Some Summary Information

on

The Survey on Employment and Unemployment
NSS : 27th Round : October 1972 - September 1973
(Preliminary and Provisional)

Introductory Note on Number 255/2 - Supplement

In spite of our best efforts to release at the first instance some summary information based on thirteen priority tables (of the total number of tables approved by the Governing Council, NSSO) in Brochure No. 255/2, only four such priority tables together with a brief description of Sample Design & Estimation Procedure, Concepts and Definitions, Explanatory Notes on tables and the description of codes used in tabulation could be presented in the Brochure as the remaining priority tables were not ready at that moment. In view of the above it was decided to release the remaining eight priority tables in the form of a supplement to the Brochure No. 255/2 as soon as those tables would be ready. Now this supplement, wherein only the remaining eight priority tables (likewise in No. 255/1 - Supplement) are given, is being released. Section One, Two and the Appendices contained in the Brochure No. 255/2 have not been replicated in this volume as they will be found in the Brochure of which this volume is a supplement.

The tables presented here are based on combined data of Sub-round I and Sub-round II and relate only to those seven States (separately for rural and urban areas) for which data have already been presented in the Brochure No. 255/2, excepting the rural areas of Chandigarh which is comprised of only Urban areas and Nagaland where the Survey was restricted to only in Urban areas.
