प्रस्तावना

राष्ट्रीय प्रतिदर्श सर्वेक्षण कार्यालय (एनएसएसओ) ने अपने 70वें दौर (जनवरी 2013-दिसम्बर 2013) में भारत के ग्रामीण क्षेत्रों में 'भू और पशुधन' पर राष्ट्रव्यापी सर्वेक्षण कराया। सर्वेक्षण का उद्देश्य भूमि-उपयोग तथा पशुधन के विभिन्न पहलुओं पर जानकारी एकत्रित करना तथा योजना एवं नीति-निर्माण हेतु महत्वपूर्ण उपयुक्त संकेतकों तथा उपयोगी इनपुटों का विकास करना था। यह सर्वेक्षण अन्य प्रयोक्ताओं/अनुसंधानकार्ताओं के लिए भी आंकड़े प्रदान करता है। एनएसएसओ 8वें दौर (जुलाई 1954-अप्रैल 1955) से प्रत्येक दस वर्षों में भूमि तथा पशुधन पर सर्वेक्षण करा रहा है। भूमि तथा पशुधन पर एनएसएसओ द्वारा कराया गया नवीनतम सर्वेक्षण इस प्रकार का 7वां व्यापक सर्वेक्षण है।

2. एनएसएसओ द्वारा जिस प्रतिदर्श का सर्वेक्षण किया जाता है उसे परंपरागत तौर पर 'केन्द्रीय प्रतिदर्श' कहा जाता है। अधिकांश राज्यों ने भी 'राज्य प्रतिदर्श' के अंतर्गत समान या बड़े प्रतिदर्श आकार के आधार पर सर्वेक्षण किया। केन्द्रीय प्रतिदर्श आंकड़ों से प्राप्त सर्वेक्षण परिणाम एनएसएसओ द्वारा रिपोर्टों के रूप में प्रकाशित किए जाते हैं। 'भारत में भूमि-उपयोग एवं पशुधन धारिता के मुख्य संकेतक' नामक दस्तावेज दिसंबर, 2014 में प्रकाशित किया गया था। इसके अलावा, एनएसएस के 70वें दौर के सर्वेक्षण परिणामों के विभिन्न पहलुओं पर दो विस्तृत रिपोर्टें जारी करने की योजना थी। इस श्रृंखला में 'भारत में पारिवारिक स्वामित्व एवं स्वकषित जोत' नामक पहली रिपोर्ट प्रकाशित की जा चुकी है। 'भारत में पशुधन स्वामित्व' नामक वर्तमान रिपोर्ट में भारत में पशुधन स्वामित्व से संबंधित सूचना पर आधारित अनुमानों की जानकारी दी गई है।

3. इस रिपोर्ट में अखिल भारत तथा विभिन्न राज्यों एवं संघ राज्य क्षेत्रों के अनुमानों के अलावा पिछले दौरों के अनुमानों को भी, जहां तुलनीय हो, दिया गया है। यह रिपोर्ट पशुधन पालन द्वारा स्वरोजगार के माध्यम से आय के प्रमुख स्रोत, पशुपालन के लिए प्रयुक्त भूमि तथा पशुधन/मुर्गी पालन का आकलन करने वाले विभिन्न संकेतक उपलब्ध कराती है। पूरी रिपोर्ट में तीन अध्याय तथा तीन परिशिष्ट हैं। अनुमानों से संबंधित मुख्य निष्कर्ष अध्याय III में दिए गए हैं।

4. सर्वेक्षण अभिकल्प तथा अनुसंधान प्रभाग (एसडीआरडी) ने सर्वेक्षण पद्धति, सर्वेक्षण-साधन विकसित करने तथा यह रिपोर्ट तैयार करने का कार्य किया। क्षेत्र संकार्य प्रभाग (एफओडी) ने क्षेत्र कार्य किया। आंकड़ा विधायन तथा सारणीयन का कार्य समंक विधायन प्रभाग (डीपीडी) ने किया। समन्वय एवं प्रकाशन प्रभाग (सीपीडी) ने सर्वेक्षण संबंधी विभिन्न कार्यकलापों में समन्वयन का कार्य किया।

5. मैं सर्वेक्षण के विभिन्न चरणों में बहुमूल्य मार्गदर्शन प्रदान करने हेतु राष्ट्रीय प्रतिदर्श सर्वेक्षण के 70वें दौर के कार्य दल एवं राष्ट्रीय सांख्यिकीय आयोग (एनएससी) के अध्यक्ष और सदस्यों का अत्यंत आभारी हूँ। मैं इस रिपोर्ट को तैयार करने में शामिल एनएसएसओ के विभिन्न प्रभागों के अधिकारियों द्वारा किये गये प्रयासों की भी सराहना करता हूँ।

6. मैं आशा करता हूँ कि यह रिपोर्ट योजनाकारों, नीति-निर्माताओं, शिक्षाविदों और शोधकर्ताओं के लिए उपयोगी सिद्ध होगी। इस रिपोर्ट की विषयवस्तु, अभिन्यास अथवा रिपोर्ट के किसी अन्य पहलू में सुधार के लिये सुझावों का स्वागत है।

स. मल्लिक

PREFACE

The National Sample Survey Office (NSSO) conducted a nation-wide survey on 'Land and Livestock Holdings' in its 70th round (January, 2013-December, 2013) in rural India. The objective of the survey was to collect information on different aspects of land use and livestock holdings, and develop suitable indicators and critical inputs as may be useful for planning and policy formulation. The survey also provides data for other users/researchers. The NSS surveys on Land and Livestock Holdings are conducted decennially from the 8th round of NSSO (July, 1954 – April, 1955) onwards. The current survey on Land and Livestock Holdings is the seventh such comprehensive survey conducted by NSSO.

2. The sample surveyed by the NSSO is traditionally referred to as the 'Central Sample'. Most of the States have also conducted this survey of Land and Livestock Holdings for an equal or larger sample size under the 'State Sample'. The results of the survey, generated from the Central Sample data, are brought out by NSSO in the form of documents/reports. The document '*Key Indicators of Land and Livestock Holdings in India*' was brought out in December 2014. Apart from this, two detailed reports were planned to be released on varied aspects of the survey results of NSS 70th round data. The first report, namely, '*Household Ownership and Operational Holdings in India*' has already been published. The present report, namely, '*Livestock Ownership in India*', deals with the estimates based on the information relating to the livestock ownership in India.

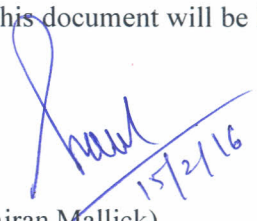

3. Besides presenting estimates at all India level and for different States and Union Territories (UTs), this report contains estimates of the previous rounds, wherever comparable and feasible. The report provides different indicators on households reporting the main source of income from self-employment in livestock farming, land operated for animal farming and stock of livestock/poultry in the rural areas of the country. The report contains three chapters and three appendices. The main findings, relating to the estimates are presented in Chapter Three.

4. Survey Design and Research Division (SDRD) undertook the development of survey instruments and the preparation of this document. Field work of the survey was carried out by the Field Operations Division (FOD) and the data processing and tabulation work was done by the Data Processing Division (DPD). Coordination and Publication Division (CPD) coordinated various activities pertaining to the survey.

5. I am highly thankful to the Chairman and Members of the Working Group for NSS 70th round and National Statistical Commission (NSC) for providing their valuable guidance at various stages of the survey. I would also like to appreciate efforts made by the officers of the different Divisions of NSSO involved in preparation of this document.

6. I hope this report will be useful to planners, policy makers, academicians and researchers. Suggestions for improvement in content, layout and other aspects of this document will be highly appreciated.

New Delhi
February, 2016

(Samiran Mallick)
Director General & Chief Executive Officer
National Sample Survey Office

मुख्य बातें

यह रिपोर्ट जनवरी 2013 से दिसम्बर 2013 के दौरान चलाए गए एन.एस.एस. के 70वें दौर में भूमि एवं पशुधन क्षेत्र सर्वेक्षण (LHS) के दौरान परिवारों के पशुधन स्वामित्व पर एकत्रित सूचना पर आधारित है। यह सर्वेक्षण देश के केवल ग्रामीण क्षेत्रों में ही चलाया गया। इस सर्वेक्षण के अन्तर्गत 4529 प्र.च.इ.या थीं। इस सर्वेक्षण की कुछ विशेषताएँ नीचे दिए गए हैं :-

(क) पशुधन खेती से आय का मुख्य स्रोत का रिपोर्ट करने वाले परिवार

- कुल ग्रामीण परिवारों का करीब 1.75 प्रतिशत पशुधन खेती में स्व-रोजगार से व्युत्पन्न मुख्य आय प्राप्त किया, जिनमें करीब 2.7 मिलियन ग्रामीण परिवार थे, जिनका प्रति परिवार 0.489 हेक्टेयर का स्वामित्व था।

[स्टेटमेंट S3.1]

- कुल अनुसूचित जनजातियों का करीब 0.75 प्रतिशत परिवार, कुल अनुसूचित जातियों का 1.50 प्रतिशत परिवार, कुल अन्य पिछड़ी जातियों का 2.17 प्रतिशत परिवार एवं कुल अन्य करीब 1.67 प्रतिशत परिवारों ने पशुधन खेती में स्व-रोजगार से व्युत्पन्न मुख्य आय दर्ज करवायी।

[स्टेटमेंट S3.2]

- 3.67 प्रतिशत परिवार जिनके पास बड़े जोत का स्वामित्व था (10 हेक्टेयर से अधिक) यह पाया गया कि उन्होंने पशुधन खेती से स्व-रोजगार से व्युत्पन्न मुख्य आय प्राप्त किया जो कि सभी भू-धारक स्वामित्व वर्ग में अधिकतम था। सबसे कम (0.70 प्रतिशत) उन परिवारों के लिए दर्ज किया गया, जिनका छोटा जोत स्वामित्व (1 से 2 हेक्टेयर) था।

[स्टेटमेंट 3.3]

(ख) पशुपालन के लिए प्रचालित भूमि :-

- ग्रामीण भारत में, जुलाई '12 - दिसम्बर '12 के दौरान करीब 106 मिलियन स्वकर्षित जोत एवं जनवरी '13 से जून '13 के दौरान 100 मिलियन स्वकर्षित जोत थीं। जिनमें से करीब 0.389 मिलियन स्वकर्षित जोत जुलाई '12 - दिसम्बर '12 के दौरान पशुपालन का रिपोर्ट दर्ज किया एवं 0.435 मिलियन स्वकर्षित जोत जनवरी '13 - जून '13 के दौरान पशुपालन का रिपोर्ट दर्ज किया।

[स्टेटमेंट 3.4]

- जुलाई '12 - दिसम्बर '12 के दौरान प्राक्कलित प्रचालित क्षेत्र करीब 91 मिलियन हेक्टेयर था। जिनमें से 0.891 मिलियन हेक्टेयर पशुपालन के लिए उपयोग किया गया। जनवरी '13 - जून '13 के दौरान 74 मिलियन हेक्टेयर क्षेत्र प्रचालित किया गया, जिसमें से 1.257 मिलियन हेक्टेयर पशुपालन के लिए व्यवहार किया गया।

[स्टेटमेंट 3.4]

- उन परिवारों का प्रतिशत जिन्होंने पशुपालन का रिपोर्ट किया वह स्वकर्षित जोत के धृतियों के सीमांतक वर्ग में सबसे अधिक पाया गया। दोनों अवधियों में 73 प्रतिशत से अधिक स्वकर्षित परिवार का पंजीकरण हुआ।

[स्टेटमेंट 3.5]

- पशुधन खेती के लिए जिस भू-क्षेत्र का व्यवहार किया गया (अर्थात् वह भूमि जो केवल पशु/मत्स्य पालन एवं दोनों फसल उत्पादन और पशु/मत्स्य पालन), वह जुलाई '12 से दिसम्बर '12 एवं जनवरी '13 से जून '13 के दोनों अवधियों के दौरान विभिन्न तरह के भू-उपयोगों के अन्तर्गत कुल क्षेत्र के 5 प्रतिशत से भी कम है ।

[स्टेटमेंट 3.6]

- पशुपालन के कुल क्षेत्र के बाहर सीमांतक भू-धारकों ने दोनों अवधियों के दौरान (48.77 प्रतिशत जुलाई '12 - दिसम्बर '12 एवं 33.78 प्रतिशत जनवरी '13 से जून '13) पशु पालन के अन्तर्गत क्षेत्र का अधिकतम प्रतिशत पंजीकृत किया ।

[स्टेटमेंट 3.7]

