## Preface

The Monthly Abstract of Statistics presents key statistical data pertaining to various facts of the Indian economy. The publication has a standing of over 59 years. The subject coverage is reviewed periodically and attempts are made to improve it, keeping in view comparability and continuity.

The publication includes some charts to bring out the seasonality, if any, of the monthly series. Efforts have been made to improve the presentation and enhance readability.

In order to bridge the time-lag, this combined issue has been brought out having monthly data for the last three financial years. A list of priced publications of Central Statistical Organisation (CSO) has also been appended.

Suggestions for further improvement of the publication are most welcome.
