6. National Remote Sensing Centre, Ministry of Space; and
7. Office of the Registrar General of India, National Crime Records Bureau, National Disaster Management Authority and Divisions of the Ministry of Home Affairs

Data is beautiful but some of the key characteristics are unnoticeable when the data is presented in spreadsheets, charts and graphs. In order to add a visual context to the data contained in this publication, a few maps have been given for reference, thanks to the Survey of India and the Geological Survey of India.

Acknowledgments are also due to statistical focal points in the Department of Land Resources, Ministry of Rural Development; Ministry of Drinking Water and Sanitation; Coal Controller's Organization, Ministry of Coal; Central Electricity Authority, Ministry of Power; as also the nodal officers in the Ministries of Civil Aviation, Finance, Health & Family Welfare, Petroleum & Natural Gas, New and Renewable Energy, Road Transport & Highways, Railways, and Shipping. The acknowledgment would be incomplete without the mention of National Sample Survey Office, the official surveyors for collecting information from households and enterprises on a range of subjects which are crucial for developmental planning.

This multifarious collection of statistics could not have been possible without their endeavour to produce timely and accurate statistics.
