention) 3) The Stockholm Convention on Persistent Organic Pollutants (Stockholm Convention) 4) The Montreal Protocol on Substances that Deplete the Ozone Layer (Montreal Protocol) 5) Minamata Convention on Mercury (Minamata Convention) | |

| SDG 12 Metadata: Nationa | l Indicator 12.4.2 |
|-------------------------------|--|
| Goal | 12: Ensure sustainable consumption and production patterns |
| Target | 12.4: By 2020, achieve the environmentally sound management of chemicals and all wastes throughout their life cycle, in accordance with agreed international frameworks, and significantly reduce their release to air, water and soil in order to minimize their adverse impacts on human health and the environment |
| Indicator | 12.4.2: (a) Hazardous waste generated per capita; and (b) proportion of hazardous waste treated, by type of treatment |
| Data Source Ministry | Ministry of Environment, Forest and Climate Change |
| Department/Division | Central pollution Control Board |
| Description of Indicator | Hazardous waste is waste that is dangerous or may become dangerous to the environment or people'shealth. Municipal waste is defined at national level as wastes consisting of everyday items. These wastes come from household, institutions and commercial establishments. |
| Computation | Hazardous waste generated per capita: Numerator: Total hazardous waste generated in MT during the reference year Denominator: Mid-year population during the reference year Multiplier: Nil Proportion of hazardous waste treated Numerator: Total hazardous waste recycled/utilized in MT during the reference year Denominator: Mid-year population during the reference year Multiplier: Nil |
| Unit of measurement | Hazardous waste generated per capita: MT per person Proportion of hazardous waste treated, by type of treatment: Ratio |

| SDG 12 Metadata: National Indicator 12.8.1 | |
|--|--|
| Goal | 12: Ensure sustainable consumption and production patterns |
| Target | 12.8: By 2030, ensure that people everywhere have the relevant information and awareness for sustainable development and lifestyles in harmony with nature |
| Indicator | 12.8.1: Extent to which (i) global citizenship education and (ii) education for sustainable development are mainstreamed in (a) national education policies; (b) curricula; (c) teacher education; and (d) studentassessment (similar to 4.7.1 and 13.3.1) |
| Data Source Ministry | Ministry of Education |
| Department/Division | Department of School Education and Literacy |
| Description of Indicator | The indicator measures the extent to which countries mainstream Global Citizenship Education (GCED)and Education for Sustainable Development (ESD) in their education systems. For each of the four components of the indicator (policies, curricula, teacher education, and student assessment), a number of criteria are measured, which are then combined to give a single score between zero and one for each component. Only information for primary and secondary education will be used for calculation of indicator. |
| Computation | The indicator is computed with the help of set of questions. |

| SDG 12 Metadata: Nationa | l Indicator 12.c.1 |
|-------------------------------|--|
| Goal | 12: Ensure sustainable consumption and production patterns |
| Target | 12.c: Rationalize inefficient fossil-fuel subsidies that encourage wasteful consumption by removing market distortions, in accordance with national circumstances, including by restructuring taxation and phasing out those harmful subsidies, where they exist, to reflect their environmental impacts, taking fully into account the specific needs and conditions of developing countries and minimizing the possible adverse impacts on their development in a manner that protects the poor and the affected communities |
| Indicator | 12.c.1: Amount of fossil fuel subsidy per unit of GDP |
| Data Source Ministry | Numerator: Ministry of Finance |
| | Denominator: Ministry of Statistics & Programme Implementation |
| Department/Division | - |
| Description of Indicator | The indicator refers to percentage share of expenditures made on subsidies of petroleum (include LPGs and Kerosene) with respect to GDP at current price. |
| Computation | Numerator: Expenditure on petroleum subsidies Denominator: Gross Domestic Product at current price Multiplier: 100 |

