ACKNOWLEDGEMENT

1. The report was finalised by U. N. Banerji, J. P. Roy, P. B. Das, P. C. Kundu, S. C. Basu Roy and M. S. Murthy were associated in the work relating to the preparation of the report.

2. Supervision of computing was entrusted to H. B. Chowdhury, S.S. Bose, S. Palit and A. K. Chowdhury; of punching to S. N. Das and A. K. Chowdhury and of machine tabulation to B. L. Banerji and F.M. ~~Bac.~~ *Basu*

3. The design of the survey was proposed by the Indian Statistical Institute.

4. The primary data were collected by the Directorate of National Sample Survey, Government, of India.

ANNUAL SURVEY OF INDUSTRIES—1961

SAMPLE SECTOR : DETAILED RESULTS

INTRODUCTORY NOTES

*This report entitled 'Tables with Notes on the Annual Survey of Industries—1961 : Sample Sector : Detailed Results' was prepared by the Indian Statistical Institute. The views contained in the report are not necessarily those of the Government of India.**

1. Introduction

1. In NSS report No. 118 have been furnished results for 15 key items of industrial activity in India collected in the sample sector of the Annual Survey of Industries—1961. In this volume have been provided, besides a few other tables, sample sector estimates of 84 detailed items of capital structure, employment and emoluments, input and output also collected in ASI-61.

2. As per agreed tabulation programme, these details furnish counterpart estimates for the sample sector corresponding to the census sector aggregates for ASI-61 brought out by the Industrial Statistics Wing of the Central Statistical Organisation in their ten-volume report.

3. The total frame comprised all factories registered under sections 2m(i) and 2m(ii) of the Indian Factories Act, 1948, as on 31 December, 1960, including those reported closed in the list of factories. Sections 2m(i) and 2m(ii) of the Act referred respectively to factories using power and employing 10 or more workers or factories not using power but employing 20 or more workers, on any day in the preceding twelve months. The sample sector comprised all factories in the total frame employing on an average less than 50 workers, if using power and less than 100 workers, if not using power. It excluded defence installations, units engaged in storage and distribution of oil, technical training institutes not producing anything for sale or exchange, as well as all units registered as hotels and cafe (industry no. 842).

4. In the appended tables, the term 'industry' refers to the Labour Bureau classification of industries at the three digit level. This is in accordance with the information available in the frame as collected by the Directorate of National Sample Survey from the offices of the Chief Inspectors of Factories in the different states. Appendix I below provides a statement showing Labour Bureau classification (at three-digit level) and its corresponding ASI industry classification (used in ASI-61 census sector aggregates) also at the three-digit level.

5. An idea of the conceptual coverage of some of the terms used in the survey is given below. Except for capital structure data which were collected as per the accounting year of the factory, all other information was collected on the basis of calendar year 1961.

- (a) *Fixed capital.*—Depreciated book values of fixed assets as on the opening and closing dates of the accounting year of the factory ending within 31 December 1961 were collected. Fixed assets covered all goods with a normal economic life of one year or more and used by the factory for its own purposes but excluded those solely used for post-manufacture distribution. It comprised land, buildings, improvements to land, plant, machinery and tools, transport equipment and other fixed assets. Intangible assets such as patent and good will were also included.
- (b) *Working capital.*—Like fixed capital, information on working capital was collected for both opening and closing dates of the accounting year of the factory ending within 31 December, 1961. It comprised the values of stocks of materials, products (finished and semi-finished), cash in hand and at bank as well as the net balance of amounts receivable and amounts payable.
- (c) *Depreciation.*—This represented less or diminution of value of fixed assets consequent upon wear and tear, obsolescence, effluxion of time or permanent fall in market value. Except where depreciation was provided for by a factory, a theoretical annual depreciation was calculated as cost of installation of the fixed assets minus estimated scrap value divided by the estimate of its working life in terms of number of years.
- (d) *Rent paid.*—It was the amount paid during the year for the use of any item of fixed asset taken on lease or rent. It included telephone charges as well as royalty paid for fixed assets and intangible assets.
- (e) *Capital expenditure during the year.*—Information was collected separately of capital expenditure by the factory during the accounting year on plant, machinery, tool, transport equipment and other fixed assets and on land, buildings, improvements to land and other constructions; the former again separately for substantial expansion and for improvements. It included additions and improvements carried out by factory's own labour for its own use. Fixed assets acquired by purchase were deemed new if these assets, whether imported or not, had not been used previously in the country.
- (f) *Number of working days.*—Working days comprised days on which any manufacturing process was carried on and included days spent exclusively on repair and maintenance of fixed assets. Estimate presented in this report is of the total number at the specified level and not the average per factory.
- (g) *Workers.*—This term was used in the same sense as in the Factories Act, 1948, and excluded persons holding positions of supervision and management or employed in a confidential position. It included those directly employed by the factory as also those employed through contractors.

