ANNUAL SURVEY OF INDUSTRIES—1964

SAMPLE SECTOR : SUMMARY RESULTS

*The report entitled 'Tables with Notes on the Annual Survey of Industries—1964 (Sample Sector : Summary Results)' was prepared by the Indian Statistical Institute. The views contained in the report are not necessarily those of the Government of India.\**

## INTRODUCTORY NOTES

### 1. Introduction

1. Results based on data collected in the sample sector of the Annual Survey of Industries for 1964 (ASI-64) on 13 major items are presented in this volume. A preliminary view of these results for India as a whole, for each state, taking all industries together and for each industry at all-India level, was furnished to the Government of India in October, 1966. In brief, these quick estimates provided sample sector results for 1964 at all-India by industry as well as geographical (state) breakdowns.

2. The planning of the survey was done jointly by the Industrial Statistics Wing of the Central Statistical Organisation (CSO-IS Wing) and the Indian Statistical Institute (ISI). Likewise, technical direction of field collection of data was given by the ISI in close consultation with the CSO (IS Wing).

3. The survey was conducted under the Collection of Statistics Act, 1953 (32 of 1953) and Collection of Statistics Rules, 1959, through the Directorate of National Sample Survey, who were responsible for actual collection of the data, the Chief Director of National Sample Survey being the Statistics Authority under the said Act.

4. With notices issued to census factories, the survey commenced in December, 1964; but notices to sample factories were issued from March, 1965 onwards. Returns received till July 1966 were taken into consideration in the preparation of this report.

5. Results presented here are based on information furnished in the summary block of the schedule.

### 2. Scope and Coverage

6. Calendar year 1964 was the survey year (*i.e.* reference period), generally speaking; for sugar factories and cotton ginning and pressing factories, however, the respective survey years were July 1963 to June 1964 and September 1963 to August 1964. Factories in Jammu and Kashmir were permitted to submit returns on financial year basis *i.e.* for April 1964 to March 1965.

7. The survey covered the whole of the Indian Union including the Union Territories of Andaman and Nicobar Islands, Pondicherry, and, for the first time in ASI, Goa, Daman and Diu.

8. The survey comprised all factories registered under sections 2n (i) and 2m(ii) of the Factories Act, 1948. These sections refer respectively to factories employing ten or more workers, if using power and those employing twenty or more workers, if not using power, on any day in the previous year. The sample sector generally comprised all factories which employed on an average in 1963 less than 50 workers, if using power and less than 100 workers, if not using power and also occurred in the list of factories for 1963 maintained in the offices of the Chief Inspector of Factories (C.I.F.) and as collected by the NSS. It also included factories reported as closed. It was thus virtually co-terminous with all section 2m factories as per C.I.F. list of factories for 1963, except to the extent these were either selected for coverage in the census sector or deleted. In fact, ASI-1964 census sector comprised some ASI-63 census factories on repetitive basis, even though their employment strength was below the prescribed level.

9. Factories deleted from the sample frame were defence installations, restaurants and cafe (industry no. 842), those engaged in storage and distribution of oil, technical training institutions not producing anything for sale or exchange as well as all electricity (generating and or distributing) factories (industry no. 511). However, a few of the factories of the above-mentioned categories were encountered in the course of investigation of sample units, and these were treated as blank.

10. Sample factories belonging to the excluded categories, gone out of existence, closed or deregistered as well as those covered in the same return with other census or sample factories were treated as blank, that is, they were treated as samples surveyed but their contributions were taken to be nil for the purpose of estimation. Sample factories submitting returns jointly with a census factory were treated in the above manner to facilitate pooling of census and sample results. Blank factories intimated till the cut-off date for tabulation numbered 599 or about 10% of the sample size, excluding the units at Pondicherry.

11. All factories in the sample sector in the Union Territories of Andaman and Nicobar Islands, Goa, Daman and Diu, Himachal Pradesh, Pondicherry and Tripura as well as in the state of Jammu and Kashmir were completely enumerated.

12. Also, in accordance with Government decision, all factories newly registered in 1964 in the Union Territories other than Delhi as did not fall in the census sector, were covered in the sample sector on a complete

\*The draft report (No. D. 147) was first submitted by the Indian Statistical Institute, Calcutta to the Government of India in December, 1966. It was revised subsequently and resubmitted in December 1967.

