ACKNOWLEDGEMENT

The report was finalised by B. R. Panesar, S. K. Mukherjee, P. C. Kundu, N. R. Dhar, Kalpana Joshi. M. T. Baby and M. G. Bhattacharya were associated with the work relating to the preparation of the report.

Supervision of computing, punching and machine tabulations was entrusted to S. Palit and A. K. Choudhury; S. N. Das and P. Mukherjee; and K. C. Poddar and F. M. Rao.

The survey was planned by the Indian Statistical Institute (ISI). The primary data were collected by the Directorate of National Sample Survey, Government of India in all the States except West Bengal and Bombay city where ISI collected the relevant data.

THE NATIONAL SAMPLE SURVEY

Twentieth Round : July 1965-June 1966

Integrated Household Survey

NUMBER 201

Tables with Notes on

Household Consumer Expenditure, Enterprise, Demographic particulars

"The Report entitled 'Tables with notes on Household Consumer Expenditure, Enterprises and Demographic particulars' 20th round : July 1965-June 1966 was prepared by the I. S. I., Calcutta. The views contained in the report are not necessarily those of Government of India".

CHAPTER ONE

Introduction

1.1 Since the nineteenth round (1964-65) of NSS, household surveys covering the different socio-economic aspects of the household have been carried out with an integrated approach. As a result information on consumer expenditure, household enterprise, demographic particulars and employment and unemployment which had previously been collected independently has been integrated into a common schedule of enquiry (Schedule 16, schedule 17). In 20th round as in 19th, information was collected in a fairly detailed manner in Schedule 16, while for the purpose of Schedule 17, the details were largely cut down. As has been mentioned in report No. 189 N SS 19th round the necessity of introducing the abridged schedule 17 was mainly to reduce respondent fatigue and work load inherent in canvassing the integrated schedule, and at the same time to ensure availability of broad items of information with reasonable accuracy. The results presented in this report have been generated from the Central sample data collected through schedule 17 canvassed during the twentieth round.

1.2 The geographical coverage included both rural and urban sectors of Indian Union excepting the following regions : Andaman and Nicobar Islands, Laccadive, Minicoy and Admindiv Islands, Ladakh district of Jammu & Kashmir, NEFA, Mao Ukral and Tamenlog sub-division of Manipur, Lungleh sub-division of Mizo (Lushai) hills of Assam.

1.3 The survey started in July 1965 and continued upto June 1966. The survey period of one year was split into six sub-rounds of two months each.

1.4 It was planned to survey altogether 8448 villages and 4572 blocks in four independent and interpenetrating samples, each of which could provide estimates of the characteristics. Sample households covered in rural and urban sectors respectively were 7311 and 411. The details of sampling design and estimation procedure have been presented in Appendix II.

1.5 The estimates in all tables have been given by a pair of independent and interpenetrating net-work of samples and also by combined sample. The usual technique of interpenetrating net-work of samples (IPNS) had been employed both at data collection and tabulation stages. Sub-sample 1 (party one) was formed by combining sub-samples 1 and 3 estimates and sub-sample 2 (party two) was formed by combining sub-samples 2 and 4.

1.6 Estimates are given for rural and urban sectors separately for all the socio-economic aspects covered in the report. For items of consumer expenditure, in addition, estimates for four big cities namely, Bombay, Calcutta, Delhi and Madras are also provided. The urban sector covers the city sector also.

1.7 The field work of central sample was undertaken by the Directorate of National Sample Survey in all states and Union Territories covered under the survey except in West Bengal and Bombay city where the collection of data was done by the field staff of the Indian Statistical Institute.

1.8 All states except West Bengal participated with the National Sample Survey (Central) on a full matching basis (i.e. the sample sizes for central and state being equal) the sample design, concepts and definitions followed in the state sample being the same as those of central sample. This provided an interpenetrating net-work of sub-samples (IPNS) between the two agencies-central and state (in addition to IPNS within an agency).

The draft report (no. 201) was submitted by the Indian Statistical Institute, Calcutta to the Government of India in the month of June 1971. It was revised subsequently and submitted in December 1972.

1.9 A brief summary of the results is given in Chapter Two. Three appendices are attached to the report. The first of the two (Appendix I) gives statistical tables both for (a) all India and (b) Jammu and Kashmir state with the explanatory note and the second one (Appendix II) briefly describes the outline of the design of the survey and estimation procedure adopted. Appendix III gives the facsimile of the schedule of enquiry.

Concepts and definition

1.10 Some of the important concepts and definitions are given below :

1.11 *Household*.—A nousehold was considered to be a group of persons usually living together and taking principal meals from a common kitchen. A boarding house, a hotel or a hostel was treated as a cluster of households where each individual boarder (with his dependents or guests, if any) formed a separate-household. Households maintained and fed directly by government such as those in prisons, police quarters, cantonment, hospitals, asylums and relief camps were, however, excluded from the scope of consumer expenditure enquiry of National Sample Survey.

1.12 *Household consumer expenditure*.— Consumer expenditure comprised all expenditure incurred by the household during the reference period (30 days preceding the date of survey) exclusively towards nonproductive purposes. Thus, all expenses towards enterprise activities of the households were excluded. While consumption by the pet animals of the household was included in the consumer-expenditure. Consumption by livestock of the household was excluded as it formed a part of the enterprise expenses of the household. The concept of consumption was not uniform for all items in the schedule. For items belonging to the category of food, intoxicant and fuel and light, consumption implied actual amount consumed (irrespective of the amount purchased in cash or kind) during the reference period. For clothing items consumption implied maiden use only that is, use for the first time during reference period. So far as the items of block 7 (and Srl. No. 1—16 of block 8) were concerned consumption out of transfer receipt in kind like receipt of loans, gifts, charities, free collections etc. was included in the household consumption, while transfer payments in kind (like loans/advanced or repaid), gifts, charities etc. were excluded from the scope of household consumption. Consumption of goods purchased in each was evaluated at the actual purchase price, that of goods produced by the household, at the ex-farm or ex-factory price and that of goods received by barter exchange or by transfer receipts, at the average retail price prevailing in the locality of the sample household during the reference period. In case of items like miscellaneous goods and services and durable goods there was no separate concept of purchase or consumption. The actual expenditure incurred (in cash or in kind) on item of consumption during the reference period towards its purchase, construction, maintenance, repair or use for non-productive purposes was considered to be the consumer expenditure on that item. Expenditure towards repair and maintenance of residential houses was however included in household consumption. Second-hand purchases were excluded from the scope of current expenditure.

1.13 *Cash purchase*.—Cash purchase included purchases made during 30 days preceding the date of survey and only such purchases as were made for non-productive purposes were considered. That is, purchases for household enterprise were completely left out. If purchases were made both for productive and non-productive purposes, the part ascribable only to non-productive purposes was taken. Barter purchases were ignored.

1.14 *Credit purchase*.— Credit purchases were also included. If the payment was not made during the reference period, only the quantity of goods purchased and the corresponding price were recorded. On the other hand, if the payment was made towards the credit purchases made earlier than the prescribed reference period and the payment was effected during the reference period, then the value of such credit purchase was accounted for household consumption.

1.15 *Consumption out of home-grown stock*.— The commodities which the household consumed for domestic purpose during the reference period out of stock produced by itself was covered under the item. If a household staying in urban area might have brought home-produced commodity from its 'village home' and consumed it such consumption was also treated as consumption from homegrown stock. It was evaluated at ex-farm price rate. Total domestic consumption consisted of consumption out of (i) monetary purchase, (ii) receipt in exchange of goods or services, (iii) home-grown and (iv) transfer receipts like gifts, charities, perquisites, loans, free collections.

1.16 *Enterprise household*.—If a household as defined earlier, singly or jointly in co-operation with other households was engaged in one or more sectors of enterprise or economic activity viz., agriculture, mining, manufacturing, construction, trade, transport and profession, on any day during the last 30 days preceding the date of enquiry, then the household was regarded as an enterprise household. Full account of the household's economic activity was taken irrespective of whether the enterprise was registered under Factories Act or whether a trading enterprise was registered under Sales Tax Act or whether the household had mechanised transport enterprise.