*The draft report (No. D 162) was submitted to the Government of India in March 1967.

- (h) *Employees.*—This term, comprised all persons in the factory engaged in work connected directly or indirectly with the manufacturing process, and included all administrative, technical and clerical staff and labour engaged in the production of capital items, except buildings, for factory's own use, but excluded persons engaged in effecting delivery of goods, retail sales and other post-manufacture distributive activity of the factory, if any. It included the proprietors and partners as well as unpaid members of their families (in the case of individual proprietorship or partnership factories) who did some work in or for the factory.
- (i) The average no. of all workers/employees was calculated by adding all concerned persons attending and on leave with pay, including concerned persons on strike, over each shift of a working day and dividing the result by the number of working days.
- (j) *Man-hours.*—Total man-hours for each shift were obtained from the products of the number of workers attending and the number of hours measuring the length of the shift. These products were then aggregated over all the shifts in all the working days.
- (k) *Salaries, wages etc.*—This term included all payments made during the year in cash as compensation for work done. It included all bonuses and over time payment but excluded the value of payments in kind and employers' contribution to social security measures.
- (l) *Value of benefits in kind.*—This was the cost value or the net cost of the concession, as the case might be, in respect of all supplies made and all services rendered individually, free of cost or for part payment, such as food and food articles, fuels, housing accommodation, electricity, water, sanitary services as well as subsidies involved in the operation of facilities with regard to transport, medical attention, education, recreation, entertainment and welfare projects, etc. This was exclusive of employer's contribution to provident fund, pension, gratuity or other social security measures.
- (m) *Value of fuels, or materials etc. consumed.*—On the basis of the cost of fuel, material etc. landed at the factory including inward transport cost, commission to purchasing agent, taxes or duties paid etc. this value was calculated for each item of fuel, material etc. consumed during the year in the factory. Materials consumed for repairs and maintenance of the fixed assets of the factory were included. Materials consumed for manufacture of capital items for factory's own use were also included. Intermediate products, however, *i.e.* materials produced and further consumed in the factory were excluded.
- (n) *Value of other input services.*—These expenses included charges on account of non-industrial services such as inward transport, purchase agency, postage and stationery and personalized and business services such as audit, accounts, bank, insurance and legal services which had originated outside the reporting factory and were not already included in the value of fuels, materials etc. as defined in sub-para (m) above. Also included were sundry indirect taxes paid by the factory like purchase tax, local rate and factory licence.
- (o) *Input.*—It comprised the value of fuels, materials etc. as defined in sub-para (m), the value of industrial service rendered to the factory in connection with repairs and maintenance of fixed capital of the factory or with other manufacturing processes as well as the value of other input services, as defined in sub-para (n) above. It excluded the value of goods to be sold in the same condition as purchased, as well as director's fee and managing agents' remuneration.
- (p) *Output.*—This comprised the ex-factory value, calculated on the basis of sale value minus all distributive costs, of all finished goods produced by the factory (products, by-products etc.) during the year, including the value of industrial service rendered by the factory during the year as well as the net balance of semi-finished goods as at the end of the year. Output included final products for own use as goods in the factory as well as capital items produced for factory's own use. It excluded intermediate products as well as goods which were bought and resold in the same condition as received.
- (q) *Value added.*—This value was arrived at by deducting the value of input from the value of output. It was gross of depreciation.