## NATIONAL SAMPLE SURVEY

enumeration basis. Under this scheme there were 2 factories each in the sample sector for Himachal Pradesh and Tripura and 8 manufacturing units in Pondicherry. For these Union Territories, unweighted aggregates by industries have been furnished separately.

13. A copy of the schedule of investigation canvassed in the survey is given in Appendix II.

### 3. Concepts and Definitions

14. An idea is given below of the important concepts used in the survey.

- (a) **Fixed capital**—Depreciated book values of fixed assets of the factory as on the closing day of the accounting year which ended generally within 31-12-64 were collected. The fixed assets were goods with a normal economic life of more than one year and used by the factory for its own purposes. These included the fixed assets of the head office allocable to the factory. Assets solely used for post-manufacture distribution as well as intangible assets were, however, excluded.
- (b) **Working capital**—It comprised the stocks as at the end of the year of materials, stores, fuels, semi-finished goods and finished goods, cash in hand and at bank as well as net balance of amounts receivable over amounts payable. It excluded fixed deposits as well as long-term loans and investments.
- (c) **Depreciation**—It was taken as provided for the reference year by the factory or estimated on the basis of the cost of installation and working life of the fixed assets calculated in terms of number of years.
- (d) **Workers**—The term 'worker' was used in the same sense as in the Factories Act, 1948 and excluded persons holding positions of supervision and management or employed in confidential position. It included apprentices as well as persons employed through contractors.
- (e) **Employees**—It is the total of workers and employees other than workers.

The term related to all persons engaged by the factory in work connected directly or indirectly with the manufacturing process and included all administrative, technical and clerical staff as also labour engaged in the production of capital items for factory's own use, but excluded persons engaged in effecting delivery of goods, retail sales and post-manufacture distributive activity of the factory, if any. It included the proprietors and partners as well as unpaid members of their families who did some work in or for the factory. Persons in the head office engaged in connection with the manufacturing activity of the factory were also included.

The average number of all workers/employees was calculated by adding, for each category, persons attending and on leave with pay (including those on strike but excluding those on unlimited leave, leave without pay or pension) over each shift of a working day and dividing the result by the number of working days.

- (f) **Working days**—Days on which manufacturing processes or repairs and maintenance work was carried on were treated as working days.
- (g) **Emoluments**—Besides salaries and wages paid during the year to persons in employment, this term included all bonuses, regular or otherwise, as well as overtime payment made in the reference year. It included the value of payments in kind. Factory expenses in the shape of employer's contribution to provident fund, pension, gratuity or similar other charges were however not included.
- (h) **Input**—This comprised all manufacturing costs of the factory or of the head office allocable to the factory on account of fuels and materials consumed, including expenses on industrial or non-industrial (e.g. audit fee, account, bank and telephone charges) services consumed, as well as sundry indirect taxes such as local rate and factory licence paid by the factory. It included materials used in the repair and maintenance of fixed capital and for manufacture of capital items for factory's own use. Purchase value of goods sold in the same condition as purchased was also included. But intermediate products, that is, factory products further consumed in manufacture, and materials used on capital account were excluded. Director's fee and managing agent's remuneration and office allowance were also excluded.
- (i) **Output**—This consisted of the ex-factory value of all finished goods produced together with the value of industrial services rendered by the factory during the reference year. It included in net balance of semi-finished goods as at the end of the year, the value of capital items produced for factory's own use and goods sold in the same condition as purchased. Intermediate products *i.e.*, those produced and further consumed in manufacture within the factory were excluded but final products for own use as goods in the factory were included.
- (j) **Value added**—This value was arrived by deducting the value of input from the value of output. It was gross of depreciation for the reference year.

15. In the appended tables 'industry' refers to the Labour Bureau classification of industries at the three-digit level. This information is available in the list of factories maintained by the office of the C.I.F. Appendix I furnishes this classification alongside the Classification of Indian Industries (used in providing the census sector aggregates of ASI) also at the three-digit level.

### 4. Non-response

16. Excluding Pondicherry which had only manufacturing units, there were 34,596 factories in the sample universe of which 6016 factories or about 18% were taken as sample. Due adjustment in value was made through substitution at the tabulation stage for all non-response cases which numbered 364 or about 6% of the sample size. Since the cut-off date for tabulation, schedules for many of these factories have been collected which will be duly taken into consideration in preparing detailed tables.

17. As in previous rounds, none of the samples (seven) in Andaman and Nicobar Islands could be surveyed. No adjustment in value has been made for them in presenting the tables in this report.

