SECTION ONE

I N T R O D U C T I O N

- 1.1 A survey of small scale enterprises in trade, hotel and restaurants, transport, storage & warehousing and services sector was carried out by the National Sample Survey Organisation in the thirtyfourth round of its surveys from 1st July 1979 to 30th June 1980. This was a follow-up survey of the Economic Census which was conducted by the Central Statistical Organisation during the last quarter of 1977. In the Economic Census some broad information about non-agricultural enterprises of the country was collected. As a follow-up of the Economic Census detailed sample surveys of small scale enterprises in (i) manufacture and (ii) trade, hotel & restaurants, transport, storage & warehousing and services sector were conducted by NSSO respectively in the 33rd and 34th rounds of the NSS.
- 1.2 The survey covered the entire geographical area of the Indian Union except Sikkim, Andaman & Nicobar Islands, Lakshadweep, Dadra and Nagar Haveli and the rural areas of Nagaland. Two tehsils of district Surguja and four tehsils of district Bastar of Madhya Pradesh, three tehsils of district Chandrapur and one tehsil of district Amravati of Maharashtra and Ladakh district of Jammu & Kashmir were also not covered.
- 1.3 All the States and Union Territories participated in the survey on a matching basis by conducting the survey in a sample at least of equal size in the respective States and Union Territories.
- 1.4 In the Economic Census enterprises were classified into two groups namely (i) own account enterprises (OAE) i.e., enterprises without any hired worker and (ii) establishments i.e. enterprises with at least one hired worker. Establishments having hired workers were further divided into categories namely (a) non-directory

establishments (NDE) i.e., establishments with total number of workers (including household worker, if any) 5 or less and annual output/turnover/receipt less than Rs. 1,00,000 and (b) directory establishments (DE) i.e., establishments with 6 or more workers and/or annual output/turnover/receipt Rs.1,00,000 or more. The survey conducted by NSSO in the thirtyfourth round was restricted to non-directory establishments and own-account enterprises in trade, hotel & restaurants, transport, storage & warehousing and services sector. The enquiry for the Directory Establishments was covered by a separate survey conducted by CSO during October 1979 to September 1980.

- 1.5 The basic design for the survey was a two-stage stratified one with enumeration blocks (EB), formed during the Economic Census, as first stage units and enterprises as ultimate units of enumeration. In sample EBs a sample of own account enterprises and non-directory establishments in trade, hotel & restaurants, transport, storage & warehousing and service sectors were selected for detailed enquiry.
- 1.6 Information on hotel and restaurant enterprises were collected in schedule 2.42B. Dharmasala type lodging places were also covered in the enquiry. The detailed information with regard to each enterprise collected included nature of activity, type of ownership, number of years of operation, facility and type of food available, type of accommodation available with tariff, lodging charges received, employment particulars, fixed and working capitals, total receipts and expenses, outstanding loan etc.
- 1.7 The report is based on data collected in schedule 2.42B canvassed in the central sample in Maharashtra state. Some selected items of information, contained in the summary block of the schedule relating to own account enterprises and non-directory establishments in hotel & restaurants industry have been presented.
- 1.8 Section II gives concepts and definitions used in the survey and Section III gives summary findings of the survey. A note on sample design and estimation procedure is given in Appendix I. Appendix II gives the statistical tables.