3. Particulars of Tables.

6. In Tables 1.1, 1.2, 1.3 and 1.4 estimates by sub-samples have been provided of detailed aspects of industrial activity respectively at all-India (all-industries combined), state (all industries combined), each industry (all states combined) and each industry (at state) level. Besides the completely enumerated strata for which combined aggregates have been furnished, Table 1.4 furnishes for the sampled strata sub-samplewise estimates for such 'industries' only as were major industries within the respective states at any time during ASI-60 and ASI-65. For other sampled strata in Table 1.4 the respective sample size was too small for throwing up usable estimates of the detailed items. The 2-series Tables furnish side by side frequency distribution as well as sub-samplewise estimates of the number of factories in the sample sector (a) by year of establishment (Tables 2.1.1 and 2.1.2); (b) by share of non-nationals (Tables 2.2.1 and 2.2.2) and (c) by type of management (Tables 2.3.1 and 2.3.2).

7. In all Tables of series 1, the concerned cell has been left blank, wherever there is no contribution to report; it has been marked with a single star, wherever the emerging estimate/aggregate is less than half the prescribed unit of the item in the table.

8. The last item in all Tables-sample surveyed-refers to the samples selected as reduced by non-response factories. It comprises all surveyed factories, including those treated as blank. A double star against this item indicates that the number is not shown in accordance with the secrecy clause of the Collection of Statistics Act.

9. In Table 1.4, all items which are totally blank on a page have been eliminated; those retained have been given the same serial nos. as in Table 1.1, 1.2 or 1.3, for facility of reference.

10. Wherever the estimates presented in this report differ from the summary results presented in NSS report No. 118, they are due to one or more of the following factors : (a) changed number of sample surveyed, (b) the rounding-off of a number of items into which a key item has been sub-divided for the purpose of this report, (c) receipt of clarifications relating to detailed items from the NSS Field since after the completion of the priority-one report, etc.

11. In a few instances, for such fuel items as coal, firewood, charcoal and other fuel oils, etc. quantities corresponding to values have not been reported in the returns. Estimates of these values which are negligible both absolutely in terms of the prescribed units as in the tables as well as relatively to value-estimates corresponding to quantities of fuels furnished have not been given in this report.

12. Value of electricity sold has been reported by Gujarat, Maharashtra and Delhi in respect of a few industries only. Estimate for this item is exclusive of electricity sold by units generating, transmitting or distributing electrical energy in industry no. 511. Consumption of electricity by purchase however has been reported by all industries except industry No. 322.

Sampling Design

13. The sampling design in the sample sector was a stratified unistage one, the strata being the state x industry cells and the sampling unit being a factory. The sampling frame in any stratum consisted of all factories in that state x industry cell except for factories belonging to the census sector and those left out of the scope of the survey, viz. technical training institutes and factories engaged in defence productions, storage and distribution of oil, hotel and restaurant business, to the extent reported.

14. In deciding upon the sample sizes for different strata, the objectives were to provide usable estimates of broad items for (i) each industry at all-India level, (ii) each state for all industries together, (iii) two major industries in each state,—the industries being considered as major which together accounted for as near as 50% of total industrial employment in that state in 1960.

15. Accordingly, the actual allocation procedure was carried out in the following stages : A sample size of 6000 factories was first allocated to the different industries in proportion to their total all-India employment. In the case of some industries the allocations were considered more than adequate and were therefore reduced to provide larger allocation to some major industries within states. Further, when the number of factories in an industry in a state was very small (say 3, 4 or 5 etc.) all the factories were additionally included in the sample, resulting in a total sample size of 6139 factories. Within states all completely enumerated strata including those which contained one unit were grouped together to met the requirements of the inter-penetrating net work of sub-samples (IPNS).

16. The sample in any stratum was drawn in the form of two interpenetrating sub-samples each of size half the allocation to that stratum. The two sub-samples were selected in circular systematic manner and without replacement in such a way that there were no common units between them.

Estimation Procedure

Notations : Y_{ijkl} = value of a characteristic considered for the l th factory in the i th subsample, j th state and k th industry ;

n_{ijk} = number of factories surveyed including zero cases (*i.e.* blank or treated as blank) in i th subsample, j th state and k th industry ;

N_{jk} = total number of factories in the j th state and k th industry as in the sample universe ;

$$m_{ijk} = \frac{N_{jk}}{n_{ijk}}$$

T'_{ijk} = aggregate value of the characteristic for all sample factories including substituted cases for non-response, in the i th sub-sample in the completely enumerated strata.