1.17 *Number of persons engaged.*—The persons self-employed in the enterprise and the hired persons engaged by the household in the enterprise were considered as engaged in household enterprise. For persons engaged in more than one enterprise, the criterion of major part of working time spent in the enterprise was considered.

1.18 *Amount paid to hired persons.*—The labour charges paid to hired persons in cash or kind included payments of all hire charges paid during the reference period. It might have related to hire charges for periods prior to the reference period also. Perquisites were included as labour charges as payment in kind. The value of payments, in kind, was imputed at ex-farm or ex-factory prices when the commodity was produced by paying household and in other cases imputation was made at retail prices.

1.19 *Value produced.*—It covered the value of products from manufacture, agriculture, mining, animal husbandry, transport services and services of professional men produced during reference period of 30 days preceding the date of survey. The production from agricultural sector by the growing household of a commodity meant the receipt of the commodity in a marketable condition. In case of manufacture it related to goods produced. Payments received for rendering industrial servicing for production of goods of another household was also regarded as output. For trade it meant the value of merchandise, purchased during the reference period.

1.20 *Value of output sold.*—It included the value of products sold in cash or kind whether out of current months' production or out of old stock. In case of trading enterprise it covered the total sale proceeds during the reference period. The ex-farm or ex-factory or ex-establishment sale price of the products was inclusive of excise duties and sales tax if paid at the point of sale by the sample household.

1.21 *Value of output otherwise disposed of.*—This referred to the value of products disposed of in kind for other purposes e.g. use in household enterprise as raw material or as wages etc., domestic consumption by the household itself. The value was imputed at the ex-farm or ex-factory price.

1.22 *Value consumed.*—It covered the value of products from the household enterprise either used for domestic consumption by the household itself or in the household enterprise as material or as wages to labour etc. The value of disposal which was made in kind was imputed at ex-farm or ex-factory price.

1.23 *Value of output disposed as gifts etc.*—It covered value of household products made as transfer payments viz. gifts, charities, loan, etc. to another household. The value of disposal was imputed at ex-farm or ex-factory prices.

1.24 *Value of materials purchased.*—Value of materials like (i) raw materials, (ii) auxiliary raw materials, (iii) lubricants and fuel, (iv) packing materials, (v) other consumable stores for the enterprise and (vi) cattle feed, purchased during the last 30 days preceding the date of enquiry was covered in it. The household might have procured the materials used as raw materials in different ways, viz. by purchase either in cash or kind, obtained from the home produced stock of the enterprise household, obtained as loan etc. from another household. If the materials were procured direct from grower or from producer, the imputation was made at ex-farm or at ex-factory price and in other case imputation was at retail price.

1.25 *Value of materials consumed.*—It covered the value of the materials consumed separately for the enterprise account and for the domestic account purpose. The materials consumed in either account might have been obtained from current purchase, (i) from old stock, (ii) from the household enterprise or (iii) from any other source. In the case of trading enterprise the value of materials consumed included packing materials, lighting material, electricity and other consumable stores.

1.26 *Inventory of livestock.*—Some selected items of livestock were covered in respect of (i) the number possessed by the household on the date of survey, (ii) the imputed value of the livestock in possession.

1.27 *Other receipts.*—The other receipts of the household covered all receipts from all other sources except those on account of household enterprise as mentioned above. It included payment received by the household as wages and salaries; loans taken from provident fund account, bank, co-operative credit society etc., any amount received as gift or charities, any amount received by the household as remittances; any receipt by the household for sale of a land building etc., any withdrawal made from bank, post offices etc.

1.28 *Other disbursement.*—The other disbursement of the household covered expenditure on land, building, other equipments, service, purchase, other expenses etc., gifts and remittances etc. It includes also rent for hiring there items. It excluded the expenditure on household consumption items. These expenditures relate to all enterprises pooled together, either in cash or kind but not covered earlier.

CHAPTER TWO

Summary of Results

2.0 Some of the selected results of the survey are presented in this chapter. The detailed tables on which these results are based are given in Appendix I. The figures given in this chapter are based on the combined samples.

2.1 Table (2.1) shows the percentage distribution of working persons and persons seeking and available for work (in the labour force) and persons not available for work (not in the labour force) in rural and urban areas in India. The table shows that percentage of persons in the labour force was 39 and 33 in rural and urban areas respectively. The proportion of persons not in the labour force in rural and urban areas was about 61 and 67 respectively.

Table (2.1) : Percentage distribution of population by activity status in rural and urban areas : NSS 20th round : July 1965-June 1966

activity status	All-India					
	rural			urban		
	male	female	all persons	male	female	all persons
(1)	(2)	(3)	(4)	(5)	(6)	(7)
1. working persons	51.00	24.37	38.03	48.94	12.22	31.74
2. seeking and available for work	0.96	1.24	1.09	1.00	87.16	0.87
3. not available for work	48.04	74.39	60.88	50.06	87.66	67.39
4. total	100.00	100.00	100.00	100.00	100.00	100.00
sample village/blocks	8448			4572		
sample households	7311			4411		

2.2 Table (2.2) shows distribution of number of persons per household in rural and urban areas in India and big cities by fractile groups. It is found that in all sectors average number of persons per household in each fractile group decreased with the higher fractile groups. The average number of persons per household in rural, urban and city sectors for all the fractile groups pooled was 5.20, 4.72 and 4.17 respectively.

Table (2.2) : Distribution of number of persons per household in rural and urban areas and in big cities (pooled) NSS 20th round : July 1965-June 1966

fractile group	All-India		
	rural	urban	cities
(1)	(2)	(3)	(4)
1. 0—5	5.88	6.52	5.85
2. 5—10	5.65	6.35	6.66
3. 0—10	5.76	6.44	6.26
4. 10—20	5.86	5.90	5.76
5. 20—30	5.59	5.69	5.60
6. 30—40	5.47	5.47	5.18
7. 40—50	5.69	5.33	4.13
8. 50—60	5.32	4.75	3.19
9. 60—70	5.03	4.43	2.88
10. 70—80	4.76	3.80	2.81
11. 80—90	4.60	2.75	2.80
12. 90—100	3.87	2.63	3.12
13. 90—95	4.07	2.67	3.57
14. 95—100	3.67	2.59	2.66
15. 0—100	5.20	4.72	4.17
(i) sample villages/blocks	8448	4572	651
(iii) sample households	7311	4411	657

2.3 Table (2.3) shows the value of total consumer expenditure per person or a period of 30 days in rural, urban and city sectors. It is found that total consumer expenditure in rural, urban and city sectors was rupees 26.55, 35.45 and 55.50 respectively. For each fractile group the value of total expenditure in cities was more than the urban areas and in urban areas it was more than the rural areas. The expenditure increased with the increase of fractile groups.

Table (2.3) : Values of total consumer expenditure (Rs. 0.00) per person for a period of 30 days in rural and urban areas and big cities (pooled) NSS 20th round : July 1965-June 1966

fractile group	All-India		
	rural	urban	cities
(1)	(2)	(3)	(4)
1. 0— 5	8.42	10.32	14.27
2. 5— 10	11.72	14.52	20.27
3. 0— 10	10.04	12.39	17.49
4. 10— 20	14—29	17.81	26.01
5. 20— 30	17.05	21.34	33.12
6. 30— 40	19.44	25.04	51.09
7. 40— 50	21.97	29.54	50.66
8. 50— 60	24.90	35.20	59.94
9. 60— 70	28.45	42.49	69.49
10. 70— 80	33.36	52.88	82.54
11. 80— 90	41.14	69.12	103.71
12. 90—100	74.13	123.55	171.76
13. 90— 95	52.40	91.29	137.63
14. 95—100	98.24	156.89	218.28
15. 0—100	26.55	35.45	55.50
(i) sample village/blocks	8448	4572	651
(ii) sample households	7311	4411	657

The striking feature of the table is that value of total consumer expenditure for the bottom 5 per cent of the population was as low as rupees 8.42, 10.32 and 15.27 for rural, urban and city sectors. While for the top 5 per cent of population (95—100) the total consumer expenditure was rupees 98.24, 156.89 and 218.28 for rural, urban and city sectors respectively.