SECTION TWO

CONCEPTS AND DEFINITIONS

- 2.1 Some of the important concepts and definitions followed in the survey are given below.
- 2.2 Enterprise : An enterprise is an undertaking engaged in production and/or distribution of some goods and/or services not for the sole purpose of domestic consumption, and carried out by household members and/or by hiring outside labour. An enterprise may be owned and operated by a single household, or by several households jointly on a partnership basis, or by an institutional body.
- 2.3 Own-account enterprise : An own-account enterprise is an enterprise which is owned and operated with the help of household labour only i.e. without any hired labour.
- 2.4 Establishment : Those enterprises which have at least one hired worker on a fairly regular basis is called establishments. A directory establishment is one which has six or more workers (including both household and hired) and/or whose annual output/turnover/receipt is Rs. one lakh or more. On the other hand, an establishment having less than six workers and annual output/turnover/receipt less than Rs. one lakh is termed as non-directory establishment.
- 2.5 Hotel (enterprise) : A hotel provides temporary lodging accommodation with or without arrangements for meals, other prepared food and refreshments. Such accommodation may be provided in furnished or in unfurnished rooms. Hotels may also provide room service, lounge facilities, telephone service, conference room, entertainments and other facilities including the bar service.
- 2.6 Restaurant (enterprise) : A restaurant is generally an eating and drinking place where prepared meals, other food and refreshments and snacks are sold for immediate consumption without any provision for lodging. Bars and other drinking places are also treated as restaurants. It also includes the catering enterprises like those which supply food and refreshments on contract and the street vendors who sell prepared food, snacks and drinks.
- 2.7 Working capital : Working capital means the total capital locked up in stock of food, refreshments, drinks and other materials for use of the enterprise and amount receivable and amount payable. Total capital locked up in commodities also include various stores and spares,

other provisions and fresh supplies, soft drinks, alcoholic drinks and goods in transit, crockery, cutlery, glassware and other wares, liquors, blankets and other furnishing materials of durable and semi-durable nature excluding fixed assets. Amount receivable is the sum of money due to the enterprise for goods sold, amounts advanced in connection with the normal work of the enterprises, rates and taxes paid in advance, security deposits of less than one year, short term advances to staff and call deposits. Amount payable is the sum of money which the enterprise has to pay for materials purchased, short term loans and advances taken by the enterprise, out-standing wages, rent, tax, sales tax on purchase, etc.

- 2.8 Fixed assets : Fixed assets include assets of the enterprise such as land building, machinery, refrigerators, room cooling equipments, lighting equipments, furniture and fixtures, transport equipments and all other equipments, new or used, that have a normal economic life of more than one year from the date of purchase regardless of their use - whether for production, transportation, living or recreational facilities to labour engaged. The value of assets whether fully paid or not, owned by the enterprise is determined on the basis of money value the assets can fetch in the present condition.
- 2.9 Rent on fixed assets : It is the rent payable during the accounting year for the assets hired by the enterprise.
- 2.10 Outstanding loan : This includes all cash loans (excluding interest) which is outstanding on the date of enquiry. All loans incurred in cash but contracted to be repaid in cash or kind are considered as cash loans. Traders credit given by a trader in anticipation of sale of products, amounts due to merchants, shop keepers, raw material supplying from whom raw materials or goods are purchased on credit, unpaid bills of lawyers, firms, etc., outstanding taxes, revenue rent payable to government, public bodies are not considered as loan.
- 2.11 Total settlements : This includes salaries, wages and allowances etc., bonus paid, value of benefits provided to individuals, imputed value of group benefits in kind and employers' contribution to social security and other payments.
- 2.12 Interest : Interest payable to outstanding loan, if any.
- 2.13 Total expenses (input) : The value of raw materials, electricity, fuel and other auxiliary materials consumed, and services purchased, maintenance and other expenses incurred by the enterprise for running.

its activity are included in total expenses.

- 2.14 Total receipts (output) : Earnings from commission agency and sales and lodging charges are taken as total receipts.
- 2.15 Net receipts : Gross receipts minus total enclumments, rent paid on fixed assets and interest paid on loans is taken as net receipts.

SPECIAL PART
SOME FINDINGS OF THE SURVEY

3.1. Some of the important results of the survey based on the statistical tables given in Appendix II of the report are presented in the succeeding paragraphs.

3.2 Number of enterprises : The estimated number of enterprises by type of enterprise and their percentage to total number of enterprises separately for rural and urban areas of Maharashtra have been presented below in Table (1). The estimated total number of enterprises belonging to hotel and restaurant industries for the state of Maharashtra is nearly 64 thousand of which 29 thousand (i.e., 44.65 percent of the total) are located in rural areas and nearly 35 thousand (i.e. 55.35 percent of the total) in urban areas. About two-third of the total number of enterprises in this state are own account enterprises and rest are non-directory establishments - the estimated numbers being 43 thousand and 22 thousand respectively.