For completely enumerated strata in the i th sub-sample

$$T'_i = \sum_j T'_{ij} \text{ or } \sum_k T'_{ik}$$

$$T'_{ij} = 2 \times \sum_k T'_{ijk}$$

$$T'_{ik} = 2 \times \sum_j T'_{ijk}$$

and also at state x industry level combined estimate, as furnished in Table 1.4, is $T'_{jk} = \sum_i T'_{ijk}$

For sampled strata in the i th sub-sample

$$T''_i = \sum_j T''_{ij} \text{ or } \sum_k T''_{ik}$$

$$T''_{ij} = \sum_k m_{ijk} \sum_{l=1}^{n_{ijk}} Y_{ijkl}$$

$$T''_{ik} = \sum_j m_{ijk} \sum_{l=1}^{n_{ijk}} Y_{ijkl}$$

state x industry estimate $T''_{ijk} = m_{ijk} \sum_{l=1}^{n_{ijk}} Y_{ijkl}$

and state x industry combined estimate $T''_{jk} = \frac{\sum_i T''_{ijk}}{2}$

National Sample Survey

As given in tables :

all India all industries estimate for i th subsample :

$$T_i = T'_i + T''_i$$

$$\text{and combined estimate } T = \frac{\sum_i T_i}{2}$$

state all industries estimate for i th subsample $T_{ij} = T'_{ij} + T''_{ij}$

$$\text{and combined estimate } T_j = \frac{\sum_i T_{ij}}{2}$$

all India each industry estimate for i th subsample $T_{ik} = T'_{ik} + T''_{ik}$

$$\text{and combined estimate } T_k = \frac{\sum_i T_{ik}}{2}$$

5 Summary of Findings

17. From Table 1.1 the following observations may be made for the sample sector of ASI-61 :—

- (a) Plant, machinery and tools, as a component of fixed capital, comprised about 52% of the value of fixed capital at Rs. 215 crores; while buildings constituted in value about 23% of it.
- (b) Of the total working capital of Rs. 147 crores, stocks of materials, stores etc. as at the end of the year constituted about 57% and finished products about 30%. The balance of amounts receivable over amounts payable was however negative to the tune of Rs. 11 crores.
- (c) Total capital expenses on fixed assets in 1961 was about 14% of the book value of fixed capital depreciated upto date and these were a little less than double the total depreciation for the year. About 80% of the total capital expenditure in the year was investment in plant and machinery, transport equipments and 'other fixed assets' acquired by purchase, there being pretty little activity in the nature of own construction by factories in this field. About 92% of this investment in machinery etc. was in new capital items, whether indigenous or imported, whether utilized for improvement or expansion. It may be added that capital construction on land, buildings etc. during the year under the direct auspices of the factories was however at least two and half times as important as that done through purchase.
- (d) Simultaneously with this large volume of owned investment there was heavy dependence on rented—in fixed capital, the annual rental of which stood at about Rs. 5 crores as against total fixed capital at 215 crores.
- (e) It was observed that the proportion of women to men workers, amongst direct workers, was 10 : 46 ; the latter however did relatively longer working hours, the proportion of man-hours being 17 : 101. Man-hours for women workers to those for all direct workers were about 14.4%. However total wages paid to men workers were about 13 times the wages paid to all women workers.
- (f) It was found that while all direct workers were about 14 times the number of supervisory and managerial staff, direct wages etc. of the former were 6 times that of the latter. The value of benefits in kind as a percentage of wages etc. for all direct workers was negligible.
- (g) Three most important fuel items in point of value, viz. coal (15%), electricity (28%) and 'other fuel oils' (32%) were found to account for about 3/4 of the total value.

18. Information relating to six most important states considered from the point of view of number of factories in the sample universe is furnished below in respect of four other broad economic indicators selected from Table 1.2. Ranking *inter se* of these states is shown within brackets below the respective columns for these economic indicators. It is found that though West Bengal is the last in the list as regards the number of factories and last but one as regards the number of direct workers engaged, it ranks second in the group both in regard to materials and electricity consumed and third in regard to capital expenditure in the year.