2.4 Percentage of value of household expenditure on food and non-food for a period of 30 days per person in rural and urban areas of India and big cities (by fractile groups) is presented in Table 2.4. The table shows that percentage of total consumer expenditure on food was 73, 64 and 56 in rural, urban and city sectors respectively while the percentages of non-food expenditure in the corresponding sectors was 27, 36, 44. It is important to note that in all the sectors percentage of expenditure on food decreased as one went up the (with the increase of) fractile groups whereas the percentage of expenditure on non-food item naturally showed a reverse tendency.

Table (2.4) : Percentage of value of expenditure on food and non-food to the total in rural and urban areas and big cities (pooled), NSS 20th round : July 1965-June 1966

fractile group	All-India

(ii) sample households		7311		4411		657

2.5 Percentage of quantity of rice, wheat and total cereals consumed out of homegrown stock for different items for rural, urban and city sectors in given in Table (2.5). It shows that about 51 per cent of the total cereals in rural areas was consumed out of homegrown stock while in cities most of the people depended upon the purchased stock as practically no consumption of foodgrain from homegrown stock was recorded. In urban areas consumption of cereals out of homegrown stock was about 7 per cent.

Table (2.5) : Percentage of quantity of rice, wheat and total cereals consumed out of home-grown stock to total quantity consumed in rural and urban areas in India and in big cities (pooled), NSS 20th round : July 1965-June 1966

item	All-India		
	rural	urban	cities
rice	49.77	7.71	—
wheat	49.63	4.61	—
total cereals	50.71	7.46	—

2.6 *Household enterprises.*—It is found from table (2.6) that about 78 per cent of households in rural and 41 per cent in urban areas were engaged in one or more than one enterprise.

Table (2.6) : *Percentage distribution of enterprise households by enterprises in rural and urban areas : NSS 20th round : July 1965 to June 1966*

enterprise	All-India	
	rural	urban
(1)	(2)	(3)
1. agriculture	61.70	7.49
2. animal husbandry	44.34	8.92
3. mining	0.14	0.17
4. manufacture	10.68	12.72
5. construction	0.54	0.91
6. trade	3.45	2.39
7. transport	0.72	2.83
8. profession etc.	4.08	6.86
9. all enterprises	77.79	40.70
(i) sample households	7311	4411
(ii) sample enterprise h.h.	5704	1741

2.7 Table (2.7) shows the mandays engaged and hired charges paid per household by enterprise. It is found that for agriculture and animal husbandry charges in rural areas were much higher than in the urban areas. While for manufacture, trade and professions these were higher in urban areas in comparison to the rural areas. Mandays engaged for all the enterprises taken together were 38 and 20 per household in rural and urban areas.

Table (2.7) : *Mandays utilised and hired charges by enterprises in rural & urban areas : NSS 20th round : July 1965 to June 1966*

base : total number of households (enterprise and non-enterprise)

enterprise	All-India			
	rural		urban	
	mandays	charges (Rs. 0.00)	mandays	charges (Rs. 0.00)
(1)	(2)	(3)	(4)	(5)
1. agriculture	22.47	13.29	3.51	2.27
2. animal husbandry	10.91	2.57	2.45	0.1
3. mining	0.05	0.01	0.06	0
4. manufacture	2.60	0.20	6.5	7.06
5. construction	0.16	0.10	0.41	1.67
6. trade	0.84	0.24	3.70	1.61
7. transport	0.11	0.02	0.73	0.2
8. profession	1.23	0.01	3.05	3.04
9. all enterprises	38.37	16.44	20.41	16.12
(i) sample households	7311		4411	
(ii) sample enterprise h.h.	5704		1741	

2.8 Total value of output produced for all the enterprises was Rs. 87 and Rs. 118 respectively in rural and urban areas. The value produced for agricultural and animal husbandry was rupees 73 in rural areas and rupees 11 in urban areas. The value produced for manufacture was Rs. 59 in urban areas and Rs. 9 in rural areas.

Value of materials consumed for all enterprises for rural and urban areas was rupees 30 and 35 respectively.

Table (2.8) : Value (Rs. 0.00) of output produced and materials consumed per household for a period of 30 days by enterprises in rural and urban areas : NSS, 20th round : 6 July 1965 to June 1966
base : total number of households (enterprise & non-enterprise)

enterprise	All India			
	rural		urban	
	value of output	materials consumed	value of output	material consumed

2.9 Some particular observations which can be made from Jammu & Kashmir state results are given here very briefly. Percentage value of consumer expenditure on food items in rural and urban areas of the state was 72 and 70 respectively. This is important because the difference in rural and urban areas on food items is not very significant. The total consumer expenditure per person for a period of 30 days in rural and urban areas was rupees 31.58 and 28.87 respectively. This is also significant as at all-India level it is in the urban areas (Rs. 30.50) that total consumer expenditure is higher than the rural areas (Rs. 26.55). About 60 percent of the quantity of total cereals consumed was out of homegrown stock, while in urban areas cereals were generally purchased.

Table (2.9) : Consumer expenditure (Rs. 0.00) per person for a period of 30 days : NSS 20th round : July 1965 to June 1966 : Jammu & Kashmir state

item	rural	urban
(1)	(2)	(3)
Consumer expenditure:	(Rs. 0.00)	
1. rice	8.75	5.86
2. wheat	1.95	1.36
3. total cereals	13.17	7.82
4. total consumer expenditure	31.58	28.87
percentage of value of consumption of items on:		
5. food	72.01	69.59
6. non-food	27.09	30.41
7. percentage of quantity of total cereals consumed out of homegrown stock	59.94	7.61
(i) sample villages/blocks	595	288
(ii) sample households	560	249

2.10 *Household enterprise* : It is found from table (2.10) that about 91 per cent of the households in rural and 58 percent in the urban areas were engaged in one or more than one enterprise. The table shows that in rural areas people were engaged mostly in agriculture and animal husbandry enterprise while in urban areas it was the manufacturing and construction activities which attracted most of them. The total value of the output produced for all enterprises per household for a period of 30 days was rupees 96 and 121 for rural and urban areas respectively. This is higher than the all-India estimate. It is because of the preponderance of agriculture and animal husbandry and manufacturing activities in the state. Value of materials consumed per household for a period of 30 days was rupees 25 and 27 in rural and urban areas for all the enterprises.

Table (2.10) : *Percentage distribution of households, value of output and materials consumed (Rs. 0.00) per household for a period of 30 days by enterprises in rural and urban areas :*

base : total number of households (enterprise and non-enterprise NSS 20th Round : July 1965-June 1966

APPENDIX I

Explanatory Notes on Tables

Two sets of tables are presented in this report. One set represents the tables relating to rural areas of India and the second set to the urban areas of India. The estimates, in general are provided by two independent and interpenetrating samples (indicated by s_1 and s_2) and by the combined sample (indicated by comb.). For convenience of reference, the table numbers have been coded. The left hand most digit refers to the sector to which the tables belong, that is, 1 for rural sector, 2 for urban sector and 3 for city sector (big cities : Bombay, Calcutta, Delhi and Madras). The digit following the first point from left refers to the type of information : 1 for demographic particulars, 2 for consumer expenditure, 3 for enterprise, 4 for live-stock possession, 5 for receipts and disbursements. The third digit from left hand refers to the serial number of item or state.

2. *Demographic particulars etc.*—The tables given in this sector are prepared from the data obtained from block 4. There are 11 tables. The tables, mainly, relate to percentage distribution of persons by age-group, sex, marital status, educational standard, working persons, days at work, hours at work, industry and occupation. These percentage distributions are calculated from the estimated totals. The tables are presented, in most of the cases, for two bases, i.e. (a) row total as 100, (b) column total as 100. The tables are presented for rural and urban sectors. The second digit from the left hand refers to the demographic particulars.

