## INTRODUCTION

National Sample Survey Organisation, during its fortyfifth round (July, 1989 - June 1990), undertook a nation-wide survey on unorganised manufacturing and repairing enterprises in the country. Based on the data collected, during the one year period (July, 1989 - June, 1990), from 1.23 lakhs manufacturing and repairing units surveyed, NSSO has already published a report giving information at All-India level (Report No. 396/1). The State-level results are presented in two volumes. The first volume (Report No. 396/2, Vol.-I) giving detailed information on number of enterprises (by type of enterprise), persons employed (by nature of employment) and three major parameters of the manufacturing units, viz., input, output and value added in respect of all the States and Union Territories for both rural and urban sectors has already been released. It may be noted that information for the following States/UTs : Arunachal Pradesh (NDME-Rural), Sikkim (NDME-Rural), Delhi (OAME-Rural & NDME-Rural), Lakshadweep (NDME-Rural), Pondicherry (NDME-Rural) and Daman & Diu (NDME-Urban) has not been presented separately in Vol.-I because of small number of sampled enterprises. But the State-level (OAME and NDME combined) results for these States/UTs also and the All-India results have been presented in Vol.I considering the data of all the sampled enterprises for these States/UTs.

The present report is the second volume giving a variety of information on different aspects of the unorganised manufacturing sector, such as distribution of enterprises by type of ownership, source of energy used, nature of operation and social group; value of fixed assets owned and not owned and addition to fixed assets, working capital, net borrowings, emoluments, input and output etc., for all the States and Union Territories, except for the enterprise types and States/UTs mentioned above, separately for rural and urban sector.

Important concepts and definitions adopted in the survey, a note on sample design and estimation procedure followed in arriving at the estimates, industry division codes with corresponding description, list of the Working Group members of the NSS 45th round and facsimile of the Schedule 2.2.2 canvassed for detail data collection of the unorganised manufacturing and repairing enterprises have been given in Vol.I of the Report No. 396/2. Hence these are not repeated here.

The following tables are presented in Volume II of the Report No. 396/2, Part-2 (States)

table no.	description	page no.
3	Estimated number of enterprises by type of ownership for different states/ut's	F1 - F8
4	Estimated number of enterprises by source of energy used for different states/ut's	F9 - F16
5	Per thousand distribution of enterprises by nature of operation for different states/uts	F17 - F20
6	Estimated number of household enterprises by social group for different states/uts	F21 - F24
7	Per enterprise estimated value of different items of fixed assets owned for different states/uts	F25 - F30
8	Per enterprise estimated value of different items of fixed assets not owned for different states/uts	F31 - F36
9	Per enterprise estimated value of net additions to fixed assets, including land, for different states/uts	F37 - F42
10	Per enterprise estimated value of different items of working capital for different states/uts	F43 - F54
11	Per enterprise estimated value of net borrowings for different states/uts by source of loan	F55 - F66
12	Per worker/hired-worker estimated value of emoluments and other benefits in NDMEs for different states/uts	F67 - F68
13	Per enterprise estimated value of input by industry division for OAME & NDME taken together	F69 - F169
14	Per enterprise estimated value of output by industry division, for OAME & NDME taken together	F170- F230