Srl. no.	State	no. of factories	no. of direct workers (00)	capital expenditure in the year (Rs. lakhs)	materials consumed for mfg. (Rs. lakhs)	electricity purchased & consumed (Rs. lakhs)

APPENDIX I

Statement showing at the three-digit level Labour Bureau classification of industries (adopted in sample sector estimates) and classification of Industries (adopted in census sector aggregates) in ASI-1961

sr n	industry code no. at 3 digit level		description as in ASI classification
	Labour Bureau classification	ASI classification	
	(2)	(3)	(4)
1	239,010	239	manufacture of textiles not elsewhere classified.
2	201	201	slaughtering, preparation and preserving of meat.
3	202	202	manufacture of dairy products.
4	203	203	canning and preserving of fruits and vegetables.
5	204	204	canning and preserving of fish and other sea foods.
6	205	205	manufacture of grain mill products.
7	206	206	manufacture of bakery products.
8	207	207	sugar factories and refineries.
9	208	208	manufacture of cocoa, chocolate and sugar confectionery.
10	209	209	manufacture of miscellaneous food preparations.
11	211	211	distilling, rectifying and blending of spirits (alcohol).
12	212	212	wine industries.
13	213	213	breweries and manufacture of malt.
14	214	214	soft drinks and carbonated water industries.
15	220	220	tobacco manufacture.
16	231	231	spinning, weaving and finishing of textiles.
17	232	232	knitting mills.
18	233	233	cordage, rope, and twine industries.
19	241	241	manufacture of footwear.
20	242	242	repair of footwear.
21	243	243	manufacture of weaving apparel (except footwear).
22	244	244	manufacture of made-up textile goods, except weaving apparel.
23	250	251,252,259	saw mills, planing and other wood mills ; wooden and cane containers and cane small ware manufacture of cork and wood products not elsewhere classified.
24	260	260	manufacture of furniture and fixtures.
25	271	271	manufacture of pulp, paper and paper board.
26	280	280	printing, publishing and allied industries.
27	291	291	tanneries and leather finishing plants.
28	292	293	manufacture of leather products except footwear and other wearing apparel.
29	300	300	manufacture of rubber products.
30	311	311	basic industrial chemicals, including fertilizers.
31	312	312	vegetable and animal oils and fats (except edible oils).
32	319	313,319	manufacture of paints, varnishes and lacquers ; manufacture of miscellaneous chemical products.
33	321	321	petroleum refineries.
34	322,329	329	manufacture of miscellaneous products and petroleum and coal.
35	331	331	manufacture of structural clay products.
36	332	332	manufacture of glass and glass products.
37	333	333	manufacture of pottery, china and earthenware.
38	334	334	manufacture of cement (hydraulic).
39	339	339	manufacture of non-metallic mineral not elsewhere classified.
40	341	341	iron and steel basic industries.

National Sample Survey

industry code no. at 3 digit level			description as in ASI classification
srl. no.	Labour Bureau classification	ASI classification	
(1)	(2)	(3)	(4)
41	342	342	non-ferrous basic metal industries.
42	350	350	manufacture of metal products except machinery and transport equipments.
43	360	360	manufacture of machinery except electrical machinery.
44	370	370	manufacture of electrical machinery, apparatus, appliances and supplies.
45	381	381	ship building and repairing.
46	382	382	manufacture of rail-road equipment.
47	383	383	manufacture of motor vehicles.
48	384	384	repair of motor vehicles.
49	385	385	manufacture of motor cycles and bicycles.
50	386	386	manufacture of aircraft.
51	389	389	manufacture of transport equipment not elsewhere classified.
52	391	391	manufacture of professional and scientific measuring and controlling instruments.
53	392	392	manufacture of photographic and optical goods.
54	393,394	393	manufacture of watches and clocks.
55	395	394	manufacture of jewellery and related articles.
56	396,399	292,395,399	manufacture of fur products, except wearing apparel ; manufacture of musical instruments ; manufacture of industries not elsewhere classified.
57	511	511	electric light and power (generation, transmission & distribution).
58	512	512	gas manufacture and distribution.
59	*521		
60	*522		
61	*831		
62	*842		
63	*844		

*The counterparts of these industries in ASI-classification remained outside census sector tabulations in ASI-61.

|--|
| 1. please read the memorandum before filling the form of return. |
| 2. information in this return should relate to calendar year except where otherwise indicated. |

PART I. DETAILS OF OPERATION, CAPITAL, POWER EQUIPMENT, INSTALLED CAPACITY, AVERAGE EMPLOYMENT, EMOLUMENTS, INPUT, OUTPUT AND STOCKS

name of industry (with code number).....
(as per appendix II)