3. *Consumer expenditure.*—There are six types of tables presented in this report on consumer expenditure. These are classified as follows :

1. Distribution of sample households, estimated number of persons (in percentage) and household size by fractile groups (indicated by third left hand digit by 1).
2. Quantity (in kilogram 0.00) of foodgrains consumed per person for a period of 30 days by fractile groups. (indicated by third left hand digit by 2).
3. Value of (in rupees 0.00) of consumption of foodgrain per person for a period of 30 days by fractile groups (indicated by third left hand digit by 3).
4. Value (in rupees 0.00) and quantity (in kilogram 0.00) per person of cash purchase, consumption out of homegrown stock and total consumption of foodgrains (indicated by third left hand digit by 4).
5. Value (in rupees 0.00) of consumption of other goods and services per person for a period of 30 days by fractile groups (indicated by third left hand digit by 5).
6. Average purchase price (in rupees 0.00) per kilogram of cereals states (indicated by third left hand digit by 6—15).

4. Tables noted above under serial number 1—3 are given at all-India level for rural and urban areas and also for big cities pooled (Bombay, Calcutta, Delhi and Madras) are also given. The table under serial number 4 is given for all classes combined (without any fractile group or fixed class interval). Table under serial number 6 is given for rural and urban areas only.

5. *Formation of fractile groups.*—For each of the two independent and interpenetrating samples, households were ranked in ascending order of per capita monthly total consumer expenditure and the sample households corresponding to estimated number of households were divided into 10 fractile group such that each group contained $1/10$ of the estimated number of total households in the sample. The fractile groups of 10 percent each are : 0—10, 10—20, 20—30, 30—40, 40—50, 50—60, 60—70, 70—80, 80—90, 90—100. Each of the bottom 10 percent (0—10) and top 10 percent groups (90—100) is broken down to two 5 percent as : 0—5, 5—10 and 90—95, 95—100 and then a group 0—100 is added. In order to obtain the fractile groups of combined sample, all the sample households of sample 1 and sample 2 were pooled together and households in the pooled sample were ranked in ascending order of per capita monthly total consumer expenditure and the fractile groups for the combined sample were formed by following the above procedure.

6. The estimates in this report are given by following 14 fractile groups :

1. 0—5, 2. 5—10, 3. 0—10, 4. 10—20, 5. 20—30, 6. 30—40, 7. 40—50, 8. 50—60, 9. 60—70, 10. 70—80, 11. 80—90, 12. 90—100, 13. 90—95, 14. 95—100.

7. The percentage distribution of estimated number of persons and average household size by fractile groups are shown in Table (1.2.1). (2.2.1) and (3.2.1). Tables (1.2.2.), (1.2.3) refer to the quantity and value of consumption per person for a period of 30 days by fractile groups for different items

of cereals for rural sector. Tables (2.2.2), (2.2.3) give similar results for urban sector. The items covered are rice, wheat, jowar, bajra, maize, ragi, barley, small millets, total cereals, gram, cereals and gram total, cereal substitutes. The byproducts for each item are also included. For example, rice refers to rice and its products.

8. Table (1.2.4), (2.2.4) and (3.2.4) give quantity and value of cash purchase, consumption and homegrown stock and total consumption of cereals at all-India level for rural and urban areas and big cities pooled separately for all fractile classes combined.

9. Tables (1.2.5) and (2.2.5) give value of consumption of other goods and services (some food items and goods and services excluding cereals) for a period of 30 days by fractile groups.

There are 31 items. The items covered are :

1. pulses
2. milk and milk products
3. edible oil
4. vegetables
5. fruits and nuts
6. meat, egg and fish
7. sugar
8. salt
9. spices
10. beverages and refreshments
11. cooked meals
12. pan (betel leafs, betal nuts etc.)
13. tobacco and its products
14. intoxicants
15. fuel and light
16. clothing
17. amusement and sports
18. medical expenses
19. educational expenses
20. toilet articles
21. furniture
22. footwear
23. utensils
24. sundry articles
25. consumer services
26. conveyance
27. ceremonies
28. consumer rents and taxes
29. other expenses
30. total of other goods and services including pet animals, musical instruments, armaments and other expenses not covered
31. total consumer expenditure.

10. Tables (1.2.6) to (1.2.14) for rural and tables (2.2.5) to (2.2.15) for urban areas give purchase price per kilogram of foodgrain by states. It refers to the average price prevailing during the reference period. In some cases, whenever more than one variety was consumed, these relate the average price of all the varieties consumed.

11. *Enterprise*.—Information presented in this section relates to the enterprises given below:

- (1) agriculture
- (2) animal husbandry and fisheries
- (3) mining
- (4) manufacture

- (5) construction
- (6) trade
- (7) transport
- (8) services

12. In some cases results are given for the following groups of enterprises.

- (i) agriculture and/or animal husbandry and fisheries *only*.
- (ii) agriculture and/or animal husbandry and fisheries *with other enterprises*.
- (iii) *other enterprises only*.
- (iv) all enterprises.

13. Two sets of household estimates are provided with the following bases :

- (a) estimated total number of enterprise households.
- (b) estimated total number of households (enterprise and non-enterprise).

14. Tables presented in the report can be classified as follows :

- 1. Distribution of estimated number of households
- 2. Distribution of estimated number of other participating households
- 3. Average number of man days utilised and amount paid to hired persons
- 4. Average value produced or merchandise purchased and value of output sold in cash and exchange
- 5. Average value of products disposed of for own enterprises, domestic purpose and by loans, gift etc.
- 6. Average value of materials procured for enterprise by purchase and obtained in kind from own enterprise and other sources.
- 7. Average value of product consumed in enterprise and domestic consumption.

Tables under each serial number are presented by enterprises mentioned above and in each case per household estimates are presented with two bases as mentioned above.

15. Tables (1.3.1) and (2.3.1) give the percentage distribution of estimated number of households engaged in enterprise singly/jointly and singly in one but jointly in other by enterprises and also singly and jointly combined. The tables are further classified into two classes for three bases in (a) estimated total number of enterprise households, (b) estimated total number of households (enterprise and non-enterprise). (c) estimated number of households by each enterprise.

16. Details for the group of enterprises as mentioned above are presented with enterprise, without enterprise and total for two bases i.e. (a) estimated number of enterprise households and (b) estimated total number of households (enterprise and non-enterprise) (tables (1.3.2) and (2.3.2) for rural and urban areas respectively) The tables are presented at all-India level

17. Tables (1.3.5) and (1.3.6) give the percentage distribution of other participating households by types of enterprise for rural and urban India. (The figures were obtained from col. 5 of block 9.1).

18. Information about average number of persons engaged and average amount (Rs. 0.00) paid to hired persons per household by enterprises during last month are shown in tables (1.3.6) and (2.3.6) for rural and urban sectors respectively.

19. Tables (1.3.7) and (2.3.7) give average value (Rs. 0.00) produced and value (Rs. 0.00) of output otherwise disposed of for own enterprise, for domestic purposes and loans, gifts etc., for month by enterprises for rural and urban areas of India respectively. Average value of products disposed of for own enterprise, domestic purpose by loans gifts etc. is given in tables (1.3.8) and (2.3.8) These average values are given for per household for month.

20. For the average total materials procured for enterprise by purchase and obtained in kind from own enterprise and other sources per household per month, information are given in tables (1.3.9) and (2.3.9) for rural and urban sectors respectively.

Average value of the materials consumed in enterprise and domestic consumption per household by enterprise is given in Tables (1.3.10) and (2.3.10) for rural and urban sectors respectively.

Livestock

21 Tables (1.4.1) and (2.4.2) give average number and value of livestock possessed by the household

Receipt & disbursement

22. Tables (1.5.1) and (2.5.1) give other receipts and tables (1.5.2) and (2.5.2) for other disbursements as obtained from col. 2 and 3 of block 10.1 and 10.2 respectively. These are estimates of other receipts excluding values shown in enterprise block of 9.1, 9.2 & 9.3 in rural and urban areas.