- पशु खेती के लिए व्यवहार किए गए सभी भूमि के अन्तर्गत डेयरी के लिए भू-क्षेत्र का सबसे अधिक उपयोग किया गया (53.8 प्रतिशत जुलाई '12 - दिसम्बर '12 के दौरान एवं जनवरी '13 से जून '13 के दौरान 69.7 प्रतिशत) । सूअर बाड़ा के लिए न्यूनतम शेयर था, जो कि दोनों मौसम के दौरान पशु पालन के अन्तर्गत कुल क्षेत्र के एक प्रतिशत से कम है ।

[स्टेटमेंट 3.8]

(ग) देश में पशुधन/मुर्गीपालन का स्टॉक :-

- 2012-13 के दौरान गो-जातीय जनसंख्या 204.5 मिलियन थी जिसमें से 135.6 मिलियन मवेशी थे एवं 68.8 मिलियन भैंसों थीं ।

[स्टेटमेंट 3.9]

- 2012-13 के दौरान, भेड़ों एवं बकरों की जनसंख्या 99 मिलियन थी । भेड़ों एवं बकरों की संख्या प्रति 100 परिवार 63.4 थी ।

[स्टेटमेंट 3.9 एवं 3.12]

- प्रति 100 परिवार के लिए 3.7 के लेखा से 2012-13 के दौरान 5.8 मिलियन सूअर प्राक्कलित हुए ।

[स्टेटमेंट 3.9 एवं 3.13]

- 2012-13 के दौरान, 254.7 मिलियन पोल्ट्री प्राक्कलित हुआ, जो कि प्रति 100 परिवार 163.1 पाया गया ।

[स्टेटमेंट 3.9 एवं 3.14]

HIGHLIGHTS

This report is based on the information on livestock ownership of the households collected during the Land and Livestock Holdings Survey (LHS) conducted in the 70th round of NSS during January 2013 to December 2013. The survey was conducted only in the rural areas of the country. The survey covered 4529 FSUs. Some features of the survey are presented below:

A. Household reporting the main source of income from livestock farming

- Around 1.75 percent of the total rural households derived the major income from self-employment in livestock farming, which comprises around 2.7 million rural households, owning around 0.489 hectare of land per household.

[Statement S3.1]

- Around 0.75 percent of the total *ST* households, 1.50 percent of the total *SC* households, 2.17 percent of the total *OBC* households, and 1.67 percent of the total households belonging to *others* reported the major income from self-employment in livestock farming.

[Statement S3.2]

- 3.67 percent of the households owning *large* holdings (more than 10 hectares) were found to have derived major income from self-employment in livestock farming, which is the highest among all ownership land holding class. The least (0.70 percent) was recorded for the households owning *small* holdings (1 to 2 hectares).

[Statement 3.3]

B. Land operated for animal farming

- In rural India, there were around 106 million operational holdings during Jul'12 - Dec'12 and 100 million operational holdings during Jan '13 - Jun'13, out of which around 0.389 million operational holdings reported farming of animals during Jul'12-Dec'12 and 0.435 million operational holdings reported farming of animals during Jan'13-Jun '13.

[Statement 3.4]

- The estimated area operated was around 91 million hectare during Jul'12 -Dec'12 out of which 0.891 million hectares were used for animal farming. During Jan'13-Jun'13, 74 million hectares area was operated, out of which 1.257 million hectares were used for animal farming.

[Statement 3.4]

- The percentage of households reporting animal farming was found to be the highest in the *marginal* category of operational holdings, registering more than 73 per cent of household operational holdings in both the periods. [Statement 3.5]
- The land area used for livestock farming (ie. land used for *only farming of animal/fishery* and *both crop production and farming of animal /fishery*) is less than 5 percent of the total area under different types of *land uses*, during both the periods Jul'12-Dec'12 and Jan'13-Jun'13. [Statement 3.6]
- Out of the total area under animal farming, the *marginal* land holdings registered the highest percentage of area under animal farming in both the periods (48.77 percent during Jul'12-Dec'12 and 33.78 percent Jan'13-Jun'13). [Statement 3.7]
- Among all the land used for animal farming, the major use of area of land was made for *dairy* (53.8 percent during Jul'12 - Dec'12 and 69.7 percent during Jan'13 - Jun'13). The lowest share was for *piggery*, which is less than one percent of the total area under animal farming, during both the seasons. [Statement 3.8]

C. Stock of Livestock/Poultry Birds in the country

- *Bovine* population during 2012-13 was 204.5 million out of which 135.6 million were *cattle* and 68.8 million were *buffalo*. [Statement 3.9]
- During 2012-13, *sheep and goat (ovine)* population were found to be 99 million. The number of *ovine* per 100 households was 63.4. [Statement 3.9 & 3.12]
- 5.8 million *pigs* were estimated during 2012-13, accounting for 3.7 per 100 households. [Statement 3.9 & 3.13]
- During 2012-13, 254.7 million *poultry* was estimated, which was found to be 163.1 per 100 households. [Statement 3.9 & 3.14]

CHAPTER ONE

INTRODUCTION

1.0 The Report in Perspective

1.0.1 The National Sample Survey Office (NSSO), as a part of its 70th round during the period January 2013 - December 2013, carried out an all India household survey on the situation of Land and Livestock Holdings in India. In this survey, a nation-wide household enquiry was conducted to generate estimates of various characteristics pertaining to Land and Livestock Holdings at the national and State/UT levels. Information on various facets of Land and Livestock Holdings in India was collected through a schedule of enquiry (Schedule 18.1) adopting the established concepts, definitions and procedures. Based on the data collected during the entire period of survey, estimates of various characteristics pertaining to Land Holdings for each State/UT and all India have been presented in this report.

1.1 Objective of the Land and Livestock Holdings surveys of NSSO

1.1.1 The NSS 70th round survey on Land and Livestock Holdings (LHS) was conducted in rural areas of the country. The main objective of the survey on Land and Livestock Holdings (LHS) was to generate basic quantitative information on the agrarian structure of the country, which was relevant to land policy. The quantitative information collected in the Land and Livestock Holdings survey could be categorized into the three broad aspects of land ownership holdings, operational holdings and ownership of livestock. The survey on Land and Livestock Holding had been designed to collect information on (i) particulars of land (owned, leased-out, leased-in and otherwise possessed) of the household (ii) location of land (iii) area (iv) duration of possession (v) number of lessor/lessee households (vi) terms of lease (vii) land use during July 2012 to December 2012/January 2013 to June 2013/whole agricultural year (July 2012 to June 2013) (viii) whether irrigated (ix) sources of irrigation etc. Information on number of livestock, poultry, duckery, etc., owned by the household as on the date of survey was also collected. Besides collection of information on land and livestock, information was collected on some household characteristics such as (i) household classification (ii) social group (iii) religion (iv) whether the household operated any land on Jhum cultivation during last 365 days, etc. Some information on demographic particulars from each of the household members was also collected such as (i) sex (ii) age (iii) general education level (iv) whether associated with the household operational holding etc.

1.2 Genesis of Land and Livestock Holdings Survey of NSSO

1.2.1 The Decennial survey on Land and Livestock Holdings is one of the important surveys conducted repeatedly by the NSSO. The first such survey was carried out in the 8th round of NSSO during July 1954 - April 1955. Land and Livestock Holdings survey of NSS 70th round is like a Decennial survey as far as subjects of enquiry, design, questionnaires and sample sizes are concerned. Including the Land and Livestock Holdings survey of NSS 70th round (January 2013 - December 2013), seven such comprehensive surveys on the Land and Livestock Holdings situation in India have so far been conducted by NSSO.

1.2.2 *Past Decennial Surveys*: The first survey on land holdings was taken up by the NSS in its 8th round (July 1954 - April 1955) as part of the World Agricultural Census initiated by the Food & Agricultural Organization (FAO) of the United Nations. In this survey, information on agricultural holdings was collected primarily to meet the requirements of the FAO. In addition, information on household ownership holdings was collected to provide the much-needed data for formulating land reforms policy for the country. A similar survey was conducted again in the 16th (July 1960-August 1961) and 17th (September 1961-July 1962) rounds of the NSS as a part of the World Agricultural Census Programme of 1960. Since then, NSSO has been regularly conducting land holding surveys every ten years or so. The next survey on land holding of NSSO was conducted in 26th round (July 1971-June 1972), simultaneously with a survey on Debt and Investment at the instance of the Reserve Bank of India. Thereafter, surveys on Land and Livestock Holdings were conducted in 37th round (January-December 1982), 48th round (January-December 1992) and 59th round (January-December 2003) respectively.

1.3 Scope of NSS 70th round Survey on Land and Livestock Holdings

1.3.1 Using the information collected in this survey, different indicators of ownership holding, operational holding, pattern in land use, detailed types of crop production/animal farming activities of the households, seasonal variation in household operational holding, ownership of livestock, poultry, duckery, etc can be generated for the rural areas of the country.

1.3.2 These statistical indicators are required for planning, policy formulation and decision making at various levels within the government and outside. The results of the survey will be of use to the Department of Agriculture & Cooperation, Department of Animal Husbandry, Dairying & Fisheries, National Accounts Division, etc. These will also be used by various users, researchers and policy makers.

1.3.3 The major features of data collected in NSS 59th round were also collected in NSS 70th round. The land use pattern is not only dynamic but also multidimensional - it varies over its location, kind of possession, duration of possession, irrigation facility, flooding nature, etc. In order to reveal the multidimensional aspects of the Land and Livestock Holdings situation in India, the Land and Livestock Holdings schedule (Schedule 18.1) of NSS 70th round captured a range of information on the following aspects:

- i) *Particulars on household characteristics like household size, household classification, religion and social group of the household, etc.* For the households, information was collected on whether the household operated any land for agricultural activities during the last 365 days and whether any member of the household stayed away from the village continuously for 15 days or more for employment during the last six months. For the households with agricultural land operation, information was also collected on whether the household operated any land for jhum cultivation during the last 365 days.
- ii) *Demographic particulars of the household members like age, sex, general educational level.* For households with agricultural land operation, information was also collected on whether the member was associated with agricultural land operation.

iii) *Particulars of the land of the household and its operation.* For each plot belongs to the household, information on its location, kind of possession, area, duration of possession, number of lessor/lessee households, terms of lease, use of leased-out land by the lessee household, flooding nature, land use category, cropping pattern, multiple cropping characteristics, irrigation facilities along with its source was also collected wherever applicable.

iv) *Particulars on some general information of household operational holding like area of household operational holding, whether operated individually/jointly, if jointly then number of partners households and the percentage share of land of the household, type of holding, main use of the holding, number of parcels in the holding, number of permanent attached farm workers against wages payable in cash/kind and share of produce.*

v) *Particulars on livestock, poultry, duckery, etc., owned by the household like in livestock category adult and young cattle (male/female), adult and young buffalo (male/female), horse and pony, mule, donkey, camel, yak, mithun, elephant, sheep, goat pig, rabbit, etc. and in poultry birds category hen-cock-chicken, duck, etc.*

1.4 Outline of NSS 70th round survey

1.4.1 *Geographical coverage:* The survey covered the rural area of the whole of the Indian Union. Any estimate of the 70th round i.e. for 2012-13 is for rural India only. Wherever comparison is done with the previous rounds, the estimates of the previous rounds correspond to those of rural India only.

1.4.2 *Visits 1 & 2:* Each sample FSU was visited twice during this round. Since the workload of the first visit (i.e. visit1) was more, the first visit continued till the end of July 2013. Thus, period of the first visit was January – July 2013 and that of the second visit (i.e. visit 2) was August – December 2013.

1.4.3 *Sub-round:* The fieldwork of the 70th round of NSSO was of one year duration starting on 1st January, 2013 and ending on 31st December, 2013. The survey period of this round was divided into two sub-rounds. Sub-round one consisted of the first half of the survey period of each visit i.e. 1st January – 15th April 2013 for visit 1 and 1st August – 15th October 2013 for visit 2, while sub-round two consisted of the remaining period of the respective visits. Thus each sub-round was of three and a half months duration for visit 1 and two and a half months for visit 2. In each of these two sub-rounds, an equal number of sample villages (FSUs) was allotted for survey with a view to ensuring uniform spread of sample FSUs over the entire survey period.

