

## HOUSING

This section contains information on availability of houses, condition of the house structure, investments on dwellings and the amenities available in the houses. Tables included here are mostly based on data collected by the Office of the Registrar General of India, Ministry of Home Affairs at the time of house listing for the two Censuses conducted in 1991 & 2001 and the reports of the various Rounds of Surveys by National Sample Survey Organisation, Ministry of Statistics and Programme Implementation. Office of the Registrar General of India brings out a number of publications on Houses and household amenities covering the results of Census. However, still some of the detailed data on housing based on 2001 Census are awaited. National Sample Survey Organisation presents the important results of its surveys conducted in different rounds in its quarterly journal Sarvekshana. Besides these two agencies, National Building Organisations, Ministry of Urban Affairs and Employment periodically collects data on investment in building etc. the summary results of which have been shown in some of the tables presented in this section.

### **Tables 24.1 (A) (B) (C) and 24.2 (A) (B)**

These tables present data on occupied residential houses, households, size of household in various Census years. Table 24.2 (A) (B) .2 provides percentage distribution of occupied census houses by the type of uses to which they are put in the three censuses.

### **Tables 24.3, 24.4 (A) (B)**

The first two tables here provide data on distribution of households by type (independent house, flat, chawl/ basti, others) of the dwellings and the structure of house (pucca, semi-pucca and kutcha) as revealed by Census and NSS results.

### **Tables 24.5 (A) (B) and 24.6**

Table 24.5 (A) (B) has been divided into two parts viz., 'projects completed' and 'projects under execution' and gives data on 'Investment in residential and non-residential building' during 1992-93 by various Central and State Public Sector agencies including public undertakings for each State and Union Territory. Table 24.6 presents for each State and Union Territory the data on construction of dwellings of different types (by number of rooms possess) within the categories of 'completed' and 'under execution' during 1992-93.

Data for these tables relate to 36 administrative divisions and 80 construction divisions of Central Public Works Department (CPWD), Central Public Sector Undertakings including nationalised banks, Reserve Bank of India and Port Trusts etc. In regard to State sector, data relate to twelve States and two Union Territories only, the rest of the States/UTs have not furnished data so far. Railways and some other Central agencies do not provide Statewise break-up of the investment and therefore, the total investment by these agencies have been shown separately under the head 'buildings by other agencies'.

### **Tables 24.7 (A) (B)**

This table indicates number of building permits and completion certificates issued in municipal areas in private sector. The series have been built up from 1961 onwards. For the year 1961, data relate to private construction in municipal towns with population of 75000 and above as per 1961 census. From 1971 onwards, data relate to all municipal towns with population of 1,00,000 and above as per 1971 census. For the towns for which data were not available, the number of building permits/completion certificates issued have been estimated by applying the average rate of the last three years relating to the concerned state.

## **HOUSING - Concl.**

### **Tables 24.8 (A) (B) and 24.9**

These two tables present respective data on distribution of households by type of occupancy and by the size of dwelling units occupied in terms on number of rooms possessed in case of urban and rural areas seperately.

### **Tables 24.10 and 24.11**

These tables present data on sources of drinking water and the availability of safe driking water to the households in rural and urban areas seperately.

### **Table 24.12**

Data on availability of electricity as a facility in the dwellings as revealed by Census and NSS results have been shown here seperately for rural and urban areas.

### **Tables 24.13 (A) (B) and 24.14**

These two tables are concerned with availability of toilet facilities in the dwellings and the type of latrine (flush type, septic tank, service latrine etc.) seperately for rural and urban areas.

### **Table 24.15**

This table present data on average per capita area of dwelling unit and average covered area by type of dwelling unit relating to NSS 60th round.

(1) In case of the 1961, data for Haryana and Chandigarh are included in Punjab.

## Notes:

1. Upto the end of year 1961, data relate to private construction in municipal towns with population of 75,000 and above as per 1961 Census. From 1971, data pertain to all municipal towns with population of 1,00,000 and above as per 1971 Census.
2. There is no major town coming under the coverage given above in Himachal Pradesh, Nagaland, A & N. Islands, Arunachal Pradesh, Dadra & Nagar Haveli, Goa, Daman & Diu, Lakshadweep, Mizoram and Pondicherry. Hence these States/Union Territories are not included in the above table.
3. Estimates are based on replies to a main questionnaire issued to the municipalities. In case of non-responding municipalities, estimates have been arrived at by applying the average rate for the last three years relating to the concerned state.

Note:- Data includes estimated figures also.