### 5. Particulars of Tables

18. The zero (0) series tables show the distribution of factories in the sample universe as well as in the sample by industry at all-India, at state all industries combined, and at state each industry level by sub-samples.

Table 1,2,3 and 4 respectively provides estimates by sub-sample at all-India (all-industries combined) state (all industries combined), all-India (each industry) and state (each industry) level. Table 4 has been furnished in two parts for sampled strata and the complete enumeration strata. For the latter only combined aggregates have been given.

19. In table 1,2,3 and 4, item 14, 'no. of sample factories' refers to the surveyed factories *i.e.*, the sample size minus non-response factories. In other words, it includes factories for which schedules have been completed, as well as those treated as blank as discussed in paragraph 10 above.

20. For Pondicherry, where the manufacturing units were not registered under the factories Act, 1948, the unweighted combined aggregates of the units in the sample sector as in 1963 and of newly registered units of 1964 have been separately furnished under table 4. Also under table 4 has been shown separately the unweighted combined aggregates of the sample sector factories of Himachal Pradesh and Tripura newly registered in 1964. None of the above-mentioned units of enquiry have been considered in preparing table 1,2 and 3. State totals have however been furnished for each of these Union Territories (Himachal Pradesh, Tripura and Pondicherry) in table 4. No aggregate has been furnished for industry no. 280 in Tripura which was completely non-response.

21. In like manner, no aggregate for industry no. 322 (coke ovens) in Bihar has been furnished in table 4 as the single unit in the sample universe was non-response. In table 4, estimates for sample strata showing '—' (nil) or '0' (zero) have been given according as the surveyed factory or substituted factory (in case of non-response) was blank or had a contribution less than half in terms of the units prescribed.

### 6. Sampling Design

22. The sampling design in the sample sector was a stratified unistage one, the strata being the state  $\times$  industry cells and the sampling unit being a factory. The sampling frame in any stratum consisted of all factories in that state  $\times$  industry cell except for factories belonging to the census sector and those left out of the scope of the survey to the extent reported.

23. Sample sizes for different strata were decided upon with a view to providing usable estimates or (i) each industry at all-India level, (ii) each state for all industries together and (iii) two major industries in each state (the industries being considered as major which together accounted for as near as 50% of the industrial employment in that state). These major industries are given below in brackets against the concerned states :—

Andhra (205,220); Assam (209,250); Bihar (205,339); Gujarat (209,231); Kerala (231,250); Madhya Pradesh (205,220); Maharashtra (207,231); Mysore (010,231); Orissa (205,250); Punjab (231,360); Rajasthan (010,339); Uttar Pradesh (207,360); West Bengal (205,350); Delhi (350,360).

24. The actual allocation procedure was carried out in the following stages : A sample size of 6000 factories was first allocated to the different industries in proportion to their total all-India employment. In the case of some industries the allocations were considered more than adequate and were therefore reduced to provide larger allocations to some major industries within states. Further, when the number of factories in an industry in a state was very small (say 3, 4 or 5 etc.) or when the allocation was a little less than the number of factories in a stratum, all the factories were included in the sample. This resulted in a total sample size of 6080 factories including the units of Pondicherry.

25. The sample in any stratum was drawn in the form of two interpenetrating sub-samples each of size half the allocation to that stratum. The two sub-samples were selected in circular systematic manner and without replacement in such a way that there were no common units between them.

### 7. Estimation Procedure

26. Notation :
- |            |   |   |
|------------|---|---|
| $Y_{ijkl}$ | = | value of a characteristic considered for the $l$ th factory in the $i$ th sub-sample, $j$ th state and $k$ th industry.   |
| $n_{ijk}$  | = | Number of factories surveyed including zero cases (i.e. blank or treated as blank) in the $i$ th sub-sample, $j$ th state and $k$ th industry.                            |
| $m_{ijk}$  | = | $\frac{N_{jk}}{n_{ijk}}$  |
| $T_{ijk}$  | = | Aggregate value of the characteristic for all sample factories including substituted cases for non-response in the $i$ th sub-sample in the completely enumerated strata. |