| SDG 14 Metadata: National | Indicator 14.2.1 |
|---|--|
| Goal | 14: Conserve and sustainably use the oceans, seas and marine resources for sustainable development. |
| Target | 14.2: By 2020, sustainably manage and protect marine and coastal ecosystems to avoid significant adverse impacts, including by strengthening their resilience, and take action for their restoration in orderto achieve healthy and productive oceans |
| Indicator | 14.2.1: Percentage change in area under mangroves (similar to 14.5.2) |
| Data Source Ministry | Ministry of Environment Forest and Climate Change |
| Department/Division | Forest Survey of India |
| Description of Indicator | Mangrove cover is defined as 'Area covered under mangrove vegetation as interpreted from remotesensing data. It is included in the forest cover'. |
| | Forest cover is defined as 'All Lands, more than 1 hectare in area, with a tree canopy density of more than 10% irrespective of ownership and legal status. Such land may not necessarily be a recorded forestarea. It also includes orchards, bamboo and palm'. |
| | Mangrove cover assessment is carried out biennially and changes thereon with respect to the previous assessment are calculated for each district, States and Country. |
| | Forest cover assessment is a biennial wall to wall mapping exercise based on Remote sensing using LISS III (23.5 mtr Resolution) sensor data from IRS P6, supported by intensive ground verification and field data from National Forest Inventory. Area covered under mangrove vegetation is also included in the forest cover. |
| | Mangrove shows conspicuous tone and textures on the satellite images, which has been used in themapping of mangrove cover of the country. |
| | Changes in forest cover under mangrove w.r.t to previous assessments are calculated for district, State and country level. Based on the analysis of changes observed w.r.t previous assessment, a change matrix is generated indicating the change in the extent of mangrove cover. |

| SDG 14 Metadata: National Indicator 14.3.1 | |
|--|--|
| Goal | 14: Conserve and sustainably use the oceans, seas and marine resources for sustainable development. |
| Target | 14.3: Minimize and address the impacts of ocean acidification, including through enhanced scientificcooperation at all levels |
| Indicator | 14.3.1: Average marine acidity (pH) measured at agreed site of representative sampling stations |
| Data Source Ministry | Ministry of Earth Sciences |
| Department/Division | |
| Description of Indicator | Ministry of Earth Sciences, through Centre for Marine Living Resources and Ecology (CMLRE) and National Centre for Coastal Research (NCCR) is monitoring the estuarine, coastal and open ocean pH to ascertain the status of Ocean Acidification being influenced by anthropogenic activities and climate change conditions. NCCR through its "Seawater Quality Monitoring (SWQM/COMAPS)" programme is monitoring pH of the estuaries and coastal seas of India since 1990s. CMLRE and NCCR are jointly monitoring coastal and oceanic pH of the eastern Arabian Sea including on its shelf. Decrease in pH over a long-term period indicates the Ocean Acidification. Note: As such there is no average value for pH for coastal waters. However, the average global oceanicpH is around 8. |

| Indicator | 15.1.3: Area of Ramsar sites as a percentage to the total wetland area |
| Data Source Ministry | Ministry of Environment, Forest and Climate Change |
| Department/Division | - |
| Description of Indicator | Wetlands are vital for our water and food security. As "kidneys of landscape, wetlands receive flows of water and waste from upstream sources. They help stabilize water supplies, cleanse polluted waters, protect shorelines, and recharge groundwater aquifers. The Convention on Wetlands, called the Ramsar Convention, is an intergovernmental treaty that provides the framework for national action and international cooperation for the conservation and wise use of wetlands and their resources. The Convention was adopted in 1971 at the Iranian City of Ramsar. Contracting Parties to the Convention commit to designating wetlands into the List of Wetlands of International Importance, and wise use of all wetlands in their territory. |

| SDG 15 Metadata: Nation | al Indicator 15.5.1 |
|---------------------------------------|--|
| Goal | 15: Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss |
| Target | 15.5: Take urgent and significant action to reduce the degradation of natural habitats, halt the loss of biodiversity and, by 2020, protect and prevent the extinction of threatened species |
| Indicator | 15.5.1: Red List Index |
| Data Source Ministry | Ministry of Environment Forest and Climate Change |
| Department/Division | - |
| Description of Indicator Computation | The Red List Index (RLI) measures change in aggregate extinction risk across groups of species. It is based on genuine changes in the number of species in each category of extinction risk on The IUCN Red List of Threatened Species (www.iucnredlist.org) is expressed as changes in an index ranging from 0 to 1. The RLI can be computed for only those species whose threat status has been assessed at least twice. The present indicator calculates RLI for Mammalia group. Considering this, the following two data sources have been adopted to compute RLI for Mammalia group: The Red Data Book on Indian Animals (Part I: Vertebrata) by ZSI, 1994 [T1] Fauna of India Checklist: A checklist of Mammals of India by ZSI, 2017 [T2] The computation of RLI for Mammalia group has been performed using the following formula: The RLI value is calculated by multiplying the number of species in each red list category by the |
| | category weight (0 for LC, 1 for NT, 2 for VU, 3 for EN, 4 for CR and 5 for EX) these products are summed, divided by the maximum possible product (number of species multiplied by the maximum weight of 5) and subtracted from one (Bubb et al. 2009). This produces an index value that ranges from 0 to 1. |