Table (1) : Estimated number of enterprises by type of enterprise
/ State-Maharashtra, Rural & Urban, July '79-June '80/

S e c t o r	own account enterprises		non-directory establishments		combined (OAE+NDE)	
	estimated no. of enterprises	percentage (0.00)	estimated no. of enterprises	percentage (0.00)	estimated no. of enterprises	percentage (0.00)
(1)	(2)	(3)	(4)	(5)	(6)	(7)
1. rural	22065	51.92	6629	30.47	28694	44.65
2. urban	20436	48.08	15127	69.55	35563	55.35
3. total	42501	100.00	21756	100.00	64257	100.00

3.3 Employment : The estimated volume of employment by type of enterprise and their percentages to total volume of employment separately for the rural and urban areas of the state have been shown below in Table (2). The estimated total number of persons engaged in the hotel and restaurant industries in the state is about 157 thousand. Out of this 61 thousand persons (i.e. 39.83 percent of the total) are engaged in the rural areas

and 96 thousand (i.e. 61.12 percent of the total) in the urban areas. The own account enterprises provide employment for 82 thousand persons where as 75 thousand persons are employed in non-directory establishments.

Table (2) : Estimated number of persons engaged by type of enterprise

[State - Maharashtra, Rural & Urban,
July '79 - June '80]

Sector	own account enterprises		non-directory establishments		combined (OAE+NDE)	
	estimated no. of persons engaged	percentage (0.00)	estimated no. of persons engaged	percentage (0.00)	estimated no. of persons engaged	percentage (0.00)
(1)	(2)	(3)	(4)	(5)	(6)	(7)
1. rural	39972	48.81	21126	28.07	61098	38.88
2. urban	41921	51.19	54137	71.93	96058	61.12
3. total	81893	100.00	75263	100.00	157156	100.00

3.4. Enterprises by type of ownership : The distribution of estimated number of enterprises by type of ownership with their percentages to total number of enterprises in the state has been presented below separately for the rural and urban areas of the state in Table (3). It can be observed that both in rural and urban areas of the state almost all the enterprises are under proprietary type of ownership - the percentages to total number of enterprises being 99.39 and 96.14 respectively. It is also observed that the number of enterprises under institutional type of ownership, such as co-operative society, etc., is only 0.13 percent of total number of enterprises in rural areas and the same is 1.15 percent in urban areas.

Table (3) : Estimated number of enterprises by type of ownership

State-Maharashtra, Rural & Urban, July '79-
June '80

type of ownership	r u r a l		u r b a n		t o t a l	
	estima- ted no. of en- terpri- ses	percen- tage (0.00)	estima- ted no. of en- terpri- ses	percen- tage (0.00)	estima- ted no. of en- terpri- ses	percen- tage (0.00)
(1)	(2)	(3)	(4)	(5)	(6)	(7)
1. non-institutional	28655	99.87	35153	98.85	63808	99.30
.1 proprietary	28518	99.39	34185	96.14	62707	97.59
.2 partnership	137	0.40	964	2.71	1101	1.71
2. institutional	39	0.15	410	1.15	449	0.70
3. total	28694	100.00	35563	100.00	64257	100.00

3.5 Number of persons engaged by type of ownership : The estimated number of persons engaged by type of ownership and their percentages to total number of employed persons have been shown below in Table (4) separately for the rural and urban areas of the State. It can be seen that most of the persons are engaged in the enterprises under proprietary type of ownership in the state - it is 99.02 percent in rural areas and 94.62 percent in urban areas. Enterprises under institutional type of ownership account for only 0.16 percent in rural and 1.28 percent in urban of the respective total number of persons engaged.