Percentage distribution of estimated number of households engaged in group of enterprises singly and jointly combined for one month.	J 1.3.4	230	J 2.3.4	291
base : total number of households (enterprise and non-enterprise)				
Percentage distribution of estimated total number of other participating households by enterprises for one month.	J 1.3.5	231—232	J 2.3.5	292—293
(a) base : total number of enterprise households				
(b) base : total number of households (enterprise and non-enterprise)				
Average number of man-days engaged and amount paid to hired persons by enterprises per household per month.	J 1.3.6	233—234	J 2.3.6	294—295
(a) base : total number of enterprise households				
(b) base : total number of households (enterprise and non-enterprise)				
Average value (Rs. 0.00) produced or merchandise purchased and value of output sold in cash and exchange and total by enterprises per household per month.	J 1.3.7	235—236	J 2.3.7	296—297
(a) base : total number of enterprise households				
(b) base : total number of households (enterprise and non-enterprise)				
Average value (Rs. 00.00) of products disposed off for own enterprise, domestic purpose and by loans, gifts etc. and total by enterprises per households per month	J 1.3.8	237—238	J 2.3.8	298—299
(a) base : total number of enterprise of household				
(b) base : total number of households (enterprise and non-enterprise)				
Average value (Rs. 0.00) of materials procured for enterprise by purchase and obtained in kind from own enterprise and other sources by enterprises per household per month	J 1.3.9	239—240	J 2.3.9	300—301
(a) base : total number of enterprise households				
(b) base : total number of households (enterprise and non-enterprise)				
Average value (Rs. 0.00) of materials consumed in enterprise and domestic consumption by enterprises per household per month	J 1.3.10	241—242	J 2.3.10	302—303
(a) base : total number of enterprise households				
(b) base : total number of households (enterprise and non-enterprise)				
<i>Live-Stock</i>				
Average of number and value of livestock possessed for one month	J 1.4.1	243	J 2.4.1	304
<i>Other receipt and disbursements</i>				
Average value of other receipts (Rs. 0.00) for one month	J 1.5.1	244—245	J 2.5.1	305—306
Average value of other disbursement (Rs. 0.00) for one month

APPENDIX II

SAMPLING DESIGN AND ESTIMATION PROCEDURE

1. *General.*—A stratified two-stage sampling design was adopted for rural and urban sectors. Villages formed the first-stage units in the rural sector and blocks in the urban sector. Households were the second-stage units in both the sectors. The design was a self-weighting one for each state and union territory in the rural areas and for each of the sectors (strata) in the urban areas.

A Rural sector

2. *Stratification.*—The country was divided into 48 agricultural regions by grouping contiguous districts of a state having similar crop patterns and population densities during 16th round of NSS. The same set of regions were utilised in this round also except for some changes in Gujarat, Rajasthan, Manipur and Tripura. Strata were formed within each region by grouping contiguous tehsils having similar population densities and altitudes and having good transport and communication facilities amongst them such that sum of size measures of the villages was the same for each stratum within a State/Union Territory. The size of a village was the ratio of its population to the average population of village in the population class 0-499 of the State, rounded off to a suitable integer. The number of strata to be formed in a State was obtained by dividing the number of villages allocated to the state by 24. The total size measure of a stratum was given by the ratio of the total size for the state to the number of strata formed in the State. Each of the Union Territories of Delhi, Himachal Pradesh, Goa-Daman-Diu, Pondicherry, Manipur and Tripura formed a separate stratum.

3. *Allocation.*—The allocation of the total sample size of 8520 villages to the state was based on a joint consideration of the rural population, area under cereal crops and available investigator strength. The allocation to each State was further modified to ensure a minimum sample size of 360 villages in each state and about 200 sample villages in the Union Territories of Manipur and Tripura and to make them multiples of 24 to have 4 sub-samples of 6 villages in each stratum. The allocation to the regions within each state was proportional to their total size (related to the population) and since the strata were formed so as to equalise their size content, the allocation to the strata within a state became equal.

4. *Selection of villages.*—The 1961 census list of villages constituted the sampling frame for the selection of villages. The tahsils within each stratum were arranged in a serpentine order by considering geographical contiguity and 4 independent sub-samples of 12 villages each were selected circularly systematically with probability proportional to size (pps), size being rounded off to population as mentioned earlier. In each sub-sample the villages with odd orders of selection formed the central sample and those with even orders formed the state sample. The 12 villages of sub-samples 1 and 3 were by one investigator and the 12 villages of sub-samples 2 and 4 by another investigator. The unit of selection was the 1961 census villages, but the revenue village corresponding to the selected census village was taken to be the unit of survey. If a stratum was too large in area and/or if good transport facilities were not available between some segments of it, then the stratum was divided into a convenient number of Investigation Zones so that the area of each zone was of manageable size and good transport facilities became available within such zone. Two investigation zones were selected independently with probability proportional to their size. From each of the two selected zones, two sub-samples of villages (1 and 3 and 2 and 4) was selected systematically with probability proportional to size as described above.

5. *Selection of hamlet groups.*—In case of some big sample villages the number of hamlet groups to be formed was specified. In each such village the investigator was asked to form the specified number of hamlet groups of approximately equal population content and was again asked to select one of the hamlet groups with equal probability for the survey.

6. *Selection of households.*—The households in a sample village/hamlet group were arranged by six classes on the basis of their means of livelihood and household size. This was done to ensure a proper representation of their characteristics in the sample to be drawn. A linear systematic sample of household was drawn to form the combined sample for schedules 10.1, 12 and 16. The interval and random start for the combined sample was specified in the sample list so as to make the design self-weighting at state level and so as to ensure about 22 households on the average per village. From this combined sample, a sub-sample of 2 households on the average was selected linear systematically with interval 11 for the detailed integrated household schedule (schedule 16). The corresponding abridged schedule (schedule 17) was canvassed in households having sampling serial numbers next to those of systematically selected half sample of the households selected for schedule 16 (1 household on the average per village).

7. *Estimation Procedure :*

Let k = number of strata in a state/union territory

n_s = number of sample villages selected for a sub-sample for the entire round from sth stratum

h_{s1} = number of households selected from the i th village in the sth stratum

y_{sij} = the characteristic for the j th household in the i th village of s th stratum

M = the constant rural multiplier for the given state/union territory

Then $\bar{Y}$ an unbiased estimate of Y built up from a sub-sample for the entire round is given by

$$\bar{Y} = M \sum_{s=1}^k \sum_{i=1}^{ns} \sum_{j=1}^{hsi} y_{sij}$$

8. The constant multiplier was obtained by dividing the total number of rural households of the state/union territory estimated during the middle (in January 1966) of the round by the number of rural sample households selected per sub-sample for the entire round total state/union territories.

Urban

9. *Stratification.*—In each state/union territory cities and towns with population 50,000 or more in the 1961 census formed one stratum (sector 1) and rest of 1961 census towns formed the other stratum (sector 2). In Maharashtra, 3 strata were formed; Bombay city (sector 0), the rest of sector 1 and sector 2.

10. *Allocation.*—The total sample size of 4596 blocks was allocated to the States/union territories in proportion to their 1961 census urban population with twice the weight to sector 1. The allocations were modified to ensure a minimum of 144 sample blocks in each state and rounded off to the multiples of 24 blocks, except for Himachal Pradesh, Goa, Daman, Diu and Pondicherry each of which had an allocation of 12 blocks. In finalising the allocation the available investigator strength and rural work load in each state were kept in view. The state allocation was divided between the sectors within it in proportion to the number of blocks in them with twice the weight to sector 1 except in Delhi and Tripura where the majority of blocks belonged to sector 1 and hence equal weight was given to both sectors.

11. *Selection of blocks.*—The size of each block was taken as its estimated population (as supplied in the UFS frame) rounded off to the next multiple of 1000. In sector 2 the towns were classified by their means of livelihood pattern as per 1961 census, with three classes namely, (1) agriculture, (2) industry, trade, transport etc. and (3) others, on the basis of proportion of persons in these classes. Some adjustment in the sizes of some blocks was made so as to make the interval for selection of blocks an integer. From sector 1 and sector 2, the blocks were selected in the form of 4 independent interpenetrating sub-samples circular systematically with probability proportional to size, the size being as described above using in sector 2 twice the sampling intervals used for sector 1.