| SDG 15 Metadata: National Indicator 15.6.1 | |
|--|--|
| Goal | 15: Protect, restoreand promotes ustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss |
| Target | 15.6: Promote fair and equitable sharing of the benefits arising from the utilization of genetic resources and promote appropriate access to such resources, as internationally agreed |
| Indicator | 15.6.1: Whether country has adopted legislative, administrative and policy frameworks to ensure fairand equitable sharing of benefits |
| Data Source Ministry | Ministry of Environment Forest and Climate Change and Ministry of Agriculture and FW |
| Department/Division | National Biodiversity Authority and NBPGR |
| Description of Indicator | The indicator is defined as the number of countries that have adopted legislative, administrative and policy frameworks to ensure fair and equitable sharing of benefits. It refers to the efforts by countriesto implement the Nagoya Protocol on Access to Genetic Resources and the Fair and Equitable Sharingof Benefits Arising from their Utilization to the Convention on Biological Diversity (2010) and the International Treaty on Plant Genetic Resources for Food and Agriculture (2001). |
| Computation | Response on the following is to be recorded: 1. Whether country is contracting Parties to the International Treaty on Plant Genetic Resources for Food and Agriculture 2. Whether country is parties to the Nagoya Protocol 3. Whether country has legislative, administrative and policy framework or measures reported through the Online Reporting System on Compliance of the International Treaty on Plant Genetic Resources for Food and Agriculture 4. Whether country has legislative, administrative and policy framework or measures reported to the Access and Benefit-Sharing Clearing-House |

|--|--|--|
| Goal | 15: Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss | |
| Target | 15.7: Take urgent action to end poaching and trafficking of protected species of flora and fauna and and supply of illegal wildlife products. | |
| Indicator | 15.7.1: Number of cases registered under the Wildlife Protection Act, 1972 (similar to 15.c.1) | |
| Data Source Ministry | Ministry of Environment Forest and Climate Change | |
| Department/Division | Wildlife Crime Control Bureau | |
| Description of Indicator | Whenever a case related to violation of The Wildlife (Protection) Act, 1972 is detected by an enforcement agency (Police/Forest) of a state, the details of the case is sent to Wildlife Crime Control Bureau (WCCB) by concerned state based on which the data is compiled by WCCB at national level. Theannual data of the wildlife cases detected by states/UTs and reported to WCCB is then compiled. Wildlife Crime Control Bureau (WCCB) is a statutory multi-disciplinary body established by the Government of India under the Ministry of Environment and Forests, to combat organized wildlife crime in the country. | |

| SDG 16 Metadata: National Indicator 16.8.1 | |
|--|---|
| Goal | 16: Promote peaceful and inclusive societies for sustainable development, provide access |
| | to justice forall and build effective, accountable and inclusive institutions at all levels. |
| Target | 16.8: Broaden and strengthen the participation of developing countries in the institutions of global governance |
| Indicator | 16.8.1: whether the country is a member and has voting rights in international organizations (similar to 10.6.1) |
| Data Source Ministry | Ministry of External Affairs |
| Department/Division | UNES |
| Description of Indicator | The indicator is calculated independently for eleven different international institutions: The United Nations General Assembly, the United Nations Security Council, the United Nations Economic and Social Council, the International Monetary Fund, the International Bank for Reconstruction and Development, the International Finance Corporation, the African Development Bank, the Asian Development Bank, the Inter-American Development Bank, the World Trade Organization, and the Financial Stability Board. |
| Computation | Number of membership (voting rights) in eleven different international institutions. |