Table (4) : Estimated number of persons engaged by type of ownership

State-Maharashtra, Rural & Urban, July '79-
June '80

type of ownership	r u r a l		u r b a n		t o t a l	
	estima- ted no. of en- terpri- ses <i>Persons</i>	percen- tage (0.00)	estima- ted no. of en- terpri- ses <i>Persons</i>	percen- tage (0.00)	estima- ted no. of en- terpri- ses <i>Persons</i>	percen- tage (0.00)

1. non-institutional	61001	99.84	94832	98.72	155833	99.16
.1 proprietary	60498	99.02	90833	94.62	151331	96.33
.2 partnership	503	0.82	3939	4.10	4442	2.83
2. institutional	97	0.16	1226	1.28	1323	0.84
3. total	61098	100.00	96058	100.00	157156	100.00

5.6 Number of persons employed : The average number of persons employed per enterprise by type of enterprise separately for the rural and urban areas of the state has been shown in Table (5). Number of persons employed per enterprise in the state is 2.45. It is 2.13 in the rural areas and 2.70 in the urban. Number of persons employed per enterprise is again found to be more in case of non-directory establishments when compared with those of own account enterprises in both the areas.

Table (5) : Average number of persons engaged per enterprise by type of enterprise

[State - Maharashtra, Rural & Urban, July '79-June '80]

type of enterprise	employment per enterprise (in 0.00)		
	rural	urban	total
(1)	(2)	(3)	(4)
1. own account enterprises	1.61	2.05	1.23
2. non-directory establishments	3.19	3.58	3.46
3. combined (OAE + NDE)	2.13	2.70	2.45

5.7 Fixed assets per enterprise : Values of fixed assets per enterprise have been shown below in Table (6). Values of fixed assets per enterprise for rural, urban and the entire areas of the state are about 27 hundred, 33 hundred and 41 hundred rupees respectively. The corresponding estimates for own account enterprises are about 21 hundred rupees in all cases and those for non-directory establishments are 46 hundred, 93 hundred and 81 hundred rupees respectively.

Table (6) : Value of fixed assets per enterprise by type of enterprise

[State - Maharashtra, Rural & Urban, July '79-June '80]

type of enterprise	per enterprise value of fixed assets (in Rs.)		
	rural	urban	total
(1)	(2)	(3)	(4)
1. own account enterprises	2134	2054	2095
2. non-directory establishments	4631	9286	8076
3. combined (OAE + NDE)	2711	5258	4120

3.6 Working capital per enterprise : In Table (7) below value of working capital per enterprise is shown. It is seen that values of working capital per enterprise are Rs. 131 for those located in rural areas, Rs. 280 for urban areas and Rs. 215 for the entire state. The corresponding values for non-directory establishments are higher than those for own account enterprises in both the areas of the state.

Table (7) : Value of working capital per enterprise by type of enterprise

[State - Maharashtra, Rural & Urban, July '79-
June '80]

type of enterprise	per enterprise value of working capital (in Rs.)		
	rural	urban	total
(1)	(2)	(3)	(4)
1. own account enterprises	89	124	106
2. non-directory establishments	269	490	423
3. combined (OAE + NDE)	131	280	213

3.9 Loan outstanding per enterprise : The per enterprise average value of loan outstanding is given below in Table (8). Loan outstanding per enterprise are Rs. 194 for rural, Rs. 679 for urban and Rs. 462 for the state as a whole. The corresponding estimates for own account enterprises are Rs. 46, Rs. 325 and Rs. 180 respectively and those for non-directory establishments are Rs. 686, Rs. 1158 and Rs. 1014 respectively.

Table (8) : Value of loan outstanding per enterprise by type of enterprise

[State - Maharashtra, Rural & Urban, July '79-
June '80]

type of enterprise	per enterprise value of loan outstanding (in Rs.)		
	rural	urban	total
(1)	(2)	(3)	(4)
1. own account enterprises	46	325	180
2. non-directory establishments	686	1158	1014
3. combined (OAE + NDE)	194	679	462

3.10 Expenditure per enterprise : The expenditure per enterprise is given below in Table (9). The expenditure per enterprise is found to be Rs. 9.7 thousand for the rural areas, Rs. 13.5 thousand for the urban areas and Rs. 11.5 thousand for the entire state. When considered by type of enterprise it is observed that the expenditure per enterprise for non-directory establishments is more than double than those of own account enterprises in rural as well as urban areas of the state.