12. *Selection of sub-blocks.*—For very big blocks, sub-division was allowed to reduce the work-load. The investigators were asked to divide the block into the specified number of sub-blocks having more or less equal population content. One sub-block was selected with equal probability for survey.

13. *Selection of households.*—Since the design was self-weighting one at the sector level, the interval and random start were specified before hand for each block for the households with the specified interval and random start, a linear systematic sample was selected from the list of household. It was expected to get one household on the average per block.

14. Estimation procedure.—

Let k = number of sectors

n_s = number of sample blocks selected for sub-sample for the entire round from s th sector

h_{si} = number of households selected from the i th block in the s th sector

y_{sij} = the characteristic for the j th household in the i th block in the s th sector

M_s = the constant multiplier for the s th sector of the given state union territory

Y = the total of the characteristic y for the given state/union territory.

Then $\bar{y}$, an unbiased estimate of y built up from a sub-sample for the entire round is given by :

$$\bar{y} = \sum_{s=1}^k M_s \sum_{i=1}^{n_s} \sum_{j=1}^{h_{si}} y_{sij}$$

15. Although the data were selected for 4 independent sub-sample estimates were presented in the report party-wise. Party I was formed from sub-samples 1 and 3 and party II from sub-samples 2 and 4. In context of report party I and party II referred as sub-samples 1 and 2 respectively.

16. *All India estimates and combined estimates of sub-samples.*—The all-India aggregate estimate was derived by summing the state estimates party-wise estimates and combined estimate of all the 4 sub-samples were obtained by taking the arithmetic mean of the respective sub-samples estimates. The estimates of ratio was derived by dividing the aggregate estimate of the characteristic pertaining of the numerator by the corresponding aggregates estimates of the denominator.

APPENDIX III
FACSIMILE OF THE SCHEDULE OF
INVESTIGATION

GOVERNMENT OF INDIA : NATIONAL SAMPLE SURVEY : 1965-66
Schedule 17 : Integrated Household Schedule (Abridged)

RURAL/URBAN

Twentieth Round

[1] identification of sample household			[2] household and general characteristics	
1. serial number		11. village.....	1. household size	
2. zone-state region		12. hamlet(s).....	2. household land possessed (0.00 acres)	
3. stratum/sector*		13. ward-IV unit block/charge- circle-block*.....	3. household industry- occupation code	
4. sub-sample		14. house number.....	4. self-employed or not (yes-1, no-2)	
5. sample village/block*		15. name of head.....	5. household class	
6. sub-round		16. name of informant	6. incidence code	
7. sample household		17. informants relation to head	7. number of guests entertained in ceremonies last month	
8. state			8. structure type	
9. district			9. drinking water : source (code)	
10. tehsil/taluk/thana/town*.....			10. floor space (0.00 sq. metres)	

[3] particulars of investigation

1. investigator's name..... roll no..... date(s)..... (i) despatch..... (ii) signature.....

2. inspector : name..... date(s)..... (i) receipt..... (ii) despatch..... (iii) signature.....

3. scrutiniser : name..... date(s)..... (i) receipt..... (ii) scrutiny..... (iii) despatch..... (iv) signature.....

[4] demographic and activity particulars of household members

[illegible]

[5] birth during the last year
ended on.....

[illegible]

[7] Cash purchases and consumption of cereals gram and cereal substitutes during the last month ended on.....

[5] deaths during the last month ended on.....							[6] deaths during the last year ended on.....								
srl.no. of birth	srl.no. of mother as in bl. 4	sex (male-1 female-2)	time of birth		birth code	informant	srl.no.	items	cash purchase			consumed out of home-grown stock		total consumption	
			month	year					qty.kg. (0.00)	price per kg. (0.00)	value (Rs. (0.00))	qty.kg. (0.00)	value (Rs. (0.00))	qty. kg. (0.00)	value (Rs. (0.00))
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)
							1.	rice and its products							
							2.	wheat "							
							3.	jowar "							
							4.	bajra "							
							5.	maize "							
							6.	ragi "							
							7.	barley "							
							8.	small millets "							
							9.	total cereals (1 to 8) "							
							10.	gram and its products							
							11.	cereals and gram total (9 + 10)							
							12.	cereal substitutes							

* delete whichever is not applicable.

[8] consumption of other goods and services during the month ended on.....

sr. no.	description	Value (Rs. 0.00)	sr. no.	description	value (Rs. 0.00)	sr. no.	description	Value (Rs. 0.00)
(1)	(2)	(3)	(1)	(2)	(3)	(1)	(2)	(3)
1.	pulses		13.	pan (betel leaf, betel nuts etc.)		24.	consumer services	
2.	milk and milk products		14.	tobacco and its products		25.	conveyance	
3.	edible oil		15.	intoxicants		26.	ceremonies	
4.	meat, egg and fish		16.	fuel and light		27.	consumer rents	
5.	vegetables		17.	clothing		28.	consumer taxes	
6.	fruits and nuts		18.	amusements and sports		29.	pet animals	
7.	sugar		19.	educational expenses		30.	furniture	
8.	salt		20.	medical expenses		31.	medical instruments	
9.	spices		21.	toilet articles		32.	ornaments	
10.	cooked meals		22.	sundry articles		33.	utensils	
11.	beverages and refreshments					34.	foot wear	
						35.	other durables	
12.	sub-total I		23.	sub-total II		36.	sub-total III	

37. total consumer expenditure (bl. 7, items 11+12, col. 9 plus sub total I, II, III of bl. 8)

[9.1] account of enterprises during the last month ended on.....

enterprises	whether engaged or not (yes-1 no-2)	if engaged singly (1) jointly (2)	if jointly		No. of persons engaged	amount paid to hired persons (Rs.)	[10.1] other receipts in Rs. (0.00) during last month ended on.....	
			percent share	number of participating households			item	value
(1)	(2)	(3)	(4)	other (5)	total (6)	(7)	(1)	(2)
1. agriculture							1. wages and salaries	
2. animal husbandry and fisheries							2. loans, gifts, remittance, sale of land etc.	
3. mining							3. withdrawal etc.	
4. manufacture							4. total	
5. construction								
6. trade								
7. transport								
8. services								

[9.2] value of output and its disposal in Rs. (0.00) during the month ended on.....

enterprises	value produced purchase *	value of output sold			for own use		loans, gifts etc.	total (5 to 8)	sr. no.	item	value (Rs. 0.00)
		cash	exchange	total	enterprise	domestic					
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(1)	(2)	(3)
1. agriculture, animal husbandry etc. : total									1.	land	
2. mining : total									2.	building	
3. manufacture : total									3.	other equipments	
4. construction : total									4.	services purchase, other expenses etc.	
5. trade : total									5.	gifts, remittances, etc.	
6. transport : total									6.	total	
7. services : total											

[9.3] material procured and consumed in enterprises during the last month ended on.....

enterprises	value in Rs. (0.00)				value consumed Rs. (0.00)			[11] inventory of livestock			
	purchased	obtained in kind		total (2 to 4)	in enter- prise	domes- tic	total (6+7)	(1)	(2)	(3)	(4)
		own enterprises	others								
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)				
1. agriculture, animal husbandry etc. : total											
2. mining : total											
3. manufacture : total											
4. construction : total											
5. trade : total											
6. transport : total											
7. services : total											

[12] summary information on a few selected items		
sr. no.	items	number/ value (Rs.0.00)
(1)	(2)	(3)
1.	persons	
2.	no. employed	
3.	cereal exp.	
4.	manufacture out- put	

[12] summary information on a few selected items

sr. no.	items	number/ value (Rs. 0.00)
(1)	(2)	(3)