| SDG 16 Metadata: Nation | al Indicator 16.9.1 |
|-------------------------------|---|
| Goal | 16: Promote peaceful and inclusive societies for sustainable development, provide access to justice forall and build effective, accountable and inclusive institutions at all levels. |
| Target | 16.9: By 2030, provide legal identity for all, including birth registration |
| Indicator | 16.9.1: Percentage of births registered |
| Data Source Ministry | Ministry of Home Affairs |
| Department/Division | Office of the Registrar General, India |
| Description of Indicator | The indicator refers to percentage of births registered with a civil authority out of total birth occurred in a year. The indicator is defined as 'Level of Registration' (LOR) of birth for some registration area describing the extent to which registration of such event is complete in that area. LOR is calculated asthe number of registered births, deaths to the total number of such events available for registration inthat area during the year. For want of actual number of births, deaths available for registration, these are estimated using the Sample Registration System (SRS) birth and the estimated mid-year population. The indicator is defined as Level of Registration of Births (LOR) i.e. as the percentage of registered births to the births estimated through SRS. Where, Number of estimated birth events for a year = Mid-year population × Birth Rate from Sample Registration System |
| Computation | Numerator: Number of birth registered with civil authority during year Denominator: Number of estimated birth for the year |

| SL | Target | Target |
|------|--------|---|
| J | No. | Target |
| 1 | 2.b | Correct and prevent trade restrictions and distortions in world agricultural markets, including through the parallel elimination of all forms of agricultural ex-port subsidies and all export measures with equivalent effect, in accordance with the mandate of the Doha Developmer Round |
| 2* | 4.b | By 2020, substantially expand globally the number of scholarships available to developing countries, in particular least developed countries, small island developing States and Africal countries, for enrolment in higher education, including vocational training and information and communications technology, technical, engineering and scientific programmes, in developed countries and other developing countries |
| 3 * | 6.a | 6.a: By 2030, expand international cooperation and capacity-building support to developin countries in water- and sanitation-related activities and programmes, including water harvesting, desalination, water efficiency, wastewater treatment, recycling and reus technologies |
| 4 * | 7.a | By 2030, enhance international cooperation to facilitate access to clean energy research an technology, including renewable energy, energy efficiency and advanced and cleaner fossi fuel technology, and promote investment in energy infrastructure and clean energy technology. |
| 5 * | 8.a | Increase Aid for Trade support for developing countries, in particular least developed countries including through the Enhanced Integrated Framework for Trade-related Technical Assistanc to Least Developed Countries |
| 6 * | 9.a | Facilitate sustainable and resilient infrastructure development in developing countries throug enhanced financial, technological and technical support to African countries, least developed countries, landlocked developing countries and small island developing States |
| 7 | 10.3 | Ensure equal opportunity and reduce inequalities of outcome, including by eliminating discriminatory laws, policies and practices and promoting appropriate legislation, policies and action in this regard |
| 8 | 10.a | Implement the principle of special and differential treatment for developing countries, in particular least developed countries, in accordance with World Trade Organization agreement |
| 9* | 10.b | Encourage official development assistance and financial flows, including foreign directinvestment, to States where the need is greatest, in particular least developed countries African countries, small island developing States and land-locked developing countries, i accordance with their national plans and programmes |
| 10# | 11.c | Support least developed countries, including through financial and technical assistance, in building sustainable and resilient buildings utilizing local materials |
| 11\$ | 13.a | Implement the commitment undertaken by developed-country parties to the United Nation Framework Convention on Climate Change to a goal of mobilizing jointly \$100 billion annual by 2020 from all sources to address the needs of developing countries in the context of meaningful mitigation actions and transparency on implementation and fully operationalize the Green Climate Fund through its capitalization as soon as possible |
| 12\$ | 13.b | Promote mechanisms for raising capacity for effective climate change-related planning an management in least developed countries and small island developing States, includin focusing on women, youth and local and marginalized communities |