Table (9) : Expenditure per enterprise by type of enterprise
[State - Maharashtra, Rural & Urban. July '79-
June '80]

type of enterprise	per enterprise value of total expenses (in Rs.)		
	rural	urban	total
(1)	(2)	(3)	(4)
1. own account enterprises	6932	9101	7985
2. non-directory establishments	14563	19340	17884
3. combined (OAE + NDE)	8710	13455	11537

3.11 Gross receipts per enterprise : The per enterprise values of gross receipts are presented below in Table (10). Gross receipts per enterprise are found to be Rs. 12.5 thousand, Rs. 20 thousand and Rs. 16.7 thousand respectively for the rural areas, urban areas and the state as a whole. In case of own account enterprises the corresponding values are Rs. 9.7 thousand, Rs. 13.2 thousand and Rs. 11.4 thousand respectively and those for non-directory establishments are Rs. 21.5 thousand, Rs. 29.2 thousand and Rs. 26.9 thousand respectively. It is seen that the per enterprise values of gross receipts for non-directory

establishments are more than double when compared to the corresponding values for own account enterprises in both the areas of the state.

Table (10) : Value of gross receipts per enterprise by type of enterprise

State - Maharashtra, Rural & Urban, July '79-June '80

type of enterprise	per enterprise value of gross receipts (in Rs.)		
	rural	urban	total
(1)	(2)	(3)	(4)
1. own account enterprises	9743	13219	11414
2. non-directory establishments	21497	29247	26885
3. combined (OAE + NDE)	12458	20036	16652

3.12 Net receipts per enterprise: Net receipts per enterprise are given below in Table (11). The per enterprise value of net receipts is about Rs. 3.8 thousand for the state as a whole where as it is Rs. 3.1 thousand for rural areas and Rs. 4.4 thousand for urban areas. The corresponding values for own account enterprise are nearly Rs. 2.7 thousand, Rs. 3.8 thousand and Rs. 3.2 thousand and those for non-directory establishments are Rs. 4.5 thousand, Rs. 5.2 thousand and Rs. 5 thousand respectively. The enterprises in the urban areas reported higher amount of net receipts when compared to those in the rural areas of the state.

Table (11) : Value of net receipts per enterprise by type of enterprise

State - Maharashtra, Rural & Urban, July '79-June '80

type of enterprise	per enterprise value of net receipts (in Rs.)		
	rural	urban	total
(1)	(2)	(3)	(4)
1. own account enterprises	2726	3815	3249
2. non-directory establishments	4504	5221	5003
3. combined (OAE + NDE)	3137	4412	3843

APPENDIX - I

SAMPLE DESIGN AND ESTIMATION PROCEDURE

1. Basic design : The sample design in both rural and urban areas was a stratified two stage one with enumeration blocks (EBs) of economic census being first stage units and enterprises in sample EBs being second stage units.
2. Stratification : There were 73 regions all over India (excluding areas not covered by NSS). These regions were formed within a state/union territory except in Gujarat by grouping contiguous districts of similar agricultural profile. In Gujarat, regions were formed by grouping contiguous tehsils taking into consideration the concentration of tribal population and dry areas of the state. Each district was treated as a stratum except in Gujarat where parts of a district belonging to different regions were treated as different strata.
3. Sampling frame : The enumeration blocks (EB) formed during 1977 Economic Census showing the number of DE and NDE for the different industries for each EB were used as sampling frame for the selection of EBs, the first ^{stage} units of sampling. However, due to non-availability of EC frame, UFS frame was used as the sampling frame for the urban areas of Nagaland and 1971 census list of villages was used as sampling frame for rural areas of Chandigarh.
4. Sub-stratum : All the EBs in each district/stratum were divided into 2 sub-strata. Sub-stratum 1 consisted of all EBs having at least one DE/or NDE in any of the 4 industries namely, (i) trade, (ii) hotel and restaurant, (iii) transport, and (iv) storage and warehousing. Residual EBs constituted sub-stratum 2. However, in rural areas of Gujarat, 3 sub-strata were formed by sub-dividing sub-stratum 2 in two parts, viz. EBs not having any DE or NDE in any of the 4 industries specified above but containing at least one DE and/or NDE in any of the remaining industries covered by the Economic Census constituted sub-stratum 2 and the residual EBs constituted sub-stratum 3.