PUBLISHED NATIONAL SAMPLE SURVEY REPORTS

1. General Report No. 1 on the First Round (October 1950-March 1951)
2. Tables with Notes on the Second Round (April-June 1951)
3. Tables with Notes on the Third Round (August-November 1951)
4. Special Report on the Survey of Persons in the "Live-Register" of Delhi Employment Exchange (August-September 1951)
5. Technical Paper on Some Aspects of the Development of the Sample Design
6. Survey of Faridabad Township (March-April 1954)
7. Couple Fertility (Second Round : April-June, 1951 and Fourth Round : April-September 1952)
8. Report on Preliminary Survey of Urban Unemployment (September 1953)
9. Report on the Sample Survey of Displaced Persons in the Urban Areas of the Bombay State (July-September 1953)
10. First Report on Land Holdings, Rural Sector (Eighth Round : July 1954-March 1955)
11. Report on Sample Survey of Manufacturing Industries, 1949-1956)
12. A Technical Note on Age Grouping, October 1958
13. Report on Household Transport Operations (Seventh Round : October 1953-March 1954)
14. Report on Some Characteristics of the Economically Active Population (Fourth to Seventh Rounds : April 1952-March 1954)
15. Report on Sample Survey of Manufacturing Industries, 1951
16. Preliminary Report on Employment and Unemployment (Ninth Round : May-November 1955)
17. Report on Sample Survey of Employment in Calcutta (1953)
18. Tables with Notes on Consumer Expenditure (Fourth Round : April-September 1952)
19. Report on Small Scale Manufacture : Household Enterprises smaller than Registered Factories (Seventh Round : October 1953-March 1954)
20. Report on Pattern of Consumer Expenditure (Second to Seventh Rounds : April 1951-March 1954)
21. Household Small Scale Manufacturing Establishments smaller than those covered by Industries (Development and Regulations), Act, 1951 (Ninth Round : May-November 1955)
22. Report on Sample Survey of Manufacturing Industries, 1952
23. Report on Sample Survey of Manufacturing Industries, 1953
24. Report on Household Retail Trade (Seventh to Ninth Rounds : October 1953-November 1955)
25. Sample Verification of Livestock Census : 1956
26. A Preliminary Report on Housing Condition (Seventh Round : October 1953-March 1954)
27. Technical Records of Sample Design, Instructions to Field Workers and List of Sample Villages and Urban Blocks (Ninth Round : May-November 1955)
28. Report on Sample Survey of Manufacturing Industries, 1954 (1)
29. Notes on Some Results of the Land Utilisation Survey (Tenth Round : December 1955-May 1956)
30. Report on Land Holdings (2) : Operational Holdings in Rural India (Eighth Round : July 1954-April 1955)
31. Tables with Notes on Household Transport Operation (Eighth to Tenth Rounds : July 1954-May 1956)
32. (I) Some Aspects of Costs of Cultivation of Paddy, Wheat, Jowar and Bajra (Fifth to Seventh Rounds : 1951-1952 and 1952-1953)
32. (II) Some Aspects of Costs of Cultivation of Barley, Maize, Ragi, Gram, Small Millets, Groundnut, Cotton and Jute (Fifth to Seventh Rounds : 1951-52 and 1952-53)
32. (III) Some Aspects of Costs of Cultivation of Minor Cereals, Pulses, Sugarcane, Oil Seeds, Potato, Spices and Tobacco (Fifth to Seventh Rounds : 1951-52 and 1952-53)
33. Tables with Notes on Wages, Employment, Income and Indebtedness of Agricultural Labour Households in Rural Areas (Eleventh and Twelfth Rounds : August 1956-August 1957)
34. Tables with Notes on Employment and Unemployment (Tenth Round : December 1955-May 1956)
35. Tables with Notes on Livestock Products (Fifth to Seventh Rounds : April 1952-March 1954)
36. Report on Land Holdings (3) : Some Aspects of Ownership Holdings (Eighth Round : July 1954-April 1955)
37. Survey of Book Readers' Preference in India (Thirteenth Round : September 1957-May 1958)
38. Some Results of the Land Utilisation Survey and Crop-cutting Experiments (Thirteenth Round : September 1957-May 1958)
39. Tables with Notes on Consumer Expenditure (Eighth Round : July 1954-March 1955)
40. Tables with Notes on Consumer Expenditure (Ninth Round : May-November 1955)
41. Household Retail Trade (Tenth Round : December 1955-May 1956)
42. Report on Small Scale Manufacture : Household Enterprises smaller than Registered Factories (Seventh to Eighth Rounds : October 1953-April 1955)
43. Tables with Notes on Small Scale Manufacture : Household Enterprises smaller than Registered Factories (Ninth and Tenth Rounds : May 1955-May 1956)
44. A Note on Profession and Services (Fourth to Eighth Rounds : April 1952-April 1955)
45. Report on Indian Villages : A Study of Some Social and Economic Aspects (Tenth to Twelfth Rounds : December 1955-August 1957)
46. Tables with Notes on Consumer Expenditure of Agricultural Labour Households in Rural Areas (Eleventh and Twelfth Rounds : August 1956-August 1957)
47. Tables with Notes on Consumer Expenditure (Tenth Round : December 1955-May 1956)
48. Preliminary Estimates of Birth and Death Rates and of the Rate of Growth of Population (Fourteenth Round : July 1958-July 1959)

49. Report on Morbidity (Seventh Round : October 1953-March 1954 and Eleventh to Thirteenth Rounds : August 1956-May 1958)
50. Tables with Notes on Housing Condition (Tenth Round : December 1955-May 1956)
51. Tables with Notes on Housing Condition (Eleventh Round : August 1956-January 1957)
52. Tables with Notes on Employment and Unemployment (Eleventh and Twelfth Rounds : August 1956-August 1957)
53. Tables with Notes on Internal Migration (Ninth, Eleventh, Twelfth and Thirteenth Rounds : May 1955-May 1958)
54. Vital Rates (Seventh Round : October 1953-March 1954)
55. Report on Sample Survey of Manufacturing Industries, 1954(2) : Exploratory Survey of Scheduled Industries
56. Report on Sample Survey of Manufacturing Industries, 1955 (1) : Survey of Scheduled Industries
57. Report on Sample Survey of Manufacturing Industries, 1955(2)
58. Report on Sample Survey of Manufacturing Industries, 1956 (1) : Survey of Scheduled Industries
59. Tables with Notes on Pattern of Household Ownership and Possession of Land in Rural Areas, 1950-51 to 1953-54 (Eighth Round : July 1954-April 1955)
60. Tables with Notes on Farming Condition and Practices in Rural Areas 1953-54 (Eighth Round : July 1954-April 1955)
61. Notes on the Results of the Land Utilisation Survey and Crop-cutting Experiments (Eleventh Round : August 1956-February 1957)
62. Supplementary Report on Employment and Unemployment (Ninth Round : May-November 1955)
63. Tables with Notes on Employment and Unemployment in Urban Areas (Thirteenth Round : September 1957-May 1958)
64. Indian Villages : A Study of Some Social and Economic Aspects (Thirteenth Round : September 1957-May 1958)
65. Tables with Notes on Animal Husbandry (Eleventh Round : August 1956-January 1957)
66. Report on Land Holdings (4) : Rural Sector, States (Eighth Round : July 1954-April 1955)
67. Tables with Notes on Housing Condition (Twelfth Round : March-August 1957)
68. Tables with Notes on Rural Indebtedness (Eighth Round : July 1954-April 1955)
69. Notes on the Results of the Land Utilisation Survey and Crop-cutting Experiments (Twelfth Round : March-August 1957)
70. Technical Paper on Sample Design (Fourteenth Round : July 1958-June 1959)
71. Consumer Expenditure by Levels of Household Expenditure (Thirteenth Round : September 1957-May 1958)
72. Tables with Notes on Milk Production (Twelfth Round : March-August 1957)
73. Some Results of the Land Utilisation Survey and Crop-cutting Experiments (Fourteenth Round : July 1958-June 1959)
74. Report on Land Holdings (5), Rural Sector (Some Aspects of Operational Holdings—Population Zones and All India) (Eighth Round : July 1954-April 1955)
75. Report on Sample Survey of Manufacturing Industries 1956 (2)
76. Fertility and Mortality Rates in Rural India (Fourteenth Round : July 1958-June 1959)
77. Tables with Notes on Consumer Expenditure (Eleventh Round : August 1956-February 1957)
78. Tables with Notes on Consumer Expenditure (Twelfth Round : March-August 1957)
79. Some Results of the Land Utilisation Survey and Crop-cutting Experiments (Fifteenth Round : July 1959-June 1960)
80. Tables with Notes on Consumer Expenditure (Thirteenth Round : September 1957-May 1958)
81. Report on Land Holdings : Urban Sector (Eighth Round : July 1954-April 1955)
82. Tables with Notes on Some Aspects of Cost of Cultivation of Paddy, Wheat, Barley, Maize, Millets, Pulses, Oil Seeds and Vegetables, Urban India (Fifth to Seventh Rounds : 1951-1953)
83. Report on Sample Survey of Manufacturing Industries, 1957(1)
84. Tables with Notes on Sample Survey of Manufacturing Industries : Survey of Scheduled Industries 1957(3)
85. Tables with Notes on Employment and Unemployment in Urban Areas (Fourteenth Round : July 1958-June 1959) Rs. 1.50
86. Tables with Notes on Sample Survey of Manufacturing Industries, 1957(2)—Rs. 6.25
87. Tables with Notes on Average Budget of Agricultural Labour Households in Rural Areas (Eleventh and Twelfth Rounds : August 1956-August 1957)—Rs. 7.25
88. Tables with Notes on Household Receipts and Disbursements in Rural and Urban Areas (Fourteenth Round : July 1958-June 1959)—Rs. 4.80
89. Tables with Notes on Dwelling Habits of Occupants of the Two-room Government Residences in New Delhi, July 1960—Rs. 6.00.
90. Tables with Notes on the Survey of Scheduled Industries, 1958 : Sample Survey of Manufacturing Industries—Rs. 8.00
91. Tables with Notes on the Annual Survey of Industries, 1959 : Sample Sector, Summary Results—Rs. 7.25
92. Some Results of Land Utilisation Survey and Crop-cutting Experiments (Sixteenth Round : July 1960-June 1961)—Rs. 3.10
93. Tables with Notes on Sample Survey of Manufacturing Industries 1958, Factory Establishments : Summary Results (Out of stock).
94. Tables with Notes on Small Scale Manufacture : Rural and Urban (Household Enterprises smaller than the Registered factories) (Fourteenth Round : July 1958-June 1959)—Rs. 4.85
95. Tables with Notes on Household Indebtedness (Sixteenth Round : July 1960-June 1961)—Rs. 1.90
96. Tables with Notes on the Annual Survey of Industries, 1960 : Sample Sector, Summary Results—Rs. 4.85
97. Tables with Notes on Capital Formation (Fifteenth Round—Rural : July 1959-June 1960)—Rs. 2.45
98. Tables with Notes on Consumer Expenditure (Preliminary) (Fifteenth Round : July 1959-June 1960)—Rs. 4.30
99. Tables with Notes on Household Non-Registered Trade (Fifteenth Round : July 1959-June 1960)—Rs. 3.05
100. Tables with Notes on Rural Employment and Unemployment (Fourteenth Round : July 1958-June 1959)—Rs. 4.70