1.5 Comparability with previous round survey

1.5.1 Considering the volume and direction of the current demand of data on agricultural surveys, a few modifications in the content of the schedule of enquiry for the present survey *vis-a-vis* the earlier surveys on the same subject, were brought in. Accordingly, the presentation of results of the 70th round survey may differ to some extent in terms of content and classification, as compared to the last round. The major changes considered in the current round are:

- i. The 70th round survey was conducted only in the rural areas, whereas in the last (i.e. 59th) round both rural and urban areas were covered. Thus some information, like use of land in livestock farming in urban areas, will be missing in this round.
- ii. Classification of households into different types based on the source of major income of the household has been changed, making it oriented towards rural areas only.
- iii. In the current round, multiple operational holdings within a household were not distinguished and the household was treated as having only one operating unit considering all the land operated by all the household members together.
- iv. In 59th round survey, data was collected for 'kharif' and 'rabi' season from each sample household; whereas in the 70th round, data was collected for the two halves of the agricultural year 2012-13 as July - December, 2012 and January - June, 2013.
- v. Information on industry and occupation as per usual activity status (principal and subsidiary) for every member of the sample households, which was collected in the earlier round, was dropped in 70th round.
- vi. Classification of 'land use' adopted in the 59th round was more structured in the 70th round, in terms of 'major type of land use' and 'type of crop production/livestock farming'. Specific information on 'jhum cultivation' was additionally collected in 70th round.
- vii. Apart from these, information on 'flooding of the plot during July - December 2012 & January - June 2013', and on 'location of the plot' was also collected.

1.5.2 The estimates of various indicators for Telangana and the reorganised state of Andhra Pradesh are available for the first time from the 70th round survey. Therefore, comparable figures with the earlier rounds at the state level for these two States are not furnished. It may be noted that for the earlier rounds, estimates shown for the State of Andhra Pradesh correspond to the erstwhile Andhra Pradesh that existed before division.

1.5.3 Comparisons with data from earlier rounds results have been presented, wherever data of the previous rounds were available. However, certain results are presented for the major states and Telangana only; the major states being *viz.*, Andhra Pradesh, Assam, Bihar, Chhattisgarh, Gujarat, Haryana, Himachal Pradesh, Jammu & Kashmir, Jharkhand, Karnataka, Kerala, Madhya Pradesh, Maharashtra, Odisha, Punjab, Rajasthan, Tamil Nadu, Uttar Pradesh and West Bengal. The detailed tables corresponding to such presentation can be seen in in Appendix A.

1.6 Reports on Land and Livestock Holdings survey of NSS 70th round

1.6.1 The results of the Land and Livestock Holdings surveys of NSSO, generated from the central sample data, are released in the form of reports. It has been planned to bring out the results of the Land and Livestock Holdings survey of NSS 70th round in two reports. In addition to these two reports, a document on 'Key Indicators of Land and Livestock Holdings in India, 2012-13' has already been brought out in December 2014. The first report titled 'Household Ownership and Operational Holdings in India' has already been released. The present one, which is the last in the series of reports, deals with the national and State/UT level estimates relating to ownership of livestock and poultry. The report gives the results generated at the all India level and some important results for different States/Union

Territories, *NE States* (Arunachal Pradesh, Manipur, Meghalaya, Mizoram, Nagaland, Sikkim and Tripura) and *Group of UTs* (Andaman & Nicobar Islands, Chandigarh, Dadra & Nagar Haveli, Daman & Diu, Lakshadweep and Puducherry).

1.7 Contents of the report

1.7.1 This report contains three chapters, including the present introductory Chapter (Chapter One), and three Appendices. Chapter Two describes the concepts and definitions of the terms used in the survey in connection with the various items covered in this report. The summary of findings of NSS 70th round is presented and discussed in Chapter Three. The corresponding tables for all the State/UTs can be seen at the State Tables (having the same number as its corresponding statement table) presented after Chapter Three. The detailed tables forming the basis of this report are presented in Appendix A. Appendix B gives a detailed description of the sample design and estimation procedure used for the survey, and the facsimile of the schedule canvassed in the survey can be seen in Appendix C.

1.7.2 In Chapter Three, the discussions are mainly centered on the estimates at the all India level and major States. A comparison with earlier survey results at the all India level has also been done in some cases. For the purpose of discussion in this report, 20 States have been considered as major states *viz.* Andhra Pradesh, Assam, Bihar, Chhattisgarh, Gujarat, Haryana, Himachal Pradesh, Jammu & Kashmir, Jharkhand, Karnataka, Kerala, Madhya Pradesh, Maharashtra, Odisha, Punjab, Rajasthan, Tamil Nadu, Telangana, Uttar Pradesh, and West Bengal. Along with the major States, estimates are also provided for North Eastern States (NE States): Arunachal Pradesh, Manipur, Meghalaya, Mizoram, Nagaland, Sikkim and Tripura and Group of Union Territories(Group of UTs): Andaman & Nicobar Islands, Chandigarh, Dadra & Nagar Haveli, Daman & Diu, Lakshadweep and Puducherry.

1.7.3 The estimates presented in this report, in general, refer to the mid-point of the reference period (July 2012 - June 2013) of NSS 70th round, i.e., 01.01.2013. In the NSS reports, the estimates of the Land Holdings characteristics are generally presented in both rates and ratios and in absolute figures. It may be noted here that in tables containing figures like ‘per 1000 distribution’, ‘average area’, etc., the figures have been rounded off. Thus, while using the estimates from the survey results, it is to be noted that the accuracy of these estimates are limited to the number of significant digits available in such estimates. The estimates of the livestock have been presented in the report for all the States and UTs together with Group of North-Eastern States and Group of UTs. However, it may be noted that, while using the State/UT level estimates, the sample sizes for the smaller States/UTs may not be adequate enough for getting sufficiently reliable estimates.

1.7.4 Appendix A contains the detailed tables of the report. The survey estimates of the aggregates are presented in the margin of the detailed tables and these may be used to combine the estimates relative in nature to more significant digits. The cell-level figures in the detailed tables, when added up, may not exactly be equal to the figure shown against the ‘total’ column/row due to rounding off and/or presence of non-response cases. If there is no sample household in a particular category, the estimate in that category appears as zero (0) in the detailed tables. Estimates are also shown as zero (0), when they are greater than 0 but less than 0.5.

1.7.5 Statement S1.1 gives the number of villages surveyed and number of households surveyed during visit 1 and visit 2, to have an idea about the reliability of estimates for different characteristics at the State/UT level or for some characteristics at more disaggregated level for all India.

Statement S1.1 : Number of villages and households surveyed for each State/UT

State/ UT	number of villages surveyed	number of sampled households	
		visit 1	visit 2
(1)	(2)	(3)	(4)
Andhra Pradesh	149	1184	1167
Arunachal Pradesh	47	340	340
Assam	214	1703	1701
Bihar	266	2100	2097

Puducherry	8	64	64
all India	4529	35604	35337

CHAPTER TWO

CONCEPTS AND DEFINITIONS

2.0 The concepts and definitions of some important terms used in the survey and relevant to this report are explained in the following paragraphs.

2.1 House: Every structure, tent, shelter, etc. was a house irrespective of its use. It might be used for residential or non-residential purpose or both or even might be vacant.

2.2 Household: A group of persons normally living together and taking food from a common kitchen constituted a household. It included temporary stay-aways (those whose total period of absence from the household was expected to be less than 6 months) but excluded temporary visitors and guests (expected total period of stay less than 6 months). Even though the determination of the actual composition of a household was left to the judgment of the head of the household, the following procedure was adopted as guidelines:

(i) Each inmate (including residential staff) of a hostel, mess, hotel, boarding and lodging house, etc., constituted a single-member household. If, however, a group of persons among them normally pool their income for spending, they together were treated as forming a single household. For example, a family living in a hotel was treated as a single household.

(ii) In deciding the composition of a household, more emphasis was placed on 'normally living together' than on 'ordinarily taking food from a common kitchen'. In case the place of residence of a person was different from the place of boarding, he or she was treated as a member of the household with whom he or she resided.

(iii) A resident employee, or domestic servant, or a paying guest (but not just a tenant in the household) was considered as a member of the household with whom he or she resided even though he or she was not a member of the same family.

(iv) When a person sleeps in one place (say, in a shop or in a room in another house because of space shortage) but usually took food with his or her family, he or she was treated not as a single member household but as a member of the household in which other members of his or her family stayed.

(v) If a member of a family (say, a son or a daughter of the head of the family) stayed elsewhere (say, in hostel for studies or for any other reason), he/ she was not considered as a member of his/ her parent's household. However, he/ she was listed as a single member household if the hostel was listed.

2.3 Household classification: In NSS 70th Round information on ‘*household classification*’ was collected, instead of ‘*household type*’. The household classification was based on the source of major income of the household and it was classified into the following six categories, for rural areas:

1. self-employed in cultivation
2. self-employed in livestock farming
3. self-employed in other agricultural activities
4. self-employed in non-agricultural enterprise
5. wage/salaried employment
6. others (pensioners, remittance recipients, etc.)

2.4 Social group: For each household surveyed, the social group to which the head of the household belonged to was recorded. In the survey, information was collected in respect of four social groups viz. *scheduled tribe* (ST), *scheduled caste* (SC), *other backward class* (OBC) and the rest referred to as *others*. The information recorded in this regard was based entirely on the response of the informant and not based on any state or central level list of the social group.

2.5 Homestead land (house-site): (i) Homestead of a household was defined as the dwelling house of the household together with the courtyard, compound, garden, out-house, place of worship, family graveyard, guest house, shop, workshop and offices for running household enterprises, tanks, wells, latrines, drains and boundary walls annexed to the dwelling house. All land coming under homestead was defined as homestead land (house site). (ii) House site might constitute only a part of a plot. Sometimes, gardens, orchards or plantations, though adjacent to the homestead and lying within the boundary walls, might be located on a clearly distinct piece of land. In such cases, land under garden, orchard or plantation will not be considered as house site.

2.6 Plot: A distinct patch of land demarcated generally by a strip of raised land, commonly known as ‘ails’ or ‘bunds’ was defined as a plot. The plots of the household was categorised *owned and possessed, leased-in, otherwise possessed, or leased-out*.

2.7 Ownership of land: (i) A plot of land was considered owned by the household if permanent heritable possession, with or without the right to transfer the title, was vested in a member or members of the household. Land held in owner-like possession under long term lease or assignment was also considered as land owned. Thus, in determining the ownership of a plot of land two basic concepts were involved, namely,

- (a) Land owned by the household, i.e., land on which the household had the right of permanent heritable possession with or without the right to transfer the title, e.g., Pattadars, Bhumidars, Jenmos, Bhumiswamis, Rayat Sithibans, etc. A plot of land might be leased out to others by the owner without losing the right of permanent heritable possession.

(b) Land held under special conditions such that the holder did not possess the title of ownership but the right for long term possession of the land (for example, land possessed under perpetual lease, hereditary tenure and long term lease for 30 years or more) was considered as being held under owner like possession. In the States where land reform legislations had provided for full proprietorship to erstwhile tenants, they were considered as having owner like possession, even if they had not paid the full compensation.

(ii) Sometimes a plot might be possessed by a tribal in accordance with traditional tribal rights from local chieftains or village/district council. Again, a plot might be occupied by a tenant for which the right of ownership vests in the community. In both the cases, the tribal or other individual (tenant) was taken as owner, for in all such cases, the holder had the owner like possession of land in question.

2.8 Land possessed: Land possessed was given by land owned (including land under ‘owner like possession’) + land leased in - land leased out + land held by the household but neither owned nor leased in (e.g., encroached land).

2.9 Lease of land: (i) Land given to others on rent or free by owner of the land without surrendering the right of permanent heritable title was defined as land leased-out. It was defined as land leased-in if it was taken by a household on rent or free without any right of permanent or heritable possession. The lease contract might be written or oral. (ii) Sometimes orchards and plantations (defined later) were given to others for harvesting the produce for which the owner receives a payment in cash or kind. Such transactions were not treated as ‘lease’ for the purpose of the survey.

2.10 Otherwise possessed land: All public/institutional land possessed by the household without title of ownership or occupancy right came under *otherwise possessed land*. The possession was without the consent of the owner. Private land (i.e. land owned by the household sector) possessed by the household without title of ownership and occupancy right was not included in this category. All private land encroached upon by the household was treated as *leased-in* land.

2.11 Cultivation: All activities relating to production of crops and related ancillary activities were considered as cultivation. Growing of trees, plants or crops as plantation or orchards (such as rubber, cashew, coconut, pepper, coffee, tea etc.) were not considered as cultivation activities for the purpose of this survey. In general, the activities covered under NIC-2008 classes 0111, 0112, 0113, 0114, 0116, 0119 and among class 0128 sub classes 01281, 01282, etc., were considered as cultivation.

2.12 Livestock: Livestock were those animals which were used for food, fibre, labour, etc. Animals kept as pets, snakes, reptiles, frogs, fishes were excluded from the coverage of livestock. In NSS 70th Round, information on number of livestock, poultry, duckery, etc., owned

by the household as on the date of survey was collected. The absolute number of different categories of livestock and poultry birds owned by the household as on the date of survey was recorded, irrespective of the purpose for which they were used. Livestock and poultry owned by the domestic servants, paying guests who are listed as normal members of the sample household were not considered.

2.13 Animal Farming: Animal farming was classified as *dairy, poultry/duckery, piggery, fishery* and *farming of other animals*.