5. Allocation : This total sample size of enumeration blocks for the state/union territory was fixed on the basis of the number of investigators available for the survey in the state. The total number of sample EBs in a state or union territory was allocated to the rural and urban sectors of the districts in proportion to total number of directory and non-directory establishments in the four industries (viz. trade, hotel and restaurant, transport, and storage and warehousing) in the respective districts and sectors. District-wise sample size was distributed between sub-stratum 1 and 2 approximately in the ratio 5 : 1, separately for the rural and urban sectors.

6. Selection of EBs : Sample EBs were selected from sub-stratum 1 with probability proportional to total number of DE + NDE under the industries namely, (i) trade, (ii) hotel and restaurant, (iii) transport, and (iv) storage and warehousing with replacement. From sub-stratum 2 sample EBs were selected at random.

7. Sub-division of EBs : Normally each sample EB was completely surveyed. But where the EB population exceeded 1,000 or number of DE + NDE exceeded 200, the EB was sub-divided into two or more sub-blocks of nearly equal population or DE + NDE content and the survey was confined to one of the sub-blocks selected at random.

8. Sampling of enterprises : There were 11 schedules of enquiry for the different enterprises under survey coverage as :

<u>Schedule type</u>	<u>enterprise type</u>
1. 2.31b	mechanised passenger & goods transport - DE & OAE
2. 2.32b	non-mechanised passenger & goods transport - NDE & OAE
3. 2.33b	services incidental to transport - NDE & OAE
4. 2.34b	storage & warehousing - NDE & OAE
5. 2.41b	trade - NDE & OAE

<u>Schedule type</u>	<u>enterprise type</u>
6. 2.42B	hotel & restaurant - NDE & OAE
7. 2.51B	OAE in service sector
8. 2.52B	other recognised educational non-directory establishment
9. 2.53B	non-Govt. medical and health non-directory establishment
10. 2.54B	community & non-commercial cultural non-directory establishment
11. 2.55B	non-directory establishment in service sector other than education, medical, health, community & non-commercial cultural services

In each sample EB all the OAEs eligible for sch. 2.51B were surveyed. Also in each EB a maximum of 12 NDEs were surveyed. Further in each EB 3 OAEs other than OAEs eligible for sch. 2.51B were surveyed. In EBs having no eligible NDEs, 5 OAEs were surveyed.

NDE : When total number of NDE eligible for survey exceeded 12 in an EB, 12 sample NDEs were distributed over different schedule types as follows. First, one NDE was allotted to each schedule type. Next, one more was allotted to each schedule of type in the priority order/schedules 2.31B, 2.32B, 2.33B, 2.34B, 2.52B, 2.53B, 2.55B, 2.41B and 2.42B until the total number of sample NDEs became 12. This procedure was repeated as many times as warranted to arrive at 12 sample NDEs. Circular systematic sample of NDEs was selected independently from each schedule type.

OAE : A circular systematic sample of 3 or 5 OAEs, as required, was selected taking all the schedule types (excepting schedule 2.51B) together.

nd/-

9. Sample size : At all-India level in the/6996 rural and 11245 urban EBs were surveyed.

Estimation Procedure

10. Notations : The following notations are used for obtaining various estimates.

- r : subscript for region
- s : subscript for district/stratum
- s_1 : subscript for sub-stratum 1 of a district/stratum
- s_2 : subscript for sub-stratum 2 of a district/stratum
- s_3 : subscript for sub-stratum 3 of a district/stratum.
(for Gujarat - rural areas only)
- t_1 : subscript for non-directory ~~enterprises~~ ^{establishments} (NDE)
- t_2 : subscript for own-account ~~enterprises~~ ^{establishments} (OAE)
- i_1 : subscript for sample enumeration block (EB) in sub-stratum 1
- i_2 : subscript for sample enumeration block (EB) in sub-stratum 2
- i_3 : Subscript for sample enumeration block (EB) in sub-stratum 3 (for Gujarat - rural areas only)
- j : subscript for enterprise/establishment
- z : size of an EB
- Z : total size of a district/stratum
- D : number of sub-blocks actually formed in an EB
- n : number of EBs surveyed
- H : total number of NDEs in the EB/sub-block
- L : total number of OAEs other than schedule 2.51B in the EB/sub-block
- h : number of NDEs surveyed in the EB/sub-block
- l : number of OAEs other than schedule 2.51B surveyed in the EB/sub-block
- k : number of districts/strata in a region

