*Table no. followed by the code representing the area is the complete number for a particular table. Thus Table (8/U) will be the urban table for Kerala.

THE NATIONAL SAMPLE SURVEY

TWENTYTHIRD ROUND : JULY 1968 - JUNE 1969

TWENTYFIFTH ROUND : JULY 1970 - JUNE 1971

NUMBER 250

SPECIAL TABLES ON CONSUMER EXPENDITURE FOR
THE NATIONAL COMMISSION ON AGRICULTURE^{1/}

1. The set of tables presented in the report contains the (a) value and (b) quantity of consumption for certain selected items per person per month by monthly per capita expenditure classes in rural and urban areas. These special set of tables have been prepared to meet specific requirement of the National Commission on Agriculture.

2. The report contains two series of tables. The first series is based on the data collected in the Integrated Household Survey of the NSS Twentythird Round (July 1968 - June 1969). The second series of Tables have been derived from the household consumer expenditure data collected in the NSS Twentyfifth Round (July 1970 - June 1971). In addition to the tables for the rural and urban areas of each state and union territory, pooled estimates for the union territories and for all-India have also been presented.

3. In the tables the value of consumption are shown for the following 16 items : (1) rice (including rice products), (2) wheat (including wheat products), (3) other cereals (and their products), (4) pulses and pulse products, (5) oil and oil seeds, (6) vanaspati, (7) sugar, (8) gur, (9) milk and milk products, (10) meat, egg and fish, (11) tea (no. of cups), (12) tea leaf, (13) coffee (no. of cups), (14) coffee powder, (15) tobacco products, (16) leaf tobacco.

4. Out of the 16 items listed in para 3, quantity estimates are shown for 14 items only, in the tables relating to NSS Twentyfifth Round. Quantity estimates for the items 'meat, egg & fish' and 'tobacco products' could not be provided because the units of quantity for the constituent items were non-additive. Estimates of quantity from the NSS Twentythird Round are provided for a fewer number of items as the full range of materials required for the purpose were not available from the summary data used for tabulation.

5. The number of sample villages and urban blocks surveyed in different states in the NSS Twentythird and Twentyfifth Rounds are shown in Table (0.1). The average size of household by monthly per capita expenditure classes in states and union territories in rural and urban areas are shown in Table (0.2) for NSS Twentythird and Twentyfifth Rounds.

^{1/} This report was submitted in two separate volumes : The first volume, NSS 240 (August 1973) contained results of the NSS Twentythird Round and the second volume, NSS 250 (April 1974) contained tables of the NSS Twentyfifth Round.

TABLE (C.1) : DISTRIBUTION OF SAMPLE VILLAGES, BLOCKS AND HOUSEHOLDS BY STATE/UNION TERRITORY :