2.14 Household Operational Holding: Within a household, different household members might possess different plots but the household operated the plots as a single unit. For the purpose of the survey on LHS in NSS 70th round, information was collected for household operational holding considering all the land operated by all the household members together. Within a household, multiple operational holdings were not distinguished and this was considered as one operating unit. The following points might be noted for determination of household operational holding:

(i) Household operational holding constitutes of all land that was used wholly or partly for agricultural production and was operated (directed/managed) by one household member alone or with assistance of others, without regard to title, size or location. The land might be operated by members belonging to a single household or by members belonging to more than one household operating jointly. However, holdings operated as co-operative farms were not considered as operational holding in this survey. The holding might consist of one or more parcels of land (defined later), provided they were located within the country.

(ii) When a household was found to grow vegetables in kitchen garden only, or flowers in the courtyard, it was considered to possess an operational holding. Likewise, a household engaged exclusively in livestock keeping or poultry raising or pisciculture was considered to operate a holding, even if no crop production was undertaken by it during the reference period. But in all cases, an operational holding was related to some amount of land possessed by the household.

(iii) It is pertinent to note that the inclusion of the term ‘wholly or partly’ in the definition of household operational holding implies that once a household was identified to operate some land, all the plots possessed by the household during the major part of the reference period are taken into account, irrespective of whether all the plots included in the holding were put to agricultural production or not. Thus, if a household carried out any agricultural production during the reference period, plots possessed by the household during the major part of the reference period and put to uses other than agricultural production, such as house-sites, paths, buildings, etc., were also included in the operated area of the household operational holding.

(iv) Only when a household did not undertake any agricultural production on any part of the land possessed by it during the reference period, it was not considered to have any operational holding.

2.15 Size class and category of land holdings: While presenting the detailed tables in Appendix A, 14 size classes of land holdings have been used. In order to study the change across size distribution, these 14 size classes are merged to form 6 broad size classes along the lines adopted in the Agricultural Census of India. The six broad size classes (called category of holdings) are as follows:

category of holding	size
landless*	less than or equal to 0.002 hectares
marginal	more than 0.002 but less than or equal 1.000 hectares
small	more than 1.000 but less than or equal to 2.000 hectare
semi-medium	more than 2.000 but less than or equal to 4.000 hectares
medium	more than 4.000 but less than or equal to 10.000 hectares
large	more than 10.000 hectares
* 'less than or equal to 0.002 hectares' as classified under 'landless' category, also includes plots where area is not reported.	

These broad size classes will henceforth be called *categories* of ownership/operational holdings.

CHAPTER THREE

SUMMARY OF FINDINGS

3.0.1 The Land and Livestock Holdings survey (LHS) of NSSO is one of the main sources of information on livestock and poultry held by the household sector of the economy. It also provides estimates of two basic distributions of land holdings, viz., distribution of land owned by households and that of agriculturally operated land. Information on ownership of land and on operation of land based on data collected in the 70th round has already been presented separately in the previous report. The present report gives the survey results relating to ownership of livestock and poultry classified by operated area of the household operational holdings.

3.0.2 This chapter summarises the major findings of the enquiry on ownership of livestock in India. Certain information on the socio-economic condition of the sample households were collected in the Land and Livestock Holdings survey of NSS 70th round. Before discussing the Livestock Holdings of the country, a brief overview of the households reporting major source of income from livestock farming has been presented at the all India level and the major states. Comparisons with earlier survey results at the all India level, and the major states level has also been done, wherever feasible.

3.1 Household reporting the main source of income from self-employment in livestock farming

3.1.1 Estimates of households

3.1.1.1 In the NSS 70th round survey on Land and Livestock Holdings, households were classified into different economic categories depending on the nature of work from which the household derived its major income (net income) during last 365 days, excluding the incomes of servants and paying guests. The household classifications used were *self-employment in cultivation, self-employment in livestock farming, self-employment in other agricultural activities, self-employment in non-agricultural enterprise, wage/salaried employment, others (pensioners, remittance recipients, etc.)*. Other agricultural activities included all the activities in the agricultural sector, except cultivation and livestock farming activities, like plantation, orchard, forestry, logging, fishery, etc. It may be mentioned here that, in the previous rounds of NSS, information was collected on ‘*household type*’, which was different from ‘*household classification*’. Statement S3.1 gives some characteristics of the households reporting major source of income from self-employment in livestock farming (SELF), for the major States and all India.

3.1.1.2 As seen from the statement, around 1.75 percent of the rural households derived the major income from self-employment in livestock farming, which comprises around 2.7 million rural households, owning around 0.489 hectare of land per household. From the estimates presented in Statement S3.1, it is seen that, among the major states the highest percent of

households reporting major source of income derived from SELF was seen in Assam (4.27 percent) and Punjab (4.08 percent), whereas the lowest was recorded for Uttar Pradesh (0.87 percent) and Madhya Pradesh (0.85 percent). Among the households having major source of income from SELF, the highest area owned per household was seen in Rajasthan which was 2.702 hectares, and the lowest area owned per household was seen in West Bengal (0.036 hectare).

Statement S3.1: Some characteristics of the households deriving major income from SELF for each major state

State/UT	estimated number of households (million)	estimated number of households having major source of income from SELF (million)	percentage of households having major source of income from SELF	average area owned per household (ha)*	average area owned per household (ha) having major source of income from SELF
(1)	(2)	(3)	(4)	(5)	(6)
Andhra Pradesh	8.676	0.172	1.99	0.471	0.436
Assam	5.249	0.224	4.27	0.621	0.281
Bihar	14.061	0.249	1.77	0.237	0.122
Chhattisgarh	3.747	0.006	0.17	0.783	0.466
Gujarat	5.872	0.152	2.59	0.801	0.119

Group of UTs	0.239	0.002	0.75	0.138	0.058
all India	156.144	2.733	1.75	0.582	0.489

SELF : Self-employed in Livestock farming

Ref : Table 2 of Appendix A

*In Appendix Table, these figures are given per 1000 in whole numbers. Here, they are calculated and presented as percentage in two places of decimal.

3.1.2 Estimates of households across social groups

3.1.2.1 Statement S3.2 gives the households reporting major source of income from SELF as a percentage of the total households, for each household social group by major states and all India. As seen from the statement, 2.17 percent of the households belonging to the *Other Backward Class* derive their major income from SELF, which is also the highest among all the

social groups. The lowest was 0.75 percent, which was seen among the *Schedule Tribe* households.

3.1.2.2 As seen from Statement S3.2, 5.54 percent of the total *ST* households and 13.27 percent of total *SC* households in Assam reported SELF which is the highest among the major states, for both the social groups. In case of the *OBC* households, Haryana (5.60 percent) registered the highest and for *others* Rajasthan (8.28 percent) registered the highest percent of households reporting their major income from SELF.

Statement S3.2: Percentage of households reporting major source of income from SELF by social groups for each major state

State/UT	ST	SC	OBC	others	all
(1)	(2)	(3)	(4)	(5)	(6)
Andhra Pradesh	0.00	2.67	2.67	1.06	1.99
Assam	5.54	13.27	3.92	2.46	4.27
Bihar	0.00	0.06	2.43	1.28	1.77
Chhattisgarh	0.00	0.54	0.25	0.00	0.17
Gujarat	2.09	2.57	3.51	0.87	2.59
Haryana	0.00	5.87	5.60	0.33	3.16
Himachal Pradesh	0.00	0.66	2.74	1.65	1.46
Jammu & Kashmir	4.16	0.00	2.43	2.78	2.62
Jharkhand	1.19	0.00	2.49	0.00	1.50
Karnataka	0.00	4.26	1.50	0.16	1.78

West Bengal	0.00	0.43	0.69	2.85	1.60
N E States	0.31	4.24	0.40	0.30	0.57
Group of UTs	0.00	0.00	1.60	0.16	0.75
all India	0.75	1.50	2.17	1.67	1.75

Ref : Table 1 of Appendix A

3.1.3 Distribution of households across category of land holdings

3.1.3.1 In Statement 3.3, some characteristics of households reporting major source of income from SELF for each size category of holdings, at the all India level, is presented. The highest percentage households reporting major source of income from SELF was seen among the *large* holdings. 3.67 percent of the households in *large* holdings were found to have derived major income from self-employment in livestock farming. The least was recorded for the households in *small* holdings (0.70 percent).

Statement 3.3: Households reporting major source of income from SELF for each category of holdings.			
category of holdings (land size in ha)	estimated number of households having major source of income from SELF (million)	estimated total rural household (million)	Percentage
(1)	(2)	(3)	(4)
landless(<=0.002)	0.090	12.396	0.72
marginal(0.002-1.000)	2.385	117.243	2.03
small(1.000-2.000)	0.108	15.384	0.70
semi-medium(2.000-4.000)	0.065	7.756	0.84
medium(4.000-10.000)	0.067	2.998	2.24
large(>10.000)	0.013	0.367	3.67
all sizes	2.733	156.144	1.75
<i>Ref : Table 2 of Appendix A</i>			
<i>Note: Figures presented in column(4) may not match the figures obtained from column (2) and (3) for some cases as column(4) was calculated directly from the appendix table values.</i>			

3.2 Land operated for animal farming

3.2.1 Estimates of Operational Holdings and area operated

3.2.1.1 Household operational holding has been defined as land that was used wholly or partly for agricultural production and was operated (directed/managed) by one household member alone or with assistance of others, without regard to title, size or location. Detailed discussion on definition of household operational holding can be seen in Chapter 2. Within a household, multiple operational holdings were not distinguished. The land might be operated by members belonging to a single household or by members belonging to more than one household operating jointly. However, holdings operated as cooperative farms were not considered as operational holding in this survey. A household raising livestock & poultry or carrying out pisciculture was considered to operate a holding, even if no crop production was undertaken by it during the reference period.

3.2.1.2 It may be noted here that during 2002-03 (59th round), the area possessed by an operational holding for the major part of the reference period was taken as its 'area operated' while in 2012-13 (70th round) 'area operated' includes the area of the plots which were used for agricultural activities, i.e., *only crop production on jhum land, only crop production on land other than jhum land, only farming of animal/fishery, both crop production and farming of animal /fishery, and other agricultural uses*. This may be kept in mind while interpreting the information outlined here. Thus, if a household carried out any agricultural operation during the reference period on a plot of land possessed by the household, then all the plots possessed by the household during the major part of the reference period (including those which are put to uses other than agricultural production, such as house-sites, paths, buildings, etc.) were also included in the *area of the household operational holding*. Only the area used for agricultural activities in the operational holding in a reference period is termed as *area operated* during the reference period

3.2.1.3 The plots falling under either of the land use (i) *only farming of animal/fishery* or (ii) *both crop production and farming of animal /fishery* were considered as land under animal farming. Animal farming was classified as *dairy, poultry/duckery, piggery, fishery and farming of other animals*. Statement 3.4 gives some indicators of animal farming in respect of operational holdings and area operated during both the reference periods Jul'12-Dec'12 and Jan'13-Jun'13.

Statement 3.4 : Estimated number of operational holdings and area operated			
Sl no	Characteristic	Jul'12-Dec'12	Jan'13-Jun '13
(1)	(2)	(3)	(4)
1.	number of operational holdings (million)	105.922	99.887
2.	number of operational holdings reporting animal farming (million)	0.389	0.435
3.	total operated area (mha)	91.450	74.366
4.	operated area under animal farming (mha)	0.891	1.257

Ref: Table 4 of Appendix A

The above statement reveals that in rural India, there were around 106 million operational holdings during Jul'12 - Dec'12 and 100 million operational holdings during Jan '13 - Jun'13, out of which around 0.389 million operational holdings reported animal farming during Jul'12-Dec'12 and 0.435 million operational holdings reported animal farming during Jan'13-Jun '13. The number of operational holdings reporting animal farming showed an increase of 18.58 percent in Jan'13 - Jun'13 from Jul'12 - Dec'12. The estimated area operated was around 91 million hectare during Jul'12 - Dec'12 out of which 0.891 million hectares were used for animal farming. During Jan'13 - Jun'13, 74 million hectares area was operated, out of which 1.257 million hectares were used for animal farming. The proportion of operated area under animal farming increased during Jan'13- Jun'13.