${}^H s_1 i_1 t_1 / {}^H s_2 i_2 t_1$ = no. of NDEs in hotel & restaurants listed in the i-th sample block of sub-stratum 1/sub-stratum 2

$h_{s_1 i_1 t_1} / h_{s_2 i_2 t_2}$ = no. of NPEs in hotel & restaurants surveyed in the i -th sample block of sub-stratum 1/sub-stratum 2

$L_{s_1 i_1 t_2} / L_{s_2 i_2 t_2}$ = total number of OAEs (other than OAEs eligible for schedule 2.51B) listed in the i -th sample block of sub-stratum 1/sub-stratum 2

$l_{s_1 i_1 t_2} / l_{s_2 i_2 t_2}$ = total number of OAEs (other than OAEs eligible for schedule 2.51B) surveyed in the i -th sample block of sub-stratum 1/sub-stratum 2

11. The estimation procedure adopted for schedule 2.42B is described below. In the following Y stands for the estimate of the state total of the characteristic y based on the whole sample. To obtain Y , the estimates of Y_{s_1} and Y_{s_2} of the characteristic y for sub-stratum 1 and sub-stratum 2 respectively are to be prepared.

$$Y_{s_1} = \frac{Z_{s_1}}{n_{s_1}} \sum_{i_1=1}^{n_{s_1}} \left(\frac{D_{s_1 i_1}}{Z_{s_1 i_1}} (s_{s_1 i_1 t_1} + Y_{s_1 i_1 t_2}) \right)$$

$$\text{and } Y_{s_2} = \frac{Z_{s_2}}{n_{s_2}} \sum_{i_2=1}^{n_{s_2}} D_{s_2 i_2} (s_{s_2 i_2 t_1} + s_{s_2 i_2 t_2})$$

$$\text{where } Y_{s_1 i_1 t_1} = \frac{H_{s_1 i_1 t_1}}{h_{s_1 i_1 t_1}} \sum_{j=1}^{h_{s_1 i_1 t_1}} Y_{s_1 i_1 t_1 j}$$

$$Y_{s_1 i_1 t_2} = \frac{L_{s_1 i_1 t_2}}{l_{s_1 i_1 t_2}} \sum_{j=1}^{l_{s_1 i_1 t_2}} Y_{s_1 i_1 t_2 j}$$

$$Y_{s_2 i_2 t_1} = \frac{H_{s_2 i_2 t_1}}{h_{s_2 i_2 t_1}} \sum_{j=1}^{h_{s_2 i_2 t_1}} Y_{s_2 i_2 t_1 j}$$

and

$$Y_{s_2 i_2 t_2} = \frac{L_{s_2 i_2 t_2}}{l_{s_2 i_2 t_2}} \sum_{j=1}^{l_{s_2 i_2 t_2}} Y_{s_2 i_2 t_2 j}$$

Then,

$$Y_{s_1} = Y_{s_1} + Y_{s_2}$$

and

$$Y = \sum_r \sum_{s=1}^k Y_s$$

be ~ It may be noted that values of H and h relate to the schedule 2.42B only but the values of L and l are for all the OAE (other than schedule 2.51B) schedules combined.

12. For Gujarat (rural areas only),

$$Y_{s_1} = Y_{s_1} + Y_{s_2} + Y_{s_3}$$

and

$$Y = \sum_r \sum_{s=1}^k Y_s$$

The value of Y_{s_3} is to be obtained using the relation for Y_{s_2} given in para 11.

13. Estimates of Ratios : Estimates of ratios of two characteristics are given by the ratio of the estimates of aggregates of the items appearing in the numerator and the denominator of the ratio. First the aggregates of the two characteristics are to be estimated at the level required and the ratios are to be computed at the final stage as $R = \frac{Y}{X}$, where R, X and Y are the estimates of the ratio and aggregates of two characters x and y respectively.