101. Tables with Notes on Consumer Expenditure (Preliminary) (Sixteenth Round : July 1960-June 1961)—Rs. 4.65
102. Tables with Notes on Consumer Expenditure (Fourteenth Round : July 1958-June 1959)—Rs. 4.25
103. Tables with Notes on Urban Labour Force (Sixteenth Round : July 1960-June 1961)—Rs. 2.05
104. Tables with Notes on Consumer Expenditure (Fifteenth Round : July 1959-June 1960)—Rs. 3.90
105. Tables with Notes on Household Non-Mechanised Transport and Utilisation of Working Animals (Fifteenth Round : July 1959-June 1960)—Rs. 2.20
106. Tables with Notes on Land Utilisation Survey and Crop-cutting Experiments (Seventeenth Round : July 1961-June 1962)—Rs. 1.90
107. Tables with Notes on Consumer Expenditure (Eleventh and Twelfth Rounds : August 1956-August 1957)—Rs. 2.90
108. Report on the Type Study on Consumption and Disposal of Cereals and Capital Formation by Households : 1959-60 (Out of stock)
109. Tables with Notes on Indian Villages (Fourteenth Round : July 1958-June 1959)—Rs. 1.60
110. Tables with Notes on Rates of Birth, Death and Growth of Rural Population (Fifteenth Round : July 1959-June 1960)—Rs. 1.20
111. Tables with Notes on Sample Survey of Manufacturing Industries : 1958 : Factory Establishments : Detailed Results—Rs. 5.50
112. Tables with Notes on Land Utilisation Survey and Crop-Cutting Experiments (Eighteenth Round : July 1962-June 1963)—Rs. 3.95
113. Tables with Notes on Agricultural Holdings in Rural India (Sixteenth Round : July 1960-June 1961)—Rs. 5.25
114. Tables with Notes on Employment and Unemployment in Rural Areas (Sixteenth Round : July 1960-June 1961)—Rs. 12.50
115. Tables with Notes on disposal of cereals by producer households in rural areas (Fifteenth Round : July 1959-June 1960)—Rs. 2.70
116. Tables with Notes on Family Planning (Sixteenth Round : July 1960-June 1961)—Rs. 8.50
117. Tables with Notes on Enquiry of Physically Handicapped Persons (Sixteenth Round : July 1960-August 1961)—Rs. 1.20
118. Tables with Notes on the Annual Survey of Industries, 1961 : Sample Sector : Summary Results—Rs. 7.25
119. Special Study on Morbidity (Sixteenth Round : November 1960-October 1961)—Rs. 8.50
120. Tables with Notes on Annual Survey of Industries 1962 : Sample Sector, Summary Results—Rs. 12.00
121. Preliminary estimates of birth and death rate and of the rates of growth of population (18th Round : Feb. 1963-Jan. 1964)—Rs. 4.35
122. Tables with Notes on the Annual Survey of Industries, 1959 : Sample Sector (Detailed Results)—Rs. 20.50
123. Tables with Notes on the Annual Survey of Industries, 1963 : Sample Sector (Summary Results)—Rs. 9.75
124. Some Results of the Land Utilisation Survey and Crop-cutting Experiments (Eighteenth Round : July 1963-June 1964)—Rs. 3.85
125. Technical Paper on Sample Design (Nineteenth Round : July 1964-June 1965)—Rs. 5.25.
126. Tables with Notes on Internal Migration (Fourteenth Round : July 1958-June 1959 & Fifteenth Round : July 1959-June 1960)—Rs. 4.60.
127. Tables with Notes on Urban Labour Force (Seventeenth Round : September 1961-July 1962)—Rs. 9.50
128. Tables with Notes on Internal Migration (Rural) (14th Round : July 1958-June 1959) (Out of Stock)
129. Report on Pilot Enquiry on Morbidity (17th Round : September 1961-July 1962)—Rs. 10.00
130. Tables with Notes on Professions and Liberal Arts (18th Round : February 1963-January 1964)—Rs. 3.30
131. Tables with Notes on the Annual Survey of Industries, 1960 : Sample Sector (Detailed Results)—Rs. 8.25
132. Tables with Notes on the Annual Survey of Industries, 1964 : Sample Sector (Summary Results)—Rs. 13.50
133. Some Results of the Land Utilisation Survey and Crop-cutting Experiments (19th Round : July 1964-June 1965)—Rs. 7.00
134. Tables with Notes on Income of Rural Labour Households (18th Round : February 1963-January 1964)—Rs. 3.75
135. Tables with Notes on Consumer Expenditure (Preliminary) (17th Round : September 1961-July 1962)—Rs. 7.50
136. Tables with Notes on Capital Formation (Urban) (17th Round : September 1961-July 1962)—Rs. 5.75
137. Tables with Notes on Housing Condition (16th Round : July 1960-August 1961)—Rs. 8.00
138. Tables with Notes on Consumer Expenditure (16th Round : July 1960-August 1961)—Rs. 4.50
139. Tables with Notes on the Annual Survey of Industries, 1961 : Sample Sector (Detailed Results)—Rs. 25.50
140. Tables with Notes on Some Aspects of Agriculture in India (Rural) (11th Round : August 1956-February 1957)—Rs. 10.50