| SL | Target No. | Target | | | |
|--------|---------------|--|--|--|--|
| 13 | 14.6 | By 2020, prohibit certain forms of fisheries subsidies which contribute to over-capacity and overfishing, eliminate subsidies that contribute to illegal, unreported and unregulated fishing and refrain from introducing new such subsidies, recognizing that appropriate and effective special and differential treatment for developing and least developed countries should be an integral part of the World Trade Organization fisheries subsidies negotiation | | | |
| 14 | 14.7 | v 2030, increase the economic benefits to small island developing States and least developed buntries from the sustainable use of marine resources, including through sustainable anagement of fisheries, aquaculture and tourism | | | |
| 15 * | 15.a | Mobilize and significantly increase financial resources from all sources to con-serve and sustainably use biodiversity and ecosystems | | | |
| 16 | 16.b | Promote and enforce non-discriminatory laws and policies for sustainable development | | | |
| 17 *\$ | 17.2 | Developed countries to implement fully their official development assistance commitments, including the commitment by many developed countries to achieve the target of 0.7 per cent of gross national income for official development assistance (ODA/GNI) to developing countries and 0.15 to 0.20 per cent of ODA/GNI to least developed countries; ODA providers are encouraged to consider setting a target to provide at least 0.20 per cent of ODA/GNI to least developed countries | | | |
| 18 | 17.5 | Adopt and implement investment promotion regimes for least developed countries | | | |
| 19 | 17.7 | Promote the development, transfer, dissemination and diffusion of environ-mentally sound technologies to developing countries on favourable terms, including on concessional and preferential terms, as mutually agreed | | | |
| 20 | 17.8 | Fully operationalize the technology bank and science, technology and innovation capacity-building mechanism for least developed countries by 2017 and enhance the use of enabling technology, in particular information and communications technology | | | |
| 21 * | 17.9 | Enhance international support for implementing effective and targeted capacity-building in developing countries to support national plans to implement all the Sustainable Development Goals, including through North-South, South-South and triangular cooperation | | | |
| 22 | 17.10 | Promote a universal, rules-based, open, non-discriminatory and equitable multilateral trading system under the World Trade Organization, including through the conclusion of negotiations under its Doha Development Agenda | | | |
| 23 | 17.12 | Realize timely implementation of duty-free and quota-free market access on a lasting basis for all least developed countries, consistent with World Trade Organization decisions, including by ensuring that preferential rules of origin applicable to imports from least developed countries are transparent and simple, and contribute to facilitating market access | | | |
| 24 | 17.14 | Enhance policy coherence for sustainable development | | | |
| 25 | 17.15 | Respect each country's policy space and leadership to establish and implement policies for poverty eradication and sustainable development | | | |

^{*} Targets related to Official Development Assistance (ODA) \$ Not relevant in the national context

| Ann | ex II - List o | f Similar Indicators | |
|-----|------------------|---|-----------------------|
| SL | Indicator No. | Description of Indicator | Similar Indicators |
| 1 | 1.5.1 | Number of deaths, missing persons and directly affected persons attributed to disasters per 100,000 population | 11.5.1 & 13.1.1 |
| 2 | 1.5.3 | Number of countries that adopt and implement national disaster risk reduction strategies in line with the Sendai Framework for Disaster Risk Reduction 2015–2030 | 11.b.1 & 13.1.2 |
| 3 | 1.5.4 | Proportion of local governments that adopt and implement local disaster risk reduction strategies in line with national disaster risk reduction strategies | 11.b.2 & 13.1.3 |
| 4 | 3.6.1 | People killed/injured in road accidents | 11.2.2 |
| 5 | 3.7.4 | Percentage of currently married women (15-49 years) who use any modern family planning methods | 3.8.1 |
| 6 | 4.7.1 | Extent to which (i) global citizenship education and (ii) education for sustainable development are mainstreamed in (a) national education policies; (b) curricula; (c) teacher education; and (d) student assessment | 12.8.1 & 13.3.1 |
| 7 | 5.5.1 | Proportion of seats held by women in national Parliament, State Legislation and Local Self Government | 10.2.2 & 16.7.1 |
| 8 | 7.b.1 | Installed renewable energy generating capacity in the country | 12.a.1 |
| 9 | 8.2.2 | Total number of patents issued (granted) | 8.3.2 & 9.5.3 |
| 10 | 10.2.3 | Proportion of SC/ST persons in Elected bodies | 16.7.2 |
| 11 | 10.6.1 | Proportion of members and voting rights of developing countries in international organizations | 16.8.1 |
| 12 | 11.3.1 | Proportion of cities with Master plans | 11.a.1 |
| 13 | 14.2.1 | Percentage change in area under mangroves | 14.5.2 |
| 14 | 14.2.2 | Percentage of Coastal and Marine protected Areas in relation to Territorial Sea | 14.5.1 |
| 15 | 15.7.1 | Number of cases registered under the Wildlife Protection Act, 1972 | 15.c.1 |
| 16 | 16.6.2 | Percentage of RTI queries responded | 16.10.1 |