3.2.1.4 Statement 3.5 gives the percentage distribution of household operational holdings reporting animal farming by category of operational holdings. As seen from the statement, the percentage of households reporting animal farming was found to be the highest in the *marginal*

Statement 3.5 : Estimated number and percentage distribution of household operational holdings reporting animal farming by category of operational holdings				
category of operational holdings (land size in ha)	Percentage distribution of household operational holding		Estimated number of household operational holdings (million)	
	Jul'12-Dec'12	Jan'13-Jun'13	Jul'12-Dec'12	Jan'13-Jun'13
(1)	(2)	(3)	(3)	(4)
landless(<=0.002)	0.08	0.08	0.029	0.033
marginal(0.002-1.000)	74.34	73.14	28.890	31.839
small(1.000-2.000)	13.23	13.74	5.143	5.983
semi-medium(2.000-4.000)	8.01	8.73	3.114	3.802
medium(4.000-10.000)	3.74	3.71	1.452	1.617
large(>10.000)	0.60	0.60	0.233	0.260
all sizes	100	100	38.861	43.533

Ref : Table 4 of Appendix A

category, registering more than 73 per cent of household operational holdings in both the periods. The percentage of household operational holdings, for almost all categories, had *Omedium* holdings, which registered a marginal increase.

3.2.1.5 Statement S3.5 gives the percentage distribution of household operational holdings reporting animal farming by category of operational holdings for all the major states for both the periods Jul'12 – Dec'12 and Jan'13 – Jun'13. As seen from the statement, the highest percent of animal farming was reported by the household operational holdings in the *marginal* category, for almost all major states in both the periods Jul'12 - Dec'12 and Jan'13 – Jun'13.

Statement S3.5 : Percentage distribution of household operational holdings reporting animal farming by category of operational holdings for the major states

State/UT	Period	category of operational holdings (land size in ha)						Total
		landless (≤0.002)	marginal (002-1.000)	small (1.000-2.000)	semi-medium (2.000-4.000)	medium (4.000-0.000)	large (≥10.000)

Ref : Table 4 of Appendix A

However, some exception was seen in Chhattisgarh (where *semi-medium* holdings registered the highest during Jul'12-Dec'12) and Telangana (where *small* holdings registered the highest during Jan'13 – Jun'13).

3.2.2 Area under animal farming

3.2.2.1 In NSS 70th round information was collected on the type of *land use* of the land possessed by the household. *Land use* refers to activities – such as growing crops, raising livestock, cultivating fish, etc., – carried out on a plot with the intention of obtaining products and/or benefits. In determining land use, reference was made to the activities carried out during the fixed reference periods of Jul'12-Dec'12 and Jan'13 –Jun'13. Land possessed has been defined to include land *owned and possessed*, land *leased in* and land *otherwise possessed* by the household(*leased out* land was excluded). The various types of *land use* were *crop production on jhum land*, *crop production on land other than jhum land*, *only farming of animal/fishery*, *both crop production and farming of animal /fishery*, *other agricultural uses*, and *other uses (non-agricultural uses)*.

3.2.2.2 If a part of a land was used for one purpose and the other part for a different purpose, then these two parts of the land was treated as two separate plots. However, if during reference period both 'crop production' and 'farming of animal/fishery activities' were undertaken in a single plot, one after the other, then the *land use* was considered as '*both crop production and farming of animal/fishery*'.

3.2.2.3 The percentage distribution of the area of land possessed by type of *land use* is given in Statement 3.6 for each size category of operational holdings. For the sake of better comparability, *crop production on jhum land*, *crop production on land other than jhum land*, *other agricultural uses*, and *other uses (non-agricultural uses)* has been clubbed together as 'other land uses' in the statement.

Statement 3.6: Percentage distribution of area of land possessed by type of land use								
category of operational holdings (land size in ha)	Jul'12-Dec'12				Jan'13-Jun'13			
	only farming of animal/fishery	both crop production and farming of animal/fishery	other land uses	total	only farming of animal/fishery	both crop production and farming of animal/fishery	other land uses	total
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)
landless(<=0.002)	83.00	0.00	17.00	100	95.00	0.00	5.00	100
marginal(0.002-1.000)	1.50	2.40	95.72	100	1.53	1.44	96.65	100
small(1.000-2.000)	1.00	4.00	97.00	100	1.00	2.00	97.00	100
semi-medium(2.000-4.000)	0.69	4.00	95.31	100	1.00	2.30	97.39	100

large(>10.000)	1.00	7.00	92.00	100	2.32	6.87	90.65	100
all sizes	0.88	3.81	95.31	100	1.35	2.35	96.28	100

Ref : Table 3 of Appendix A

Note: In Appendix Table, the figures are presented in whole numbers. Here the figures have been calculated and presented in two places of decimal.

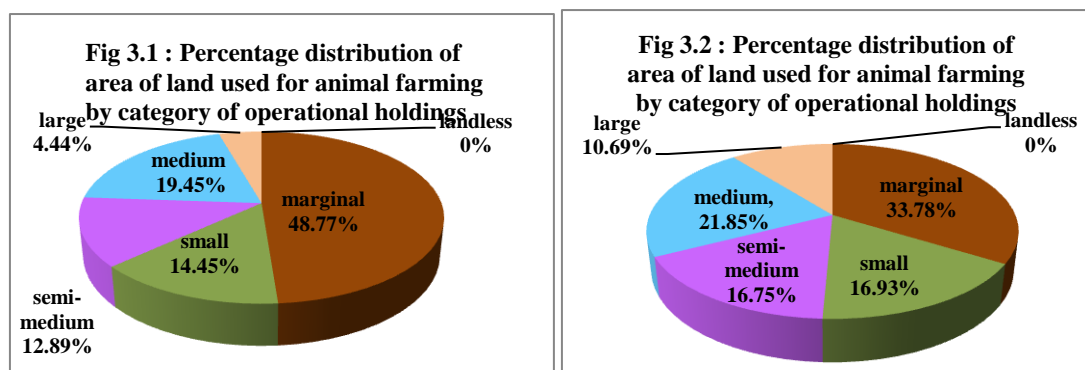

It can be seen that, at the national level, the percentage of land area used for animal farming is less than 5 percent for both the reference periods Jul'12-Dec'12 and Jan'13-Jun'13. The *landless* category showed a very high percentage of area of land devoted to *only animal farming*, which was 83% during Jul'12-Dec'12 and 95% during Jan'13-Jun'13. In case of *farming of animal/fishery*, there is a marginal increase in the percentage of land area used from Jul'12-Dec'12 to Jan'13-Jun'13, whereas *crop production and farming of animal/fishery*, shows a marginal decrease in the same period.

3.2.2.4 Statement 3.7 gives the percentage distribution of area of land used for animal farming by category of operational holdings. Out of the total area under animal farming, the *marginal* land holdings registered the highest percentage of area under animal farming in both the periods (48.77 percent during Jul'12-Dec'12 and 33.78 percent during Jan'13-Jun'13).

Statement 3.7 : Distribution of area of land used for animal farming by category of operational holdings				
category of operational holdings (land size in ha)	Percentage distribution of area used for animal farming		estimated area used for animal farming (mha)	
	Jul'12-Dec'12	Jan'13-Jun'13	Jul'12-Dec'12	Jan'13-Jun'13
(1)	(2)	(3)	(4)	(5)
landless(<=0.002)	0.00	0.00	0.000	0.000
marginal(0.002-1.000)	48.77	33.78	0.435	0.425
small(1.000-2.000)	14.45	16.93	0.129	0.213
semi-medium(2.000-4.000)	12.89	16.75	0.115	0.211
medium(4.000-10.000)	19.45	21.85	0.173	0.275
large(>10.000)	4.44	10.69	0.040	0.134
all sizes	100	100	0.891	1.257

Ref : Table 4 of Appendix A

It is also seen that the percentage of area used for animal farming has increased from Jul'12-Dec'12 to Jan'13-Jun'13, for all the land holding categories except for *marginal* holdings, which has shown a decline. The Percentage distribution of area of land used for animal farming by category of operational holdings, is pictorially represented in Fig 3.1 and Fig 3.2 below.

3.2.2.5 Statement S3.7 gives the percentage distribution of land under animal farming for each category of operational holdings, by major states, for the reference periods Jul'12-Dec'12 and Jan'13 –Jun'13. During Jul'12-Dec'12, the *marginal* land holdings has the maximum percentage of land under animal farming, for most of the major states. This fact was not the

same for Chhattisgarh (the maximum was for *semi-medium* holdings), Madhya Pradesh (the maximum was for *semi-medium* holdings), Maharashtra (the maximum was for *large* holdings), Rajasthan (the maximum was for *medium* holdings), and Telangana (the maximum was for *small* holdings). The same trend was observed among the major states during the period Jan'13 – Jun'13.

Statement S3.7 : Percentage distribution of area of land used for animal farming by category of operational holdings for the major states

State/UT	Period	category of operational holdings						Total	estimated area used for animal farming (ha)
		landless (<=0.002)	marginal (002-1.000)	small (1.000-2.000)	semi-medium (2.000-4.000)	medium (4.000-10.000)	large (>10.000)

Ref : Table 4 of Appendix A

Out of the total area under animal farming, the *marginal* land holdings registered the highest percentage of area under animal farming, for almost all the major states, except for Andhra Pradesh, Karnataka, Madhya Pradesh, Maharashtra, Rajasthan and Telangana. The maximum was seen in *semi-medium* for Andhra Pradesh, Karnataka and Maharashtra and in *small* holdings for Madhya Pradesh, Rajasthan and Telangana.

3.2.3 Different types of animal farming

3.2.3.1 For the plots where the land use was any of *crop production on jhum land*, *crop production on land other than jhum land*, *only farming of animal/fishery* or *both crop production and farming of animal /fishery*, information on the type of crop production/animal farming was collected. If in a plot more than one type of crop production/animal farming activities was found to be undertaken during the reference period, the one which has produced or is expected to produce the maximum yield in terms of value was considered. The type of animal farming was classified as *dairy*, *poultry/duckery*, *piggery*, *fishery*, *farming of other animals*. For the sample households visited during Jan– July '13, the reference period, for collecting information was July'12 – Dec'12 and for the households visited during Aug – Dec'13, the reference period was Jan'13 – Jun'13.

3.2.3.2 Statement 3.8 gives the percentage distribution of area of land used for different type of

Statement 3.8 : Percentage distribution of area of land by different type of animal farming

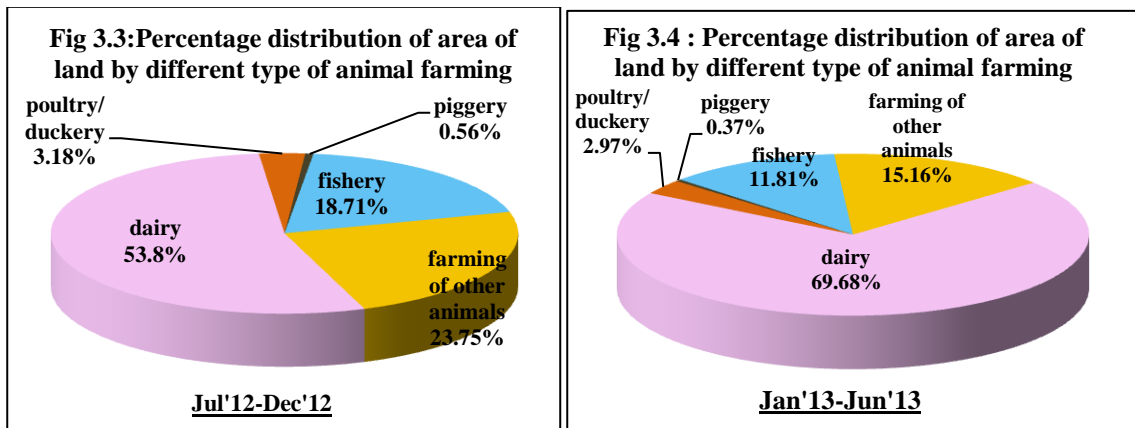

Period	percentage distribution of area of land by type of animal farming					
	dairy	poultry/duckery	piggery	fishery	farming of other animals	total
(1)	(2)	(3)	(4)	(5)	(6)	(7)
Jul'12-Dec'12	53.80	3.18	0.56	18.71	23.75	100
Jan'13-Jun'13	69.68	2.97	0.37	11.81	15.16	100

Ref : Table 4 of Appendix A

Note: In Appendix Table, the figures are presented in whole numbers. Here the figures have been calculated and presented in two places of decimal.

animal farming viz. *dairy*, *poultry/duckery*, *piggery*, *fishery*, *farming of other animals*. Among all the land used for animal farming, the major use of area of land was made for *dairy* (53.8 percent during Jul'12 - Dec'12 and 69.7 percent during Jan'13 - Jun'13). The lowest share was for *piggery*, which is less than one percent of the total area under animal farming, during both the seasons. A decrease in percentage, though marginal has been observed in the land area used for farming of animals from Jul'12 - Dec'12 to Jan'13 - Jun'13, with respect to all the types of animal farming except *dairy*, which has shown an increase in the same period.

The Percentage distribution of area of land used for different type of animal farming during Jul'12 – Dec '12 is represented pictorially in Fig 3.3, and that for Jan'13 – Jun'13 is given in Fig 3.4.