[1] details of operation

*1. perennial/seasonal		4. year of initial production		7. share of non-national (%)	
*2. if seasonal, normal season (in months)		5. year of establishments at present site		*8. type of ownership and organisation	
*3. months of operation during the year		6. accounts closed on		*9. type of management	

[2] details of fixed and working capital and transactions relating to fixed capital during the accounting year from.....to.....

sl. no.	item	opening balance as on.....	closing balance as on.....	closing balance (gross) as on.....	transactions during accounting year						
					depreciation for the year, actual or estimated	addition, replacement, improvement, etc.	book value of assets sold or discarded	rent paid			
(0)	(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)			
1.	land										
2.	building including under construction										
3.	improvement to land & other constructions										
4.	plant, machinery & tools (including uninstalled)										
5.	transport equipment										
6.	other fixed assets										
7.	intangible assets										
8.	sub-total 1 (1 to 7)										
9.	stocks of materials, stores, fuels, etc.				[3.1] capital expenditure on fixed assets during the accounting year						
10.	stocks of semi-finished goods (including work-in-progress)										
11.	stocks of finished products and by-products				sl. no.	item	purchased			own construction	total : col. (4+5)
12.	cash in hand and at bank				(0)	(1)	indigenous (2)	imported (3)	total : col. (2+3) (4)	(5)	(6)
13.	amounts receivable				1.	plant, machinery tools, transport equipment and other fixed assets	for substantial expansion				
14.	amounts payable				2.		new				
15.	net balance (13 minus 14)				3.		used				×
16.	sub-total 2 (9+10+11+12+15)				4.		new	for improvements & replacements			
					5.	used					×
					6.	sub-total (1 to 4)					
					7.	land, building, improvement to land and other constructions					

[3.2] estimated forecast of capital expenditure during the next accounting year						[4] power equipment: prime movers as at the end of the year								
sl. no.	item	to be purchased			own construction	total: col. (4+5)	sl. no.	description	directly applied to machine		applied to electric generator		total BHP as standby	
		indigenous	imported	total: col. (2+3)					no.	BHP.	no.	BHP		
(0)	(1)	(2)	(3)	(4)	(5)	(6)	(0)	(1)	(2)	(3)	(4)	(5)	(6)	
1.	plant, machinery, tools, transport equipment and other fixed assets	for substantial expansion				steam engine								
						1.	reciprocating engine							
2.		for improvements and replacements				internal combustion engine								
						3.	gas oil engine							
3.	sub-total (1+2)					4.	light oil engine							
						5.	heavy oil engine							
4.	land, building, improvement to land and other constructions	×	×			other prime mover								
						6.	hydraulic turbine							
5.	total +4)	×	×			7.	others							
						8.	total (1 to 7)							

[5] power equipment: electric motors as at the end of the year								
sl. no.	description	AC		DC		total		total BHP as stand by
		no.	BHP	no.	BHP	no.	BHP	
(0)	(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)
1.	electric motors							

[6] installed capacity of production							
sl. no.	product†	unit	capacity during the year	basis of estimation	spare capacity	expected additional production	*reasons in code no.
(0)	(1)	(2)	(3)	(4)	(5)	(6)	(7)
1.							
2.							
3.							
4.							
5.							
6.							
7.							

*entries in this column are to be made in code numbers as laid down in paragraph 12(8) of memorandum.

[7.1] details of working

sl. no.	item	no.	sl. no.	item	no.
(0)	(1)	(2)	(0)	(1)	(2)
1.	number of working days		3.	shifts per day (0.0)	
2.	total no. of shifts		4.	length of shift (hrs. 0.0)	

[7.2] average employment and emoluments during the year

sl. no.	item	total man-hours	average number per working day	salaries, wages etc.
(0)	(1)	(2)	(3)	(4)
1.	workers employed directly	men		
2.		women		
3.		children		
4.		sub-total 1 (1 to 3)		
5.	workers employed through contractors			
6.	sub-total 2 (4+5)			
7.	supervisory and managerial staff	x		
8.	other employees	x		
9.	total (6 to 8)	x		
10.	working proprietors	x		x
11.	unpaid family workers	x		x
12.	imputed value of benefits (individual as well as group) in kind	x	x	
13.	employer's contribution to provident fund, pension and gratuity	x	x	
14.	employer's contribution to other charges	x	x	