## NATIONAL SAMPLE SURVEY

For completely enumerated strata in the  $i$ th sub-sample

$$T'_i = \sum_j T'_{ij} \text{ or } \sum_k T'_{ik}$$

where

$$T'_{ij} = 2 \sum_k T'_{ijk}, \quad T'_{ik} = 2 \sum_j T'_{ijk}$$

and also at state x industry level combined estimate, as furnished in Table 4,

$$T'_{jk} = \sum_i T'_{ijk}$$

For sampled strata in the  $i$ th sub-sample

$$T''_j = \sum_i T''_{ij} \text{ or } \sum_k T''_{jk}$$

where

$$T''_{ij} = \sum_k m_{ijk} \sum_{l=1}^{n_{ijk}} y_{ijkl}$$

and

$$T''_{jk} = \sum_i m_{ijk} \sum_{l=1}^{n_{ijk}} y_{ijkl}$$

and state x industry estimate

$$T''_{ijk} = m_{ijk} \sum_{l=1}^{n_{ijk}} y_{ijkl}$$

and state x industry combined estimate

$$T''_{jk} = \sum_i T''_{ijk}/2$$

As given in tables :

All-India all industries estimate for  $i$ th sub-sample

$$T_i = T'_i + T''_i$$

and combined estimate

$$T = \sum_i T_i/2$$

State all-Industries estimate for  $i$ th sub-sample

$$T_{ij} = T'_{ij} + T''_{ij}$$

and combined estimate

$$T_j = \sum_i T_{ij}/2$$

all-India each industry estimate for  $i$ th sub-sample

$$T_{ik} = T'_{ik} + T''_{ik}$$

and combined estimate

$$T_k = \sum_i T_{ik}/2$$

## 8. Summary of Findings

27. Sample sector estimates for input, output and value added for four years 1961, 1962, 1963 and 1964 are given below for facility of comparison of dimensional order, despite slight changes in conceptual coverage over the years. (thus till ASI-1962, input and output respectively excluded purchase value of goods sold and sale value of goods sold in the same condition, but have included them since). It will be seen from the table that value added in 1964 at Rs. 186 crores indicated a growth of a little over 3% over 1963 as against a growth rate of about 7% in 1963 over 1962, and of about 10% in 1962 over 1961. This falling rate of growth of value added has been accompanied by a very marginal fall of value added as a percentage of value of output from a little over 19 to a little less than 17 during these four years. To put it in another way, input costs as a percentage of output have risen steadily though slightly, from under 81 to over 83, in the same period. At current prices, however, value added in 1964 in the sample sector was 21.6% up over 1961.

## ANNUAL SURVEY OF INDUSTRIES—1964

SAMPLE SECTOR ESTIMATES : ALL-INDIA—ALL INDUSTRIES

in crores of rupees

Items	1961*			1962			1963			1964		
	ss.1	ss.2	comb.	ss.1	ss.2	comb.	ss.1	ss.2	comb.	ss.1	ss.2	comb.
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)	(12)	(13)
1. input	616	673	644	743	763	753	875	789	832	894	954	924
2. output	766	828	797	904	937	921	1046	979	1012	1080	1140	1110
3. value added .	150	165	153	161	174	168	171	190	180	186	186	186

\*figures reduced by contribution from electricity factories which have been eliminated from the sample sector with effect from A.S.I.-1962.

28. As will be seen from table (2), while sample sector employment in Maharashtra in 1964 was well above one lakh, West Bengal and Madras were in 90-80 thousand, Gujarat and Andhra at 75 thousand, Punjab and Uttar Pradesh in 60-50 thousand, while Mysore, Kerala, Madhya Pradesh, Bihar and Delhi were in 36-25 thousand ranges. The first five states together accounted for about 59% of sample sector employment. While from the point of view of value added, the positional order of these states *inter se* was the same as in employment, as regards value of output the changed order was ; Maharashtra, Gujarat, Madras, West Bengal and Andhra. It is interesting to observe that though much lower in the employment scale, both Punjab and Uttar Pradesh had sizeably larger value added than Andhra.

29. It will be seen from table (3) that out of a total of 63 industries only 6 industries *viz.* industry nos. 205, 209, 231, 280, 350 and 360 together accounted for about 60% of output and only about 50% of both employment and value added in the sample sector in 1964.