3.2.3.3 Statement S3.8 gives the percentage distribution of area of land used for different type of animal farming during Jul'12 – Dec '12 and Jan'13-Jun'13 for the major states. As seen from the statement, among the major states, more than 90 percent of the land used for animal farming, was used for *dairy* in the states of Punjab, Haryana and Gujarat during Jul'12-Dec'12 and Punjab, Haryana, Gujarat, Uttar Pradesh and Jammu & Kashmir during Jan'13-Jun'13. The largest percent of land area was used for *poultry/duckery* in Kerala in both the seasons (16.45 percent during Jul'12-Dec'12 and 19.60 percent during Jan'13-Jun'13).

3.2.3.4 *Piggery* was seen prominent in Karnataka, which registered more than 6 percent of total area used for animal farming in both the periods. The states of Jharkhand (98.10 percent) and Andhra Pradesh (77.76 percent) registered the highest percentage of the land used for *fishery* during Jul'12-Dec'12. During Jan'13-Jun'13, Assam (73.61 percent) and Andhra Pradesh (58.14 percent) were the states showing the highest percentage. *Farming of other animals* showed prominence in Himachal Pradesh during Jul'12-Dec'12 where 56.55 percent of the total area used for animal farming was used for *farming of other animals*, and in Jharkhand (64.48 percent) during Jan'13-Jun'13.

Ref : Table 4 of Appendix A

Note: In Appendix Table, the figures are presented in whole numbers. Here the figures have been calculated and presented in two places of decimal.

3.3 Stock of Livestock/Poultry in the country

3.3.1 In NSS 70th Round, information on number of livestock, poultry, duckery, etc., owned by the household as on the date of survey was collected. The absolute number of different categories of livestock and poultry owned by the household as on the date of survey was recorded, irrespective of the purpose for which they were used. Livestock and poultry owned by the domestic servants, paying guests who are listed as normal members of the sample household were not considered.

3.3.2 Estimates of Livestock and Poultry

3.3.2.1 A comparison of the estimates of livestock and poultry populations based on the LHSs of NSSO may help in understanding the general nature of changes in animal husbandry. Statement 3.9 gives the estimated number of principal kinds of livestock and poultry in India across the last four LHSs of NSSO. It may be mentioned here that estimated of livestock and poultry for 2012-13 is not based on the total number of rural households, but, on households

Statement 3.9: Number of livestock and poultry across the last five LHS Surveys of NSS						
Sl. No	livestock/poultry	number in millions				
		1971-72	1981-82	1991-92	2002-03	2012-13
(1)	(2)	(3)	(4)	(5)	(6)	(7)

2. Previous years' data: NSS Report No. 493(values corresponding to 'rural' is used.. Figures for previous year were available in whole numbers only.

having operational holdings, which is less than total rural households.

As seen from the statement, there is some decline in the *bovine* population, which may be due to the decline in cattle population. The

absolute number of *Sheep and goat* and *pig* did not reveal much change in the last three rounds, but as increase was observed in *poultry* during 2012-13. Statement 3.9 is diagrammatically represented in Fig 3.5.

3.3.2.2 Statement 3.10 gives the stock of cattle, buffalo as well as bovines (in million) for each size category of household operational holdings by age and sex. Cattle/ Buffalo of 'age more than 2 years' were considered 'adult' and those of 'age 2 years or less' were considered 'young'.

Statement 3.10: Number of bovine, ovine, pig and poultry (in million) by size category of household operational holdings								
Cattle/ Buffalo	sex	category of operational holdings (land size in ha)

large(>10.000)	1.42	1.55	1.46	1.30	0.79	0.92	0.10	0.09
all sizes	100.00	100.00	100.00	100.00	100.00	100.00	100.00	100.00

Note : Household operational holdings owning livestock are considered here

Ref: Table 6, 7, 8 of Appendix A

holdings is also given in Statement 3.10. As seen from the statement, the *marginal* operational holdings had the highest stock of sheep, goat, pig and poultry, followed by the *small* holdings, except for sheep (the second largest stock of sheep was in the *medium* holdings). The total number of sheep in the country was estimated as 24.3 million, and that of goat, pig and poultry was estimated at 74.8 million, 5.8 and 254.6 million respectively.

3.3.2.4 The percentage distribution of each of the bovines, ovines, pig and poultry across the size category of operational holdings is given in statement 3.11. As apparent from this statement, and also from the previous two statements, the *marginal* holdings owned the highest number of bovines, ovines, pig and poultry.

3.3.3 Change in ovine holding

3.3.3.1 Statement 3.12 gives the number of ovine (sheep and goats) held across the last five

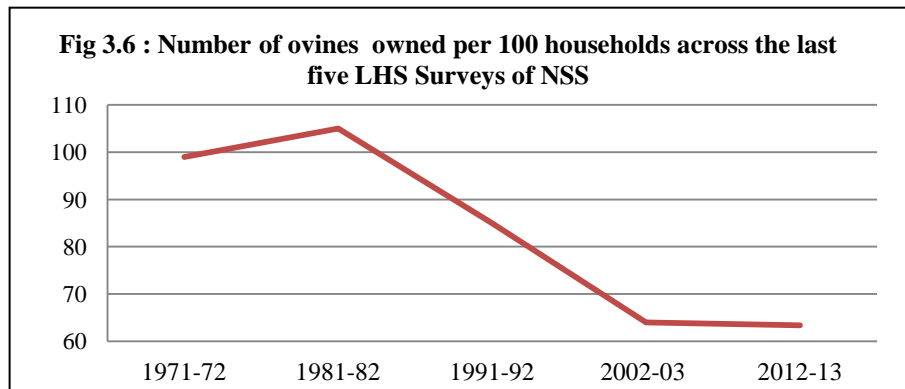

Statement 3.12 : Number of ovine owned per 100 households across the last five LHS Surveys of NSS

Number of ovine per 100 households				
1971-72	1981-82	1991-92	2002-03	2012-13
(1)	(2)	(3)	(4)	(5)
99	105	85	64	63.4

Ref: 1. Data for 2012-13 – Table 7 of Appendix A

2. Previous years' data: NSS Report No. 493, figures for previous year were available in whole numbers only.

LHS of NSS. All rural households are considered here. The overall ratio, which declined sharply from 105 in 1981-82 to 85 in 1991-92, has continued its downward trend and reached 64 in 2002-03, and 63.4 during 2012-13. Fig 3.6 gives a pictorial representation of statement 3.12.

3.3.4 Changes in pig and poultry holding

Statement 3.13 : Number of pig owned per 100 households across the last five LHS Surveys of NSS

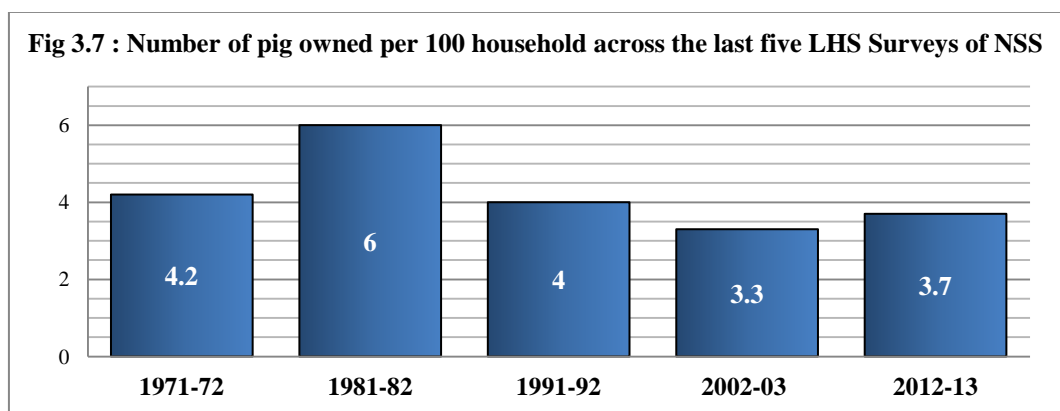

Number of pigs per 100 households				
1971-72	1981-82	1991-92	2002-03	2012-13
(1)	(2)	(3)	(4)	(5)
4.2	6.0	4.0	3.3	3.7

Ref: 1. Data for 2012-13 – Table 7 of Appendix A

2. Previous years' data: NSS Report No. 493, figures for previous year were available in whole numbers only.

3.3.4.1 The estimates of pigs per 100 households are given in statement 3.13. All rural households are considered here. As seen, there has been an increase in the number of pigs from 4.2 per 100 households during 1971-72, to 6 during 1981-82. However, after that the number of pigs per

100 households has declined to 4 in 1991-92, and 3.3 during 2002-03. The estimate of the present survey was 3.7 per 100 household. This is represented pictorially in Fig 3.7.

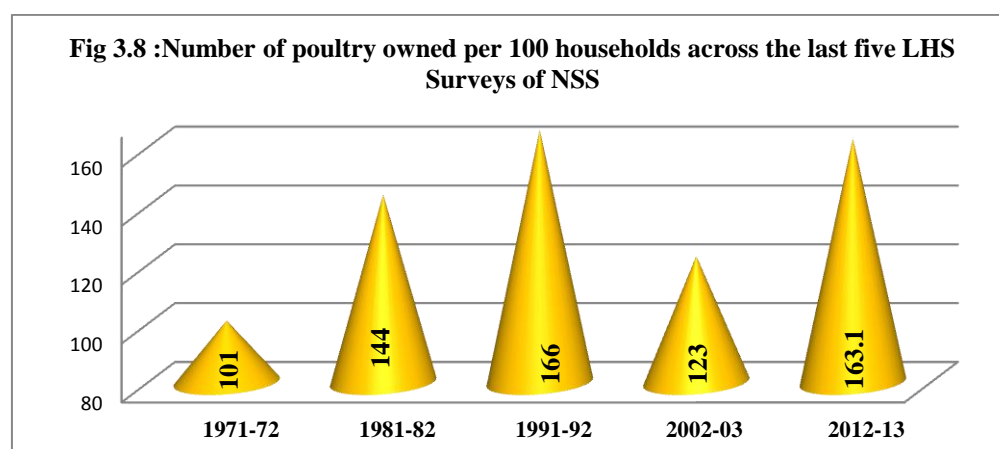

3.3.4.2 Statement 3.14 gives the number of poultry per 100 households across the last five LHS Surveys of NSS. As seen from the statement, the stock of poultry in rural areas showed an increase from 1971-71 to 1991-92, declined during 2002-03 and then, increased again during 2012-13. This is represented pictorially in Fig 3.8.

Statement 3.14 : Number of poultry per 100 households across the last five LHS Surveys of NSS

Number of poultry per 100 households				
1971-72	1981-82	1991-92	2002-03	2012-13
(1)	(2)	(3)	(4)	(5)
101	144	166	123	163.1

Ref: 1. Data for 2012-13 – Table 7 of Appendix A

2. Previous years' data: NSS Report No. 493, figures for previous year were available in whole numbers only.

3.3.5 Changes in Livestock Ownership: Inter-state comparison

3.3.5.1 Statement S3.15 gives the number of poultry and selected types of livestock per 100 households in 20 major States for 2012-13, 2002-03, 1991-92, 1981-82 and 1971-72, as obtained from the LHSs of NSS 70th, 59th, 48th, 37th and 26th rounds respectively. The types of livestock considered here are: bovine, ovine and pig. As seen from the statement, at the all India level, the number of bovine and ovine per 100 households has shown a decline over the

last five LHS Survey of NSS, whereas the number of pigs has remained almost the same. During the same period, an increase was observed in the number of poultry of the country.

Statement S3.15 : Stock of livestock of selected types and poultry per 100 households in the major states

Appendix B

Sample Design and Estimation Procedure

SAMPLE DESIGN AND ESTIMATION PROCEDURE

1. Introduction

1.1 The National Sample Survey (NSS), set up by the Government of India in 1950 to collect socio-economic data employing scientific sampling methods, started its seventieth round from 1st January 2013. The survey continued till 31st December 2013.

1.2 **Subject Coverage:** The 70th round (January 2013 - December 2013) of NSS was earmarked for surveys on land and livestock holdings, debt and investment and situation assessment survey of agricultural households. The last survey on these subjects was conducted in 59th round of NSS (January 2003 - December 2003).

We describe below the relevant Sample Design and Estimation Procedure for the Survey of Land and Livestock Holdings (Schedule 18.1).

2. Outline of Survey Programme

2.1 **Geographical coverage:** The NSS 70th round survey on Land and Livestock Holdings covered the whole rural area of the Indian Union.

2.2 **Visits 1 & 2:** Each sample FSU was visited twice during the Land and Livestock Holdings survey of this round. Since the workload of the first visit (i.e. visit 1) was more, the first visit continued till the end of July 2013. Thus, period of the first visit was January – July 2013 and that of the second visit (i.e. visit 2) was August – December 2013.