| 26 | 3.3.2 | Tuberculosis incidence per 1,00,000 population | 3.3.2 | Tuberculosis incidence per 1,00,000 population | Exact |
| 27 | 3.3.3 | Malaria incidence per 1,000 population | 3.3.3 | Malaria incidence per 1,000 population | Exact |
| 28 | 3.3.4 | Prevalence of Viral Hepatitis B per 1,00,000 population | 3.3.4 | Hepatitis B incidence per 1,00,000 population | Partial |
| 29 | 3.4.2 | Suicide mortality rate, (per 1,00,000 population) | 3.4.2 | Suicide mortality rate | Exact |
| 30 | 3.6.1 | People killed/injured in road accidents (per 1,00,000 population) (similar to 11.2.2) | 3.6.1 | Death rate due to road traffic injuries | Exact |
| 31 | 3.7.1 | Percentage of currently married women aged 15-49 years who have their need for family planning satisfied with modern methods | 3.7.1 | Proportion of women of reproductive age (aged 15–49 years) who have their need for family planning satisfied with modern methods | Partial |
| 32 | 3.7.2 | Adolescent birth rate (aged 15– 19 years) per 1,000 women in that age group | 3.7.2 | Adolescent birth rate (aged 10-14 years; aged 15–19 years) per 1,000 women in that age group | Partial |
| 33 | 3.1.4 | Percentage of women aged 15-49 years with a live birth for last birth, who received antenatal care, four times or more | | | |
| 34 | 3.7.4 & 3.8.1 | Percentage of currently married women (15-49 years) who use any modern family planning methods | | | |
| 35 | 3.8.3 | Percentage of people living with HIV currently receiving ART among the detected number of adults and children living with HIV | 3.8.1 | Coverage of essential health services | Partial |
| 36 | 3.8.4 | Prevalence of hypertension among men and women age 15-49 years | | | |
| 37 | 3.8.5 | Percentage of population in age group 15-49 who reported sought treatment out of total population in that age group having diabetes | | | |
| 38 | 3.8.7 | Percentage of TB cases successfully treated (cured plus treatment completed) among TB cases notified to the national health authorities during a specified period | | | |

| | | National Indicator (NI) | | Global Indicator (GI) | Mapping |
|----|------------------|--|------------------|--|------------------|
| SL | Indicator No. | Description of Indicator | Indicator No. | Description of Indicator | of NI with GI |
| 39 | 3.8.2 | Proportion of population with large household expenditures on health as a share of total household expenditure or income | 3.8.2 | Proportion of population with large household expenditures on health as a share of total household expenditure or income | Exact |
| 40 | 3.9.3 | Mortality rate attributed to unintentional poisoning, (per 1,00,000 population) | 3.9.3 | Mortality rate attributed to unintentional poisoning, (per 1,00,000 population) | Exact |
| 41 | 3.a.1 | Percentage of adults 15 years and above with use of any kind of tobacco (smoking and smokeless) | 3.a.1 | Age-standardized prevalence of current tobacco use among persons aged 15 years and older | Partial |
| 42 | 3.b.1 | Percentage of children age 12-23 months fully vaccinated with BCG, measles and three doses each of polio and DPT or Penta vaccine (excluding polio vaccine given at birth) | 3.b.1 | Proportion of the target population covered by all vaccines included in their national programme | Exact |
| 43 | 3.c.1 | Health worker density | 3.c.1 | Health worker density and distribution | Exact |
| 44 | 3.d.1 | International Health Regulations (IHR) capacity and health emergency preparedness | 3.d.1 | International Health Regulations (IHR) capacity and health emergency preparedness | Exact |
| 45 | 4.1.1 | Percentage of students in grade 3, 5 and 8 achieving at least a minimum proficiency level in terms of nationally defined learning outcomes to be attained by pupils at the end of each of above grades | 4.1.1 | Proportion of children and young people (a) in grades 2/3; (b) at the end of primary; and (c) at the end of lower secondary achieving at least a minimum proficiency level in (i) reading and (ii) mathematics, by sex | Partial |
| 46 | 4.1.2 | Completion rate for grade 5, grade 8 and grade 10 | 4.1.2 | Completion rate (primary education, lower secondary education, upper secondary education) | Exact |
| 47 | 4.2.2 | Participation rate in organized learning one year before official primary entry | 4.2.2 | Participation rate in organized learning (one year before the official primary entry age), by sex | Exact |
| 48 | 4.3.1 | Participation rate of youth and adults in formal and non-formal education and training in the previous 12 months | 4.3.1 | Participation rate of youth and adults in formal and non-formal education and training in the previous 12 months,by sex | Exact |
| 49 | 4.4.1 | Proportion of youth and adults with information and communication technology (ICT) skills | 4.4.1 | Proportion of youth and adults with information and communication technology (ICT) skills | Exact |
| 50 | 4.5.1 | Gender Parity indices for Primary /Secondary/Higher Secondary /Tertiary education | 4.5.1 | Parity indices (female/male, rural/urban, bottom/top wealth quintile and others such as disability status, indigenous peoples and conflict-affected, as data become available) for all education indicators on this list that can be disaggregated | Partial |