## ANNUAL SURVEY OF INDUSTRIES—1964

## APPENDIX I

*Statement showing at the three-digit level Labour Bureau classification of industries (adopted in sample sector estimates) and classification of Indian industries (adopted in census sector aggregates) in ASI-1964.*

srl. no.	industry code no. at 3 digit level		description as in ASI classification
	Labour Bureau classi- fication	ASI classi- fication	
(1)	(2)	(3)	(4)
1	239,010	239	manufacture of textiles not elsewhere classified.
2	201	201	slaughtering, preparation and preserving of meat.
3	202	202	manufacture of dairy products.
4	203	203	canning and preserving of fruits and vegetables.
5	204	204	canning and preserving of fish and other sea foods.
6	205	205	manufacture of grain mill products.
7	206	206	manufacture of bakery products.
8	207	207	sugar factories and refineries.
9	208	208	manufacture of cocoa, chocolate and sugar confectionery.
10	209	209	manufacture of miscellaneous food preparations.
11	211	211	distilling, rectifying and blending of spirits (alcohol).
12	212	212	wine industries.
13	213	213	breweries and manufacture of malt.
14	214	214	soft drinks and carbonated water industries.
15	220	220	tobacco manufacture.
16	231	231	spinning, weaving and finishing of textiles.
17	232	232	knitting mills.
18	233	233	cordage, rope, and twine industries.
19	241	241	manufacture of footwear.
20	242	242	repair of footwear.
21	243	243	manufacture of weaving apparel (except footwear).
22	244	244	manufacture of made-up textile goods, except weaving apparel.
23	250	251,252, 259	saw mills, planing and other wood mills; wooden and cane containers and cane small ware; manufacture of cork and wood products not elsewhere classified.
24	260	260	manufacture of furniture and fixtures.
25	271	271	manufacture of pulp, paper and paper board.
26	280	280	printing, publishing and allied industries.
27	291	291	tanneries and leather finishing plants.
28	292	293	manufacture of leather products except footwear and other wearing apparel.
29	300	300	manufacture of rubber products.
30	311	311	basic industrial chemicals, including fertilizers.
31	312	312	vegetable and animal oils and fats (except edible oils).
32	319	313,319	manufacture of paints, varnishes and lacquers; manufacture of miscellaneous chemical products;
33	321	321	petroleum refineries.
34	322,329	329	manufacture of miscellaneous products of petroleum and coal.
35	331	331	manufacture of structural clay products.
36	332	332	manufacture of glass and glass products.

## NATIONAL SAMPLE SURVEY

Statement showing at the three-digit level Labour Bureau classification of industries (adopted in sample sector estimates) and classification of Indian industries (adopted in census sector aggregates) in ASI-1964.—contd.

srl. no.	industry code no. at 3 digit level		description as in ASI classification
	Labour Bureau classi- fication	ASI classi- fication	
(1)	(2)	(3)	(4)
37	333	333	manufacture of pottery, china and earthenware.
38	334	334	manufacture of cement (hydraulic).
39	339	339	manufacture of non-metallic mineral not elsewhere classified.
40	341	341	iron and steel basic industries.
41	342	342	non-ferrous basic metal industries.
42	350	350	manufacture of metal products except machinery and transport equipments.
43	360	360	manufacture of machinery except electrical machinery.
44	370	370	manufacture of electrical machinery, apparatus, appliances and supplies.
45	381	381	ship building and repairing.
46	382	382	manufacture of rail-road equipment.
47	383	383	manufacture of motor vehicles.
48	384	384	repair of motor vehicles.
49	385	385	manufacture of motor cycles and bicycles.
50	386	386	manufacture of aircraft.
51	389	389	manufacture of transport equipment not elsewhere classified.
52	391	391	manufacture of professional and scientific measuring and controlling instruments.
53	392	392	manufacture of photographic and optical goods.
54	393,394	393	manufacture of watches and clocks.
55	395	394	manufacture of jewellery and related articles.
56	396,399	292,395 399	manufacture of fur products, except wearing apparel; manufacture of musical instruments, manufacture of industries not elsewhere classified.
57	†511	511	electric light and power (generation, transmission & distribution).
58	512	512	gas manufacture and distribution.
59	*521		
60	*582		
61	*831		
62	†*842		
63	*844		

† In ASI-64 these industries were left out of the scope of the sample sector.

\* The counterparts of these industries in ASI-classification remained outside census sector tabulations in ASI-64.

1.	state financial corpn.		3.	co-operative banks		5.	others	
2.	other govt. agencies		4.	other banks		6.	total (sl. nos. 1 to 5)	

\*entries against these items are to be made in terms of code numbers laid down in paragraph no. 7 of the memorandum.