The listing schedule (sch 0.0) was canvassed only in the first visit. Each sample household was visited twice. Visit 1 and visit 2 schedules were canvassed in the same set of sample households during first and second visit respectively. Contents of the schedules for the two visits were not same since the information relate to two different seasons.

2.3 **Sub-rounds:** The survey period of the round were divided into two sub-rounds. Sub-round one consisted of the first half of the survey period of each visit i.e. 1st Jan -15th April 2013 for visit 1 and 1st August – 15th October 2013 for visit 2 while sub-round two consisted of the remaining period of the respective visits. Thus, each sub-round was of three and a half months duration for visit 1 and two and a half months for visit 2.

In each of these two sub-rounds equal number of sample villages were allotted for survey with a view to ensuring uniform spread of sample FSUs over the entire survey period. Attempt was made to survey each of the FSUs during the sub-round to which it was allotted. Because of the arduous field conditions, this restriction was not strictly enforced in Andaman and Nicobar Islands, Lakshadweep and rural areas of Arunachal Pradesh and Nagaland.

The villages visited in the first sub-round of first visit were revisited during the first sub-round of the second visit. Similarly, villages of sub-round 2 of visit 1 were revisited in sub-round 2 of visit 2.

2.4 Schedules of enquiry: During this round, the following schedules of enquiry were canvassed:

- Schedule 0.0 : list of households
- Schedule 18.1 : land and livestock holdings (rural only)
- Schedule 18.2 : debt and investment
- Schedule 33 : situation assessment survey of agricultural households (rural only)

3. Sample Design

3.1 Outline of sample design: A stratified multi-stage design was adopted for the 70th round survey. The first stage units (FSU) were the census villages (Panchayat wards in case of Kerala) in the rural sector. The ultimate stage units (USU) were households. In case of large FSUs, one intermediate stage of sampling was the selection of two hamlet-groups (hgs) from each rural FSU.

3.2 Sampling Frame for First Stage Units: *For the rural sector*, the list of 2001 census villages updated by excluding the villages urbanised and including the towns de-urbanised after 2001 census (henceforth the term ‘village’ would mean Panchayat wards for Kerala) constituted the sampling frame.

3.3 Stratification:

(a) Stratum had been formed at district level. Within each district of a State/ UT a rural stratum comprising of all rural areas of the district was formed.

(b) However, a special stratum in the rural sector only was formed at State/UT level before district- strata were formed in case of each of the following 20 States/UTs: Andaman & Nicobar Islands, Andhra Pradesh, Assam, Bihar, Chhattisgarh, Delhi, Goa, Gujarat, Haryana, Jharkhand, Karnataka, Lakshadweep, Madhya Pradesh, Maharashtra, Odisha, Punjab, Rajasthan, Tamil Nadu, Uttar Pradesh and West Bengal. This stratum comprised all the villages of the State with population less than 50 as per census 2001.

(c) In case of rural sectors of Nagaland one special stratum was formed within the State consisting of all the interior and inaccessible villages. Similarly, for Andaman & Nicobar Islands, one more special stratum had been formed within the UT consisting of all inaccessible villages. Thus for Andaman & Nicobar Islands, two special strata had been formed at the UT level:

- (i) special stratum 1 comprising all the interior and inaccessible villages
- (ii) special stratum 2 containing all the villages, other than those in special stratum 1, having population less than 50 as per census 2001.

3.4 Sub-stratification:

Rural sector: Different sub-stratifications were done for ‘hilly’ States and other States. Ten (10) States were considered as hilly States. They were: Jammu & Kashmir, Himachal Pradesh, Uttarakhand, Sikkim, Meghalaya, Tripura, Mizoram, Manipur, Nagaland and Arunachal Pradesh.

(a) sub-stratification for hilly States: If ‘r’ be the sample size allocated for a rural stratum, the number of sub-strata formed was ‘r/2’. The villages within a district as per frame were first arranged in ascending order of population. Then sub-strata 1 to ‘r/2’ was demarcated in such a way that each sub-stratum comprised a group of villages of the arranged frame and had more or less equal population.

(b) sub-stratification for other States (non-hilly States except Kerala): The villages within a district as per frame were first arranged in ascending order of *proportion of irrigated area in the cultivated area of the village*. Then sub-strata 1 to ‘r/2’ was demarcated in such a way that each sub-stratum comprised a group of villages of the arranged frame and had more or less equal *cultivated area*. The information on irrigated area and cultivated area was obtained from the village directory of census 2001.

(c) sub-stratification for Kerala: Although Kerala is a non-hilly State but because of non-availability of information on irrigation at FSU (Panchayat Ward) level, sub-stratification by proportion of irrigated area was not possible. Hence the procedure for sub-stratification was same as that of hilly States in case of Kerala.

Urban sector: There was no sub-stratification for the strata of million plus cities. For other strata, each district was divided into 2 sub-strata as follows:

sub-stratum 1: all towns of the district with population less than 50000 as per census 2011

sub-stratum 2: remaining non-million plus towns of the district

3.5 Total sample size (FSUs): 8042 FSUs (4534 in rural and 3508 in urban) were allocated for the central sample at all-India level.

3.6 Allocation of total sample to States and UTs: The total number of sample FSUs were allocated to the States and UTs in proportion to population as per census 2011 subject to a minimum sample allocation to each State/ UT. While doing so, the resource availability in terms of number of field investigators as well as comparability with previous round of survey on the same subjects was also kept in view.

3.7 Allocation of State/ UT level sample to rural and urban sectors: State/ UT level sample size was allocated between two sectors in proportion to population as per *census 2011* with double weightage to urban sector subject to the restriction that urban sample size for bigger states like Maharashtra, Tamil Nadu etc. did not exceed the rural sample size. A minimum of 16 FSUs (minimum 8 each for rural and urban sector separately) was allocated to each state/ UT.

3.8 Allocation to strata: Within each sector of a State/ UT, the respective sample size was allocated to the different strata in proportion to the population as per census 2011. Allocations at stratum level were adjusted to multiples of 2 with a minimum sample size of 2.

For special stratum formed in the rural areas of 20 States/UTs, as discussed in para 3.3 (b), 2 FSUs were allocated to each.

For special stratum 1 in the rural areas of Nagaland and Andaman & Nicobar Islands, 4 and 2 FSUs were allocated respectively.

3.9 Allocation to sub-strata:

3.9.1 Rural: Allocation was 2 for each sub-stratum.

3.9.2 Urban: Stratum allocations were distributed among the two sub-strata in proportion to the number of FSUs in the sub-strata. Minimum allocation for each sub-stratum was 2.

3.10 Selection of FSUs:

For the rural sector, from each stratum x sub-stratum, required number of sample villages were selected by Simple Random Sampling Without Replacement (SRSWOR) procedure.

For the urban sector, FSUs were selected by using Simple Random Sampling Without Replacement (SRSWOR) from each stratum x sub-stratum.

Both rural and urban samples were drawn in the form of two independent sub-samples and equal number of samples were allocated among the two sub rounds.

3.11 Formation and selection of hamlet-groups/ sub-blocks: In case hamlet-groups/ sub-blocks were formed in the sample FSU, the same was done by more or less equalizing population. While doing so, it was ensured that the hamlet-groups/ sub-blocks formed were clearly identifiable in terms of physical landmarks.

Two hamlet-groups (hg)/ sub-blocks (sb) were selected from a large FSU wherever hamlet-groups/ sub-blocks were formed in the following manner – one hg/ sb with maximum percentage share of population was always selected and termed as hg/ sb 1; one more hg/ sb was selected from the remaining hg's/ sb's by simple random sampling (SRS) and termed as hg/ sb 2. Listing and selection of the households was done independently in the two selected hamlet-groups/ sub-blocks.

3.12 Formation of second stage strata and allocation of households for Schedule 18.1: Land & Livestock Holdings Survey (LHS) (rural only):

3.12.1 Four SSS were formed for schedule 18.1 based on four land possessed codes. SSS number was same as the land possessed code.

Each household was given a land possessed code according to the following criteria:

land possessed code	criterion: area of the land possessed by the household as on the date of survey
1	less than 0.005 hectare
2	equal to or more than 0.005 hectare but less than 1.000 hectare
3	equal to or more than 1.000 hectare but less than 2.000 hectares
4	equal to or more than 2.000 hectares

3.12.2 **Allocation and selection of sample households:** The total number of households surveyed in an FSU as below.

Two households were selected from each SSS for schedule 18.1. In case of hamlet group formation, one household was selected from each hg × SSS for schedule 18.1. The number of SSS, allocations and sampling scheme is shown below:

schedule type	number of SSS	number of sample households surveyed (rural)	sampling scheme within each SSS
18.1	4	8 (2 households from each SSS)	SRSWOR

3.12.3 **Selection of households:** From each SSS the sample households for each of the schedules were selected by SRSWOR.

4. Estimation Procedure

4.1 Notations:

s = subscript for s-th stratum

t = subscript for t-th sub-stratum

m = subscript for sub-sample (m =1, 2)

i = subscript for i-th FSU [village (panchayat ward)]

d = subscript for a hamlet-group (d = 1, 2)

j = subscript for j-th second stage stratum in an FSU/ hg

k = subscript for k-th sample household under a particular second stage stratum within an FSU/ hg

D = total number of hg's formed in the sample FSU

D* = (D – 1) for FSUs with D > 1

N = total number of FSUs in any rural sub-stratum

n = number of sample FSUs surveyed including 'uninhabited' and 'zero cases' but excluding casualty for a particular sub-sample and sub-stratum.

H = total number of households listed in a second-stage stratum of an FSU / hamlet-group of sample FSU

h = number of households surveyed in a second-stage stratum of an FSU / hamlet-group of sample FSU

x, y = observed value of characteristics x, y under estimation

\hat{X} , \hat{Y} = estimate of population total X, Y for the characteristics x, y

Under the above symbols,

$y_{stmidjk}$ = observed value of the characteristic y for the k-th household in the j-th second stage stratum of the d-th hg (d = 1, 2) of the i-th FSU belonging to the m-th sub-sample for the t-th sub-stratum of s-th stratum.

However, for ease of understanding, a few symbols are suppressed in following paragraphs where they are obvious.

4.2 Formulae for Estimation of Aggregates for a particular sub-sample and stratum × sub-stratum:

4.2.1 Schedules 18.1:

4.2.1.1 Rural:

(i) For j-th second stage stratum:

$$\hat{Y}_j = \frac{N}{n_j} \sum_{i=1}^{n_j} \left[\frac{H_{i1j}}{h_{i1j}} \sum_{k=1}^{h_{i1j}} y_{i1jk} + D_i^* \times \frac{H_{i2j}}{h_{i2j}} \sum_{k=1}^{h_{i2j}} y_{i2jk} \right]$$

(ii) For all second-stage strata combined:

$$\hat{Y} = \sum_j \hat{Y}_j$$

Note: i) Schedules 18.1 were canvassed in rural sector only

ii) Values of j for Sch 18.1 are as follows:

j = 1, 2, 3 or 4;

4.2.1.2 *Estimates in respect of joint operational holdings:* In the case of joint operational holdings operated by the sample household jointly with other household(s), the value of a characteristic of the operational holding is first multiplied by the percentage share of land of the sample household(s) and then the higher estimates are built up.

4.3 Overall Estimate for Aggregates for a sub-stratum:

Overall estimate for aggregates for a sub-stratum (\hat{Y}_{st}) based on two sub-samples is obtained as:

$$\hat{Y}_{st} = \frac{1}{2} \sum_{m=1}^2 \hat{Y}_{stm}$$

4.4 Overall Estimate for Aggregates for a stratum:

Overall estimate for a stratum (\hat{Y}_s) is obtained as

$$\hat{Y}_s = \sum_t \hat{Y}_{st}$$

4.5 Overall Estimate of Aggregates at State/UT/all-India level:

The overall estimate \hat{Y} at the State/ UT/ all-India level is obtained by summing the stratum estimates \hat{Y}_s over all strata belonging to the State/ UT/ all-India.

4.6 Estimates of Ratios:

Let \hat{Y} and \hat{X} be the overall estimates of the aggregates Y and X for two characteristics y and x respectively at the State/ UT/ all-India level.

Then the combined ratio estimate (\hat{R}) of the ratio ($R = \frac{Y}{X}$) is obtained as $\hat{R} = \frac{\hat{Y}}{\hat{X}}$.