| | | National Indicator (NI) | | Global Indicator (GI) | Mapping of NI |
|----|------------------|--|------------------|--|------------------|
| SL | Indicator No. | Description of Indicator | Indicator No. | Description of Indicator | with Gl |
| 51 | 4.7.1 | Extent to which (i) global citizenship education and (ii) education for sustainable development are mainstreamed in (a) national education policies; (b) curricula; (c) teacher education; and (d) student assessment (similar to 12.8.1/13.3.1) | 4.7.1 | Extent to which (i) global citizenship education and (ii) education for sustainable development are mainstreamed in (a) national education policies; (b) curricula; (c) teacher education; and (d) student assessment | Exact |
| 52 | 4.a.1 | Proportion of schools with access to: (a) electricity; (b) computers for pedagogical purposes; (c) adapted infrastructure and materials for students with disabilities/ disabled friendly ramp and toilets; (d) basic drinking water; (e) single-sex basic sanitation facilities; and (f) basic hand washing facilities (as per the WASH indicator definitions), (in percentage) | 4.a.1 | Proportion of schools offering basic services, by type of service | Partial |
| 53 | 4.c.1 | Proportion of trained teachers, by education level (primary, upper primary, elementary, secondary and higher secondary education), (in percentage) | 4.c.1 | Proportion of teachers with the minimum required qualifications, by education level | Partial |
| 54 | 5.1.1 | Whether or not legal framework are in place to promote, enforce and monitor equality and nondiscrimination on the basis of sex, (in percentage) | 5.1.1 | Whether or not legal framework are in place to promote, enforce and monitor equality and nondiscrimination on the basis of sex | Exact |
| 55 | 5.2.1 | Proportion of ever-married women age 18-49 years who have experienced physical, sexual or emotional violence by husband/partner in the past 12 months | 5.2.1 | Proportion of ever-partnered women and girls aged 15 years and older subjected to physical, sexual or psychological violence by a current or former intimate partner in the previous 12 months, by form of violence and by age | Partial |
| 56 | 5.2.2 | Proportion of women and girls aged 18-49 years subjected to sexual violence by persons other than an intimate partner in the previous 12 months | 5.2.2 | Proportion of women and girls aged 15 years and older subjected to sexual violence by persons other than an intimate partner in the previous 12 months, by age and place of occurrence | Partial |
| 57 | 5.3.1 | Percentage of women aged 20-24 years who were married by exact age 18 years | 5.3.1 | Proportion of women aged 20–24 years who were married or in a union before age 15 and before age 18 | Partial |
| 58 | 5.4.1 | Proportion of time spent on unpaid domestic and care work. | 5.4.1 | Proportion of time spent on unpaid domestic and care work,by sex, age and location | Exact |