NOT TO BE FILLED BY FACTORY OWNER

[8] summary information on capital, employment, input and output

sl. no.	item	1961	sl. no.	item	1961	sl. no.	item	1961
(0)	(1)	(2)	(0)	(1)	(2)	(0)	(1)	(2)
1.	fixed capital (Rs.)		8.	benefits in kind (Rs.)		15.	products manufactured (Rs.)	
2.	working capital (Rs.)		9.	fuels, etc. consumed (Rs.)		16.	work done for other concerns (Rs.)	
3.	total (1+2)		10.	total materials consumed (Rs.)		17.	net balance of semi-finished goods (Rs.)	
4.	workers (no.)		11.	work done by other concerns (Rs.)		18.	total output (Rs.) (15 to 17)	
5.	other than workers (no.)		12.	other expenses (Rs.)		19.	depreciation (Rs.)	
6.	total (4+5)		13.	total input (Rs.) (9 to 12)		20.	value added gross of depreciation (Rs.)	
7.	emoluments (Rs.)		14.	managing agents' allowances and director's fee (Rs.)		21.	value added net of depreciation (Rs.)	

[9] fuels and lubricants consumed (excluding intermediate products) during the year and stocks as at the end of accounting year					[11] expenses not included in blocks [9], [10] & [13]			
sl. no.	item	unit	consumed		stocks	sl. no.	item	amount (Rs.)
			quantity	value (Rs.)	quantity			
(0)	(1)	(2)	(3)	(4)	(5)	(0)	(1)	(2)
1.	coal	ton/metric tonne				1.	inward transport charges	
2.	coke	ton/metric tonne				2.	purchase agency service	
3.	coal gas	1000 c.ft./1000 cubic metre				3.	taxes and duties on purchases	
4.	firewood	ton/metric tonne				4.	postage	
5.	charcoal	ton/metric tonne				5.	stationery and printing	
6.	motor spirit	gallon/litre				6.	sub-total 1 (1 to 5)	
7.	synthetic petrol	gallon/litre				7.	audit fee, accounts and bank charges	
8.	other fuel oils	gallon/litre				8.	local rates and factory licence	
9.	lubricating oil	gallon/litre				9.	other services	
10.	industrial and power alcohol	gallon/litre				10.	sub-total 2 (7 to 9)	
11.	electricity purchased	kwh			×	11.	managing agents' remuneration and office allowance	
12.	water purchased	1000 gallon/1000 litre			×	12.	directors' fee	
13.	others	×	×		×	13.	sub-total 3 (11+12)	
14.	total (1 to 13)	×	×		×	14.	total (6+10+13)	
					[12] out put other than those reported in block [14]			
[10] value of materials consumed for repair and maintenance, work done by other concerns and goods to be sold in the same condition as purchased.								
sl. no.	item				amount (Rs.)	sl. no.	item	amount (Rs.)
(0)	(1)				(2)	(0)	(1)	(2)
1.	materials consumed for repair and maintenance					1.	electricity sold	
2.	repair and maintenance					2.	<i>work done for other concerns :</i> repair and maintenance	
3.	<i>manufacturing process (describe) :</i>					3.	<i>manufacturing process (describe) :</i>	
4.						4.		
5.	others					5.	others	
6.	sub-total 1 (2 to 5)					6.	sub-total 1 (2 to 5)	
7.	sub-total 2 (1+6)					7.	<i>value of semifinished goods :</i> at the end of the year	
8.	products reported for sale in last year's return					8.	at the beginning of the year	
9.	total (7+8)					9.	net balance (7 minus 8)	
					[11] interest paid			
					[12] value of goods sold in the same condition as purchased			
					[12] quantity of electricity produced (kwh)			

ANNUAL SURVEY OF INDUSTRIES 196

Permanent serial number.....

§Name of Industry (with code number) :

Factory serial number.....

State.....

(13) : materials consumed (excluding intermediate products) during the year and stocks as at the end of accounting year.

sl. no.	*name of materials	unit	consumed		stock quantity
			quantity	value (Rs.)	
(0)	(1)	(2)	(3)	(4)	(5)