4.7 **Estimates of Error:** The estimated variances of the above estimates are as follows:

4.7.1 **For aggregate \hat{Y} :** $\text{Var}(\hat{Y}) = \sum_s \text{Var}(\hat{Y}_s) = \sum_s \sum_t \text{Var}(\hat{Y}_{st})$ where $\text{Var}(\hat{Y}_{st})$ is given by

$\text{Var}(\hat{Y}_{st}) = \frac{1}{4} (\hat{Y}_{st1} - \hat{Y}_{st2})^2$, where \hat{Y}_{st1} and \hat{Y}_{st2} are the estimates for sub-sample 1 and sub-sample 2 respectively for stratum 's' and sub-stratum 't'.

4.7.2 **For ratio \hat{R} :**

$M\hat{S}E(\hat{R}) = \sum_s \sum_t M\hat{S}E_{st}(\hat{R})$ where $M\hat{S}E_{st}(\hat{R})$ is given by

$$M\hat{S}E_{st}(\hat{R}) = \frac{1}{4\hat{X}^2} \left[(\hat{Y}_{st1} - \hat{Y}_{st2})^2 + \hat{R}^2 (\hat{X}_{st1} - \hat{X}_{st2})^2 - 2\hat{R} (\hat{Y}_{st1} - \hat{Y}_{st2}) (\hat{X}_{st1} - \hat{X}_{st2}) \right]$$

4.7.3 Estimates of Relative Standard Error (RSE):

$$R\hat{S}E(\hat{Y}) = \frac{\sqrt{V\hat{a}r(\hat{Y})}}{\hat{Y}} \times 100$$

$$R\hat{S}E(\hat{R}) = \frac{\sqrt{M\hat{S}E(\hat{R})}}{\hat{R}} \times 100$$

5. Multipliers:

5(a) Two sets of multipliers are obtained:

- (i) For visit 1 only
- (ii) For visit 2 only

Hence, household multiplier is equal to:

- (i) visit 1 multiplier for all estimation based only on the visit 1 households
- (ii) visit 2 multiplier for all estimation based only on the visit 2 households
- (iii) visit 2 multiplier for generating combined estimates based on the common set of households of visit 1 and visit 2.

5(b) The formulae for multipliers at stratum/sub-stratum/second-stage stratum for a sub-sample and schedule type are given below:

sch type	sector	formula for multipliers	
		hg 1	hg 2
18.1	rural	$\frac{N_{st}}{n_{stmj}} \times \frac{H_{stmi1j}}{h_{stmi1j}}$	$\frac{N_{st}}{n_{stmj}} \times D_{stmi}^* \times \frac{H_{stmi2j}}{h_{stmi2j}}$
		(j = 1, 2, 3, 4)	

Note: (i) For estimating any characteristic for any domain not specifically considered in sample design, indicator variable is used.

(ii) Multipliers are computed on the basis of information available in the listing schedule irrespective of any misclassification observed between the listing schedule and detailed enquiry schedule.

(iii) For estimating number of villages possessing a characteristic, $D_{stmi}^* = 0$ in the relevant multipliers and there is only one multiplier for the village.

Appendix C

Schedule on Land and Livestock Holdings (Sch. 18.1)

RURAL

GOVERNMENT OF INDIA
NATIONAL SAMPLE SURVEY OFFICE
SOCIO-ECONOMIC SURVEY
SEVENTIETH ROUND : JANUARY TO DECEMBER 2013
HOUSEHOLD SCHEDULE 18.1 : LAND AND LIVESTOCK HOLDINGS

CENTRAL		*
STATE		

VISIT 1

[0] descriptive identification of sample household	
1. state/u.t.:	5. hamlet name:
2. district:	6. name of head of household:
3. tehsil:	7. name of informant:
4. village name:	

[1] identification of sample household									
item no.	item	code			item no.	item	code		
1.	srl. no. of sample village				12.	FOD sub-region			
2.	round number	7		0	13.	sample hamlet-group number			
3.	schedule number	1	8	1	14.	second stage stratum number			
4.	sample (<i>central-1, state-2</i>)				15.	sample household number			
5.	sector (<i>rural-1</i>)		1		16.	visit number	1		
6.	NSS region								
7.	district				17.	serial number of informant # (as in column 1 of block 4)			
8.	stratum				18.	response code			
9.	sub - stratum				19.	survey code			
10.	sub-round				20.	reason for substitution of original household			
11.	sub-sample								

CODES FOR BLOCK 1

item 18: **response code** : informant: co-operative and capable -1, co-operative but not capable -2, busy -3, reluctant - 4, others - 9.

item 19: **survey code** : original – 1, substitute – 2, casualty – 3.

item 20: **reason for substitution of original household** : informant busy -1, members away from home -2, informant non-cooperative -3, others - 9

* tick mark (✓) may be put in the appropriate place.

if the informant is not a household member, code 99 will be recorded.

[3] household characteristics				
1.	household size		5.	whether operated any land for agricultural activities during last 365 days (<i>yes - 1, no - 2</i>)
2.	household classification (code)		6.	if 1 in item 5 , whether the household operated any land on <i>Jhum</i> cultivation during last 365 days (<i>yes - 1, no - 2</i>)
3.	religion (code)			
4.	social group (code)		7.	whether any member of the household stayed away from the village continuously for 15 days or more for employment during last 6 months (<i>yes - 1, no - 2</i>).

CODES FOR BLOCK 3

- item 2: household classification (to be determined based on the source of major income of the household):*
self-employment in: *cultivation-1, livestock farming-2, other agricultural activities-3, non-agricultural enterprise -4; wage/salaried employment -5, others (pensioners, remittance recipients, etc.) -9.*
- item 3: religion: Hinduism -1, Islam -2, Christianity -3, Sikhism -4, Jainism -5, Buddhism -6, Zoroastrianism -7, others -9.*
- item 4: social group: scheduled tribe -1, scheduled caste -2, other backward class -3, others -9.*

CODES FOR BLOCK 4

- col. (3): relation to head:*
self -1, spouse of head -2, married child -3, spouse of married child -4, unmarried child -5, grandchild -6, father/ mother/ father-in-law/ mother-in-law -7, brother/ sister/ brother-in-law/ sister-in-law/ other relatives -8, servants/ employees/ other non-relatives -9.
- col. (6): general educational level:*
not literate -01, literate without formal schooling: EGS/NFEC/AEC -02, TLC -03, others -04; literate: below primary -05, primary -06, middle -07, secondary -08, higher secondary -10, diploma/certificate course -11, graduate -12, postgraduate and above -13.
- col. (7): whether associated with the household operational holding:*
main operator of the household operational holding -1, other member associated with the household operational holding-2, not associated with household operational holding-3.

CODES FOR BLOCK 5

col.(3): location :		col.(11): use of the leased-out land by the lessee household:	
within village.....	1	used for cultivation.....	1
outside village but within the district	2	other uses.....	9
outside the district but within the state.....	3	not known.....	2
outside the state but within the country.....	4		
col.(4): kind of possession for the major part of the period July 2012 to December 2012:		col.(12): whether flooded during July 2012 to December 2012?:	
owned and possessed	1	flooded and agricultural activities could not be carried out.....	1
leased-in	2	flooded but agricultural activities were carried out.....	2
otherwise possessed	3	flooded but the plot was not for agricultural activities	3
leased-out	4	not flooded	4
col.(7): type of possession:		col.(13): land use:	
leased in:		only crop production:	
recorded lease.....	1	on jhum land.....	1
not recorded lease.....	2	on land other than jhum land.....	2
other.....	9	only farming of animal/fishery.....	3
		both crop production and farming of animal /fishery.....	4
		other agricultural uses.....	5
		other uses (non-agricultural uses).....	9
col. (8): duration of possession:		col.(14): type of crop production/ livestock farming:	
less than one agricultural season	1	cereals.....	01
at least one agricultural season but less than one agricultural year ...	2	pulses	02
at least one agricultural year but less than two agricultural years	3	oilseeds	03
two agricultural years or more.....	4	vegetables.....	04
		fodder.....	05
		other crop.....	06
		orchards	07
		plantation.....	08
		dairy.....	10
		poultry/duckery....	11
		piggery	12
		fishery	13
		farming of other animals..	19
col.(10): terms of lease:		col.(17):source of irrigation:	
for fixed money	1	canal.....	1
for fixed produce	2	minor surface works (pond, tank, etc).....	2
for share of produce	3	ground water (tube well, well etc.).....	3
for service contract	4	combination of codes 1, 2, 3.....	4
for share of produce together with other terms	5	others.....	9
under usufructuary mortgage	6		
from relatives under no specified terms	7		
under other terms	9		

[5] particulars of land of the household* and its operation during July 2012 to December 2012																
srl. no. of plot	survey no. or other identification particulars (<i>like name of the plot</i>)	location (<i>code</i>)	kind of possession for the major part of the period July 2012 to December 2012 (<i>code</i>)	(5) [#]	area of land (<i>0.000 ha</i>)	if 2 or 3 in col. (4), type of possession (<i>code</i>)	if 1, 2 or 3 in col. (4), duration of possession (<i>code</i>)	if 2 or 4 in col. (4)		if 4 in col. 4, use of leased-out land by the lessee household during July 2012 to December 2012 (<i>code</i>)	if 1 to 3 in column 4, whether flooded during July 2012 to December 2012? (<i>code</i>)	if 1 to 3 in column 4, land use during July 2012 to December 2012 (<i>code</i>)	if 1, 2, 3 or 4 in col.(13), type of crop production/ livestock farming (<i>code</i>)	if 01 to 08 in col.(14), whether more than one crop was grown in the plot during July 2012 to December 2012 (<i>yes-1, no-2</i>)	if 01 to 08 in col.(14), whether irrigated during July 2012 to December 2012? (<i>yes-1, no-2</i>)	if '1' in col. (16), source of irrigation (<i>code</i>)
								no. of lessor/lessee households	terms of lease (<i>code</i>)

97	homestead land															
98																
99	grand total															

*:List only those plots which were 'owned and possessed' or 'leased in' or 'otherwise possessed' or 'leased out' during the major part of July 2012 to December 2012.
#: This shaded dummy column (column 5) is not meant for recording any information. This column has been added in visit 1 to ensure that column numbers of different items of information are same between visit 1 and visit 2 Schedules.

[6] some general information of household operational holding for July 2012 to December 2012 (only for households where against at least one plot of block 5, entry in column 13 is any of 1, 2, 3, 4 or 5)		
srl. no.	item	code/entry
(1)	(2)	(3)
1.	area of the household operational holding (0.000 ha)	
2.	whether operated individually/jointly? (<i>individually -1, jointly-2</i>)	
3.	if code 2 in item 2	number of partner households
4.		percentage share of land of the household (in whole number)
5.	type of holding (<i>code</i>)	
6.	main use of the holding (<i>code</i>)	
7.	no. of parcels in the holding	
8.	no. of permanent attached farm workers during July 2012 to December 2012	against wages payable in cash/kind
9.		against share of produce

CODES FOR BLOCK 6

item 5: **type of holding:** entirely owned -1, entirely leased-in -2, both owned and leased-in -3, entirely otherwise possessed -4.

item 6: **main use of the holding:** same as that in column 13 of block 5 (only codes 1 to 5 are applicable).

[7] livestock, poultry, duckery, etc., owned by the household as on the date of survey		
srl. no.	livestock, poultry, duckery, etc.,	number owned
(1)	(2)	(3)
A. Livestock		
1.	adult cattle (age more than 2 years)	male
2.		female
3.	young cattle (age 2 years or less)	male
4.		female
5.	adult buffalo (age more than 2 years)	male
6.		female
7.	young buffalo (age 2 years or less)	male
8.		female
9.	horse and pony	
10.	mule	
11.	donkey	
12.	camel	
13.	yak	
14.	mithun	
15.	elephant	
16.	sheep	
17.	goat	
18.	pig	
19.	rabbit	
20.	other livestock	
B. poultry birds		
21.	hen, cock, chicken	
22.	duck	
23.	other birds	

[2] particulars of field operations									
srl. no.	item	field investigator (FI) /assistant superintending officer (ASO)			field officer (FO)/ superintending officer (SO)				
(1)	(2)	(3)			(4)				
1 (a)	i) name (block letters)								
	ii) code								
	iii) signature								
1 (b)	i) name (block letters)								
	ii) code								
	iii) signature								
2.	date(s) of :	DD	MM	YY	DD	MM	YY		
	(i) survey/ inspection								
	(ii) receipt								
	(iii) scrutiny								
	(iv) despatch								
3.	number of additional sheets attached								
4.	total time taken to canvass the schedule by the team of investigators (FI/ASO) (in minutes)								
5.	number of investigators (FI/ASO) in the team who canvassed the Schedule								
6.	whether any remarks have been entered by FI/ ASO/ supervisory officer (yes -1, no-2)	(i) in block 9/ 10							
		(ii) elsewhere in the schedule							

[9] remarks by investigators (FI/ASO)

[10] comments by supervisory officer(s)