| | | National Indicator (NI) | | Global Indicator (GI) | | |

| 59 | 5.5.1 | Proportion of seats held by women in (a) national parliaments and (b) local governments (similar to 10.2.2 and 16.7.1) | 5.5.1 | Proportion of seats held by women in(a) national Parliaments and (b) local governments | Exact | |
| 60 | 5.5.2 | Proportion of women in managerial positions | 5.5.2 | Proportion of women in managerial positions | Exact | |
| 61 | 5.6.2 | Whether the country has laws and regulations that guarantee full and equal access to women and men aged 15 years and older to sexual and reproductive health care, information and education | 5.6.2 | Number of countries with laws and regulations that guarantee full and equal access to women and men aged 15 years and older to sexual and reproductive health care, information and education | Exact | |
| 62 | 6.1.1 | Percentage of Population getting safe and adequate drinking water within premises through Pipe Water Supply (PWS) (similar to 1.4.1) | 6.1.1 | Proportion of population using safely managed drinking water services | Partial | |
| 63 | 6.2.1 | Proportion of households having access to toilet facility (Urban & Rural), (in percentage) | 6.2.1 | Proportion of population using (a) safely managed sanitation services and (b) a hand-washing facility with soap and water | Partial | |
| 64 | 6.3.1 | Percentage of sewage treated before discharge into surface water bodies | 6.3.1 | Proportion of domestic and industrial wastewater flows safely treated | Partial | |
| 65 | 6.3.2 | Proportion of Water Bodies with Good Ambient Water Quality | 6.3.2 | Proportion of Water Bodies with Good Ambient Water Quality | Exact | |
| 66 | 6.5.1 | Degree of integrated water resources management | 6.5.1 | Degree of integrated water resources management | Exact | |
| 67 | 6.b.1 | Proportion of villages with Village Water & Sanitation Committee [VWSC] | 6.b.1 | Proportion of local administrative units with established and operational policies and procedures for participation of local communities in water and sanitation management | Partial | |
| 68 | 7.1.1 | Percentage of households electrified | 7.1.1 | Proportion of population with access to electricity | Partial | |
| 69 | 7.1.2 | Percentage of household using clean cooking fuel | 7.1.2 | Proportion of population with primary reliance on clean fuels and technology | Partial | |
| 70 | 7.2.1 | Renewable energy share in the total installed electricity generation | 7.2.1 | Renewable energy share in the total final energy consumption | Partial | |
| 71 | 7.3.1 | Energy intensity measured in terms of primary energy and GDP, (in mega joules per rupee) | 7.3.1 | Energy intensity measured in terms of primary energy and GDP | Exact | |

| | | National Indicator (NI) | | Global Indicator (GI) | Mapping |
|----|------------------|--|------------------|--|------------------|
| SL | Indicator No. | Description of Indicator | Indicator No. | Description of Indicator | of NI with GI |
| 72 | 7.b.1 | Installed renewable energy generating capacity in the country (similar to indicator 12.a.1) | 7.b.1 | Installed renewable energy generating capacity in developing countries (in watts per capita) | Exact |
| 73 | 8.1.1 | Annual growth rate of GDP (adjusted to price changes) per capita, (in percentage) | 8.1.1 | Annual growth rate of real GDP per capita | Exact |
| 74 | 8.2.1 | Annual growth rate of GDP per employed person | 8.2.1 | Annual growth rate of real GDP per employed person | Exact |
| 75 | 8.5.1 | Average hourly earnings of employees, by sex, age, occupation and persons | 8.5.1 | Average hourly earnings of employees, by sex, age, occupation and persons with disabilities | Exact |
| 76 | 8.5.2 | Unemployment rate | 8.5.2 | Unemployment rate by sex, age and persons with disabilities | Exact |
| 77 | 8.6.1 | Proportion of youth (aged 15– 24 years) not in education, employment or training | 8.6.1 | Proportion of youth (aged 15–24 years) not in education, employment or training | Exact |
| 78 | 8.8.1 | Fatal and non-fatal occupational injuries per 100,000 workers | 8.8.1 | Fatal and non-fatal occupational injuries per 100,000 workers, by sex and migrant status | Exact |
| 79 | 8.9.1 | Tourism direct GDP as a proportion of total GDP and in growth rate | 8.9.1 | Tourism direct GDP as a proportion of total GDP and in growth rate | Exact |
| 80 | 8.10.1 | a) Number of banking outlets per 1,00,000 population and (b) number of automated teller machines (ATMs) per 100,000 population | 8.10.1 | (a) Number of commercial bank branches per 100,000 adults and (b) number of automated teller machines (ATMs) per 100,000 adults | Partial |
| 81 | 8.b.1 | Existence of a developed and operationalized national strategy for youth employment, as a distinct strategy or as part of a national employment strategy | 8.b.1 | Existence of a developed and operationalized national strategy for youth employment, as a distinct strategy or as part of a national employment strategy | Exact |
| 82 | 9.1.1 | Proportion of the rural population who live within 2 km of an all-season road | 9.1.1 | Proportion of the rural population who live within 2 km of an all-season road | Exact |
| 83 | 9.1.2 | Passenger and freight volumes, by mode of transport | 9.1.2 | Passenger and freight volumes, by mode of transport | Partial |
| 84 | 9.2.1 | Manufacturing value added as a proportion of GDP and per capita | 9.2.1 | Manufacturing value added as a proportion of GDP and per capita | Exact |