[5] inventory of working capital as at the end of the accounting year			[6] installed capacity of production							
sl. no.	item	amount (Rs.)		product §	unit	capacity during the year	basis of estimation	spare capacity	expected additional production	reasons code*
(0)	(1)	(2)	(0)	(1)	(2)	(3)	(4)	(5)	(6)	(7)
1.	materials, stores, fuels, etc.		1.							
2.	semi-finished goods incl. in-process		2.							
3.	products and by-products		3.							
4.	cash in hand and at bank		4.							
5.	amounts receivable		5.							
6.	amounts payable		6.							
7.	net balance (5 minus 6)		7.							
8.	total (1+2+3+4+7)		8.							

## [7] details of working

sl.no.	item		no.	sl.no.	item	no.
(0)	(1)		(2)	(0)	(1)	(2)
1.	number of working days	manufacturing		4.	total number of shifts	
2.		repair and maintenance		5.	shifts per day (0.0)	
3.		total (1+2)		6.	length of shift (hrs. 0.0)	

## [8] average employment &amp; emoluments during the year

sl. no.	item	man-hours worked	average number per working day	salaries, wages, bonus, etc. (Rs.)
(0)	1	(2)	(3)	(4)
1.	workers employed directly	men		
2.		women		
3.		children		
4.		sub-total 1(1 to 3)		
5.	workers employed through contractors			
6.	sub-total 2 (4+5)			
7.	supervisory and managerial staff	×		
8.	other employees	×		
9.	total 1 (6 to 8)	×		
10.	working proprietors	×		×
11.	unpaid family workers	×		×
12.	imputed value of benefits (individual as well as group) in kind	×	×	
13.	employer's contribution to provident fund, pension, gratuity, other charges etc.	×	×	
14.	total 2 (9 +12+13)	×	×	

## [9] fuel &amp; lubricant consumed (excluding intermediate products) during the year

sl. no.	item	unit	quantity	value (Rs.)
(0)	(1)	2	(3)	(4)
1.	coal	metric tonne		
2.	coke	metric tonne		
3.	coal gas	cubic metre		
4.	firewood	metric tonne		
5.	charcoal	metric tonne		
6.	petroleum	litre		
7.	other fuel oils	litre		
8.	lubricating oil	litre		
9.	industrial and power alcohol	litre		
10.	electricity purchased	kwh		
11.	water purchased	1000 litre		
12.	others	×	×	
13.	total (1 to 12)	×	×	

## [11] expenses not included in blocks [9], [10], &amp; [13]

sl. no.	item	amount (Rs.)
(0)	(1)	(2)
1.	inward transport charges	
2.	purchase agency services	
3.	taxes and duties on purchases	
4.	postage	
5.	stationery and printing	
6.	sub-total 1 (1 to 5)	
7.	audit fee, account and bank charges	
8.	local rates and factory licence	
9.	other services	
10.	sub-total 2 (7 to 9)	
11.	managing agents' remuneration and office allowance	
12.	directors' fee	
13.	sub-total 3 (11+12)	
14.	total (6+10+13)	
15.	telephone charges including rent paid	
16.	interest paid	

## [10] material consumed for repair &amp; maintenance, work done by other concerns &amp; purchase value of goods sold in the same condition as purchased.

sl. no.	item	amount (Rs.)
(0)	(1)	(2)
1.	materials consumed for repair and maintenance	
<i>work done by other concerns :</i>		
2.	repair and maintenance	
3.	<i>manufacturing process (describe)</i>	
4.		
5.	others	
6.	sub-total 1 (2 to 5)	
7.	sub-total 2 (1+6)	
8.	products reported for sale in last year's return	
9.	total (7+8)	
10.	purchase value of goods sold in the same condition as purchased	

## [12] output other than those reported in block [14]

sl. no.	item	amount (Rs.)
(0)	(1)	(2)
1.	electricity produced and sold	
<i>work done for other concerns :</i>		
2.	repair and maintenance	
3.	<i>manufacturing process (describe)</i>	
4.		
5.	others	
6.	sub-total 1 (2 to 5)	
<i>value of semi-finished goods</i>		
7.	at the end of the year	
8.	at the beginning of the year	
9.	net balance (7 minus 8)	
10.	total (1+6+9)	
11.	sale value of goods sold in the same condition as purchased	
12.	quantity of electricity produced (kwh)	
13.	quantity of electricity produced and sold (kwh)
